It's no use Ma —
we'll never outnumber 'em.
They've got two more
"new additions!"

New! 4" MINIATURE VENTILATOR, all-aluminum, choice of 8-mesh or insect screen. Smaller sizes, too, a complete line for every miniature ventilator need.

New! SLIDING DAMPER FOUNDATION VENTILATOR. All aluminum. Easy to install. Damper slides smoothly to any desired setting, seals tight when closed. Fits standard 16" x 8" opening.

Leigh VENTILATORS

THE BIG LEIGH FAMILY includes a ventilator for every use. Each styled to match the quality of your homes and built to last a house-time. Roof, attic, foundation ventilators — all types, all sizes. Underceaves ventilators, miniature ventilators. For special uses, storm windows ventilators and clothes dryer ventilators. If you can think of any others, let us know.

FREE CATALOG — shows ALL Leigh building products, the complete building products line. See your jobber, or write to us.

FOLDING DOOR HARDWARE

NOTHING ON THE FLOOR!

Jamb brackets eliminate track and pivot plates on floor. Aligner brackets mount on doors.

NO HOLES TO RE-DRILL!

Door pivots are mounted on jambs. Track can be cut to fit opening without interfering with door pivots.

EASIEST INSTALLATION!

Pivot brackets fit corners of doors. No templates necessary.

TROUBLE-FREE PERFORMANCE!

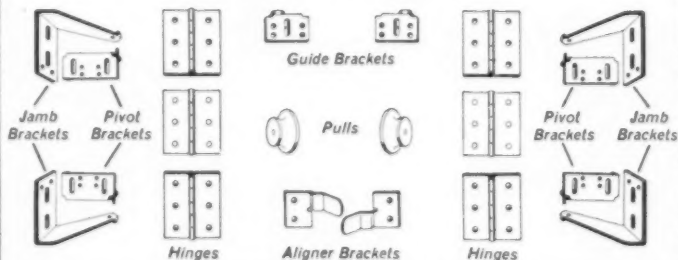

Doors fold back at a finger-touch. Nylon guide brackets provide smoothest, quietest operation. Aligner brackets keep doors flush.

FOR ALL WOOD FOLDING CLOSET DOORS 3/4" TO 1 1/4"

Also packaged sets for 2-door units.
(To fit 24", 30" and 36" openings.)

Packaged sets for 4-door Units to fit 48", 60" and 72" openings, includes two-piece track, all screws plus following hardware:

WRITE TODAY FOR LITERATURE

John Sterling Corporation

RICHMOND, ILLINOIS

The Opportunity Page

(Keynote page of the AMERICAN BUILDER, which is opportunity cover to cover, advertising and editorial)

Keep this book handy

You'll want to keep this big AMERICAN BUILDER Directory issue close by, within handy reach, for everyday use. As you turn the pages you'll be aware that you have in your hands a book that meets an important need. It contains the kind of reference material you've always wanted—but never had time to collect for yourself. This is the most complete reference and buying directory ever published for the building industry. There are scores of editorial data plates all interspersed with catalog and specification-type advertising pages—a veritable library of building knowledge. You'll discover the Directory is worth its weight in gold as a yearlong guide to what to buy, where to buy, and, how to buy it. That's why, as you become acquainted with this Directory you'll be sure to agree that it's a handy book to have around.

Use it efficiently

Every effort has been made to turn this Directory into a "time-saver." There are seven major departments, sub-divided into 24 sections. The master index on the cover has been designed so that you can locate the subjects you're interested in quickly. These page numbers refer to the general editorial data. Following this data you will find the advertising pages which are your market place of buying information. If you're looking for a specific editorial data page, there's a comprehensive index of technical data on page 7. Supplementing this is a classified index of advertised building products beginning on page 9. Here's how it works: If you're interested in built-in ranges, the index to the technical data will give you the location of general information on these products. In the classified index to advertised products—under "Ranges, Built-in," you'll find the names and page numbers of the manufacturers displaying these appliances in this issue. A further index to all departments can be found on page 5. Use these indexes. They'll help you use this Directory more efficiently.

Build up your reference file

At the beginning of the big yellow page section—page 19—are descriptions of over 400 catalogs you can get from manufacturers. They're free. To make it easy for you to obtain this technical literature, AMERICAN BUILDER's post-paid reply card precedes this section. Just circle the numbers corresponding to the catalogs you want. Drop the card in the mail. We'll do all the rest. You'll be pleased to see how easily this service can help you build your personal reference file of product information.

Work the advertising hard

You will find that the advertising pages in this Directory have been designed to supplement the technical material offered in the editorial pages. They, too, will give you installation data, specifications and buying information—material that represents the latest developments in the building industry. And remember, the manufacturers who advertise in AMERICAN BUILDER want to help you. They welcome your inquiries for literature, prices and the name of the nearest supply source. Study the ads carefully. You will find it worth your time.

Use the yellow pages

Immediately following the 1958 Literature Review, you will find a Directory of Building Product and Equipment Manufacturers. This is your buying guide to WHO makes it. Classified alphabetically by product categories, these are the manufacturers who serve the needs of your industry. Many of them have made extra efforts to help you locate their names by using display advertising and those who advertise regularly in AMERICAN BUILDER are listed in bold type. Consult their ads and don't hesitate to contact them for their solution to your building or buying problems. They're all most anxious to help you and the building industry.

American Builder [originally "Carpentry and Building"] with which are incorporated Building Age, National Builder, Permanent Builder, and the Builder's Journal, was founded Jan. 1, 1879. Names registered in U.S. patent office and Canadian registrar of trade mark.

Address all subscriptions and correspondence concerning them to: Subscription Department, American Builder, Emmett St., Bristol, Conn. Changes of address should reach us three weeks in ad-

vance of next issue date. Send old address with the new enclosing if possible your address label. The Post Office will not forward copies unless you provide extra postage. Duplicate copies cannot be sent.

Circulation Department: R. C. Van Ness, Director of Circulation, 30 Church Street, New York 7, New York.

Published monthly by Simmons-Boardman Publishing Corporation, Emmett St., Bristol, Con-

necticut. Editorial and Executive Offices, 30 Church Street, New York 7, New York. Subscription prices: United States, Possessions and Canada, 1 year, \$3.50; 3 years, \$7.00. Foreign countries: 1 year, \$12.00; 3 years, \$25.00. Single copies, 75 cents; April issue, \$2.00. Entered as second-class matter July 20, 1950, at the Post Office of Bristol, Connecticut under the act of March 3, 1879. Copyright 1958 with all rights reserved. SIMMONS-BOARDMAN PUBLISHING CORP.

Tests by the National Bureau of Standards

**GET IT
FREE!**

CONCLUSIONS: (Exact Quotations)

"1. **Condensation will not occur** in wooden floors over crawl spaces, where **reflective insulation** is installed in a normal fashion with some small percentage of openings which permit air to pass through."

"2. The **temperatures** of such insulation surfaces should remain above the dew point of the air in contact. The relative humidities of the air in the spaces within the floor structure are unaffected by opening or closing the crawl space."

"3. A perfect vapor seal by means of the reflective insulation, or other material, is neither necessary nor desirable and would probably permit condensation to occur in some cases. Perforations, of the order used, assure air flow upward through the floor structure, and provide drainage for water which might leak through the floor from above."

"4. Reflective insulation produces a **marked rise in the temperatures of the floor surface.**"

EXCERPTS (Exact Quotations)

Severe Tests With Sudden Cooling

"Eight tests were made with a **single layer of reflective** insulation, six with steady ambient temperatures of **32° F.** and **10° F.**, and two in which the test box was preheated and then the ambient temperature reduced as rapidly as possible to determine whether a **sudden cooling** of the reflective insulation would cause moisture to condense on the upper side. **Three tests** were made with **two layers of reflective** insulation under the floor and with steady ambient temperatures at **25° F.** or **32° F.**"

"**Condensation never occurred** on the upper surface of **either layer** of the reflective insulation **under all of the varied conditions** of these tests. The temperature of these surfaces was observed to be above the dew point of the contacting air under all test conditions."

Dew Point Never Reached

"At steady conditions with average outside air temperatures between 30.9 and 32.2 degrees F., the temperatures of the upper surface of the insulation remained above the dew point of the air to which it was exposed by 9.9 to 18.7 degrees F. with one layer of insulation and by 12.5 to 15.7 degrees F. with two layers of insulation."

"Under conditions where the temperature of the ambient air was reduced rapidly, and with one layer of insulation, the temperature of the

upper surfaces of the insulation dropped with the dew point of the air to which it was exposed. When the outside temperature dropped from 56.3° F. to 31.4° F. in six hours, the insulation temperatures remained **above the dew point by 14.6 to 10.3° F.** When the ambient temperature was dropped from **39.2° F. to 9.2° F.** in 24 hours, the insulation temperatures remained above the dew point by 12.9 to 5.8° F."

"As a further indication of lack of condensation, the upper surface of the upper layer of insulation was **deliberately fogged** during several of the tests. Each time the surface of the insulation was so fogged, the condensed **moisture disappeared within 5 to 10 minutes.**"

"*The results indicate that condensation would not occur between the floor and the insulation or between the two layers of insulation during any probable winter condition.*"

Building books; business forms; business machines & equipment; estimating books & services; general mathematics; insurance & financing; office supplies; plan services & books; prefabricated homes; swimming pools & equipment.

Idea power in action: BH&G inspires a roomful of ideas for teen-age sisters

There's nothing so powerful as an idea!

Better Homes & Gardens is a monthly parade of ideas about the wonder-world of things that interest home-and-family-centered men and women and their children. Ideas that lead them from one thing to another.

Redecorating the girls' room, for instance. BH&G sparks the idea in the first place. Which leads to how-to-do-it ideas. How to organize the beloved paper "litter" that's part of growing up. (Idea: a giant bulletin board.) Where to house a record player, records, radio. (Idea: a window-wall with a

built-in abundance of shelf and drawer space.) Ideas for curtains, bedspreads, slip covers, rug—and all from the pages of Better Homes & Gardens.

BH&G's readers literally "live by the book"—and "the book" is Better Homes & Gardens. That's what makes BH&G unique among all major advertising media as a showcase for any product that helps families to live better. *"Meredith of Des Moines . . . America's biggest publisher of ideas for today's living and tomorrow's plans"*

$\frac{1}{3}$ of America reads **BH&G** the family idea magazine

A SIMMONS-BOARDMAN TIME-SAVER PUBLICATION

APRIL 1958

**“I’m the best
informed man
in the business
...thanks to
Dodge Reports”**

“I’ve been in business long enough to think I know everybody around, but I’ve learned never to be surprised when my Dodge Reports show up good jobs I didn’t know about.”

Even the best informed old-timer can’t match Dodge Reports for knowledge of all that’s going on in the construction industry. That’s because no successful contractor can spend *all* his time getting construction news. But Dodge reporters do just that—it’s their only job. And every day the news they gather is mailed to contractors who use Dodge Reports. If you want to know what’s going to be

built, where it’s going to be built, who the owner is, who’s designing it and *even when the bids are wanted*, you can get this information for any area in which you operate within the 37 Eastern States.

This is not a year to gamble on getting your share of business and making a profit. Use Dodge Reports for the assurance of having the business opportunities you need. Send the coupon now for your copy of “Dodge Reports—How to use them effectively,” including the famous “Dodge Specification Form” to help you figure out the kind, size, location, etc., of jobs you should go after.

F. W. Dodge Corporation, Construction News Division, Dept. 1748
119 West 40th Street, New York 18, N. Y.

I want to know how to get more new construction business. Please let me see some typical Dodge Reports for my area. I am interested in the markets checked below:

1958 CLASSIFIED GUIDE...

... to advertised products

This index has been compiled by product classifications. It will help you to find the advertising pages of the manufacturers of building products and equipment appearing in this issue.

For example: let's assume that you are looking for the advertisements on built-in radios. Just turn to the product classification "Radios, built-in." There you will find the names and page numbers of the manufacturers displaying these products.

An additional alphabetical index to manufacturers ap-

pears on page 37. This is for your convenience in locating the advertising of the manufacturer of your preference.

Every attempt has been made to list only those products actually advertised in this issue. For products not listed here, or the names of additional manufacturers, consult the big buying directory starting on page 420.

This index is an editorial feature, maintained for the convenience of readers. It is not a part of the advertiser's contract and American Builder assumes no responsibility for its correctness.

*Now, luxurious "Custom-made" exteriors...
faster, at less cost...with the new*

Flintkote **Shado-Wall** **System**

Beginning today, you can give homes custom-styled sidewalls . . . at mass production costs. Thanks to another Flintkote first—Shado-Wall System for New Construction.*

This new Shado-Wall System saves you time and money, while adding unusual value to your homes.

Using 1" x 3" nailing strips you install Flintkote Shado-Sheathing over your exterior wall studs, eliminating the need for regular sheathing.

Then Flintkote Asbestos Siding

is easily and rapidly applied.

The result is a handsome, colorful sidewall with the distinctive deep shadows that say "Quality!" to home buyers.

And the combination of Flintkote Shado-Sheathing and Asbestos Siding provides extra insulation . . . increases wall rigidity to give both structural strength and eye-appealing beauty at the same time.

Flintkote Shado-Sheathing in 48" x 11 $\frac{3}{4}$ " x $\frac{1}{2}$ " strips serves as a self-aligning backerboard for the

Asbestos Siding. It is coated and impregnated to resist termites and moisture-penetration . . . and it will last for the life of the building.

Take advantage right away of the new Flintkote Shado-Wall System to give new homes the look of luxury at budget costs.

Phone your Flintkote Distributor or write for further information to: The Flintkote Company, Building Materials Division, 30 Rockefeller Plaza, New York 20, New York.

how McCall's stimulates in

YOUR PREVIEW OF McCALL'S HOUSE FOR BETTER LIVING

If you're in the neighborhood of Cincinnati after April 29, you're invited to drop in on McCall's House for Better Living in nearby Wyoming, Ohio.

The house, built around "a garden room," ushers in a new concept in family living. It contains many examples of new uses of familiar materials, as well as new product ideas in operation. It was designed by Garber, Tweddell and Wheeler, AIA, and built by Jacob Boettcher Co., with design direction by McCall's.

Be sure to see May McCall's for a beautiful 7-page summary, in full color, of this exciting new house. A complete promotion and publicity program, including a special tie-in section in the Cincinnati Times-Star, has been developed for the introduction of the house. Builders from coast to coast have evidenced interest in building the McCall's House for Better Living. If you would like complete information on plans and the tie-in merchandising program, write to Jack Bolster, McCall's Magazine, 230 Park Avenue, New York 17, N. Y.

THESE OUTSTANDING MANUFACTURERS CONTRIBUTED TO THE MERIT, BEAUTY AND QUALITY OF McCALL'S HOUSE FOR BETTER LIVING:

Minneapolis-Honeywell Regulator Co.

interest new home construction

NEWSWORTHY NEW HOUSES

Year after year, McCall's designs and sponsors complete new houses which serve as prototypes for builders all over the country. (See opposite page for latest example.)

POWERFUL EDITORIAL PRESENTATION

McCall's gives these houses full-color, full-detail treatment in the magazine's editorial pages, so that the women who are the chief purchasing agents for 5,300,000 families may study McCall's ideas for use in their own building and remodeling plans.

EXTENSIVE NATIONWIDE MERCHANDISING

McCall's-featured houses are promoted locally in all parts of the country by builders who have learned that the name McCall's carries weight with top-prospect families.

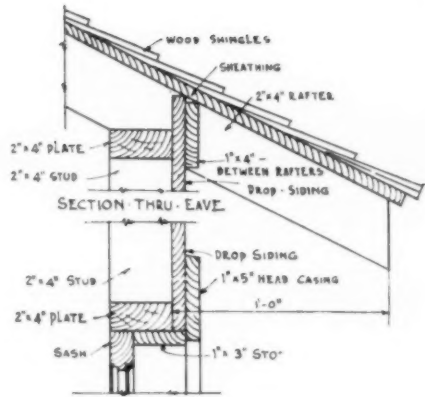

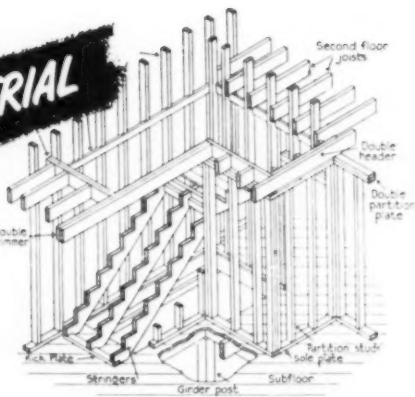

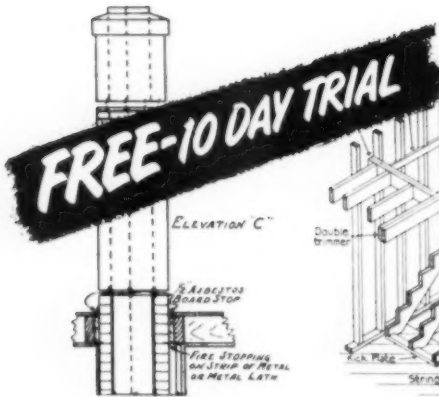

Why is this program important to you? Because McCall's circulation—5,300,000—is at an all-time high, and McCall's "Togetherness" concept of editing has earned the enthusiastic acceptance of the woman whose chief interests are the best interests of her family.

McCall's new Better Living editorial section in every issue places major emphasis on homes as the focal point of family living and on the home furnishings, building materials and equipment which contribute to better living. More and more manufacturers are scheduling McCall's to make full use of this favorable editorial climate.

McCall's

the magazine of Togetherness... circulation now more than 5,300,000

NOW—Add to your "know-how" of

HOUSE CONSTRUCTION DETAILS

Save Money and Time with these Latest Professional Methods

Here is an exact working guide on every detail of house construction from foundation to finish. Tells you dimensions, materials, processes, step-by-step working methods. Hundreds of scale drawings and photographs make every step easy to follow. Quick-reference index enables you to find instantly any construction detail on which you want modern, authoritative guidance. Can be used for alterations in a set of stock plans, for making additions or changes in a building,

or for complete construction of a dwelling. Conforms with modern practice and building regulations in all parts of the country. Gives you helpful ideas on how to build in accordance with latest developments in carpentry methods, materials, painting, heating and air conditioning, insulation and sound-reduction.

The guidance you get on even a single house construction detail can repay you a hundred times the small cost of this remarkable volume. Send for free-examination copy today. Mail coupon below.

Every Step in House Construction Explained and Illustrated:

Excavations • Footings and drainage • Foundation forms • Sills • Girders • Joists • Sub-flooring • Exterior wall framing • Interior wall framing • Ceiling joists • Gable roof • Hip roof • Gambrel roof • Dormers • Siding and shingling • Cornices • Porches • Exterior walls of wood • Exterior walls of brick • Interior walls finished in plaster, in plywood • Wall panels • Mouldings for interior trim • Stair construction • Windows • Sash details • Window framing details • Doors and door trim • Hardware used in dwellings • Closets, shelves, built-in equipment • Breakfast alcove • Sewing room • Flooring • Chimneys and fireplaces • Mantels and seats • Outdoor fireplaces • Scaffolds • Garages • Insulation • Arches and gates • Lattice porch, lattice trellis • Garden benches, tables • Fences • Barns • Feeders and nests • Septic tank • Painting and finishing • Heating systems • Air conditioning systems • Prefabricated houses • Useful information for home builders including architectural styles and data on modern building materials.

400 PAGES, SIZE 8 1/2 x 11. FULLY INDEXED. 2100 ILLUSTRATIONS.

High Praise! Read What Reviewers say---

"Best one-volume work on house building we have ever seen."—*Walker's Library Service, Toronto*

"All the elements of house construction are considered in an orderly manner and are illustrated with great clarity."—*The Architectural Forum*

"An amazing number of illustrations, photographs, working drawings and cut-away sections fill this complete book for architects, contractors and builders."—*Scientific American*

13 bath ideas for you to use

In the old days of the Saturday night bath it might not have been important about the way the bathroom looked. This isn't true today. Buyers are glamor-happy, and it's up to you to satisfy their wants. Turning the bathroom into a sales aid is easy. Try decorative plastics over your windows, or pullmans with elaborate marbelized tops. Planters are

inexpensive and it doesn't take much to change a tub into a luxurious Roman bath. Compartmented bathrooms are making headway, and you'd be wise to consider building one in your next house.

If you're "idea-hungry" about what to put in your next bathroom, turn the page. One reminder—each idea can be *adapted* to any house.

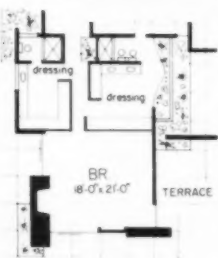

Here are 13 saleable ideas for your next bathroom

Research House: builder, Norwood & DeLonge; architect, John Lindsay, AIA

1 MR. & MRS. baths are taking hold. These are in the Research House, L. A. Each has a lavatory, toilet and wardrobe. Divider has a built-in hamper.

2 LOCATION is of prime importance. In his own home, builder Cliff May put the dressing rooms near the bedroom suite. Storage walls separate bedroom and bath.

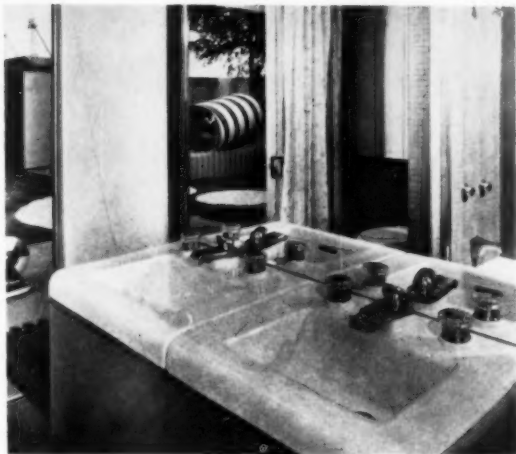

3 DECORATIVE TILES give that sought after custom look. This 8'x12' Ceratile panel was designed by Pacific Tile and Porcelain Co. The tree branch extends the wall length.

4 MATCHING tile and wallpaper gives a bath coordination. Tile is by Gladding McBean; paper by W. P. Fuller. There's a trend towards compactness, so try a built-in lavatory. It also provides that "much needed" storage area for the bath.

5 **DRESSING ROOM** and bath suites are very popular. Pullman counter and floor in the May house are Mosaic tile. Two extra ideas to pep up the bath: the bamboo garden and the wall of opaque glass.

6 **DOUBLE LAVATORIES** are in demand especially where there's a crop of children. This child's bath in a Palmer and Krisel house has sliding doors to the yard. Direct entry to bath saves the house from dirt.

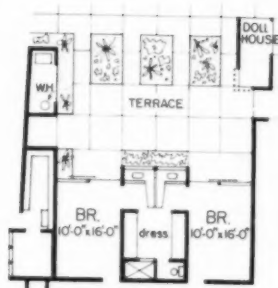

7 **MARBLEIZED** counter tops are used in this three-compartment bath in the Research House. They're good-looking and easy to clean. Second compartment has w.c. The third unit includes shower and lavatory.

8-9 **ROMAN BATHS** and planters are features that can be adapted to any tract. Tub is Perma-glaze tile, by Pomona Tile Co. Planter beyond is one way to bring the outdoors into the bath.

13 saleable bath ideas for your use, continued

10 CHILD'S BATH—designed to share. Cliff May divided area into twin units, each with a dressing table and lavatory. W.c and shower are in another compartment.

11 SHOWER STALLS can go in a small bath if they're glass enclosed. By exposing the back wall of shower, Palmer and Krisel give room a larger look. Tile is by Mosaic.

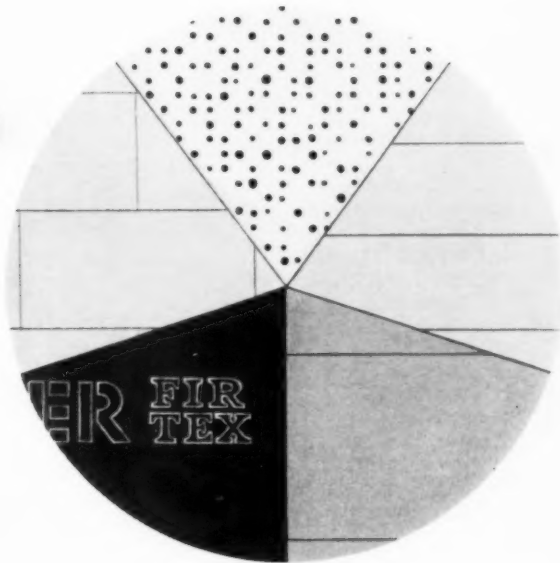

12 THE GLARE IS GONE. Plastics have come into their own for bath use, and they're ideal for diffusing light. In the *L. A. Times* house, Infilite is used for the ceiling. Available in 24x25" panels, it's interlocked so no joints show.

13 PLASTICS are all over the bath. In the Research House, laminated screening over the window (background) provides privacy, but also permits daylight to flood the room.

By **BILL RODD**

▼ **A LOT OF POWER** is being generated—both electrical and sales—by the Medallion Home program. Industry giants like General Electric, RCA, Westinghouse, and others are pouring advertising dollars into it on the national level. Utilities and smaller manufacturers are doing the same locally. Thousands of homebuilders will want to tie their promotion in with this avalanche of power. All builders have to have is all-electric homes. Competitive fuels, watch out!

▼ **"A MONUMENT** to cooperation, generosity and mutual effort" is how Chuck Taylor describes the new BCA building in San Diego. The 2,600 sq. ft., fully air-conditioned building cost in the vicinity of \$40,000, although it appraises for double that amount. This is due to donations on some items and cost prices for some labor and materials.

▼ **"THE ACME OF CONVENIENCE** or commuters take heart." No longer will Angelinos (citizens of Los Angeles) have to buck freeway traffic for hours each day.

They can locate their offices in Sunset Tower West on Sunset Blvd. When day is done they walk back a few feet to the two apartment house wings which radiate out from the office building. This unusual building was conceived and designed by Palmer and Krisel, AIA, double winners of NAHB awards for the last three years. Subterranean parking is provided and a swimming pool.

▼ **"ALL DAY BRUNCH AND OPEN HOUSE"** is the inducement which several tract builders recently used in big ads. Some served baked ham and chicken and others, coffee and donuts. Does it pay? It's hard to tell. In these days of tough selling, one sale might make it worthwhile. One thing is sure—there are a lot of "free loaders." One sales manager of homes in the \$24,000 class said, "It's not that we expect a lot of real buyers to come out just to get a sandwich, but when they do come, they stay longer and they are in a receptive mood."

▼ **HOME IMPROVEMENT COUNCIL** of the Greater Bay area

was recently organized in the San Francisco area. Spearheaded by Jack Hennessey, executive vice president of Associated Home Builders, this movement is an attempt to perpetuate the OHI program; to stimulate the home improvement market; and to protect the public from "suede shoe operators." Membership is open to responsible contractors and suppliers in the nine-county Bay area.

▼ **DFPA GROWS.** Eleven men were added to the staff of Douglas Fir Plywood Assn.'s Field Promotion Dept. This brings the total field staff to 42, nearly double the number of a year ago. This staff operates in 10 regions throughout the country to promote volume use of fir plywood.

MOST VERSATILE BUILDING MATERIAL SINCE WOOD

No other material does so many jobs—inside and outside—so well, at such low cost.

Use these tough new asbestos-cement panels as siding for every building . . . or for interior walls of commercial, industrial, and farm structures. Also ideal for fences, windbreaks, grain bins, growing benches.

Pab-Flex and Pab-Rok sheets are fireproof, rot-proof, weatherproof, termite-proof. Smooth, stone-hard surface decorates beautifully. Large 4'x4' and 4'x8' sheets speed application. Cut by scoring or sawing.

Pab-Flex available: 1/8", 3/16", and 1/4". Pab-Rok available: 3/16" and 1/4".

Both meet Federal Specifications. Order from your building material supplier.

(Continued from page 16-1)

WESTERN PATTERN. Hal Rand, president of the San Diego BCA, recently said, "One family migrates to San Diego and within a few years friends and relatives follow." How true this is of the entire West!

UP, UP, UP. A San Diego builder developed a 50-lot subdivision in 1953 with raw land cost of \$360 per lot and improvement cost of \$902.21. In 1957, in the same general area, on a 188-lot tract these were his costs: land, \$1,000 per lot; improvement costs soared to \$1,739.33. One new item appeared in 1957—sidewalks—not required in 1953, but mandatory last year. The cost—\$168.77 per lot.

APARTMENT BOOM is continuing in the Metropolitan Los Angeles area with dwelling units in multiples accounting for about 47% of all built. These figures are for the first 11 months of 1957 and come from a statistical report by Security First National Bank. The same report states that tract volume is down at least 40% from 1956 while custom-built homes are being fairly well maintained.

3/8" THICK FOREST PANEL

FOR SIDING . . . FOREST $\frac{3}{8}$ " Temper-Treated Panel is made to order for panel siding. It trims, saws, nails and planes easily and precisely with power or ordinary hand tools. Applicators will enjoy working with it.

FOR BREEZEWAYS . . . Choose from several popular patterns . . . each of which will give the entire home, from siding to feature wall, a distinctive modern design.

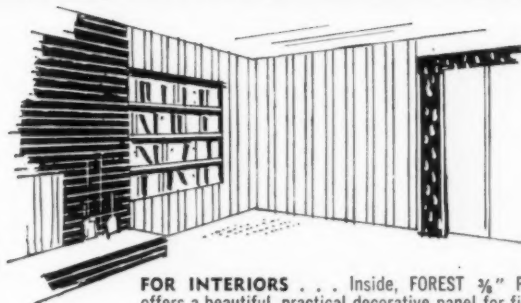

FOR SOFFITS . . . Regular FOREST $\frac{3}{8}$ " Panel is excellent material for soffits and other protected exterior applications. It too possesses extreme rigidity, stiffness; finishes beautifully.

Now . . . a new thicker panel engineered specifically for use with walls, interior or exterior. Added body gives it a high degree of board stability. Large panels go up fast, cut down on time and labor costs. The hard, smooth surface saves paint, covers beautifully.

Choose from a wide variety of patterns for design flexibility. FOREST $\frac{3}{8}$ " panel comes in platinum colored SANDALWOOD, or Temper-Treated . . . (both with smooth durable sealed surfaces), as well as FOREST Rustic, the shallow textured panel. Your choice of grooves on 4", 8" or random centers . . . plain or shiplap edges. Also available in regular panels.

PANEL SIZES

4 feet wide by 4', 6', 8',
10', 12', 16 feet lengths.

FOR INTERIORS . . . Inside, FOREST $\frac{3}{8}$ " Panel offers a beautiful, practical decorative panel for finishing or remodeling any room. You have a choice of patterns for many decorative effects. Surface is highly dent and scratch resistant, and so easy to clean. SANDALWOOD is prefinished in a platinum color that needs no paint, blends with any color scheme.

For more information contact your nearest FOREST Hardboard distributor or mail this coupon:

LOS COYOTES COUNTRY CLUB, BUENA PARK, CALIFORNIA

Architects: Welton Becket, F.A.I.A., and Associates
 James Wilde, AIA

We mean both the country club and the Palos Verdes Stone which adds so much to the distinction of this beautiful building. OUTSIDE, the warm soft hues and rugged textures of Palos Verdes Stone 'key' the building to its site, make it an integral part of the countryside. INSIDE, the architect has used Palos Verdes Stone to achieve dramatic effect in this fireplace-room divider. Yet, so rich and subtle are the 'neutral' colors of Palos Verdes Stone, even this massive construction remains comfortable and compatible with the atmosphere of this smart new club.

Therein lies the great virtue of Palos Verdes Stone — the well-bred character which allows this decorative natural stone to be used in so many ways and to harmonize with every type of architecture and interior decor. *No other material adds so great a degree of distinction, at so slight additional cost, as genuine Palos Verdes Stone produced by Great Lakes Carbon Corporation.*

Stone Supplier: Anaheim Builders Supply Co.
 Masonry Contractor: Carl Jones

You Can See It in Color! Palos Verdes Stone, we mean — in our new full-color bulletin which also contains valuable data on coverage, specification and handling. Write to

1958 CATALOG DIRECTORY

of Building Products and Equipment

Yours for the asking . . . more than 400 new catalogs. They're filled with technical information and specifications on manufacturers latest new products.

To get them, shop American Builder's Supermarket. Use the reply card on the facing page and circle the numbers corresponding to the catalogs you want. Then drop the card in the mail (no stamp needed) and we'll forward your requests to the manufacturers.

Reference catalogs are grouped in six major sections.

(See index). Find the information you want by turning to the section which should include it; then check the subsections for its exact location.

For example: If you want information on trenching machines. Check the index and you'll find that the major section, "Tools & Construction Equipment" starts on page 34. Included in it is a subsection called "Excavating Equipment." There you'll find descriptions of trenching machine literature.

Structural Materials

Chimneys & fireplaces

PERFECT FIREPLACES every time can be possible by following the information contained in these two books. Every phase of fireplace construction is covered within 20 pages.—Bennett-Ireland, Inc.

Circle No. A1 on reply card, p. 18.

SAFETY WITH "hidden value" product outlined in 6-page brochure which gives recommendations for safe chimney construction and specifications for clay flue lining. Detailed illustrations show component parts and brochure also includes table of dimensions.—Clay Flue Lining Institute.

Circle No. A2 on reply card, p. 18.

FACTORY-BUILT masonry chimney can be installed by one man in less than three hours. This 8-page booklet gives descriptive data, specifications and typical installation methods.—Van-Packer Co.

Circle No. A3 on reply card, p. 18.

FIREPLACE ENCLOSURES and screens of tempered glass are shown in this colorful brochure. Standard sizes to fit almost any opening are shown with measuring information.—The Thermo-Rite Mfg. Co.

Circle No. A4 on reply card, p. 18.

ALL-FUEL CHIMNEY is completely prefabricated and can be installed by one man. This 12-page booklet explains the features of this chimney and gives installation and chimney selector charts.—Metalbestos Chimney Div., William Wallace Co.

Circle No. A5 on reply card, p. 18.

PREFABRICATED FIREPLACE units for installation against combustible or non-combustible walls are shown in full color. Complete specifications and installation suggestions given.—American Sitina Co.

Circle No. A6 on reply card, p. 18.

Concrete & masonry

HOW TO BUILD BETTER MASONRY is a booklet that includes description and advantages of Atlas mortar cement. Gives recommended practices of proportioning, mixing and workmanship with reference tables.—Universal Atlas Cement Co.

Circle No. A7 on reply card, p. 18.

FIREPROOF, RUGGED house of Vibrapac concrete block illustrated in pamphlet from Besser Co. Combined with steel and glass, Vibrapac house is described as completely fireproof, resistant to storm, heat, cold, aging.—Besser Co.

Circle No. A8 on reply card, p. 18.

FACE BRICK brochure gives complete data, description and illustrations of the new matt texture buff-colored unit. Shows in color the use of this product for homes and commercial construction.—Evans Brick Co.

Circle No. A9 on reply card, p. 18.

CONCRETE CURING is accomplished with ease and economy with Sisalkraft reinforced building paper. This brochure discusses the theory and necessity of proper curing as well as the methods and how to do it.—American Sisalkraft Corp.

Circle No. A10 on reply card, p. 18.

DRY MASONRY WALLS are possible if the proper materials and workmanship is used. This literature gives specifications and step-by-step procedures for laying up brick or concrete masonry walls. In two volumes, these booklets total 32 pages.—Louisville Cement Co.

Circle No. A11 on reply card, p. 18.

IDEAS IN STONE is a file folder containing suggestions on how Briar Hill Golden Tone Sandstone can be used in modern home construction.—The Briar Hill Stone Co.

Circle No. A12 on reply card, p. 18.

CONCRETE FLOORS can be patched or resurfaced successfully with these Latex products. These data sheets offer suggestions and application methods for repairing of concrete floors inside or out.—The Camp Co

Circle No. A13 on reply card, p. 18.

BRICKTILE HANDBOOK for builders and architects is a complete construction manual on the use of this 3/4 inch thick facing brick. Bricktile, same face size as a normal brick, allows for veneering without the usual foundation extension.—Empress Bricktile Co.

Circle No. A14 on reply card, p. 18.

AVAILABLE BRICK is described in this folder. Shows details on 7/8 inch thick clay brick that can be nailed to interior or exterior surfaces for a finished facing material.—Ludowici-Celadon Co.

Circle No. A15 on reply card, p. 18.

BRICK AND TILE design handbook is a descriptive manual showing sizes and details on available brick and structural clay building tile items. Also gives recommended construction details of typical wall sections.—Mason City Brick and Tile Co.

Circle No. A16 on reply card, p. 18.

ASHTONE, quarried in Southern Indiana has a rugged finish featuring light buff and gray color tones. Descriptive folder illustrates distinctive residential, church and commercial uses.—The Bloomington Limestone Corp.

Circle No. A17 on reply card, p. 18.

SEALING AND HARDENING concrete floors make them dust-proof and more wear-resistant. Here is literature that tells how to do it and also gives specifications and application data on materials for waterproofing and dampproofing concrete or masonry structures.—Kedmont Waterproofing Co.

Circle No. A18 on reply card, p. 18.

LIMESTONE VENEER brochure of 8 pages shows the use of Indiana Limestone for fine residences. Color and black and white photos as well as technical information.—Indiana Limestone Co., Inc.

Circle No. A19 on reply card, p. 18.

Flashing & sheet metal

ALUMINUM IN ARCHITECTURE is the title of this attractive 24-page book. In addition to the advantages of aluminum, many job

applications with building details are shown.—Kaiser Aluminum & Chemical Sales, Inc.

Circle No. A20 on reply card, p. 18.

FLASHINGS for all thru-wall and spandrel applications are discussed in this 8-page booklet. Copper, aluminum and plastic products, suitable for every flashing job are included.—Wasco Products, Inc.

Circle No. A21 on reply card, p. 18.

SHEET COPPER PRACTICES is a 111-page book filled with detail drawings, descriptions and specifications for use in the modern design and installation of sheet copper in building construction.—The American Brass Co.

Circle No. A22 on reply card, p. 18.

PERFORATED STEEL SHEETS have many practical and decorative uses in all types of buildings. This 48-page catalog shows over 30 designs with sheet sizes and general specifications.—Cross Engineering Co.

Circle No. A23 on reply card, p. 18.

Insulation & vapor barriers

THERMAL INSULATION: Theories and practices of insulating against heat and vapor flow; and condensation formation. Simple illustrated explanations on heat flow and fuel problems with installation data. In addition, this 48-page book gives thermal insulation values of line of multiple aluminum types.—Infra Insulation, Inc.

Circle No. A24 on reply card, p. 18.

STYROFOAM INSULATION for all construction needs is illustrated in this 12-page catalog. Gives size specifications, thermal, vapor and water properties, with detail drawings on how to use.—The Dow Chemical Co.

Circle No. A25 on reply card, p. 18.

INSULATION BOARD PRODUCTS catalog shows the new and expanded line of decorative and structural Gold Bond building materials. Contains helpful technical and application information.—National Gypsum Co.

Circle No. A26 on reply card, p. 18.

POLYETHYLENE FILM has scores of uses on the job. In addition to its use as a vapor barrier it is also ideal for temporary enclosures, tarpaulins and concrete cur-

ing covers. The many uses and applications are covered in this booklet.—Koppers Co., Inc.

Circle No. A27 on reply card, p. 18.

PERIMETER INSULATION of mineral wool is described fully in this literature. Shows practical installation methods with technical data and specifications.—Baldwin-Hill Co.

Circle No. A28 on reply card, p. 18.

BUILDING PAPERS for concrete curing, underslab vaporseal, reflective insulation, vapor barriers and flashing are illustrated with application details in this brochure.—Ludlow Papers, Inc.

Circle No. A29 on reply card, p. 18.

NEW INSULATION of glass fibers faced with a reflective foil is described in this brochure. In addition to product description and performance data, application theories and installation instructions are reviewed.—L-O-F Glass Fibers Co.

Circle No. A30 on reply card, p. 18.

Lath & plaster

SPECS GIVEN to aid safe, permanent, yet economical construction with metal lath in a 20-page catalog. General specifications are listed for each type of metal lath construction and then supplemented by detailed information.—Metal Lath Mfg'r's. Assn.

Circle No. A31 on reply card, p. 18.

PLASTER BONDING information is given in this folder. Also discusses this new product's vapor-barrier qualities. Pictures and instruction indicate methods of application.—Abesto Manufacturing Corp.

Circle No. A32 on reply card, p. 18.

"THE PINK STUFF" as it is known to the trade is a resinous water-emulsion that bonds, permanently, new gypsum, acoustical or Portland cement plaster to almost any interior surface. This brochure describes the features of Plaster-Weld.—Larsen Products Corp.

Circle No. A33 on reply card, p. 18.

PERLITE HANDBOOKS are available in two 8-page booklets. The volume on plaster contains mixing and application specifications along with a listing and description of 38 fireproofing methods. Second book covers concrete with design information, insulating values and load-bearing capacities.—Great Lakes Carbon Corp.

Circle No. A34 on reply card, p. 18.

Paints & waterproofing

ONE-COAT vinyl plastic all-purpose paint for both interior and exterior applications is known as Seal-Kote. Ready to use, in liquid form, it can be applied to wet or dry surfaces of any kind.—The Wooster Seal-Kote Co.

Circle No. A35 on reply card, p. 18.

CONSTRUCTION DATA HANDBOOK gives general information on calking, glazing, paints and moisture repellents. Over 30 construction tables, guides and time-saving charts in this 108-page manual.—A. C. Horn Co., Inc.

Circle No. A36 on reply card, p. 18.

CONDENSATION on water pipes can be eliminated with the insulating tape described in this literature. Also gives data on NoDrip plastic coating to be brushed, sprayed or troweled on metal surfaces to prevent condensation.—J. W. Mortell Co.

Circle No. A37 on reply card, p. 18.

THE USE OF SILICONES to increase the life and protect the beauty of masonry are discussed in this illustrated booklet. Test data, specifications and application methods given for this transparent masonry water repellent.—Silicone Products Dept., General Electric Co.

Circle No. A38 on reply card, p. 18.

ROOF COATINGS and adhesives are discussed in these specification sheets. Simple instructions, drawings and material lists for various types of construction are also furnished.—Abesto Manufacturing Corp.

Circle No. A39 on reply card, p. 18.

WATER SEAL provides lasting protection from the weather to all types of porous materials. Works equally well on wood, masonry, concrete, plaster and many other surfaces. This 8-page catalog gives full data and application methods.—E. A. Thompson Co., Inc.

Circle No. A40 on reply card, p. 18.

ENGINEERED COLOR is a 20-page catalog of painting information. Packed with fine technical information and hints on the use of paint and color. Includes color chips of firm's complete line.—Barreled Sunlight Paint Co.

Circle No. A41 on reply card, p. 18.

ALUMINUM ROOF COATING gives triple protection to all roofing surfaces. Permite waterproofs, insu-

lates and shuts out sound with its blanket-like coating.—Aluminum Industries, Inc.

Circle No. A42 on reply card, p. 18.

WETTING OF MASONRY walls can now be completely eliminated by new type of water repellent. Also applicable on painted, metal, glass or wood surfaces. Specification literature is available.—Kay-Tite Co.

Circle No. A43 on reply card, p. 18.

MASONRY PAINT for less than \$1.00 per gallon. This booklet shows how Water-Boss, with lime and white cement, can be used to make a guaranteed water repellent paint.—Masonry Waterproofing Co., Inc.

Circle No. A44 on reply card, p. 18.

PROTECTIVE COATINGS for every building need are described in this catalog. The treatment of roof coatings, paints and special coatings for concrete floors and walls are explained with application data.—American Marietta Co., Valdura Div.

Circle No. A45 on reply card, p. 18.

MASONRY PAINT with a base of dehydrated Anti-Hydro. The addition of water reactivates properties of the product to produce dry masonry in decorator colors.—Anti-Hydro Waterproofing Co.

Circle No. A46 on reply card, p. 18.

Rafters & beams

TRUSSED RAFTERS using Teco connectors are explained in this new book. Covers the application of trussed rafters in residential and commercial buildings. Twelve typical designs are illustrated.—Timber Engineering Co.

Circle No. A47 on reply card, p. 18.

LAMINATED WOOD beams, arches and trusses are described in detail in this 24-page technical manual. Illustrated by photographs showing the many designs and uses of these products in residential and commercial structures. Separate booklet also included on Rilco wood roof deck.—Rilco Laminated Products, Inc.

Circle No. A48 on reply card, p. 18.

Roofing, siding & sheathing

HOW TO BUILD with Temlok roof deck is a new booklet that discusses this fiberboard product which combines roof deck, insulation,

vapor barrier and interior finish in one material. Includes technical data, construction details, installation methods and cost comparisons.—Armstrong Cork Co.

Circle No. A49 on reply card, p. 18.

HIGH-TENSILE STEEL permanent form for short-span concrete floor and roof slabs is described in this booklet. Economies are effected as this product permits pouring and finishing in one operation.—Inland Steel Products Co.

Circle No. A50 on reply card, p. 18.

CEILING DESIGN with a new dimension is suggested in a 20-page catalog describing Insulite roof deck. Tables and estimating sheets to figure on roof construction costs included.—Insulite Div., Minnesota & Ontario Paper Co.

Circle No. A51 on reply card, p. 18.

HIDDEN VALUES in red cedar roofing presented in brochure supplement. Technical reasons are given for outstanding quality of cedar shingles and shakes. Explains cedar's long life due to natural wood preservative oils.—Red Cedar Shingle Bureau.

Circle No. A52 on reply card, p. 18.

PLYWOOD for sheathing and concrete form work is described in this bulletin. These fir plywood construction panels are laminated with a special mold-resistant glue to insure long life.—United States Plywood Corp.

Circle No. A53 on reply card, p. 18.

ROOF SPECIFICATIONS for architects, engineers and builders is a detailed 140-page catalog. Gives technical information regarding application techniques and materials used for built-up roofing over every known type of roof deck.—Pioneer Div., The Flintkote Co.

Circle No. A54 on reply card, p. 18.

BEVELED SIDING, now a time-saver product, is presented in 4-page pictorial brochure. Illustrates application methods of first beveled siding with rabbeted lap which makes it easier, less time-consuming to apply.—Harbor Plywood Corp.

Circle No. A55 on reply card, p. 18.

AMERICAN THATCH asbestos roof shingles are described in this colorful folder. Illustrates the variety of attractive colors and gives application data for a lifetime roof.—The Ruberoid Co.

Circle No. A56 on reply card, p. 18.

GUIDE TO HARDBOARD products is a technical reference manual especially for builders. Shows uses, specifications and application data for all Masonite building boards. Also included is a new full-color brochure showing the use of hardboards for exterior finishes.—Masonite Corp.

Circle No. A57 on reply card, p. 18.

UNDERCOURSING asbestos cement siding is explained in this 4-page booklet. Shows how wood undercoursing strips make it easy to apply siding over non-lumber sheathing and at the same time create a pleasing heavy shadowline.—The Ruberoid Co.

Circle No. A58 on reply card, p. 18.

NEWEST METHOD of application for asbestos-cement roofing shingles to low slope decks, highlighted in 15-page manual. Details methods of application for all types. Gives specifications and detailed drawings.—Asbestos-Cement Products Assn.

Circle No. A59 on reply card, p. 18.

INSULATING ROOF DECKING in panels that span four feet, serve simultaneously as a deck and insulation. Belcobalsa panels are 24 in. by 86 in. and are made in thicknesses of 2 in. or more. Technical

literature available.—Balsa Ecuador Lumber Corp.

Circle No. A60 on reply card, p. 18.

BONDED BUILT-UP ROOFS is the title of this 56-page technical guide. Gives general specifications and requirements covering the application and inspection of ten-, fifteen- and twenty-year bonded roofs.—The Logan-Long Co.

Circle No. A61 on reply card, p. 18.

ENAMELED ALUMINUM siding in two different patterns is described in this literature. Permanently finished with baked-on enamels, this material is available in white or a variety of pastel colors.—Lyf-Alum, Inc.

Circle No. A62 on reply card, p. 18.

ALUMINUM SIDING booklet gives detailed instructions on the application of this material. Specifications and product description material.—Lifetime Industries, Inc.

Circle No. A63 on reply card, p. 18.

Structural & reinforcing steel

STEEL-X channel bridging is claimed to save 80% on labor because it can be installed without nails or tools. Only two sizes neces-

sary for any bridging job.—Taber, Bushnell & Co., Inc.

Circle No. A64 on reply card, p. 18.

COMPREHENSIVE RESEARCH report on "hidden-values" of masonry wall reinforcement is now available. Includes effectiveness of deformation of steel side rods, design comparison tests, distribution of wall stresses.—Duro-O-Wal.

Circle No. A65 on reply card, p. 18.

MORTAR JOINT reinforcing assures stronger masonry walls. Technical literature gives test data and complete specifications of Wal-Lok reinforcing rods.—Adrian Peerless, Inc.

Circle No. A66 on reply card, p. 18.

STEEL JOIST loading tables with specifications and sections of all types are given in this 20-page booklet. Also describes, with loading tables, steel deck roof construction.—Truscon Steel Div.

Circle No. A67 on reply card, p. 18.

HOW TO CORRECT the most common structural weaknesses in homes by means of adjustable posts are illustrated in this folder.—Adjusta-Post Mfg. Co.

Circle No. A68 on reply card, p. 18.

Doors, Windows, Millwork, Floor & Wall Finishes

Awnings

FIBERGLAS AWNINGS for commercial and residential use are described in this brochure package. Shows how this product diffuses the light and controls solar heat.—Ray-O-Lite Corp. of America.

Circle No. A69 on reply card, p. 18.

SUN CONTROL with aluminum awnings is the theme of this brochure. Describes this firm's line of ventilated awnings for all residential and commercial uses.—Kool Vent Metal Awning Corp.

Circle No. A70 on reply card, p. 18.

ALUMINUM AWNINGS, both stationary and roll-up types, for commercial applications are illustrated with photos and specification data in this brochure.—Hunter Douglas Aluminum Corp.

Circle No. A71 on reply card, p. 18.

Casing & trim

DRYWALL FINISHING can be made easier and offers a permanent

workmanlike job with BeadeX and JambeX. These products are described with application drawings in this brochure.—Beadex Sales, Inc.

Circle No. A72 on reply card, p. 18.

ALL METAL DRYWALL TRIM is described in a 4-page pamphlet. Ten types of trim for door jambs or windows are pictured with detail drawings, specifications and complete installation information.—Drywall Trim Div., Casings, Inc.

Circle No. A73 on reply card, p. 18.

PEASE PRICER is a 132-page handbook for builders. Gives specifications and prices of all millwork, hardware and practically every building item.—Pease Woodwork Co.

Circle No. A74 on reply card, p. 18.

TRIM MOULDINGS of aluminum and stainless steel are illustrated in full-sized details in this catalog. Also includes data on all-aluminum frame screens to fit any window opening.—The Loxgreen Co.

Circle No. A75 on reply card, p. 18.

Ceramic tile

SPACE-RITE TILE is described in this brochure. Featuring alignment lugs on all four sides this tile assures accurate and faster setting. Literature gives specifications, shapes and sizes.—Pomona Tile Mfg. Co.

Circle No. A76 on reply card, p. 18.

NEW IDEAS IN TILE. This booklet shows attractive illustrations of ceramic tile in baths, kitchens, powder rooms and other home uses.—American-Olean Tile Co.

Circle No. A77 on reply card, p. 18.

Exterior facings

PORCELAIN-FACED PLYWOOD building panels for exterior and interior application are illustrated in this 6-page brochure. Porc-Lin-Ply consists of a special porcelain-enamel facing, fused to steel, laminated to an exterior grade plywood core.—United States Plywood Corp.

Circle No. A78 on reply card, p. 18.

STORE FRONT METAL of aluminum is detailed in this informa-

tive catalog. Shows many ideas for entrances and fronts which can be adapted to the job at hand.—American Art Metal Co.

Circle No. A79 on reply card, p. 18.

ARCHITECTURAL PORCELAIN panels for curtain wall and facing material are illustrated in this new 28-page catalog. Shows examples of new and modernization construction for many types of buildings, along with "how-to" details.—Davidson Enamel Products, Inc.

Circle No. A80 on reply card, p. 18.

PLASTICOMB is a plastic faced honeycomb panel used for interior, exterior, movable and curtain walls and skylights. They are translucent, also resistant to moisture, weather, chemicals and crazing.—Monosstructure, Inc.

Circle No. A81 on reply card, p. 18.

Flooring & floor coverings

HARDWOOD FLOORING over concrete is easily accomplished with BondWood and a recommended adhesive. These units are 19 inches square and are made up of 16 squares in 4- $\frac{3}{4}$ by 4- $\frac{3}{4}$ inch units. This literature gives full data plus other hardwood flooring products.—Harris Mfg. Co.

Circle No. A82 on reply card, p. 18.

RESILIENT FLOORING can be used to sell homes faster . . . This is the theme of this full color booklet. Also describes certain technical aspects of resilient floor installation.—Armstrong Cork Co.

Circle No. A83 on reply card, p. 18.

NEW DESIGN BOOKLET to aid in creating harmonious floors of resilient tile is illustrated in full color. Also offers suggestions in fundamental principles of design for the expression of individual preference.—Kentile, Inc.

Circle No. A84 on reply card, p. 18.

HOW-TO LITERATURE for builders includes installation of plank, strip, block flooring; finishing and maintenance information. Also available: booklet illustrating firm's flooring in full color.—E. L. Bruce Co.

Circle No. A85 on reply card, p. 18.

RESILIENT FLOOR COVERING products for use in every room of the home are illustrated in color in this literature. Gives product characteristics and specifications for Gold Seal floor coverings.—Congo-leum-Nairn, Inc.

Circle No. A86 on reply card, p. 18.

FLOORING FILE describes oak: plank and block flooring. Also includes data on Arkansas Soft Pine items along with hardwoods used for stairs, thresholds and trim.—Bradley Lumber Co. of Arkansas.

Circle No. A87 on reply card, p. 18.

CORK TILE in standard and vinyl for all types of floors is thoroughly covered in this full color brochure. In addition to application instructions, physical properties and maintenance data are given.—Dodge Cork Co., Inc.

Circle No. A88 on reply card, p. 18.

OAK FLOORING literature is designed to aid builders in selling, specifying and installing firm's Bonded Oak Block. Also gives helpful hints on care and maintenance.—Higgins Industries, Inc.

Circle No. A89 on reply card, p. 18.

CARPET SAMPLES are part of this literature package. Describes new line of foam rubber-backed carpet in 9 ft. widths. Simple instructions for laying are included.—Crown Rubber Co.

Circle No. A90 on reply card, p. 18.

LEATHER TILES for floor and wall coverings are decorative and practical. This full color brochure shows actual uses and other design information for this product.—The Kiefer Tanneries.

Circle No. A91 on reply card, p. 18.

Folding & sliding doors

MODERNFOLD DOORS in the Spacemaster and Custom lines are illustrated in this literature package. Also includes data on folding and sliding bath tub enclosures.—New Castle Products, Inc.

Circle No. A92 on reply card, p. 18.

COMPLETELY ASSEMBLED interior, pocket and sliding doors are featured in this brochure. Factory fitted, these door packages also include jamb, trim and hardware.—Jenkins Lumber & Mfg. Co.

Circle No. A93 on reply card, p. 18.

FABRIC-COVERED folding doors in all price ranges and sizes, for every need are illustrated in this 16-page catalog. In addition to descriptive specifications, architectural details on illustration methods are shown.—Holcomb & Hoke Mfg. Co., Inc.

Circle No. A94 on reply card, p. 18.

SPACE SAVING, decorative style, and economy of installation are im-

portant features of the three types of folding doors described in this literature.—American Accordion-Fold Doors, Inc.

Circle No. A95 on reply card, p. 18.

LOUVERED DOORS of steel are described in this colorful literature. Made in sizes to fit standard closet openings, these units fold back against the jamb—providing full access to the storage space.—American Steel Door Co.

Circle No. A96 on reply card, p. 18.

FLEXIBLE FOLDING DOORS for every price and purpose are illustrated with specifications in this complete catalog. Color swatches available on request.—Clopay Corp.

Circle No. A97 on reply card, p. 18.

Metal doors & frames

STEEL FLUSH DOORS and frames are especially designed for builder use. They are ideally suited for all types of dwelling units—as well as other types of structures where beauty, low cost and durability are of prime importance. This 12-page catalog gives full information.—The Steelcraft Mfg. Co.

Circle No. A98 on reply card, p. 18.

CUSTOM DESIGNS standardized for mass production is the theme of this 12-page catalog of metal doors and frames. In addition to wide range of door styles and detailed drawings, catalog gives frame designs and installation methods.—United Steel Fabricators, Inc.

Circle No. A99 on reply card, p. 18.

MODULAR DIMENSIONED metal doors and frames are shop primed and mortised for hardware. They require no fitting on the job and are available in flush panel for all standard sized openings. Also included in this 12-page catalog is data on by-pass sliding closet doors with frames.—United Steel Fabricators, Inc.

Circle No. A100 on reply card, p. 18.

STEEL DOORS AND FRAMES, as well as Amweld folding and slide-away closet units, are described and illustrated in this new catalog. Also includes complete construction details and specifications.—American Welding Co.

Circle No. A101 on reply card, p. 18.

STEEL WINDOW AND DOOR CATALOG gives types and sizes, specifications and installation details for entire line. Also includes metal jambs and closet fronts.—Truscon Steel Div., Republic Steel.

Circle No. A102 on reply card, p. 18.

Millwork & stairs

ARCHITECTURAL DETAILS of all Bilt-Well products are available in this literature package. Colorful brochures on doors, windows, millwork of all kinds, built-ins and complete line of wood kitchen cabinets.—Carr, Adams & Collier Co.

Circle No. A103 on reply card, p. 18.

FOLDING-TYPE disappearing stairways and ladders as well as a low cost sliding stair are illustrated in this folder. Also gives clearance and opening requirements for every model.—Ez-Way Sales, Inc.

Circle No. A104 on reply card, p. 18.

ELECTRIC STAIRWAY disappears into the ceiling at a touch of the button. Powered by a 1/3 h.p.—115 volt motor, this stair takes no more space than the conventional folding unit. Brochure gives full details and rough-in data.—Precision Parts Corp.

Circle No. A105 on reply card, p. 18.

Paneling

PARTITION SYSTEMS manual has been prepared to assist builders in selecting right partition for individual needs. Seven systems illustrated. Contains tables, component parts, material specifications.—Penn Metal Co.

Circle No. A106 on reply card, p. 18.

WALL PANELS of vinyl-metal laminates are illustrated in this 4-color catalog. Using decorative vinyl plastic material, bonded to aluminum or steel sheets, these panels provide a practical and attractive interior wall finish. Ideal for homes as well as all types of commercial interiors.—Clad-Rex Corp.

Circle No. A107 on reply card, p. 18.

TONGUE AND GROOVE WALLS of wood are shown in this data sheet. It tells how T & G can be used most effectively and gives application and construction notes.—California Redwood Assoc.

Circle No. A108 on reply card, p. 18.

MARLITE CATALOG provides color illustrations of complete wall and ceiling panel line: plain, marble-effect and several wood grain patterns; along with feature descriptions and illustration data.—Marsh Wall Products, Inc.

Circle No. A109 on reply card, p. 18.

CEDAR CLOSET LINING handy estimating chart is only a part of this literature offered. Also includes

ideas for closets and built-ins using cedar lining.—Geo. C. Brown & Co.

Circle No. A110 on reply card, p. 18.

PLASTIC OVERLAY on exterior-type plywood makes it impervious to any weather conditions. This 8-page booklet gives characteristics, properties, application and technical information on Crezon plywood.—Crown Zellerbach Corp.

Circle No. A111 on reply card, p. 18.

WELDDOOD prefinished paneling offers functional beauty for commercial as well as residential interiors. This literature package contains booklets in full color illustrating the use of this product in homes, business and institutional buildings. Gives many decorative and built-in ideas.—United States Plywood Corp.

Circle No. A112 on reply card, p. 18.

LAMIDALL tongue and groove, and random-width planking for new and remodeling work is illustrated in this brochure. Shows photos of actual job installations.—Woodall Industries, Inc.

Circle No. A113 on reply card, p. 18.

FACTS FOR BUILDERS is a new catalog on the use of Formica for countertops and wall coverings. In addition to complete application details and data, the new Sunrise line of colors and patterns is illustrated by swatches.—Formica Corp.

Circle No. A114 on reply card, p. 18.

PREFINISHED PANELING brochures, specification sheets and illustrations of complete rooms and accent walls are available in this package.—Dulaney Plywood Corp.

Circle No. A115 on reply card, p. 18.

FRESH IDEAS for finishing rooms with hardboard is the title of this folder. Shows the various types available, with photos and drawings of actual applications.—Forest Fiber Products Co.

Circle No. A116 on reply card, p. 18.

Reinforced plastics

TRANSLUCENT, shatterproof structural panels and glazing panes, reinforced with Fiberglas and Nylon are illustrated in many applications in this 8-page folder. Filon Plastics Corp.

Circle No. A117 on reply card, p. 18.

TRANSLUCENT PANELS, called "Accoustilux," pictured and described in detail in a brochure sheet from Celotex Corp. Five different

designs in .015-inch thick vinyl sheeting panels, in a choice of colors and sizes. Drawings, table of coefficients of utilization also included.—Celotex Corp.

Circle No. A118 on reply card, p. 18.

FIBER GLASS PANELS of Lascolite, their many uses in both the residential and commercial building field, offered in an Idea Folder. Available in seven shapes and two thicknesses, bulletin describes resistance of panels to fumes, solvents, etc., as well as its impact strength.—Lynch Asbestos Co.

Circle No. A119 on reply card, p. 18.

TRANSLUCENT PLASTIC panels in corrugated flat and stepped designs for all types of residential building are shown with application data, sizes and specifications in this full color, 6-page brochure.—Alsynite Company of America.

Circle No. A120 on reply card, p. 18.

Skylights

TOPLITE PANELS give year-around sun control. This new skylight, approximately two feet square, uses a prismatic principle to admit North light and reject summer heat. Brochure describes features with installation data.—Owens-Illinois Glass Co.

Circle No. A121 on reply card, p. 18.

SKYDOMES, the plastic skylight, are explained with illustrations, specifications and construction details in this 12-page catalog. Fixed and ventilating models and Wascolite accessories are included.—Wasco Products Inc.

Circle No. A122 on reply card, p. 18.

INEXPENSIVE SKYLIGHTS of ribbed Chem-O-Glas panels are pictured in before and after photos in this new brochure.—Chemold Co.

Circle No. A123 on reply card, p. 18.

Sliding-glass doors

SLIDING GLASS DOORS of aluminum, designed for use in extreme climates, are described in this 16-page brochure. Also gives specs and detail data on pocket and flush threshold types.—Ador Sales, Inc.

Circle No. A124 on reply card, p. 18.

EXTERIOR aluminum sliding glass doors, horizontal sliding windows and interior in-the-wall sliding doors are cataloged in this colorful literature. Application and installation details fully covered.—Nudor Mfg. Corp.

Circle No. A125 on reply card, p. 18.

NEW OUTSIDE SLIDE anodized aluminum sliding glass doors are illustrated in this folder. Gives sizes and specifications for Capri units made for all types of glazing.—T. V. Walker & Son, Inc.

Circle No. A126 on reply card, p. 18.

ALL FLUSH DESIGN of ABC sliding glass doors in aluminum is described in this literature. Also illustrates and details firm's line of jalousies, awning windows and aluminum thresholds.—Adams Engineering Co.

Circle No. A127 on reply card, p. 18.

SLIDING GLASS DOORS for exterior, interior and wall pocket installation are shown in this literature. Gives specifications, sizes and types, with double and flat sills, in detail form.—Embassy Aluminum Products, Inc.

Circle No. A128 on reply card, p. 18.

LIGHT CONSTRUCTION CATALOG of aluminum windows, glass sliding doors and jalousies consists of 24 pages. Gives complete specifications, installation details, sizes and product description.—Ludman Corp.

Circle No. A129 on reply card, p. 18.

PATIO MAGIC aluminum sliding glass doors are made in standard and pocket units for single or double glazing. Literature gives complete specs and installation details.—Daryl Products Corp.

Circle No. A130 on reply card, p. 18.

VUE-LUME architecturally-designed rolling glass doors, with exclusive Perma-Satin finish, are illustrated in this 6-page folder. Includes plan views, scale details and specifications.—Shower Door Company of America.

Circle No. A131 on reply card, p. 18.

ALUMINUM FRAME sliding glass doors for both single and double glazing are illustrated in this brochure. Gives data and specifications on 11 standard sizes.—Capitol Products Corp.

Circle No. A132 on reply card, p. 18.

SLIDING GLASS doors for single or duo-glazing in single or multiple track and wall pocket models are shown in this brochure. Construction and installation details with architectural specifications included.—Trimview Metal Products.

Circle No. A133 on reply card, p. 18.

Windows & glass

SLIDING WINDOWS AND DOORS of aluminum are featured in this new brochure on Lupton products. Gives full specifications and complete size charts.—Michael Flynn Mfg. Co.

Circle No. A134 on reply card, p. 18.

THE WOOD WINDOW LINE shown in this 12-page catalog covers double-hung, horizontal glide, picture, awning and multi-purpose units. Illustrated with photos and scale installation details.—Malta Mfg. Co.

Circle No. A135 on reply card, p. 18.

SLIDE-O-MATIC aluminum horizontal sliding windows are fully described in this 8-page brochure. Shows various types and sizes with installation details.—Storm King Corp.

Circle No. A136 on reply card, p. 18.

ALUMINUM WINDOWS are treated extensively in this literature package. Gives specifications, sizes and installation details on casement, double and single hung, awning, sliding, pivoted, projected, basement and utility windows.—Reynolds Metals Co.

Circle No. A137 on reply card, p. 18.

CONDENSATION-FREE aluminum windows feature unique weatherstripping. This portfolio contains specification and detailed assembly sheets.—Trim-Slide, Inc.

Circle No. A138 on reply card, p. 18.

NEW MODEL aluminum awning window has overlapping weatherstripping around each vent. When window is closed weatherstripping is compressed for an air-tight seal ten times tighter than generally accepted standards.—Ludman Corp.

Circle No. A139 on reply card, p. 18.

REMOVABLE wood windows in double-hung and horizontal sliding units are described in this brochure. Detail installation drawings with rough-in specifications included.—A.R.B. Window Sales Co.

Circle No. A140 on reply card, p. 18.

TRIPLE-TRACK WINDOW of aluminum is a new concept in storm window design. This 4-page, 2-color folder describes in detail the features of this product. Also gives directions for measuring, ordering and installing this new window.—Keystone Alloys Co.

Circle No. A141 on reply card, p. 18.

ALUMINUM WINDOW details with installation drawings and size charts are included in this new literature. Covers both single- and double-hung units as well as the sliding window.—Cupples Products Corp.

Circle No. A142 on reply card, p. 18.

STYLE-TREND and Curtis Silentite wood windows are fully illustrated in this attractive booklet. In addition to sizes and types it contains many ideas for builders.—Curtis Companies, Inc.

Circle No. A143 on reply card, p. 18.

FLEETLITE double-hung and sliding "packaged" windows are illustrated in this literature. Also includes firm's line of sliding glass doors, jalousie windows and doors.—Fleet of America, Inc.

Circle No. A144 on reply card, p. 18.

WINDOW FEATURES are given in a 4-page brochure. Details the wearing, usability qualities of aluminum jalousie windows. Gives installation and specifications as well as complete detail drawings.—Stanley Building Specialties Co.

Circle No. A145 on reply card, p. 18.

PERFECT PLASTIC GLAZING, which makes Watson aluminum windows weather-tight, is one of many features described in this material. Attractively illustrated literature gives complete specification data and application instructions on complete windows, furnished with hardware and fin trim.—W M Products Co.

Circle No. A146 on reply card, p. 18.

ADVANTAGES OF REDOING windows with "Twindow", the double-paned insulating glass, presented in a full-color, 12-page booklet. Photos of different installation uses, cutaway drawings of types of "Twindow", size and insulating value charts.—Pittsburgh Plate Glass Co.

Circle No. A147 on reply card, p. 18.

GLARE-REDUCING GLASS called "Lustragray" is a neutral gray-tint sheet glass which not only provides soft daylight and balanced brightness between natural and artificial light but substantially reduces the transmission of solar energy. This 8-page catalog gives properties and size specifications.—American Window Glass Co.

Circle No. A148 on reply card, p. 18.

TENSION-SEALED WINDOWS of aluminum come in double-hung, horizontal and picture combinations as well as for porch enclosures, doors, etc. This 8-page booklet tells the story of the windows in actual photos, detail drawings and installation.—Humphrey Products Inc.

Circle No. A149 on reply card, p. 18.

MULTI-PURPOSE WINDOW UNITS are described, with details, in this new 16-page catalog. These units can be installed as hopper, awning, casement or the exclusive Two-Sash series.—Farley & Loetscher Mfg. Co.

Circle No. A150 on reply card, p. 18.

DETAIL CATALOG for Andersen's complete wood window units includes tables of stock sizes with unit numbers, opening dimensions, installation details and complete specification data.—Andersen Corp.

Circle No. A151 on reply card, p. 18.

DESIGN FLEXIBILITY is possible with the Modernaire wood window units. Featuring awning, hopper, casement and fixed sash. A wide range of sizes are available for

residential or commercial installation.—Modernaire Corp.

Circle No. A152 on reply card, p. 18.

TWIN-TILT double-hung wood windows are described in this 4-page brochure. Normally, these windows slide up and down but both sash may be tilted inward to any angle for added ventilation or cleaning.—Brown-Graves Co.

Circle No. A153 on reply card, p. 18.

PORCH ENCLOSURE PANELS that allow up to two-thirds ventilation are detailed in this 8-page catalog. Also illustrates double-hung prime windows, ventilating sash, and combination screen and storm doors.—DeVac, Inc.

Circle No. A154 on reply card, p. 18.

COMPLETE SPECIFICATIONS, use, measuring and installation instructions on Columbia-matic tension screens are thoroughly reviewed in this folder.—The Columbia Mills, Inc.

Circle No. A155 on reply card, p. 18.

Wood doors

TIME- AND LABOR-SAVING advance in exterior entrance con-

struction is described in brochure from Ready Hung. Completely assembled exterior unit is delivered in final stage of construction, eliminating abuse during construction.—Ready Hung Doors.

Circle No. A156 on reply card, p. 18.

DECORATIVE DOORS are made possible by the installation of prefabricated light units. This booklet features over 150 flush door designs, with cut-outs, for all types of residential and commercial buildings.—The Visador Co.

Circle No. A157 on reply card, p. 18.

JALOUSIE AND FLUSH exterior doors are illustrated in these booklets and folders designed especially for builders. Over 50 door designs in both solid and hollow core flush doors are part of this package.—Angel Novelty Co.

Circle No. A158 on reply card, p. 18.

TEE-COR DOORS for interior or exterior use are described in this literature. Straddle moulding units are also detailed. These allow for the installation of glass panels in these hollow flush doors.—Morgan Co.

Circle No. A159 on reply card, p. 18.

Hardware & Building Specialities

Builder's hardware

CUSTOM CABINETS with glass sliding doors can be built on the job with the hardware items described in this fully illustrated catalog. Ideas for uses and detailed installation drawings are included.—Designware Industries, Inc.

Circle No. A160 on reply card, p. 18.

LOCK FASHIONS by Schlage is a colorful 12-page catalog of firm's line of interior and exterior door locksets. Color photographs show actual installation examples with full descriptive data.—Schlage Lock Co.

Circle No. A161 on reply card, p. 18.

"400" LINE of residential locksets, trim and miscellaneous hardware products is illustrated in this 8-page, 4-color builder's catalog. Gives installation aids.—Kwikset Locks, Inc.

Circle No. A162 on reply card, p. 18.

SLIDING DOOR HARDWARE for doors $\frac{3}{4}$ to $1\frac{3}{4}$ inches thick is illustrated in this brochure. Also

covers pulls and other items used with sliding doors.—National Mfg. Co.

Circle No. A163 on reply card, p. 18.

FIVE-VOLUME CATALOG on firm's hardware line is now available. These individual booklets contain specifications, descriptions and details on the following products: sliding door hardware; folding door hardware; drawer slides; drapery hardware; bathtub enclosures.—Grant Pulley & Hardware Corp.

Circle No. A164 on reply card, p. 18.

DOOR HARDWARE . . . full line of literature showing data on locks, latches and home accessory items. Includes lock replacement kit, decorative escutcheons and special application details.—Weiser Co.

Circle No. A165 on reply card, p. 18.

BUILDER KIT is available free. Includes the following materials: new color catalog showing entire line, current price list, up-to-date product literature including catalog pages and folders, sample decalomania on care of cabinet hardware.—Amerock Corp.

Circle No. A166 on reply card, p. 18.

HARDWARE FOR HOME remodeling is a 32-page brochure in color and black and white on hardware for rolling doors, cabinets, in-motion built-ins and special kitchen shelves.—Washington Steel Products.

Circle No. A167 on reply card, p. 18.

GLIDING DOOR HARDWARE for pocket, by-passing and folding doors is described in this new catalog. Also gives complete specifications on prefabricated units, cabinet hardware and accessories.—Kennatrack Corp.

Circle No. A168 on reply card, p. 18.

POCKET DOOR FRAME fits all openings from 2 ft. to 3 ft. Unique hanger design for door readjustment without removing trim. Features include telescoping track, nylon wheels and adjustable floor guide. All shown in detail in this brochure.—The Stanley Works.

Circle No. A169 on reply card, p. 18.

CONCEALED HARDWARE for fold-a-side doors is illustrated in this attractive brochure. Gives ap-

plications, installation drawings and easy ordering information for builders.—Acme Appliance Mfg. Co.

Circle No. A170 on reply card, p. 18.

SLIDING AND FOLDING door hardware is cataloged and detailed extensively in this 8-page brochure. Besides showing how to install hardware, brochure is packed with ideas for the use of either types of doors around the home.—American Screen Products Co.

Circle No. A171 on reply card, p. 18.

MAGNETIC LATCHES for every cabinet requirement are illustrated in this brochure. Specifications and ideas for use also included.—Laboratory Equipment Corp.

Circle No. A172 on reply card, p. 18.

FORGED IRON HARDWARE as well as other hardware items for cabinets, sliding doors and shelf supports are illustrated in this literature.—McKinney Mfg. Co.

Circle No. A173 on reply card, p. 18.

REVOLVING SHELF hardware for metal or plywood shelves is shown in this literature. Illustrates the many uses with specifications and installation data.—Lake Drive Products Co., Inc.

Circle No. A174 on reply card, p. 18.

CABINET BUILDING is made easier by the use of drawer slides and rollers. This brochure shows the different methods to meet any particular construction. Details for pull-out tables and sliding shelves, are included.—Extension Drawer Support Co.

Circle No. A175 on reply card, p. 18.

NARROW STILE windows and doors require special types of lock and latch hardware. This brochure shows firm's complete line with specifications and application information.—Adams Rite Mfg. Co.

Circle No. A176 on reply card, p. 18.

REVERSIBLE HANGERS are the secret of this sliding door hardware that allows one type to be used for either $\frac{3}{4}$ or $1\frac{3}{8}$ inch doors. This 8-page brochure describes these features; gives specs on pocket door hardware and trim accessories.—Stanley Hardware Div., The Stanley Works.

Circle No. A177 on reply card, p. 18.

FOLDING DOORS for closets and other interior uses are hung easily with the new line of hardware shown in this brochure. Also included is a brochure on firm's sliding door hardware.—John Sterling Corp.

Circle No. A178 on reply card, p. 18.

HARDWARE for oversize doors—either swing or sliding types—for airport hangars, barns, garages or other industrial use is described in this literature. Also discusses hardware for fire doors.—Allith-Prouty, Inc.

Circle No. A179 on reply card, p. 18.

Building specialities

VALUABLE PAPERS may be protected from fire with the wall safes illustrated in this brochure. An inexpensive sales feature for any home, these vaults are designed to be built into the wall.—Meilink Steel Safe Co.

Circle No. A180 on reply card, p. 18.

BRAND NEW catalog for builders completely illustrates the M-D building specialities. For new construction as well as for repair and remodeling. — Macklanburg-Duncan Co.

Circle No. A181 on reply card, p. 18.

COMPLETE LINE of metal building products, including roof, wall, foundation and window ventilators; closet accessories; pocket and sliding door hardware; metal awnings, canopies, shutters. All described and illustrated with complete specs, in this attractive catalog.—Leigh Building Products Div.

Circle No. A182 on reply card, p. 18.

LIGHTNING PROTECTION for all types of buildings can be built-in. Only ten inch long air terminals are visible from the outside. Approved by Underwriters Laboratories. — Independent Protection Co., Inc.

Circle No. A183 on reply card, p. 18.

BUILDING PRODUCTS such as steel door frames, basement windows and bucks, aluminum disappearing stairs, fireplace accessories and numerous other metal products. All described in this 12-page catalog.—Kewanee Mfg. Co.

Circle No. A184 on reply card, p. 18.

Fastening devices

STAPLES for the application of batt insulation with hammer or gun tacker are illustrated in this literature. Also describes new staple development for the application of all types of ceiling tile.—Arrow Fastener Co., Inc.

Circle No. A185 on reply card, p. 18.

MOLLY ANCHORS are screw-type fasteners made to hold anything securely in hollow walls, floors or ceilings. Specifications of the nine available sizes with ideas for their use are included in this brochure. Also shows new installing tool for use with these fasteners.—Molly Corp.

Circle No. A186 on reply card, p. 18.

LIGHTER AND STRONGER wood trusses are possible with the galvanized steel coupling illustrated in this literature. Provides a positive mechanical connection in one plane of all members.—H-Brace, Inc.

Circle No. A187 on reply card, p. 18.

ADHESIVE AND HANGERS for the application of insulation to metal ducts are described in this brochure. The quick setting adhesive combined with a nylon hanger makes for a most economical installation.—Goodloe E. Moore, Inc.

Circle No. A188 on reply card, p. 18.

BEARING PLATE for wood or pipe columns. Solves problem of anchoring 4 x 4's to masonry as described in this new folder. Anchors 1½ and 2 in. pipe columns with special fitting.—The R. G. Coffman Co., Inc.

Circle No. A189 on reply card, p. 18.

FRAMING ANCHORS reinforce wood joints and eliminate toenailing. Similarly, joist anchors and metal bridging provide a practical and economical method of handling these framing problems. Here is literature that tells you the facts.—Flash Bridge Co.

Circle No. A190 on reply card, p. 18.

SPECIALITY NAILS such as screw, ring shank, lead head, colored and stain-resistant are illustrated in this new literature. Samples of nails are available and an additional handbook gives application data for exclusive Stormguard double-dipped nails.—W. H. Maze Co.

Circle No. A191 on reply card, p. 18.

TECHNICAL CHART on the use and selection of wood and sheet metal screws is available. Shows head styles, how to measure, pilot hole and drill bit sizes.—Southern Screw Co.

Circle No. A192 on reply card, p. 18.

Garage doors

MODELS TO SUIT every type of architecture are shown in this colorful brochure on garage doors. Also included is literature on automatic operator.—Ridge Door Co.

Circle No. A193 on reply card, p. 18.

LATEST STYLES in residential upward-acting garage doors from Frantz. A 16-page catalog features photos of many different styles of doors together with close-ups of special hardware used on the units. Sketches on how to prepare door openings as well as detailed specifications. Frantz Manufacturing Co.

Circle No. A194 on reply card, p. 18.

GARAGE DOORS for single and double width openings for all residential uses are covered in this complete catalog. Also gives information on decorative design panels, accessories and electric door controls.—Overhead Door Corp.

Circle No. A195 on reply card, p. 18.

ALUMINUM AND STEEL sectional garage doors for residential, industrial and commercial uses are illustrated in 4 different brochures. Low headroom installation instructions are featured.—Windsor Door Corp.

Circle No. A196 on reply card, p. 18.

FLUSH-TYPE GARAGE DOOR sections are fully explained in this new 8-page brochure. Construction data, insulating properties and comparison charts are fully covered.—Barber-Colman Co.

Circle No. A197 on reply card, p. 18.

TECHNICAL REFERENCE on Calder garage doors is the subject of this 16-page brochure. Gives charts, diagrams, installation and headroom information useful for planning any garage door opening.—Calder Mfg. Co.

Circle No. A198 on reply card, p. 18.

OVERDOORS for residential garages as well as commercial and industrial installation are shown with complete specifications in this new 16-page catalog.—McKee Door Co.

Circle No. A199 on reply card, p. 18.

SECTIONAL GARAGE DOORS in colonial and ranch, flush and carved panel styles are illustrated in this 6-page brochure. Specifications include head and side room information and hardware data.—Raynor Mfg. Co.

Circle No. A200 on reply card, p. 18.

Louvres & ventilators

VENTILATORS for installation in cornices and outside walls are illustrated in this brochure. Included is a complete description of ventilation package which includes attic fan and all necessary ventilator grilles.—Damp-Vent Co.

Circle No. A201 on reply card, p. 18.

FOUNDATION AND CORNICE ventilators that meet all FHA requirements are illustrated in this literature. Shows typical installation methods and free ventilation areas.—Hamlin Products, Inc.

Circle No. A202 on reply card, p. 18.

VENTILATORS of galvanized iron or aluminum for gables, eaves, roofs and foundations are cataloged in this brochure. Gives standard sizes and free vent areas.—Louv-r-Pak, Inc.

Circle No. A203 on reply card, p. 18.

ROOF VENTILATORS, wall louvers and under eave vents to meet M.P.R. requirements are detailed in this literature. Gives complete listing and illustrations of types and sizes.—Leslie Welding Co., Inc.

Circle No. A204 on reply card, p. 18.

Ornamental iron

PICTURE BOOK of wrought iron shows the uses of this product both inside and outside of the home. Illustrated with pictures and captions.—Locke Mfg. Co.

Circle No. A205 on reply card, p. 18.

ORNAMENTAL IRON catalog lists standard items with measuring and pricing instructions. Completely illustrated with photos and specifications.—Metal Crafters.

Circle No. A206 on reply card, p. 18.

THREE LINES of ornamental iron, to meet every budget requirement, are illustrated in this 21-page catalog. Standard designs of railings, columns and brackets for practical and decorative use.—Tennessee Fabricating Co.

Circle No. A207 on reply card, p. 18.

LOOSE LEAF FILE of reference data on the use of ornamental iron work. Included in these 28 pages are price tables for quick estimating of grilles, railings, posts, brackets and valances.—The R. G. Coffman Co., Inc.

Circle No. A208 on reply card, p. 18.

ORNAMENTAL COLUMNS of aluminum or steel, all prefabricated, for supporting patio or terrace canopies are described in this literature.—The Astrup Co.

Circle No. A209 on reply card, p. 18.

Weatherstripping

SASH BALANCES AND WEATHERSTRIPPING of all types for wood or metal doors and windows are described in this 80-page catalog and data book. Gives complete specifications and installation data.—Master Metal Strip Service.

Circle No. A210 on reply card, p. 18.

"THANKS FOR ASKING" brochure explains metal-backed and plastic-backed woven pile weatherseal available in hundreds of shapes. Proven for all types of windows and doors.—Schlegel Mfg. Co.

Circle No. A211 on reply card, p. 18.

COMPLETE WEATHERSTRIPPING information presented in 15-page catalog. Illustrates and describes weatherstripping for modern prefab double-hung windows. Installation diagrams and price information.—W. J. Dennis & Co.

Circle No. A212 on reply card, p. 18.

HOW QUALITY WINDOWS "sell" the home buyer, subject of an 8-page booklet from Zeger, explains importance of quality windows and illustrates proper weatherstripping. Highlights Dura-seal and complete sash which snaps in and out easily.—Zegers, Inc.

Circle No. A213 on reply card, p. 18.

PACKAGED WEATHERSTRIPPING for windows and doors is described in these data sheets. E-Z-On interlocking weatherstrip is made in zinc and bronze. Price lists are included.—Robert N. Baltz & Co.

Circle No. A214 on reply card, p. 18.

Appliances, Electrical, Heating & Cooling, Plumbing

Appliances, kitchen & laundry

COUNTERTOP cooking units and built-in ovens, either gas or electric, are shown in this brochure. Features four porcelain color finishes and chrome.—Welbilt Corp.

Circle No. A215 on reply card, p. 18.

KITCHEN BUILT-INS included in this catalog feature ranges and ovens, refrigerators and freezers and a line of ventilating range hoods. All units are available in matching colors.—Preway, Inc.

Circle No. A216 on reply card, p. 18.

BUILT-IN RANGES and ovens for gas are fully illustrated in this brochure. Specifications, features and rough-in dimensions are given for the firm's complete line.—Dixie Products, Inc.

Circle No. A217 on reply card, p. 18.

FREE-STANDING GAS RANGE specification sheets are available on 20, 30 and 36 inch ranges suitable for both low-cost housing and luxury homes.—Brown Stove Works, Inc.

Circle No. A218 on reply card, p. 18.

APPLIANCES for kitchen and laundry are illustrated with complete specifications and dimensional data in this new 16-page catalog. In addition to built-in cooking units, refrigerators, laundry equipment and dishwashers are shown.—Westinghouse Electric Corp.

Circle No. A219 on reply card, p. 18.

FREEZER AND refrigerator units designed for building into kitchen walls are identical in size. May be stacked, vertically or horizontally, or located in different parts of the kitchen. This brochure illustrates the line with complete specifications.—Ben-Hur Mfg. Co.

Circle No. A220 on reply card, p. 18.

BUILT-IN COOKING UNITS, both gas and electric are featured in this 4-color folder. Special emphasis is given to the new "Super Thin" drop-in cooking tops.—Tennessee Stove Works.

Circle No. A221 on reply card, p. 18.

APPLIANCES, built-in ranges, incinerators, dryers, dishwashers and space heaters. All are cataloged in these specification sheets contained in a portfolio.—Cribben & Sexton Co.

Circle No. A222 on reply card, p. 18.

BARBECUES BUILT IN the kitchen provide a brand new sales feature. This brochure describes the various types available with complete specifications and dimensions. Also includes data on accessories available for outdoor fireplaces.—Burr-Southern Corp.

Circle No. A223 on reply card, p. 18.

ELECTRONIC COOKING is described in these specification sheets and catalogs. Also contain information on firm's line of built-in gas and electric ovens and cooking tops.—The Tappan Stove Co.

Circle No. A224 on reply card, p. 18.

SUGGESTED KITCHEN arrangements to make use of built-in ranges and ovens are a feature of this 6-page, 3-color folder. Included are specifications and installation details.—Hardwick Stove Co.

Circle No. A225 on reply card, p. 18.

WIFE-SAVER FEATURES folder describes the Suburban line of built-in gas and electric ovens and cook tops. Specifications and rough-in dimensions are also included.—Samuel Stamping and Enameling Co.

Circle No. A226 on reply card, p. 18.

GAS RANGE FEATURE, Roast-O-Grill, is described in a colorful 4-page brochure. Among cooking features described are convenience, extra cooking capacity and automatic top burner control.—George D. Roper Corp.

Circle No. A227 on reply card, p. 18.

COUNTERTOP COOKING units and built-in ovens for gas are described in this 4-page brochure. Gives rough-in dimensions, specifications, and colors and finishes for all models.—Caloric Appliance Corp.

Circle No. A228 on reply card, p. 18.

INTERCHANGEABLE UNITS in either gas or electric are featured in this brochure on built-in ranges and ovens. Gives complete specifications and rough-in dimensions for all models.—Oakland Foundry Co.

Circle No. A229 on reply card, p. 18.

AUTOMATIC DISHWASHERS for homes are described in this literature. A long-time manufacturer of commercial dishwashing

equipment, this firm now features an undercounter type as well as a model to be built in at counter height.—The Hobart Mfg. Co.

Circle No. A230 on reply card, p. 18.

EYE-LEVEL DISHWASHER as well as "stack-on" and "under-counter" types are presented in this 4-page catalog. "Eye-level" model hangs on wall, uses the sink drain, can be portable or permanently installed in wall space.—Tracy Mfg. Co.

Circle No. A231 on reply card, p. 18.

GARBAGE DISPOSERS for homes as well as commercial buildings are illustrated in this new 12-page catalog. Gives complete specifications and rough-in dimensions for all models.—In-Sink-Erator Mfg. Co.

Circle No. A232 on reply card, p. 18.

PACKAGED INCINERATORS for homes and commercial buildings are described in this literature. Catalogs metal parts for masonry incinerators and metal shell types.—Brule Incinerator Corp.

Circle No. A233 on reply card, p. 18.

GAS GARBAGE DISPOSER is completely automatic. When unit is "on" door locks and does not release until burning cycle is completed. Brochure gives full details.—Caloric Appliance Corp.

Circle No. A234 on reply card, p. 18.

Attic fans

COOLING AND VENTILATING with attic fans is discussed in this brochure. Specifications are given for this firm's complete line of residential, commercial and industrial fans.—American Coolair Corp.

Circle No. A235 on reply card, p. 18.

ATTIC FANS for both vertical and horizontal installation are described in these folders. Complete specifications and installation data are given.—Air Controls, Inc.

Circle No. A236 on reply card, p. 18.

BREEZEBUILDER FANS for attic installation are available in both vertical and horizontal installation. This brochure gives data on all models with complete details on building an attic suction box.—Bar-Brook Mfg. Co., Inc.

Circle No. A237 on reply card, p. 18.

Baseboard heating

TRIMLINE RADI-VECTOR baseboard radiation is discussed in this new 12-page catalog. Gives all dimensional data, sizing charts and installation instructions.—The Vulcan Radiator Co.

Circle No. A238 on reply card, p. 18.

RADIANT HEATING with Base-Ray units are described in this literature. These baseboard radiators are adaptable to hot-water, vapor or steam. Also includes literature on boilers and air conditioning equipment.—Burnham Corp.

Circle No. A239 on reply card, p. 18.

PERIMETER HEATING with baseboard panels is the subject of this brochure. Perim-a-base units give maximum air distribution and are designed to be used also with air conditioning.—Berger Furnace Corp.

Circle No. A240 on reply card, p. 18.

STEAM AND HOT WATER heating equipment made for residential and commercial buildings is illustrated in this catalog. Convectors and baseboard radiators, unit heaters and heating specialties are thoroughly described.—Dunham-Bush, Inc.

Circle No. A241 on reply card, p. 18.

ALUMINUM FINNS are a feature of these baseboard heating units. Each standard six-foot section has a total radiation of 21.15 sq. ft.—Ejay Baseboard Mfg. Co.

Circle No. A242 on reply card, p. 18.

ANSWERS YOUR QUESTIONS about heating comfort and economy with baseboard radiation. This bulletin gives descriptive data on this firm's full line of heating units.—Rittling Corp.

Circle No. A243 on reply card, p. 18.

Bathroom accessories

VISTA-VUE is a new bathroom cabinet line which features double mirrored doors which slide or swing into position for reflection from any angle. This literature package also gives details on line of sliding door medicine cabinets.—Mirro-Chrome Co., Inc.

Circle No. A244 on reply card, p. 18.

HOW TO ADD CONVENIENCE with towel bars, rings, bath accessories . . . presented in 12-page catalog. Highlights space-saver towel rings and recessed fixtures.—General Chrome.

Circle No. A245 on reply card, p. 18.

BATHROOM CABINETS, wall-hung mirrors and chrome-plated bathroom accessories are cataloged in this literature package. Gives installation methods in detail and helpful hints on the selection of bathroom accessories.—The F. H. Lawson Co.

Circle No. A246 on reply card, p. 18.

BATHROOM LUXURY is possible with the sliding-door cabinets shown in this literature. In addition, the standard line of hinged-door medicine cabinets and bathroom accessories are shown.—The Grote Mfg. Co.

Circle No. A247 on reply card, p. 18.

Chimes & bells

ENTRANCE CHIMES for the home are described in full detail in this colorful brochure. A wide selection is offered, from small kitchen or hall model to 4-tube chimes.—Edwards Co., Inc.

Circle No. A248 on reply card, p. 18.

NON-ELECTRIC DOOR CHIME combines a one-way mirror for viewing callers. Literature shows firm's entire line of door viewers.—The Dooroscope Co.

Circle No. A249 on reply card, p. 18.

Electric heating

ELECTRICALLY ENERGIZED baseboard hot water heat is one of the newest products of International. Each unit has its own heating element and hot water coil and may be individually controlled.—International Oil Burner Co.

Circle No. A250 on reply card, p. 18.

RADIANT CEILING HEAT by Sunwarm . . . a 12-page fully illustrated catalog. Photographs, drawings, cost charts, together with important questions and answers on the uses and advantages of electric radiant heating. All in this book on "indoor sunshine."—Sunwarm Inc.

Circle No. A251 on reply card, p. 18.

HEATING AND COOLING with an electric heat pump provides individual comfort control for each room. This brochure describes the Percojet system with illustrations, specifications and details.—Electric Heating & Cooling, Inc.

Circle No. A252 on reply card, p. 18.

GLASS PANELS used for electric heating are described in this 8-page bulletin. Shows, in photos and de-

tail drawings, types to fit any requirement such as wall and ceiling units and baseboard panels.—Berko Electric Mfg. Co.

Circle No. A253 on reply card, p. 18.

ELECTRIC HEATING is the subject of this brochure. Shows the advantages, with full specifications, of the complete line of baseboard and ceiling heating equipment.—Ampere Industries.

Circle No. A254 on reply card, p. 18.

FORCED AIR ELECTRIC heating is possible with use of the units described in this folder. Designed to be built into the stud space, this system uses the counterflow principle to deliver warm air at the floor level.—Electrend Products Corp.

Circle No. A255 on reply card, p. 18.

ELECTRIC HEATERS . . . Baseboard, fan and radiant wall-mounted, ceiling cable, floor drop-ins, duct heaters and thermostats. All are illustrated in portfolio of Chromalox products.—Edwin L. Wiegand Co.

Circle No. A256 on reply card, p. 18.

Electrical wiring & lighting

LUXTROL light controls provide positive dimming of lights for either residential or commercial installations. Literature offers application suggestions and wiring instructions for incandescent and fluorescent lamps.—The Superior Electric Co.

Circle No. A257 on reply card, p. 18.

ELECTRICAL WIRING devices made for industrial, commercial and residential use are cataloged in this new book.—Leviton Mfg. Co., Inc.

Circle No. A258 on reply card, p. 18.

PLUGMOLD BASEBOARD provides multiple electrical outlets and additional circuits where needed. The advantages of this product in residential and commercial buildings are discussed and illustrated in this folder.—The Wiremold Co.

Circle No. A259 on reply card, p. 18.

INSPIRATIONAL LIGHTING is the subject of over 50 pages of lighting and fixture ideas. Illustrates in color how decorative light, created by combinations of fixtures, enhances room beauty. Information given on complete line.—Moe Lighting.

Circle No. A260 on reply card, p. 18.

WIRING FOR TV in new homes or existing motels, apartments, etc., suggested in this 4-page brochure. Complete line of TV lead-in accessories, antenna systems pictured and described together with typical specifications needed by builders.—Mosley Electronics Inc.

Circle No. A261 on reply card, p. 18.

RECESSED FIXTURES, both pre-wired and unwired Atlite models, described in this brochure. Detailed are six sizes of recessed fixtures in a variety of glasses, including Skytex, Albalite, Beaded bent glass, Fresnel lens.—Atlas Electric Products Co.

Circle No. A262 on reply card, p. 18.

LIGHTING FIXTURES for every room in the home are illustrated in this new catalog.—Jay Lighting Mfg. Co., Inc.

Circle No. A263 on reply card, p. 18.

LIGHTING REQUIREMENTS for small, average, and large home living areas are included in the revised 1958 edition of the "Light for Living Standards."—American Home Lighting Institute.

Circle No. A264 on reply card, p. 18.

General heating & air conditioning

RADIANT HOT WATER HEAT has many advantages in home heating. This 52-page booklet contains technical information, details on various applications.—H. A. Thrush & Co.

Circle No. A265 on reply card, p. 18.

SONOAIRODUCT is a round fibre tube specifically developed for loop and radial perimeter heating systems. Full details for proper installation, with sizes and lengths available, given in this brochure.—Sonoco Products Co.

Circle No. A266 on reply card, p. 18.

FOIL-LINED FIBRE DUCTS for radial or perimeter heating systems develop highest efficiency air flow. This is due to the reflective and low emissivity factors of the aluminum foil. Brochure gives full specifications on this product and many helpful installation hints.—Fibre Duct Div., International Oil Burner Co.

Circle No. A267 on reply card, p. 18.

DIFFUSERS and accessories for all-air high velocity as well as conventional air conditioning systems

are presented in this 80-page manual.—Anemostat Corp. of America.

Circle No. A268 on reply card, p. 18.

SPECIFICATIONS and roughing-in diagrams on 26 different types of warm air heating and summer air conditioning equipment are given in this 32-page catalog.—American-Standard, Air Conditioning Div.

Circle No. A269 on reply card, p. 18.

PACKAGED HEATING and cooling equipment designed for all types of homes, climates and budgets in one convenient catalog. Also includes data on manufacturer's pre-engineered duct system.—The Coleman Co., Inc.

Circle No. A270 on reply card, p. 18.

HOME COMFORT with adequate heating and air conditioning equipment is possible with firm's products. Extensive line offers a unit for every heating and cooling demand. Literature includes complete specification sheets.—Bryant Mfg. Co.

Circle No. A271 on reply card, p. 18.

GAS AND OIL FIRED heating equipment as well as residential air conditioners are cataloged in this loose leaf binder. Furnace line includes, in addition to gravity and forced air basement units, counterflow and horizontal type furnaces.—Mayflower Air-Conditioners, Inc.

Circle No. A272 on reply card, p. 18.

COAL-FIRED FURNACES for forced air heating are described in this literature. These units, in addition to the conventional blower for heat distribution, have a built-in stoker for burning Anthracite coal.—Dallas Engineers, Inc.

Circle No. A273 on reply card, p. 18.

WARM AIR FURNACES, both gas and oil, of all types—utility, basement, counterflow and horizontal models—are described in this attractive literature. Also included are complete specifications on matched central cooling apparatus to be used with all of these forced air furnaces.—Century Engineering Corp.

Circle No. A274 on reply card, p. 18.

MR. BUILDER is the title of this booklet on heating and cooling equipment that can help you sell your homes. Includes promotion and sales ideas.—Armstrong Furnace Co.

Circle No. A275 on reply card, p. 18.

QUALITY TWINS are the new gas-fired forced air winter air conditioners offered in this brochure. Approved for closet installation, these units are available for counterflow or up-flow heating.—Empire Stove Co.

Circle No. A276 on reply card, p. 18.

ESPECIALLY FOR BUILDERS. new catalog from Westinghouse covers latest model air conditioners for every installation. Lists capacities and specifications. Suggests with pictures and detail diagrams a unit for every type of house.—Westinghouse.

Circle No. A277 on reply card, p. 18.

UNIT AIR CONDITIONER for through-the-wall installation is only 16½ inches thick and features automatic temperature control. This brochure gives rough-in dimensions and other important specifications on the four different models available.—King Refrigerator Corp.

Circle No. A278 on reply card, p. 18.

COOLING TOWERS that allow 95% of the total circulated water to be reused are described in this literature. Features a 20-year guarantee on the wetted deck surface—against rotting or fungus attack.—Halstead & Mitchell

Circle No. A279 on reply card, p. 18.

GAS FIRED heating equipment, air conditioning units and water heaters are all illustrated in this brochure. Gives specifications and performance data for all models.—Temco, Inc.

Circle No. A280 on reply card, p. 18.

SNOW MELTING, and how to accomplish it, is the subject of this illustrated booklet. A pioneer in this field draws from vast technical files to explain automatic snow removal.—A. M. Byers Co.

Circle No. A281 on reply card, p. 18.

Kitchen cabinets

COMPLETE KITCHENS, including cabinet sinks, base and wall cabinets are illustrated in this portfolio. Included also are specification sheets on dishwashers, food waste disposers and built-in ranges and ovens.—Youngstown Kitchens Div., American-Standard.

Circle No. A282 on reply card, p. 18.

"KITCHEN SKETCHBOOK" is a 16-page catalog. Highlights a new group of idea kitchens using Triple-H kitchen line.—Kitchen Maid Corp.

Circle No. A283 on reply card, p. 18.

"HIRE A KITCHEN Specialist," an 8-page catalog which describes design, installation and decoration service for builders. Includes full color photos of special kitchen features, sketches of "design original" kitchens and complete specifications of hardwood kitchen units.—Mutschler Bros.

Circle No. A284 on reply card, p. 18.

KITCHEN CABINET specifications and details are given in this brochure. Units of selected red birch are finished inside and out with a baked-on lacquer. Also included is this firm's line of bathroom vanity cabinets.—Kitchen Kompact, Inc.

Circle No. A285 on reply card, p. 18.

IDEA KITCHEN plan done with Western Pine paneling is available in a 4-page folder. Dimensional floor plan and three side elevations included with information and special notes on equipment and accessory ideas. Single copies free of charge.—Western Pine Assn.

Circle No. A286 on reply card, p. 18.

STEPS TO TAKE in planning new or remodeled kitchens, using Beauty-Queen all steel cabinets are shown in this folder.—Toledo Desk & Fixture Co.

Circle No. A287 on reply card, p. 18.

UNIT KITCHENS for apartments, motels, cottages and many other uses are detailed in this folder. Units contain stove, refrigerator and sink, require as little as 5.4 sq. ft. Finishes may be white or natural wood grain.—General Air Conditioning Corp.

Circle No. A288 on reply card, p. 18.

LIVING KITCHENS of natural fruitwood finish, with many work-saving built-in features, are described in detail in this literature. Also gives information on Brammer's new builder service.—Brammer Mfg. Co.

Circle No. A289 on reply card, p. 18.

WOOD KITCHEN CABINETS in platinum or natural birch as well as a line of decorator colors are illustrated in this 12-page booklet. Full color photographs of actual kitchen installations with complete specifications and planning information.—The Mengel Co.

Circle No. A290 on reply card, p. 18.

STEEL KITCHEN cabinets permit custom designed kitchens with standard units. Literature gives

complete specifications and data including colors and wood fronts.—Geneva Modern Kitchens.

Circle No. A291 on reply card, p. 18.

Plumbing fixtures & fittings

"SALES BUILDERS for Home Builders," a complete sales kit, is offered by Crane. Featured is a booklet of 66 useful ideas to help builders attract prospects to model homes, turn prospects into buyers. All sorts of other sales aids.—Crane Co.

Circle No. A292 on reply card, p. 18.

HOW TO BUILD bathroom appeal into homes is subject of 14-page catalog from Gerber. Idea photos show installation methods, before and after shots. Covers complete line featuring quality, style, beauty, and dependability.—Gerber Plumbing Fixtures.

Circle No. A293 on reply card, p. 18.

BATHING BEAUTIES by Alliance Ware is a 16-page, 4-color catalog that covers the firm's complete line of bathtubs, lavatories, water closets and sinks. Contains many bathroom plans, decoration schemes and designs to aid builder in selecting and merchandising fixtures.—Alliance Ware Inc.

Circle No. A294 on reply card, p. 18.

BATHROOM VANITIES in eight color combinations are shown in this literature. Specifications are given on the Lavanette (36-inches wide) and the Vanette (48-inches wide).—Toledo Desk & Fixture Co.

Circle No. A295 on reply card, p. 18.

A COLOR GUIDE to bathroom design and decoration is a new brochure which gives detailed information on room layout and decorating. Also included in the catalog: specification sheets and color charts for firm's line of plumbing fixtures.—Briggs Mfg. Co.

Circle No. A296 on reply card, p. 18.

TEN-SECTION BOOK contains illustrations, specifications, and rough-ins on the lavatories, bath tubs, water closets, sinks. All of vitreous china or enameled cast iron.—Richmond Plumbing Fixtures Div.

Circle No. A297 on reply card, p. 18.

VITREOUS CHINA plumbing fixtures are illustrated in this new 1958 catalog. Included are rough-in measurements for water closets, lavatories, drinking fountains and

urinals. Colors of all manufacturers are shown as well as fixtures specifically for homes.—Case Manufacturing Corp.

Circle No. A298 on reply card, p. 18.

PLUMBING WARE in a wide range of colors is shown in this folder. Water closets, lavatories, sinks and tubs are illustrated with specifications and rough-in dimensions.—Chicago Pottery Co.

Circle No. A299 on reply card, p. 18.

SINKS AND LAVATORIES of stainless steel are featured in this brochure. Illustrates, with rough-in dimensions, standard sizes of drain-board tops as well as individual sink bowls. Also explains the availability of built-to-order sinks and counters.—Just Mfg. Co.

Circle No. A300 on reply card, p. 18.

STAINLESS STEEL SINKS for domestic and commercial use are illustrated and described in this literature. Also available is a new envelope stuffer that illustrates firm's most popular models.—Carrollton Mfg. Co.

Circle No. A301 on reply card, p. 18.

NEW BEAUTY for utility or laundry rooms is now possible with the Wesglas tub of Fiberglas. Units are designed to match modern laundry appliances. Brochure and price lists to builders.—Wessels Co.

Circle No. A302 on reply card, p. 18.

SAFER SHOWERS with this thermostatic control valve is now possible. The Hydroguard protects the bather against sudden changes in water temperature, regardless of any change in the hot or cold water supply. This 8-page booklet tells all about it.—The Powers Regulator Co.

Circle No. A303 on reply card, p. 18.

SINGLE LEVER mixing faucets and valves for new home construction, commercial and replacement applications are shown in this 4-page brochure.—Gyro Brass Mfg. Corp.

Circle No. A304 on reply card, p. 18.

SINKS of stainless steel, in both double and single bowl sizes, are shown in this brochure. Gives all rough-in dimensions and specifications.—Jensen Thorsen Corp.

Circle No. A305 on reply card, p. 18.

SINGLE HANDLE FAUCETS for bathroom and kitchen are illustrated in this brochure. These fau-

cets feature positive water temperature and volume control with only one moving part.—Masco Screw Products Co.

Circle No. A306 on reply card, p. 18.

BATH TUB HANGERS prevent cracks around the fixture and consequent leaking and maintenance expense. This literature gives information, specifications and installation data on this product.—William B. Lucke, Inc.

Circle No. A307 on reply card, p. 18.

PROTECTION for the bathtub during construction is described in this literature. Explains three types: a pre-cut corrugated box board, a vinyl plastic flexible film, and a gummed-backed kraft paper.—Protectub, Inc.

Circle No. A308 on reply card, p. 18.

Radios & intercoms

ADD AN INTERCOM system easily with help of Fanfare's new Twin FX-2 system. Leaflet describes various possible uses of this two-station set-up in home, between home and garage, in offices or shop. Specifications and instructions for quick and easy installation.—Fanon Electric Co.

Circle No. A309 on reply card, p. 18.

THE TALK-A-PHONE is an all-transistor home intercom-radio system. Literature describes features and specifications of various combinations with prices.—Talk-A-Phone Co.

Circle No. A310 on reply card, p. 18.

HI-FI MUSIC systems combined with intercommunication are illustrated in this brochure. Also features clock control for turning appliances on or off.—Music and Sound, Inc.

Circle No. A311 on reply card, p. 18.

MUSIC IN EVERY ROOM is possible with the built-in radios described in these data sheets. Shows master sets with extension speakers and the firm's new models of radio-intercom combination units.—Flush Wall Radio Co.

Circle No. A312 on reply card, p. 18.

MUSICAL combinations feature both AM and FM radio. All models permit the use of intercom between remote stations. This colorful literature describes firm's entire line.—MusiCall Corp.

Circle No. A313 on reply card, p. 18.

Range hoods & fans

KITCHEN VENTILATORS and hoods are described in full detail in this 12-page brochure. Also includes data and specifications on bathroom ventilators, lights and electric wall heaters.—Trade-Wind Motorfans, Inc.

Circle No. A314 on reply card, p. 18.

KITCHEN EQUIPMENT brochure shows three range hood models, five built-in clocks and a dispenser for paper towels, foil and wax paper. All can be built-in.—Swanson Mfg. Co.

Circle No. A315 on reply card, p. 18.

GOOD VENTILATION in the kitchen is possible with the combination range hood and fan unit illustrated in this NuTone brochure. Also includes literature on bathroom fans, kitchen food center and attractive line of door chimes.—NuTone, Inc.

Circle No. A316 on reply card, p. 18.

VENTILATING FANS and accessories for kitchen, bath and laundry are shown in this 16-page catalog. Included also is specification data on firm's line of range hoods with built-in blower-type exhaust fan.—Miami Cabinet Div., Philip Carey Mfg. Co.

Circle No. A317 on reply card, p. 18.

RANGE HOODS and kitchen fans are illustrated in this literature. Shows the most economical methods of installation with dimensional data and illustrations of all available models.—Berns Air King Corp.

Circle No. A318 on reply card, p. 18.

COOL KITCHENS are possible with the ventilating range hoods described in this 8-page booklet. Illustrates both standard and custom Rangaire hoods; gives prices.—Roberts Mfg. Co.

Circle No. A319 on reply card, p. 18.

ELECTRONIC AIR CLEANER reduces housecleaning time and protects the family health. The Dustronic unit described in this brochure removes, by electrostatic action, all dust and other impurities from the air.—Radex Corp.

Circle No. A320 on reply card, p. 18.

Tub & shower enclosures

TECHNICAL CATALOG describes the installation procedures plus time- and money-saving features of pre-cast terrazzo shower floors and packaged shower cabinets.—Fiat Metal Mfg. Co.

Circle No. A321 on reply card, p. 18.

TUB AND SHOWER enclosures provide added utility as well as beauty to the bath. This brochure illustrates and gives complete specifications for firm's line of glass enclosures. Fit every tub or shower requirement.—Anoroc Products, Inc.

Circle No. A322 on reply card, p. 18.

CABINET SHOWERS, glass doors and receptors are illustrated with specifications in this 20-page catalog. Helpful ideas for planning master or second bath in new or remodeled homes.—Henry Weis Mfg. Co., Inc.

Circle No. A323 on reply card, p. 18.

CUSTOM-MADE shower doors, tub enclosures and stall showers are illustrated in this catalog. Also included are details of firm's bathroom accessories, decorated basins.—Lehman Sprayshield Co.

Circle No. A324 on reply card, p. 18.

PERMALUME shower enclosures are illustrated in this 4-page folder. Includes sections on special features, sand-carved designs plus sketches of standard models.—Shower Door Company of America.

Circle No. A325 on reply card, p. 18.

CUSTOM DESIGN and stock sizes of tub enclosures and shower doors, available for all types of installation, are shown in this complete catalog. The different types of framing are illustrated. Catalog also gives finishes and measuring instructions.—Beauti-Dor, Inc.

Circle No. A326 on reply card, p. 18.

Wall & floor furnaces

OIL BURNING wall furnace, offered by International, has a dual use. May be installed as a room unit or, with ducts added, may be used as a central system for perimeter heating. Brochure on the R-70 gives complete specifications.—International Oil Burner Co.

Circle No. A327 on reply card, p. 18.

WALL AND FLOOR FURNACES for economical heating requirements are illustrated in this literature. Gives specifications and installation details.—King Stove & Range Co.

Circle No. A328 on reply card, p. 18.

THE REGULAIRE STORY is the title of this little booklet. It explains a warm air heating system that is controlled by the blower. It delivers just the right amount of heat needed at all times.—Perfection Industries, Inc.

Circle No. A329 on reply card, p. 18.

BUILT-IN gas wall furnaces are illustrated in this folder. Shows both forced air counter-flo and gravity models. Also included is descriptive data on Samco floor furnaces with built-in draft diverter.—Samuel Stamping and Enameling Co.

Circle No. A330 on reply card, p. 18.

WALL HEATERS for single or dual installation are part of this literature package. Also includes specifications and data on firm's line of forced air gas-fired furnaces.—Day & Night Mfg. Co.

Circle No. A331 on reply card, p. 18.

RECESSED WALL HEATERS that feature a snap-in blower unit are illustrated in this literature. Also given are specifications on firm's horizontal model central heating systems.—Chattanooga Royal Co.

Circle No. A332 on reply card, p. 18.

Water heaters & softeners

BOILERS AND WATER HEATERS designed for every domestic need are described in these loose leaf literature sheets. In addition to descriptions, full dimensions and specifications of all models are furnished.—L. O. Koven & Bro., Inc.

Circle No. A333 on reply card, p. 18.

AUTOMATIC WATER HEATERS for every residential need are illustrated in these loose leaf file sheets. In addition to standard and compact models the Water-Air unit is shown. This model has the added feature of heating the room in which it is installed.—Handley-Brown Heater Co.

Circle No. A334 on reply card, p. 18.

THERMADOR glass-lined electric water heaters are described in this colorful brochure. Gives operating features, performance data and technical information.—A. J. Lindemann & Hoverson Co.

Circle No. A335 on reply card, p. 18.

ALUMILUX is the trade name for C & L aluminum water heater. The features and performance data on the various models are all explained in this brochure.—Clayton & Lambert.

Circle No. A336 on reply card, p. 18.

COMPLETE DATA on automatic and manually operated water softeners and filters are covered in this catalog. Tells how to select the right equipment for homes and small commercial use.—Elgin Softener Corp.

Circle No. A337 on reply card, p. 18.

Water supply & drainage

WATER PUMP selection and check charts are only a part of this literature. Shows the various pumps available and how they will perform to give the best satisfaction.—The Tait Mfg. Co.

Circle No. A338 on reply card, p. 18.

GUIDE TO WATER SYSTEMS describes three systems: shallow, deep and convertible for specific applications. Contains easy-to-read charts, specifications on "hidden value" water pumps. Goulds Pumps, Inc.

Circle No. A339 on reply card, p. 18.

SUBMERSIBLE SUMP PUMP described in this literature is designed to operate under water. It has a capacity of 2650 gal. per hr. under a 12 ft. head. A brochure on firm's line of adjustable shower fittings is also included.—Milwaukee Faucets, Inc.

Circle No. A340 on reply card, p. 18.

SUMP PUMPS with capacities of 3,200 gallons per hour are illustrated in this literature. Complete line includes standard types as well as submersible pumps.—Barnes Mfg. Co.

Circle No. A341 on reply card, p. 18.

MODERN PIPE for economical non-pressure sewer systems described in 8-page technical brochure. Lists sizes, types of asbestos-cement pipe plus its hidden values. Presents features of exclusive fluid-tight coupling. Keasby & Mattison Co.

Circle No. A342 on reply card, p. 18.

BUILT-IN JOINTS for clay sewer pipe is now available. This brochure describes the Amvit joint which eliminates the need for cement and assures perfect alignment of tile lines.—American Vitri-fied Products Co.

Circle No. A343 on reply card, p. 18.

KING-SIZE LENGTHS of vitrified clay sewer pipe with factory-made joints are discussed and illustrated in this new brochure. Also detailed are the benefits of using clay pipe in home construction.—The Logan Clay Products Co.

Circle No. A344 on reply card, p. 18.

DESIGN PLANS and area recommendations for approved septic tank drainage fields are offered in this literature. Includes backfilling information.—The Bowerson Shale Co.

Circle No. A345 on reply card, p. 18.

FIBRE PIPE: Complete information relative to the use of bituminized fibre pipe for house to sewer and septic tank connections is included in this catalog.—Brown Co., Bermico Div.

Circle No. A346 on reply card, p. 18.

PREFAB PLUMBING assemblies made in standard models to fit numerous basic bathroom plans. Unit comes complete, ready to anchor in place.—Apsco of Indiana, Inc.

Circle No. A347 on reply card, p. 18.

Tools & Construction Equipment

Concrete forming & placing equipment

PLYWOOD FORMS, which require no backing, are lightweight, easy to transport and store. They can be built from the construction information given in this bulletin. Also gives complete job erection and dismantling instructions.—Gates & Sons, Inc.

Circle No. A348 on reply card, p. 18.

SONOTUBE fibre forms provide a fast, economical method of forming round columns of concrete. This literature gives application, technical data, sizes and weights.—Sonoco Products Co.

Circle No. A349 on reply card, p. 18.

OUTSTANDING FEATURES of these self-aligning concrete wall forms are illustrated and explained

in a 12-page brochure.—Waco Mfg. Co.

Circle No. A350 on reply card, p. 18.

STREAMLINED FOR SPEED of erection is the forming system described in this 8-page booklet. Features a built-in metal waler, special corner form and wall aligners.—Rocform Corp.

Circle No. A351 on reply card, p. 18.

CONCRETE PLACING is made easy with the equipment shown in this new catalog. Gives information on the Roto-Trowel, vibrators and vibrating screeds, and portable concrete grinders.—Stow Mfg. Co.

Circle No. A352 on reply card, p. 18.

CONSTRUCTION EQUIPMENT, including batching plants, mixers, forms, pumps and concrete placement apparatus is described in these catalogs and descriptive literature.—Chain Belt Co.

Circle No. A353 on reply card, p. 18.

MIXING AND SPRAYING concrete, mortar and plaster is possible with the equipment described in this literature. Mobile units are gasoline-engine driven. Specifications as well as price information are given.—Sprayton Equipment Co.

Circle No. A354 on reply card, p. 18.

Excavating equipment

HERE'S A BACKHOE ATTACHMENT for tractors that is hydraulically operated and will cut your digging costs. This new power digger is described fully in this catalog with job photos and specifications.—Sherman Products, Inc.

Circle No. A355 on reply card, p. 18.

MULTI-PURPOSE tractor-mounted Tiller-Rake scarifies, blades, grades, pulverizes and finish-rakes. Turns rough graded lots into perfect lawn seed beds in a matter of minutes.—Roseman Tractor Equipment Co.

Circle No. A356 on reply card, p. 18.

TRUCK CRANE EXCAVATORS in 1/2 and 3/4 cubic yard units feature mobility and are described in this literature. Also illustrates firm's line of 12½-, 15- and 22½-ton cranes.—American Hoist & Derrick Co.

Circle No. A357 on reply card, p. 18.

TRACTOR ATTACHMENTS for digging holes and driving posts are illustrated in these data sheets. Also give information on an all-purpose blade attachment for economical earth moving.—Danuser Machine Co.

Circle No. A358 on reply card, p. 18.

TAMPING EQUIPMENT for all types of earth, rock, gravel and blacktop work is illustrated and explained in this literature.—Jay Co.

Circle No. A359 on reply card, p. 18.

EXCAVATING EQUIPMENT for every need is illustrated in this literature package. Includes a variety of units for tractor attachment as well as small trenchers which are self-propelled.—Shawnee Mfg. Co., Inc.

Circle No. A360 on reply card, p. 18.

VERSATILITY and ruggedness are the important features of the new line of tractor attachments for every earth-moving and material handling job. These colorful brochures show the Davis loaders and back-hoes with complete specs and data. Show various bucket, blade and lift attachments.—Massey-Harris-Ferguson Industrial Div.

Circle No. A361 on reply card, p. 18.

TRACTOR ATTACHMENTS such as backhoes, dozer blades, fork lifts, loaders and other material handling equipment are all shown with specifications in this colorful brochure.—Henry Mfg. Co.

Circle No. A362 on reply card, p. 18.

Hand tools

FASTENING TOOL requires only a hammer blow to drive stud pins into masonry, concrete or steel. Literature and price sheet on this tool and accessories is available.—Fastway Fasteners, Inc.

Circle No. A363 on reply card, p. 18.

SHURE-SET, the hammer-in fastening tool, drives like a nail, holds like an anchor into concrete or masonry. No drilling or plugging required.—Ramset Fastening System.

Circle No. A364 on reply card, p. 18.

STUD DRIVERS actuated by cartridge-type power loads are described in this literature. Shows how this tool can be used to anchor steel to steel; wood to steel; wood or steel to concrete.—Remington Arms Co., Inc.

Circle No. A365 on reply card, p. 18.

THE HOUSE THAT Stanley built is the title of this new product brochure. Describes the use of this firm's line of tools and hardware in the construction of a model home.—Stanley Hardware Works.

Circle No. A366 on reply card, p. 18.

COATED ABRASIVES describes this firm's line of abrasive-coated sheets, rolls, belts, discs, floor-sanding items and specialties. Catalog includes technical information, grading charts and other data.—Clover Mfg. Co.

Circle No. A367 on reply card, p. 18.

HARDBOARD BEVELER is a redesigned model of the famous Bevel Devil which will bevel the edges of any type hardboard, tempered or standard.—Kimball Mfg. Co.

Circle No. A368 on reply card, p. 18.

BUILDERS' TOOLS ranging from hand tools to power equipment are included in 1958 tool catalog. Extensive 92-page book "covers the market," introducing new tools, showing wider lines. Includes dry-wall finishing tools, new masonry guide, new plasterer's hand tools, revamped section on contractor's tools and equipment.—Goldblatt Tool Co.

Circle No. A369 on reply card, p. 18.

PERFECT HOLES in gypsum wallboard for electrical outlets are possible with this handy tool called Quic-Kutter. The retail price is \$19.95 and full information on its use is given in this brochure.—Hartmeister Mfg., Inc.

Circle No. A370 on reply card, p. 18.

BUCK-UPS are all-metal, adjustable braces for accurate setting of metal door and window frames. Literature and prices are available.—Sinclair Industries Inc.

Circle No. A371 on reply card, p. 18.

HOLE SAWS for wood or metal cutting are made in fractional diameters from 5/8 inch to 15 inches. This brochure lists all available sizes with prices.—Misener Mfg. Co., Inc.

Circle No. A372 on reply card, p. 18.

Hoisting & conveying equipment

TUSKY HOIST is a mobile type of power elevator, with platform, for hoisting building materials up vertically. Basic unit is 24-feet high with additional sections available for heights up to 100 feet.—Tubular Structures Corp. of America.

Circle No. A373 on reply card, p. 18.

THE WALL JACK is a lightweight (30 lbs.) portable gin pole used to lift heavy loads on the job. This literature describes the features and various lifting jobs that can be accomplished with this tool.—Proctor Products Co.

Circle No. A374 on reply card, p. 18.

THE BRIK-TOTER is a portable conveyor for job handling of construction material. It is available in stock sizes of 20-, 24-, 30- and 40-

foot lengths, with either electric motor or gasoline engine drive.—Mar-Rail Conveyor Co.

Circle No. A375 on reply card, p. 18.

MATERIAL HANDLING with conveyors is described in this literature. Also suggests methods of cost reduction in this phase of the construction business.—American Conveyor Co.

Circle No. A376 on reply card, p. 18.

PORTABLE CONVEYORS of belt, chain and flight design are shown in this brochure. All units are wheel-mounted for easy moving with various power drives available.—Sam Mulkey Co.

Circle No. A377 on reply card, p. 18.

Masonry cutting tools

CUTTING MASONRY is easy with the new saws illustrated in this literature. Features wet or dry cutting with a blade recommendation chart. Also shows blades and applications for use on power hand saws.—Eveready Brikshaw Co.

Circle No. A378 on reply card, p. 18.

ABRASIVE BLADES for masonry, concrete and portable saws are pictured and described with recommendations for their use. Also included are other special purpose wheels for tuck pointing.—Bay State Abrasive Products Co.

Circle No. A379 on reply card, p. 18.

NEW CONCEPT in masonry saws is the Supermatic, introduced in a 6-page brochure by Clipper. Features Sta-Level cutting head and HI-LO control wheel which automatically make adjustments. Has multiple uses: wet cutting masonry saw, dry saw, double or triple width saw, concrete saw and track saw.—The Clipper Mfg. Co.

Circle No. A380 on reply card, p. 18.

MASONRY CUTTER powered by a hydraulic pump cuts stone, brick and concrete. Based on shear cutting, this machine is hand-powered, weighs 145 lbs., and is mounted on rubber-tired wheels for easy moving.—Rice Pump & Machine Co.

Circle No. A381 on reply card, p. 18.

Scaffolding

SCAFFOLDING of tubular steel for every construction requirement is illustrated in this literature. Also included are brochures on adjustable trestles and concrete column clamps.—Marvel Equipment Corp.

Circle No. A382 on reply card, p. 18.

LOW-COST but rugged steel scaffolding is designed for work and material platforms. Up to 40-feet high, it is described in this new brochure. Illustrates parts, uses and advantages of 4x4 scaffolding over other methods.—Safway Steel Products, Inc.

Circle No. A383 on reply card, p. 18.

UNIQUE LOCKING DEVICE which assures speedy erection and dismantling of tubular steel scaffold is shown in this catalog. On-the-job photographs emphasize the wide range of uses for standard scaffold components.—Beaver-Advance Corp.

Circle No. A384 on reply card, p. 18.

Transits & levels

CONVERTIBLE LEVELS combine the features of a wye level and a transit. This literature for builders gives specifications and prices on various types.—Bostrom-Brady Mfg. Co.

Circle No. A385 on reply card, p. 18.

ENGINEERING FIELD equipment is a new catalog which shows surveying instruments, levels and other equipment used by builders. Many unusual and new time- and money-saving items.—Warren-Knight Co.

Circle No. A386 on reply card, p. 18.

HANDY LEVEL for many uses around the job is detailed in this illustrated folder. Low in cost, this simple water level is accurate and dependable.—Hydrolevel.

Circle No. A387 on reply card, p. 18.

SURVEYING INSTRUMENTS, including dumpy levels and a combination level-transit, especially designed for builders, are all fully described in this new catalog. Gives full specifications and prices.—David White Instrument Co.

Circle No. A388 on reply card, p. 18.

Trucks & truck bodies

TRUCK BODIES and equipment of special interest to builders are shown in this literature. Gives specifications, dimensions and illustrative data.—McCabe-Powers Auto Body Co.

Circle No. A389 on reply card, p. 18.

THREE-WHEEL DUMP trucks, that are powered by small gasoline engines, are especially useful for transporting materials around the job. The smallest model, shown

in this brochure, has 2500 lb. capacity while the largest will easily handle 3500 lbs.—Getman Brothers Mfg. Division.

Circle No. A390 on reply card, p. 18.

MOBILE FIELD OFFICES, 29 to 46 feet long and 10 feet wide are shown in this brochure. All units come complete with heating and lighting equipment.—Atlantic Trailer Corp.

Circle No. A391 on reply card, p. 18.

Woodworking tools

PORTABLE ELECTRIC TOOLS and accessories are described in this new 52-page catalog. Includes portable saws, sanders, routers, planes, drills, screwdrivers, grinders, radial saws, and tuckpointing tools.—Skil Corp.

Circle No. A392 on reply card, p. 18.

POWER TOOLS for in the shop or on the job are illustrated in this 88-page catalog. Gives complete specifications for all basic tools and accessories. Price list enclosed.—Delta Power Tool Div., Rockwell Mfg. Co.

Circle No. A393 on reply card, p. 18.

MACHINE TOOLS listed in this fully illustrated catalog include drill presses, jointers, lathes, shapers; also circular, band and scroll saws.—Walker-Turner Div., Rockwell Mfg. Co.

Circle No. A394 on reply card, p. 18.

UNDERBENCH CUT-OFF SAW is fully illustrated, with a thorough description of uses and features, in this new literature.—Horton Mfg. Co., Inc.

Circle No. A395 on reply card, p. 18.

WOODWORKING power tools are fully described and illustrated in this 36-page catalog. Includes complete line of saws, jointers, sanders, drill presses, lathes and shapers.—Atlas Press Co.

Circle No. A396 on reply card, p. 18.

FLOOR SANDING equipment for the professional floor surfacing contractor is fully illustrated in this literature. Shows firm's standard machines as well as a new 2-speed sander with a fixed pulley for 2,000 or 2,400 rpm.—American Floor Machine Co.

Circle No. A397 on reply card, p. 18.

WORKSHOP MANUAL on the use of the Disston electric hand saw is available. This saw uses a sabre blade and will cut up to 1 3/4 inches at a 45° angle. Uses, blade selection, and maintenance hints are given.—H. K. Porter Co., Inc.

Circle No. A398 on reply card, p. 18.

MULTI-DUTY PERFORMER, the 905 Planer by Belsaw, presented in a 4-page brochure complete with photos, detailed information and how-to-use-it pictures. Tool is recommended for such builder and carpenter jobs as rabbeting, moulding, jointing, matching and dado work.—Belsaw Machinery Co.

Circle No. A399 on reply card, p. 18.

POWER TOOL CATALOG is a newly revised heavy duty electric tool brochure. Contains specifications and prices plus descriptions of firm's full line. Includes drills, saws,

grinders, hammers, screwdrivers.—Milwaukee Electric Tool Corp.

Circle No. A400 on reply card, p. 18.

CONTRACTORS' TOOL catalog gives you full data and specifications on full line of power tools. Includes concrete vibrators, trowels and grinding equipment as well as a full line of power woodworking tools.—Mall Tool Co., Div. of Remington Arms.

Circle No. A401 on reply card, p. 18.

CARBIDE-TIPPED circular saw blades for all types of power machines are illustrated in this literature. Gives full specifications and saw blade hints.—Deluxe Saw & Tool Co.

Circle No. A402 on reply card, p. 18.

POWER PLANTS for portable and standby service are described in this

brochure. Of special interest to builders are the dolly- or trailer-mounted units for electricity on the job.—Katolight Corp.

Circle No. A403 on reply card, p. 18.

PORTABLE GENERATORS in wattages from 750 to 12,000 are described in this catalog. Current price lists as well as data on the selection of power plants are given.—Pioneer Gen-E-Motor Corp.

Circle No. A404 on reply card, p. 18.

HOW TO MOVE EARTH, trees, buildings; how to dig, rip, excavate, tunnel. All contained in informational literature from LeTourneau. Catalog sheets describe properties and capabilities of firm's many different models of earth-moving machines.—LeTourneau-Westinghouse Co.

Circle No. A405 on reply card, p. 18.

Management & Business

Business forms

BUSINESS FORMS and office supplies are cataloged in this 100-page manual.—Accountant's Supply House.

Circle No. A406 on reply card, p. 18.

ACCOUNTING SYSTEMS for large or small builders are explained in detail in this literature. Adaptable for individual applications.—Burroughs Corp.

Circle No. A407 on reply card, p. 18.

Swimming pools

ALL-ALUMINUM swimming pools for private homes, motels, developments and parks offered in this 4-page booklet. Photos, cutaway drawings, construction sketches, as well as plenty of information included.—Chester Products Co.

Circle No. A408 on reply card, p. 18.

BUILDERS' PROBLEMS of swimming pool structure, design, filtration system, fittings, are discussed in a 24-page colorful catalog. Information on operation and maintenance included. Complete specifications, data available.—National Pool Equipment.

Circle No. A409 on reply card, p. 18.

LUXURIOUS POOLS at low cost are described in this folder. Shows how to build a swimming pool with concrete masonry using special liner.—Award Pools.

Circle No. A410 on reply card, p. 18.

HOW TO PLAN and equip either public or private swimming pools is the theme of this literature. Describes thoroughly all necessary

equipment with price lists.—Pool-quip Mfg. Inc.

Circle No. A411 on reply card, p. 18.

FUN FOR THE FAMILY offered by International Swimming Pools in an 8-page, full-color brochure. Completely-equipped Esther Williams pool and "Swimming Pak" described along with design features, sizes, specifications and other technical data.—International Swimming Pool Corp.

Circle No. A412 on reply card, p. 18.

Prefabricated houses

"YOUR PROFIT MATE for '58" is a valuable merchandising tool. Builder-dealer kit, in three sections, covers profits, land planning and advertising, sales promotion, merchandising help. W. G. Best Homes Co., Dept. AB, Effingham, Ill.

Circle No. A413 on reply card, p. 18.

ECONOMICAL HOMES from Ford feature expandable upstairs space which can be converted into extra bedrooms or play space when needed. Among brochures are those on Cape Codders, ranchers and split levels. Ivon R. Ford Inc., Dept. AB, McDonough, N.Y.

Circle No. A414 on reply card, p. 18.

HOME-WAY HOUSING from start to finish is explained in catalogs packed with plans and information. Describe styling (with photos and floor plans), construction methods; also materials, variations and cost. GBH Way Homes, Inc., Dept. AB, Walnut, Ill.

Circle No. A415 on reply card, p. 18.

BIG-TRACT BENEFITS, quality construction . . . the story is pre-

sented in literature from Harnischfeger. Discusses family-planned homes, low-cost erection, materials, financing. Harnischfeger Homes, Inc., Dept. AB, Port Washington, Wisc.

Circle No. A416 on reply card, p. 18.

PREPARED FOR BUILDERS is this brochure from Inland. Presents entire line, with many selections on the three-bedroom size. Ideas on financing plus material specifications. Inland Homes Corp., Dept. AB, 501 S. College St., Piqua, Ohio.

Circle No. A417 on reply card, p. 18.

VERSATILE HOMES and models that expand with family growth are keynoted in 20-page catalog from Hodgson. Exterior views and floor plans for 12 styles plus interior photos and technical data. Hodgson Houses, Inc., Dept. AB, Dover, Mass.

Circle No. A418 on reply card, p. 18.

FOR A SLOPING LOT, three-bedroom tri-level promotes spaciousness. Lower level has family-room, garage, laundry, dining room and kitchen. Many other plans in '58 portfolio. Midwest Houses, Inc., Dept. AB, P.O. Box 334, Mansfield, Ohio.

Circle No. A419 on reply card, p. 18.

DESIGN COLLECTION for 1958 is available from Scholz. Styles range from "California Contemporary," "Ranch Western" to "American Colonial." Photos in full color; floor plans. Scholz Homes, Inc., Dept. AB, 2001 N. Westwood, Toledo 7, Ohio.

Circle No. A420 on reply card, p. 18.

1958 DIRECTORY . . .

Building products and equipment manufacturers

This classified directory has been compiled to provide the industry with the names and addresses of the major producers of building products, equipment and services. It also supplements the Directory of Brand Names as those brand names which are synonymous with the manufacturer's name do not appear in that section but may be found here by consulting the specific product classification.

A minimum number of cross references appear in this directory. This has been done to conserve space thus allow-

ing for more individual categories. Choice of either the noun or descriptive adjective, as the classification word, has been used on the basis of the word most acceptable in the parlance of the building industry.

Every attempt has been made to make this listing as complete as possible and to encompass all phases of the building industry. In the event the information desired cannot be found in this directory write to AMERICAN BUILDER, 79 W. Monroe St., Chicago 3, Ill.

The names of Manufacturers who advertise in American Builder appear in Boldface Type

CUTTERS, HARDBOARD

KIMBALL MFG CO 816 UNIVERSITY PL EVANSTON ILL

NEW BEVIL DEVIL #77 MAKES HARDBOARD BEVELING EASY → → →

The famous Bevil Devil #77 has now been re-designed to specifications of a leading hardboard manufacturer. It puts a clean-cut bevel on any hardboard, tempered or standard—with one stroke. It maintains a uniform bevel angle. Can be quickly adjusted to various angles. This new tool, made of hard maple, has a hunky carbon steel cutting blade. Easily kept sharp.

ONLY \$2.50 POSTPAID

NEW WACO Light-Duty Scaffolding

For All Building Trades

Light-Weight—Easy to Handle! Two people can easily move several sections.

WACO Light-Duty Scaffolding gives you these important "extras":

1. WACO "Speedlock" attaches braces to frames instantly and securely.
2. High-strength, high-carbon steel end frames—carries up to 50 pounds per square foot.

For the name of your nearest WACO distributor, write:

WACO MANUFACTURING COMPANY
3565 Wooddale Ave., Minneapolis, Minn.

Manufacturers of: Scaffolding, Concrete Forms, Shores, Scaffold-Jacks, Mason-Jacks, Bleachers.

THE LESLIE "SERIES 50" SLANT ROOF TYPE VENT

- ★ EASIER INSTALLATION—4" wide flange... no "legs" or "posts" to get in the way.
- ★ WEATHERPROOF—wide flange around top of stack, plus parallel baffles in rear.
- ★ MORE FREE AREA—as certified by Metal Ventilator Institute.
- ★ BETTER APPEARANCE—streamlined, one-piece top, and roof-hugging design.
- ★ USE WITH FANS—8" diameter stack fits round duct.
- ★ STURDIER CONSTRUCTION—full .025" aluminum, 26-gauge galvanized steel, screen securely attached.

1958 BRAND NAMES . . .

. . . of building products and equipment

Brand names used to identify principal building products and equipment of major manufacturers are listed in this directory in alphabetical order with the names and addresses of the companies to which the brand names apply.

This listing may be used to ascertain the manufacturer of any product when only the brand name is known. It

can also be valuable in determining the source of repair and replacement parts on products and equipment.

Whenever possible brand names which are synonymous with the manufacturer's name have been omitted as these may be readily located in the classified Directory of Products and Equipment Manufacturers.

TYPICAL SHAPES AND SIZES OF CONCRETE MASONRY UNITS

Dimensions shown are actual unit sizes. A $7\frac{1}{2}'' \times 7\frac{1}{2}'' \times 15\frac{1}{2}''$ unit is commonly known as an $8'' \times 8'' \times 16''$ concrete block. Half length units are usually available for most of the units shown below. See concrete products manufacturer for shapes and sizes of units locally available.

(In some areas the above units are available in 4" nominal heights)

CONCRETE MASONRY

ESTIMATING CONCRETE MASONRY

NOMINAL LENGTH OF CONCRETE MASONRY WALLS BY STRETCHERS

(Based on units 15½" long and half units 7½" long with ¾" thick head joints)

HOW TO USE THESE TABLES

The tables on this page are an aid to estimating and designing with standard concrete masonry units. The following are examples of how they can be used to advantage.

Example:

Estimate the number of units required for a wall 76' long and 12' high.

From table: 76' = 57 units

12' = 18 courses

57 x 18 = 1026 = No. masonry units required.

Example:

Estimate the number of units required for a foundation 24' x 30' - 11 courses high.

2 x 24-30 = 108' = distance around foundation.

From table: 108' = 81 units

81 x 11 = 891 = No. masonry units required.

This table can also be useful in the layout of a building on a modular basis to eliminate cutting of units. Example: If design calls for a wall 41' long it can be found from the table that making this wall 41'-4" will eliminate cutting units and consequent waste. Example: If the distance between two openings has been tentatively established at 2'-9", consulting the table will show that 2'-8" dimension would eliminate cutting of units.

HOW TO USE THIS TABLE

This table gives the cubic yard factors to use in estimating quantities of concrete required for walls, slabs, walks or drives when the square footage is known.

Example: Find the number of cubic yards of concrete required for the walls of a foundation 24' x 30' x 8' - 10" thick.

$$2 \times (24 + 30) \times 8 = 864 \text{ sq. ft.}$$

Use factors from table for 10" wall thickness:

$$800 \text{ sq. ft.} = 24.64 \text{ cu. yds.}$$

$$60 \text{ sq. ft.} = 1.848 \text{ cu. yds.}$$

$$4 \text{ sq. ft.} = .123 \text{ cu. yds.}$$

$$26.611 \text{ cu. yds. of concrete required.}$$

Where concrete thickness is an odd number of inches use factors for double the thickness and divide result by 2. Example: For 9" walls use 18" factors and divide final quantity in half.

CONCRETE FOOTING QUANTITY FACTORS

(Cu. Yd. per 10 Lin. Ft.)

DEPTH IN INCHES	WIDTH OF FOOTING IN INCHES									
	6	8	10	12	14	16	18	20	22	24

22	.339	.452	.564	.679	.791	.900	1.016	1.128	1.243	1.358
24	.37	.494	.616	.740	.864	.988	1.110	1.232	1.360	1.480

HOW TO USE THIS TABLE

This table gives the cubic yard factors to use in estimating quantities of concrete required for footings when the total lineal feet is known.

Example: Find the number of cubic yards of concrete required for a footing 18" wide, 10" thick for a foundation wall 24' x 30'

$$2 \times (24 + 30) = 108 \text{ lin. ft.}$$

From the table it is found that 10 lin. ft. of 18" x 10" footing contains .462 cu. yds. (or .0462 for 1 lin. ft.)

$$\text{Multiply } .0462 \times 108 = 4.989 \text{ cu. yds.}$$

$$\text{or } .462 \times 10.8 = 4.989 \text{ cu. yds. concrete required}$$

NOTE: This table is also useful in estimating the quantity of earth to be removed from footing excavations. Follow the same procedure as outlined above.

CLAY MASONRY

ESTIMATING BRICK MASONRY

TABLE 1
FOUR-INCH MODULAR BRICK FACING WALLS
RUNNING BOND
(Full Bed and Head Joints)

Nominal Size of Brick*	Number of Brick per Sq. Ft. of Wall	Cu. Ft. of Mortar per Sq. Ft. of Wall**		Cu. Ft. of Mortar per 1000 Brick**

4x4x12	3.00	0.039	0.052	13.00	17.30

* Actual size plus thickness of one joint
** 10% added for waste

MODULAR BRICK

In Table 1 are the quantities of units and mortar required to construct a 4-in. wall using 5 sizes of modular brick with two joint thicknesses. The mortar quantities shown are for the bed and head joints only. If this facing is to be applied to a backup wall, the quantity of mortar required for the interior vertical or collar joint must be added. These quantities are as follows:

- .0313 cu. ft. for 1 sq. ft. mortar joint 3/8-in. thick.
- .0365 cu. ft. for 1 sq. ft. mortar joint 7/16-in. thick.
- .0417 cu. ft. for 1 sq. ft. mortar joint 1/2-in. thick.

The brick quantities shown are for brick laid in running bond. For other bonds in which full headers are used, the correction factors in Table 4 must be added. The 2-2/3x4x8-in. size brick is commonly referred to as the "Standard Modular" size.

TABLE 2
EIGHT- AND TWELVE-INCH BRICK BACKUP WALLS
IN RUNNING BOND
(Full Bed, Head and Collar Joints)

Nominal Size of Brick*	Number of Brick	8" Wall Cu. Ft. of Mortar**		Number of Brick	12" Wall Cu. Ft. of Mortar**	
		3/8" Joint	1/2" Joint		3/8" Joint	1/2" Joint

STRUCTURAL STEEL

STEEL JOIST LOADING TABLES

The following table gives the total safe uniformly-distributed load-carrying capacities, in pounds per linear foot, of Open Web Steel Joists and Nailer Joists, adopted by the Steel Joist Institute. The weight of dead loads must in all cases be deducted

to determine the live load-carrying capacities of the joists. When Nailers Joists (those with suffix W) are used, they should not be spaced farther apart than the safe span of the wood deck or other material used over them.

The prefix letters "SJ" should precede Joist Designations given below, i.e. SJ81, SJ81W, SJ82, SJ82W, etc.

Joist Designation	81	82	102	103	104	123	124	125	126	145	146	147	166	167	186	187	207

* The loads are given in kips, a kip being 1,000 lbs.

EXAMPLES

To find correct I beam size:
 1. Determine uniformly distributed load.
 2. Locate this load figure in column under span in feet.
 3. Read size and weight of required beam in column at extreme left.

To find pipe column size:

1. Determine load in kips. If column is to support center of beam supported at ends divide load in half.
 2. Locate nearest load figure in column under required length.
 3. Read size of pipe required in column at extreme left.

To find I beam column size:

Follow same procedure as outlined for pipe columns.

FORMULAS FOR TINTING PAINT

Tints should be made with white paint as a base. Since definite color standards do not exist, the colors-in-oil recom-

mended will produce the tints usually identified by the names shown.

Tint desired:	Add to white		
BLUES	TINTING COLORS IN OIL		
Delft	8 Ultramarine Blue, 1 Ivory Black	Orchid	3 Ultramarine Blue, 1 Indian Red, touch of Alizarin Crimson
Robin's Egg	Chrome Green Medium	Orchid Pink	American Scarlet Vermilion, touch of Ultramarine Blue
Sky	Prussian Blue	Wistaria	1 Ultramarine Blue, 1 American Scarlet Vermilion
Slate	3 Ultramarine Blue, 1 Lamp Black		
Turquoise	4 Ultramarine Blue, 1 Chrome Green Medium or Light	WHITES	
GRAYS		Bone White	Ivory Black, touch of Yellow Ochre or Raw Sienna or Burnt Sienna
Blue Gray	Lamp Black	Off White	Raw Umber
French	Raw Sienna, Ultramarine Blue	Oyster White	Chrome Yellow Light, touch of Ultramarine Blue
Pearl	Burnt Umber		
Putty	Raw Umber, touch of Burnt Umber	YELLOWS & ORANGES	
Rose Taupe	3 Burnt Umber, 1 Lamp Black, touch of Venetian Red	Apricot	Chrome Yellow Dark; touch of Chrome Yellow Medium
Taupe	3 Burnt Umber, 1 Lamp Black	Beige	1 Raw Sienna, 1 Burnt Umber
GREENS		Buff	Raw Sienna, touch of Burnt Umber
Apple	Chrome Green Light, touch of Chrome Green Medium and Raw Sienna	Chamois	3 Raw Sienna, 3 Yellow Ochre, 2 Raw Umber
Green Tint	Chrome Green Light	Champagne	3 Yellow Ochre, 1 Burnt Umber
Jade	1 Chrome Green Light, 1 Chrome Green Medium	Chartreuse	Chrome Yellow Light, touch of Chrome Green Medium and Burnt Umber
Nile	Chrome Green Light, touch of Chrome Yellow Light	Coffee	8 Raw Sienna, 4 Burnt Sienna, 1 Lamp Black
Pea	Chrome Green Light, touch of Chrome Green Medium	Colonial Yellow	2 Yellow Ochre, 1 Chrome Yellow Medium
PINKS		Cream	Raw Sienna
Baby Pink	Venetian Red	Ecru	2 Yellow Ochre, 1 Burnt Umber, touch of Ivory Black
Coral	Venetian Red, touch of Chrome Yellow Dark	Fawn	3 Yellow Ochre, 1 Burnt Umber, touch of Indian Red
Flesh	6 Yellow Ochre, 1 Venetian Red, touch of Lamp Black	Honey	Raw Sienna
Old Rose	1 American Scarlet Vermilion, 1 Indian Red	Ivory	Yellow Ochre
Pink	American Scarlet Vermilion, touch of Venetian Red	Lemon	Chrome Yellow Light, touch of Chrome Yellow Medium
Salmon	Venetian Red	Maize	1 Yellow Ochre, 1 Chrome Yellow Medium
VIOLETS		Maple	Raw Sienna
Lavender	1 Ultramarine Blue, 1 American Scarlet Vermilion	Old Gold	2 Chrome Yellow, Medium, 1 Burnt Umber, touch of Venetian Red
Lilac	1 Ultramarine Blue, 1 American Scarlet Vermilion	Old Ivory	Yellow Ochre, touch of Raw Umber
		Peach	Chrome Yellow Dark
		Straw	4 Chrome Yellow Light, 1 Raw Umber, touch of Chrome Green Light
		Tan	Raw Sienna, touch of Burnt Umber

TIPS ON COLOR

If you have	And you want	Do this
Blue	Dark Blue	Add Black
Blue	Light Blue	Add White
Green	Deep Green	Add Blue or Black
Green	Light Green	Add Yellow or White
Green	Olive	Add Blue and Red
Orange	Brown	Add Blue
Red	Dark Red	Add Black
Red	Light Red (not Pink)	Add Orange
Red	Brown	Add Green

PRIMARY & SECONDARY MIXTURES

Red plus Yellow makes Orange
 Yellow plus Blue makes Green
 Blue plus Red makes Purple
 Orange plus Green makes Citron
 Green plus Purple makes Olive
 Purple plus Orange makes Russet
 (Try a small sample first for desired color)

NATIONALLY ADVERTISED • NATIONALLY KNOWN FOR QUALITY SINCE 1907

Majestic WINTER AIR CONDITIONERS

Gas or oil forced air furnaces for complete winter home comfort. Up, down or horizontal flow design.

Majestic SUMMER AIR CONDITIONERS

Two, 3 and 5-ton units for easy, attractive system-matching with Majestic winter air conditioners.

Majestic THULMAN ALL-METAL CHIMNEY

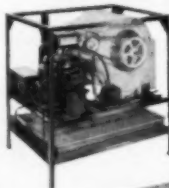

Needs no extra clearance or insulation, even to combustible surfaces. For Majestic Thulman fireplace, furnaces, other appliances. U/L Listed.

Majestic REMOTE AIR-COOLED AIR CONDITIONERS

Water-proof, weather-proof. Fully automatic controls and "quiet-cote" casings, as in all Majestic units.

Majestic WATER-COOLED AIR CONDITIONERS

Hermetically sealed, self-contained. Two, 3 and 5-ton capacity. Condenser, compressor and flow control included.

Majestic THULMAN ALL-METAL FIREPLACE

Needs no masonry. Engineered for zero clearances. Includes chimney. Easily installed, complete, in less than 2 hrs. U/L listed.

Heating and Air Conditioning Division —

Profit with Majestic Products —

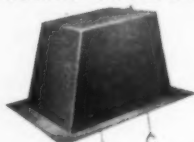

BUILDING PRODUCTS DIVISION

Majestic CIRCULATOR FIREPLACE

Simplifies masonry construction and circulates heat that other fireplaces waste. Heavy gauge steel, welded-seam construction.

Majestic UNIVERSAL SMOKE DOME

Ideal for all types of multi-opening fireplaces. Cuts down masonry time and expense. Has built-in damper—eliminates guesswork.

Majestic CAST IRON AND STEEL DAMPERS

Correctly proportioned for the right draft at all times. Strongly seam-welded. Break-proof damper valves.

Majestic QUALITY CAST HOME PRODUCTS

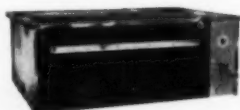

Coal Chutes • Lintels • Ash Dumps • Cleanout Doors • Basket Grates • Bell Traps • Flue Thimbles • Foundation Grates • Sewer Tile Strainers • Stanchion Plates • Ventilating Bricks

Majestic BARBECUE GRILLE UNITS

Designed for custom-built indoor or outdoor fireplaces. They speed the masonry job, cut down cost and eliminate guesswork.

Majestic CHAR-GRILL BARBECUE GRILLES

Models for standard wood and metal cabinets, as well as masonry. Today's newest, most wanted "built-in". Special vent-hood available.

Majestic INDOOR REFUSE BURNERS

For complete indoor disposal of wet and dry trash and garbage. Low cost fuelless models. Eliminate outdoor disposal and storage.

Majestic UNDERGROUND RECEIVER

Heavy gauge ribbed steel shell. Removable inner galvanized can. Improved "footpress" lid opener. For neat, hidden storage of garbage, trash, cans, bottles, etc.

There's *Beauty* in Exposed Masonry
 ... and it actually **COSTS LESS!**

Almost anyone can afford the beauty of Vibrapac block! For both exteriors and interiors, this versatile building material offers practically unlimited possibilities . . . *at limited cost.*

New and beautiful effects can be created for a variety of applications in recreation rooms, living rooms, bedrooms, kitchens, corridors, entrances, partitions, fireplaces, planters, etc. Vibrapac Block are produced by a process that insures dependable uniformity and a

wide range of interesting colors, textures and patterns. Available in modular sizes that simplify construction. Vibrapac block advantages bring savings in time and labor to every job. To the structure itself they assure a stability that means less depreciation and higher valuation for the home owner. A Vibrapac block wall is permanently beautiful . . . permanently economical. Architect, builder and home-owner alike can profit from using this versatile building material.

Why not investigate the advantages of building with Vibrapac block. We will gladly send you literature showing patterns for exposed concrete masonry walls. No obligation. Merely send us your name and address on your own letterhead.

BESSER Company

Box 183, Alpena, Michigan, U.S.A.

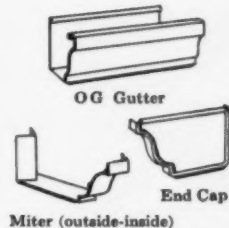

FIRST IN CONCRETE BLOCK MACHINES!

A Riveted and Cold-Sealed Joint System that Installs Faster, Easier, at Competitive Cost

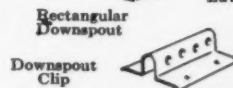

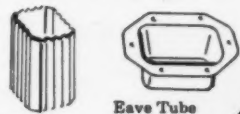

extra-heavy aluminum • precision fitting • easy to work with

Now you can offer your customers a high-quality riveted metal installation at no extra cost. Designed and made exclusively by Alcoa, this entirely new gutter and downspout system provides aluminum's rust-free and corrosion-resistant advantages with a new, fast method of on-the-job riveted and sealed joints. The Alcoa system is rigid, watertight—stays new-looking longer, while providing dependable, year-in and year-out service.

Extra Length, Extra-Heavy Gage, Precision-Formed Gutters

The strongest gutter on the market—full .032" thick! For faster, neater installations, 16-foot lengths. Precision-formed with tolerance held to $\frac{1}{64}$ " for tight, leakproof fits and better appearance. The OG gutter is designed with a front bead for added rigidity and strength throughout. Back of the Alcoa gutter is one-half inch higher than the front for protection against overflow.

FOR REMODELING

Fascia Apron Bar Hanger

FOR NEW CONSTRUCTION

Roof Apron Strap Hanger

Specially Designed Hanger System Permits Free-Floating Gutter

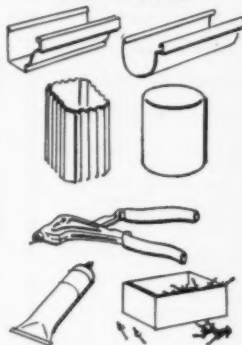

Installation is simplified through the use of two entirely new types of hangers—roof-type apron hanger for new construction, fascia-type apron hanger for remodeling work. Both allow gutters to contract and expand with seasonal temperature changes. Thus, the major cause of leaks is eliminated by this "free-floating" action.

Simplified Fittings—One-Third Fewer Pieces Needed

Gone are the old-style corner and downspout sections, slip joint connectors, gutter spikes and hot soldering. Alcoa end caps and miter joint covers give a neater job, fit snugly. The downspout drop tube is placed where desired after the gutter is hung. An Alcoa system goes up much faster and simpler because fewer fittings are commonly required.

POPULAR STYLES AND FINISHES

Standard 5" Size Only

Newly Developed Riveting and Sealing Method

Installation is further speeded up with this new procedure. For example, gutters are joined and sealed simply by overlapping two inches, applying the Alcoa® Gutter Seal and riveting with the Alcoa "pop" riveter. Alcoa's patented Gutter Seal is the result of exhaustive testing and research. Once applied, it stays watertight. This is an exclusive new Alcoa product.

Ask your distributor or local metals supply house for new Alcoa Aluminum Gutters and Downspouts. Send for detailed information.

For more complete information about the new Alcoa Rain Carrying System, including installation data, mail coupon.

Metal Lath and Accessories

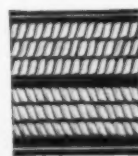

METAL LATH

SMALMESH METAL LATH

General utility lath in a new design that's 5 ways better. Square, flat, uniform—easier for the contractor to handle and install, easier for you to warehouse. No side camber. SHEET COVERAGE SIZE: 27" x 96".

MATERIALS AND WEIGHTS (lbs. per sq. yd.): Copper-bearing steel, painted—2.50, 3.40. Galvanized steel—3.40. PACKING: 10 sheets (20 sq. yds.) per bundle. All sheets squared on both ends.

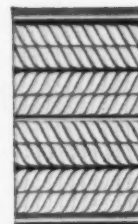

SPECIALMESH METAL LATH

Improved design. Flat-rib lath for interior walls and ceilings. Saves plaster, provides excellent bond. Well suited to two-coat work or back-plastering. Longitudinal stiffening ribs are 5/16" wide, spaced 1 1/2" on centers. Cross-strands of 1/4" intervals, reinforced by stiffening members (two between each pair of ribs).

SHEET COVERAGE SIZE: 27" x 96". MATERIALS AND WEIGHTS (lbs. per sq. yd.): Copper-bearing steel, painted—2.75, 3.40.

PACKING: 10 sheets (20 sq. yds.) per bundle. All sheets squared on both ends.

NEW! 27"-WIDE 3/8" STAY-RIB LATH

New design. 27" x 96" coverage plus adequate side and end lap. 13 ribs across width — for greater rigidity as a plaster base or as reinforcement for light concrete slabs. SHEET SIZE: 27" x 96".

MATERIALS AND WEIGHTS (lbs. per sq. yd.): Copper-bearing steel, painted—3.40, 4.00.

PACKING: 10 sheets (20 sq. yds.) per bundle. All sheets squared on both ends.

ACCESS DOORS

STYLES K, L, M

Provide easy access to utility systems without damage to walls. Spring hinge allows opening to 175°. Number of hinges varies with size of door. Doors are removable.

STYLES: Style "K" for plastered walls—with expansion wings. Style "L" for plastered or non-plastered walls—without expansion wings. Style "M" for masonry, brick, stone, tile, wallboard, etc.

SIZES: 8" x 8" to 24" x 36". (Special sizes available upon request.)

MATERIALS: Doors, 14-ga. steel; frames, 16-ga. steel. Rust-inhibitive, prime coat.

PACKING: One per ctn.

NEW! FOR ACOUSTICAL TILE

Style "A" Access Door. Fits within the tile layer flush with the plane of the surrounding tiles. Recessed door panel takes standard acoustical tile up to 1" thick.

SIZES: 12" x 12", 12" x 24", 24" x 24".

MATERIALS: Doors and inner frame, 14-ga. steel; outer frame, 16-ga. steel. Rust-inhibitive, prime coat.

PACKING: One per ctn.

CLEAN-OUT DOORS

Convenient for removing accumulations of fireplace ashes or chimney debris. Door catch provides positive lock, prevents door from being blown open. Hinge design permits freedom of opening and closing. Wide flanges on frame simplify installations.

SIZE: 8" x 8".

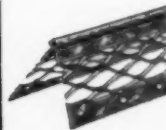

MATERIAL: 16-ga. copper-alloy steel, painted. PACKING: 6 per ctn. Shipping weight, 19 lbs.

Stocked by Leading Dealers Everywhere

You can assure best quality construction with Milcor products... 56 years of making good products better.

CORNER BEADS

NEW! RIGID-EX CORNER BEAD

Combines the rigidity of solid metal with the positive plaster key of expanded metal. Spring-fit angle hugs tight to corner. Flange anchors securely — compensates for irregular framing. Tube-like nose permits easy splicing.

MATERIAL: 26-ga. tight-coat galvanized steel. LENGTHS: 7, 8, 9, 10, 12 ft.

WEIGHT (per 1,000 lin. ft.): 160 lbs. PACKING: 7 and 8 ft. — 80 pcs. per ctn.; 9, 10, and 12 ft. — 60 pcs. per carton.

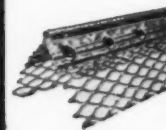

No. 1 EXPANSION CORNER BEAD

Wide expanded metal wing integral with nose of the bead — plaster keys right up to the nose. Gives effective plaster reinforcement exactly where needed.

MATERIAL: 26-ga. tight-coat galvanized steel. LENGTHS: 7, 8, 9, 10, 12 ft.

WEIGHT (per 1,000 lin. ft.): 210 lbs. PACKING: 7 and 8 ft. — 80 pcs. per ctn.; 9, 10, and 12 ft. — 60 pcs. per ctn.

SUPER-EX CORNER BEAD

Combines advantages of expansion and solid wing corner beads. Strong, straight nose reinforced by two solid flange sections, strengthened by corrugations. Integral expansion flange makes excellent plaster bond, simplifies erection.

MATERIAL: 26-ga. tight-coat galvanized steel. LENGTHS: 7, 8, 9, 10, 12 ft.

WEIGHT (per 1,000 lin. ft.): 270 lbs. PACKING: 7 ft. — 80 pcs. per ctn., 8 ft. — 70 pcs., 9 ft. — 60 pcs., 10 and 12 ft. — 50 pcs.

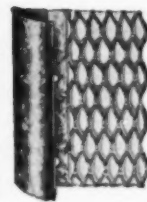

CORNER-EX

Finished-edge corner reinforcement for inside corners. Accurately pre-shaped to 105° angle for snug, spring fit in a normal 90° corner. Center stiffener helps maintain correct angle and shape—guides Corner-Ex accurately into corner.

MATERIAL: Copper-bearing steel, painted. SIZES: 2" x 2" x 96", 3" x 3" x 96".

WEIGHT (per 1,000 lin. ft.): 2" — 100 lbs., 3" — 140 lbs. PACKING: 75 pcs. per ctn. (3 bundles of 25 pcs.).

CASING BEADS

EXPANSION AND SHORT FLANGE TYPES

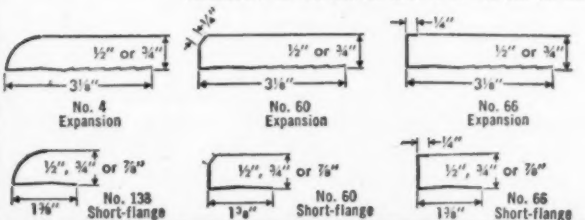

Quarter-round, square, and modified-square designs. Meet all ordinary requirements, as well as many special and difficult conditions. Expansion wing gives added plaster reinforcement. All styles are straight and uniform to permit perfectly fitted corners and neat, flush junctures with plaster surfaces.

MATERIAL: 24-ga. tight-coat galvanized steel. LENGTHS: 7 and 10 ft.

GROUPS: 1/2" and 3/4". (Also 7/8", short flange only.)

WEIGHT (per 1,000 lin. ft.): No. 4 Exp.—280 lbs. No. 60 Exp.—245 lbs., No. 66 Exp.—265 lbs., No. 60 S. F.—200 lbs., No. 66 S. F.—210 lbs., No. 138 S. F.—235 lbs.

PACKING: 7 ft. — 80 pcs. per ctn., 10 ft. — 60 pcs. per ctn.

Over 80 pages of facts on how to build better houses with California Redwood. And for new design ideas, ask for Redwood News—mailed quarterly.

John Hass likes Bildrite best

"Two men can close in a house in 6 hours," says Hass

Around Hyattsville, Md. (near Washington, D.C.), Hass & Carson are known as builders who never put up a "cheap" house. Yet hundreds of their homes have sold for less than \$14,000; and today the price range is \$14,650 to \$15,850.

John Hass, who bosses construction for the firm, says sheathing is a key item, both for strong, snug, solid walls and for really important cost savings. And for 14 years . . . since the first year he started in business . . . Hass has used nothing but Insulite Bildrite Sheathing.

"We use 30 sheets of 4' x 9' Bildrite and 8 sheets

of 4' x 8', on an average house," says John Hass. "Just stack it by the foundation; never have to worry about rain hurting it. As your picture shows, we use almost every cut-off piece to fill the areas on gable ends. Bildrite cuts easy, nails up perfectly, makes a strong, warm, wind-tight wall, and leaves almost no waste. Best of all, two carpenters can close in a house completely in 6 hours."

Want to speed up your building . . . reduce waste . . . and add more strength and insulation without extra cost? For facts on Bildrite Sheathing, write us—Insulite, Minneapolis 2, Minnesota.

4' x 9' size avoids "piecing out," in vital sill area between foundation and sidewall. One man can easily lift, carry and nail a big, light 4' x 9' Bildrite panel. Applied, it makes a solid, tight, strong insulating shell from eave line to top of foundation.

They sell like hotcakes, at around \$15,000; and typical Hass & Carson home features 3 bedrooms, living room, dining room, kitchen, wall oven, entrance hand-rails, broad concrete driveway. Small, highly-trained H&C crew enjoys steady work the year around.

build better, save labor, with

On James Sales Elementary School, Tacoma, Washington

Fir plywood roof deck helps save \$3,300⁰⁰

ALTERNATE COST DATA

Summary of installed costs per M sq. ft. Based on actual suppliers' quotations and time records where available and on Walker's Estimator's Handbook where not:

1. As built, with clips, eliminating blocking at panel edges. Includes cost of new plywood and 50% of initial cost of exterior plywood salvaged from forms \$169*
2. Estimated cost as built but using all new sheathing with no salvage from concrete forms \$187
3. Estimated cost all new sheathing with 2 x 4 blocking at panel edges . \$206
4. Estimated cost 2 x 6 T & G decking . \$291

*169.00 per M "as built" cost represents \$122.00 per M savings over estimated cost of 2 x 6 T & G decking. On this basis, savings on entire job total \$3,300.00.

To eliminate 2 x 4 blocking, metal "H" clips were used at unsupported panel edges. Two clips were used for each span. (Clips were responsible for approx. \$20 per M of savings; see table above).

JAMES SALES ELEMENTARY SCHOOL;
Tacoma, Washington
ARCHITECTS: Lea, Pearson and Richards
CONTRACTOR: Nelson Construction Company
STRUCTURAL ENGINEERS: Smith and Murray

5 ways Fir Plywood builds better schools

AN EXCELLENT EXAMPLE of how fir plywood roof decking sharply cuts costs as well as provides markedly superior construction is this new U-shaped, 1-story reinforced concrete school.

The contractor estimates $\frac{3}{4}$ " fir plywood saved a total of \$3,300.00 on the job; \$2,800.00 in actual installed cost, plus an additional \$500.00 by amortizing costs of some of the panels previously used for forms. A total of 27,000 sq. ft. were used on the job. Design calculations by the architects show plywood superior in resisting racking forces such as wind loads and earthquakes.

Although many home builders have found thick plywood over wide rafter spacing saves money, this is one of the first detailed cost analyses for a larger building. The idea points the way to new opportunities for reducing costs on commercial and industrial buildings as well as schools.

Letters DFPA on panel attest manufacture under industry-wide Douglas Fir Plywood Association Quality Control Program. DFPA grade-trademarks are specification guides to the right grade and the right quality. Use them for all specifications.

Fir Plywood

FOR YOUR FILES: A new portfolio assembly of basic plywood design and application data for schools, homes, commercial buildings. Includes detailed information about job described above.

Designed and engineered by McQuay, and suitable for all fuels, (Type A) this new package chimney has a 7" stainless steel flue with aluminized steel interliner and outer casing. The interliner is supported by the exclusive McQuay stainless steel tension spring spacers for strength, rigidity and durability.

This McQuay thermo siphon design permits quick drafts and even temperatures from top to bottom for peak efficiency. There is nothing to deteriorate, nothing to collect soot. Roof housing is large, measuring 16" x 20" with a 20" x 24" cap.

For the best results, and for greatest economy, recommend and use this McQuay package chimney on every job. Territories are now being assigned. Write McQuay, Inc., 1699 Broadway Street N.E., Minneapolis, Minnesota.

Meets the Original and More Severe Underwriters' Laboratories Standards 103, March, 1956

ECONOMY—Costs from one-third to one-half as much as brick installed. All pre-assembly has been done to eliminate costly on-the-job time and labor.

SAFETY—Listed under the re-examination service of Underwriters' Laboratories, Inc., and on the approved list of F.H.A. and V.A.

QUICK AND EASY INSTALLATION—Average installation time is less than one hour after openings are prepared.

LONGEST SERVICE LIFE—Flue is of stainless steel to permanently withstand effects of combustion gases. Starter box and starter sections are in one unit. Standard 24", 18" and 12" sections give any desired length.

LIGHT WEIGHT—Load on support joists is only 9 pounds per foot of chimney length.

SHIPPED COMPLETE—with easy-to-follow instructions for installing. Units are individually packaged.

McQuay stainless steel tension springs separate and firmly position stainless steel flue.

**NOW...
YOUR ANSWER TO
CEILING CRACKS**

THE EBY SYSTEM OF LATHING. Instead of staggering end joints of gypsum lath, longitudinal joints are staggered. Keycorner lath is applied to the continuous joints at 4 ft. intervals. Then, through the center of the room, one strip of 1" x 20 ga. Keymesh, 36" wide, is applied. This adds extra reinforcement where it's needed and assures full thickness of plaster.

"I guarantee NO PLASTER CRACKS in ceilings lathed with KEYMESH and KEYCORNER"

**PROMISES WILLIAM E. EBY, CHICAGO
LATHING CONTRACTOR**

Everybody wants crack-free ceilings. That's why Bill Eby's guarantee is so important to you. "Believe me, I wouldn't make such a guarantee unless I'm sure," emphasizes Eby. "This lathing system will give you crack-free ceilings every time. And anybody can use this system. It's no Eby patent.

"I searched for years for a better lathing system. I tested and rejected any number of systems and reinforcements," Eby points out. "Now after three years of using this new lathing system with Keymesh and Keycorner, I know I'm right.

"Here's another fact that may surprise you. Builders

are switching back to lath and plaster for one big reason—savings. New application systems and modern colored plaster add up to a low-cost buy. You save the costs of paint and painting. Above this, lower maintenance costs and increased fire safety make lath and plaster a top value.

"Absolutely no ceiling cracks with this lathing system. You get added life from plaster. Upkeep costs are slashed. Yet Keymesh and Keycorner let me hold costs in line."

* * *

It will pay you to learn all the facts about the Eby system of lathing with Keymesh and Keycorner and why he can make this guarantee of a crack-free ceiling.

Eby (left) inspects application of Keycorner, used to reinforce joints. Keycorner is also used at all wall and corner junctures.

Plaster is applied over reinforced ceiling. The open mesh of both Keymesh and Keycorner assures imbedment in plaster. The open mesh also insures full bond of plaster with gypsum lath.

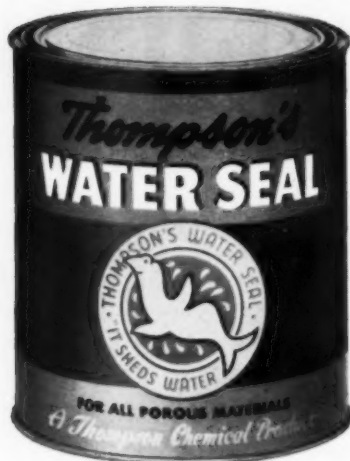

KEYSTONE STEEL & WIRE COMPANY

the one
SOLUTION

for all these construction
problems...

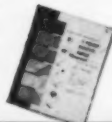

- ✓ **CRACKS IN CONCRETE SLABS AND PATIO** — Thompson's Water Seal helps prevent cracks, stains and dusting because it penetrates deep for hard water-repellent surfaces that are smooth and evenly cured.
- ✓ **SEEPAGE IN CONCRETE BLOCKS** — Thompson's Water Seal puts a deep-penetrating seal into concrete blocks to help maintain texture and color and to protect for 5 years or more against moisture seepage, leakage, stains, paint blistering and peeling.
- ✓ **JOB FOULED UP BY MOISTURE** — unlike surface-coaters, clear, colorless Thompson's Water Seal gives all porous materials a deep-penetrating seal for 5 years or more against moisture, alkalis, salt water, many organic acids — particularly valuable for door and window sections, masonry, plywood, basements, retaining walls, stucco.
- ✓ **EXTERIOR SIDING WARPS AND CRACKS** — Thompson's Water Seal penetrates deep into wood fibres — gives exposed structures protection for 5 years or more against weather and moisture that often cause warping, swelling, checking and grain-raising right on the job.

NEW BOOKLET WITH COMPLETE SPECIFICATIONS —

contains Thompson's Water Seal end-use specifications for porous materials in building and maintenance applications... and for TWS use with paints, floor hardeners and Thompson's Water-proofing Redwood Stain.

BUY Donley FOUNDATION VENTS AND CRAWL SPACE DOORS

7919-DB

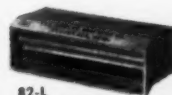

- FOR**
- ★ FASTER INSTALLATIONS
 - ★ TROUBLE-FREE OPERATION
 - ★ LOWER COSTS

The complete Donley line of Ventilators and Crawl Space Doors shown below includes sizes and types to meet all the ventilating requirements of basementless homes. Backed by over a half-century of experience in manufacturing metal products for building, these Donley products provide fast, easy installations for the builder and long, troublefree life for the home owner.

For further information check with your Donley Dealer or write today for Donley's new catalog of Metal Products for Building.

85-L LOUVER TYPE
Aluminum vent with two sloping baffles. Measures 8 1/8 x 2 1/4 x 2 3/4 inches.

82-L LOUVER TYPE
Cast aluminum vent with sloping baffles. Measures 5 x 2 1/4 x 2 3/4 inches.

ADJUSTABLE FOUNDATION VENTILATOR

Features controlled air intake. Available in cast iron, cast or pressed aluminum.

OTHER TYPES

Available in many sizes and styles for brick or concrete block walls.

THE **Donley** BROTHERS COMPANY

CRAWL SPACE DOOR
Features two screw-operated catches, positive weather protection and removable door.

Insure Better Construction

with LACLEDE open web steel joists

Engineering design and performance characteristics, necessary to insure dependable load bearing ability, are inherent in every Laclede open web Steel Joist because they're manufactured under the rigid Quality Verification Program of the Steel Joist Institute.

...approved by the
STEEL JOIST INSTITUTE

SJI APPROVAL is your assurance of uniformly high quality... in every Laclede Joist you install... a real contributing factor to the over-all success of your construction work.

Write for your copies of the latest Steel Joist Institute literature—"Bridging Report" and Quality Verification Program.

LACLEDE STEEL COMPANY

SAINT LOUIS, MISSOURI

Producers of Steel for Industry and Construction

For weather-resistant siding...

consider **INCENSE CEDAR**

one of the country's finest wood insulators

INCENSE CEDAR siding has many important properties to assure years of customer satisfaction. Perhaps most important is its exceptional resistance to weather to provide trouble-free exteriors. Other characteristics of great merit are the high insulation qualities to protect against both heat and cold, and the high dimensional stability for minimum swelling and shrinkage. These, coupled with the fact that it will readily take—and hold—paint or any of the many varieties of modern finishes, make Incense Cedar an excellent wood for siding.

For *interiors* as well, Incense Cedar can add great charm and distinction in paneling and woodwork with its beautiful knots and graceful grain. It is *carefully dried* to insure accurate sizing and improved working qualities.

Write for FREE illustrated Facts Folder about Incense Cedar to:
WESTERN PINE ASSOCIATION,
Dept. 702-B, Yeon Building,
Portland 4, Oregon.

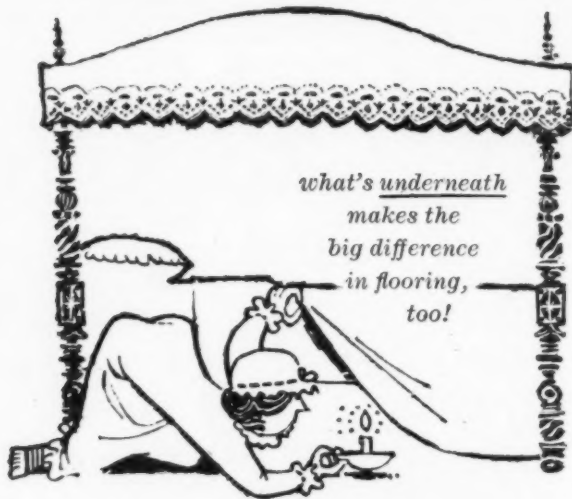

Western Pine Association

member mills manufacture these woods to high standards of seasoning, grading and measurement

White Fir • Incense Cedar • Douglas Fir • Larch
Red Cedar • Lodgepole Pine • Engelmann Spruce**

Today's Western Pine Tree Farming Guarantees Lumber Tomorrow

Thicknesses: $\frac{3}{8}$, $\frac{1}{2}$, $\frac{5}{8}$,
 $\frac{11}{16}$, $\frac{3}{4}$, and 1-inch.
 Standard Sizes: 4x8, 4x4,
 and 4x2 ft.
 Special sizes on order.
 Production: multi-platen

NEW CURE FOR "TIRED FLOORS"

Pity the builder who learns the hard way about "tired floors". Poor underlayment brings problems in a hurry. Tile or linoleum begins to sag along grain patterns... droop over defects and patch outlines... wilt into every low spot. Call-backs are costly!

That's why more and more contractors insist on Pope & Talbot particleboard — the underlayment with *finished floor smoothness*. It's engineered specifically as a base for modern floor coverings... has no grain... no defects... is exceedingly smooth! And it often *costs less* than many problem materials now in use. Available for immediate delivery.

Call your supplier, or write for specifications and prices.

What's WRONG With This Picture?

There's Extra Sell, Faster Sell, When You Play Up the obvious "Hidden Values" of **ZONOLITE®**

You can't afford to play "hide and seek" with so-called hidden values . . . They're the real values home-seekers want, often tip the scale your way

When your prospects go into that "Do-we-buy-or-not" huddle, the decision swings on those construction features that mean health, livability, safety, low-cost maintenance, protection of investment. Prospects know the values in nationally advertised Zonolite products—and YOU have the sales-closing help of Zonolite at no premium price!

MAKE THESE COMPARISONS

Zonolite vermiculite Insulating Fill pours from bags into attic—no fancy installation cost. Zonolite vermiculite plaster adds talking points of insulation, fire-safety; applied by machine it gets houses "For Sale" days faster. Zonolite glass fiber blanket insulation is lightweight, non-irritating, ideal for sidewalls—superior and competitive. Zonolite concrete insulates 12 to 16 times better than sand concrete, makes warm, dry floors on grade.

BUILDERS BENEFIT TWO WAYS

With Zonolite products builders gain economies ON THE JOB—and—they get MORE SALABLE HOUSES, QUICKER. Tear out the coupon now for FREE booklets giving Zonolite properties and application data.

Nationally advertised and promoted

RUBEROID

QUALITY AND SALES FEATURES Let You Cash in on the Custom Look!

Now, regardless of price, you can add the sales appeal of custom design to every home you build. Ruberoid's '58 "Trend Colors" make every home — even the same basic design — look like an individual custom-built home — at surprisingly low cost. "Trend Colors" add eye appeal, faster turnover and more profit per home. Contact your local Ruberoid dealer for more information today.

Sales-tested colors won't fade . . . shrinkproof.

Exclusive Duroc® finish locks in color, seals out dirt and moisture. 48" lengths mean fast application . . . Autoclaved to eliminate shrinkage. Fireproof, rot and insect-proof — cleans easily

with a hosing. Homeowners like its long life with low maintenance. Available in Bermuda Coral, Mist Green, Canary Yellow, Cloud Gray and Sno-White.

*Fireproof — won't shrink —
never needs paint.*

Permanent, mineral pigments are an integral part of this asbestos siding. Duroc® finish won't peel. Autoclaving prevents shrinkage. Color-Tex is available in standard 12" x 24" size in a wide range of Trend Colors.

*The finest siding made — for new
beauty that lasts a housetime.*

Siding with a vitreous ceramic surface that repels dirt. Needs no paint — colors won't wear out ever. Fireproof, rot and weatherproof. Available in seven sales-tested Trend Colors plus White and Swan White.

Warranted in writing against wind damage.

Ruberoid's exclusive Wind Warranty is one of the most powerful sales features in asphalt roofing. Hidden locks in center of each shingle protect against blow-offs. Lok-Tabs are available in a wide variety of sales-tested Trend Colors, including popular pastels.

Warranted in writing against wind damage.

Each Tite-On asphalt shingle is locked down at four points in addition to roof deck nailing . . . resists the heaviest winds. Provides a handsome basket-weave effect in wood-grained or smooth textures . . . available in a complete selection of colors including pastels.

Asbestos Roof shingles that never wear out.

Exclusive Duroc® finish locks in color, seals out dirt and moisture . . . protected against wind damage by copper anchors. Dramatic 3-dimensional textured design available in a variety of two-tone colors.

For all roofing applications.

Made by the pioneer manufacturer of roll roofing. Choice of smooth or mineral surface . . . weights and styles available for nailing and hot or cold built-up specifications.

Economical Building Board.

Perfect for board and batten homes . . . for no-maintenance farm and barn use. Big 4' x 8' sheets (other sizes also available) are light for easy application. Smooth surface is easy to clean. Made of fireproof asbestos-cement.

Asphalt shingles that seal themselves in the sun.

Newest of Ruberoid's wind-safety asphalt shingles. Apply like conventional strip shingles. Special bonding material is fused on at factory — ready for application. "Vent-sealing" eliminates moisture traps. Available in all popular colors.

World's most popular asphalt shingle.

Offers new, modern economical beauty to any home. Made of durable, fire-resistant asphalt for long, trouble-free life. It's the quality standard strip shingle! Now available in the newest best-selling Trend Colors.

Most efficient of all home insulations.

Lightweight, high efficiency in roll and batt blankets, utility batts and perimeter insulation. Aluminum or kraft paper enclosure . . . outside perforated, inside vapor-proofed. Roll blanket lengths 3' to 80', batt blankets in 24", 48" and 96".

Crawl-Space Cover, Reflective Insulation, reinforced, water-proof Kraft Papers and 100 other profitable Ruberoid quality building products. For information on the complete, fast-selling line — see the man from Ruberoid, today!

HERE'S

NEW

Bostwick

**DIAMOND MESH
metal lath**

<p>SQUARE—The ends of every sheet are at absolute right angles to the edges of the sheet.</p>	<p>FLAT—There are no waves, humps or bumps in the sheets.</p>
<p>UNIFORM WIDTH—Edges of the sheet are never bowed; the width is the same from end to end.</p>	<p>SMALL MESH—Pencil-size openings . . . 6678 MORE OPENINGS PER SHEET.</p>

Bostwick has a new revolutionary process for manufacturing diamond mesh metal lath. It's one of the first major contributions to the quality of diamond mesh metal lath for over 30 years.

First, every sheet comes off the machine absolutely flat, and every corner is positively square. Next, the edges are ruler straight . . . no bows. In Bostwick diamond lath the meshes have always been small; and now, with almost pencil-size meshes, the scratch coat may be applied by hand or machine with minimum plaster loss. This lath will help your building costs.

Bostwick®

THE BOSTWICK STEEL LATH COMPANY
103 HEATON AVE., NILES, OHIO

**CROSSETT ROYAL OAK—
FINEST FLOORING
MADE**

Available in special "nested" bundles containing an average of 24 board feet. Thirty-five bundles, neatly and uniformly wrapped and tied, provide Crossett customers a packaged unit of 840 board feet of Crossett Royal Oak Flooring. "Nested flooring" is easy to handle, easy to store, easy to inventory . . . and can be shipped without delay.

AT CROSSETT—logs harvested from deep shaded hardwood forests are the beginning of precision crafted Crossett Royal Oak Flooring. This raw material from managed woodlands makes possible high standards of quality manufacture. Then, skilled craftsmen who have devoted a lifetime to working in hardwoods bring out the beauty and build in the quality of Crossett Royal Oak Flooring. There's peace of mind and profit, too, in building repeat business with Crossett quality.

A Division of The Crossett Company

CROSSETT, ARKANSAS

SCORBORD

TRADEMARK

NEW member of the STYROFOAM® family cuts fitting time up to 80% in foundation perimeters and cavity walls

Scorbord* is a real "snap" to use!

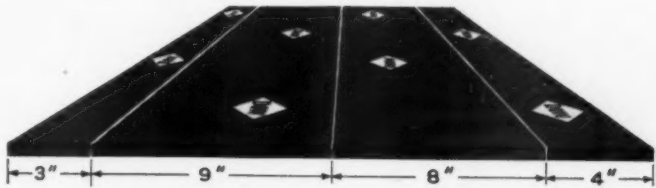

This newest rigid insulation board actually reduces sawing, cutting and fitting time to a bare minimum. Why? Simply because it can be snapped off to almost any desired width. Clearly marked pre-scoring at strategically located intervals make fittings easy as can be. Your labor costs go down, while the quality of your house goes up!

Developed by Dow after more than a decade of experience with Styrofoam*, Scorbord is specifically designed for use

along the edges of concrete slabs, along foundations and in cavity walls. Its many outstanding properties (see below) give it *permanent* insulating efficiency and unyielding resistance to water and moisture.

Scorbord has a compressive strength of over 2,000 lbs. per sq. ft. It has excellent strength and rigidity, yet weighs only 2.4 oz. per board foot, making it the lightest of all commonly used rigid foam insulations. It has no food value to attract rodents or other vermin and effectively resists rot, mold and deterioration.

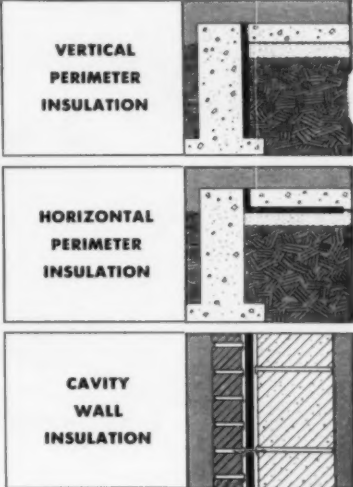

PROPERTIES OF SCORBORD

Thickness	1 inch	Thermal Conductivity ("K" factor)
Width24 inches	Less than 0.28 at a mean temp. of 40°F.
Length8 feet	Water Resistance Properties
Density	2.5 lbs/cu. ft. average	Capillarity—none
Compressive Strength	2,000 lbs/sq. ft. minimum	Water absorption—less than 0.1 lbs/sq. ft.
		(Water pickup on surface of samples tested under a 10' head of water for 48 hours.)

SCORE MARKS are positioned to provide boards of 3, 4, 8, 9, 12, 17, 20, 21, or 24 inches in width.

USE SCORBORD FOR

VERTICAL PERIMETER INSULATION

HORIZONTAL PERIMETER INSULATION

CAVITY WALL INSULATION

BLOCK ADDS ELEGANCE TO ECONOMY IN

walls of fashion

Concrete Masonry continues to expand its reputation as one of the world's most fashionable, versatile and economical building materials. This expressive rendition in block unites a natural, outdoor atmosphere with interior warmth and sophistication . . . a rare and mature combination only Concrete Masonry can achieve. For expert assistance, consult your local NCMA member.

National Concrete Masonry Association
38 SOUTH DEARBORN • CHICAGO

Scale Drawing (1" = 4") shows how new Alfol Type 44F nestles snugly against framing members for utmost thermal performance. Edge-to-edge installation of entire blanket is assured by exclusive new "box-type" expander design.

Introducing **ALFOL Type 44F** New from Borg-Warner...the most efficient **Alfol Blanket** ever produced!

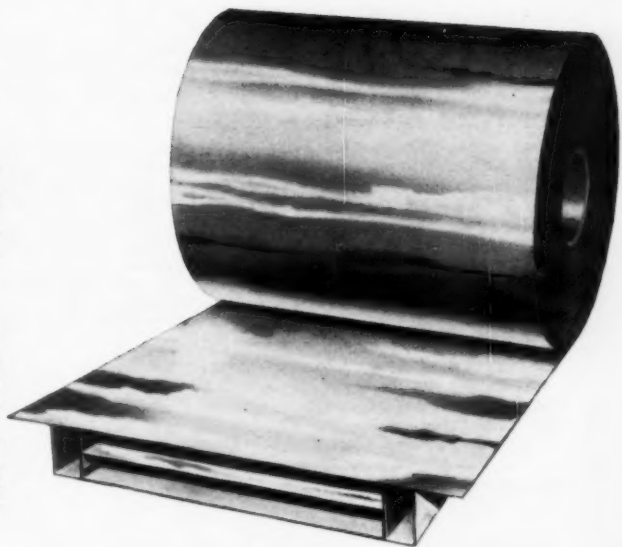

**New concept in structural design
 steps up insulating performance . . . provides
 new strength, new "box-like" rigidity!**

New from Borg-Warner, this is Alfol Type 44F. And with it comes an entirely new standard of reflective insulation performance. The secret is Type 44F's all-new "box-type" expander design that insures snug edge-to-edge installation. Overall result: you get the greatest insulating performance ever offered in a modern Alfol blanket!

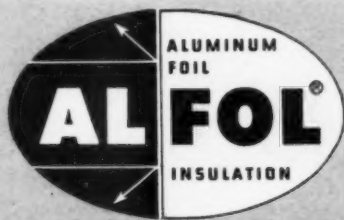

The huskiest reflective blanket ever built

Type 44F is easy to install, too, because it's sturdier. Exposed foil layers (top and bottom) are *both* backed with heavy kraft lining for extra damage-resisting rigidity. And its box-type blanket expanders are of heavy board stock for permanence of thermal superiority.

Installed, Alfol Type 44F looks (and performs) like the costliest foil-backed bulky insulation . . . yet it saves you a good 1/3rd. Ideal for ceilings, etc.—wherever utmost efficiency plus a positive vapor barrier are required. Why not investigate Alfol Type 44F for your next job.

SEND TODAY for FREE NEW BROCHURE ➡

Please send full details on Type 44F and other new types of Alfol Insulation.

**YOU
won't be
"COLOR
SMOTHERED"**

if you're Color-Tuned by **Certain-teed®**

ONLY 10 COLORS

... and you have your entire inventory of roofing shingles. Certain-teed's 10 new "Color-Tuned" colors satisfy the demands of builder, contractor, distributor, dealer and home owner.

NATIONALLY SELECTED

... as the 10 right colors through a survey conducted by Beatrice West, noted home coloring stylist. After careful screening, Miss West created Certain-teed's new line of "Color-Tuned" colors ... the one line that satisfies national demand.

END TO COLOR CONFUSION

... also means an end to piled up inventories, slow turn over, tied-up working capital. Certain-teed's 10 new "Color-Tuned" colors pull you out from under the avalanche of roofing colors, and starts you on your way to bigger profits. Color-Tuned Roofing is another first for Certain-teed.

NEW

12" and 16"

Bevel Siding with Phenolic Resin Surface and 1/2" Rabbet Joint!

← **"GPX YELLOW" saves paint time** — helps paint last 5-10 years! Tough, phenolic resin surface needs no sanding or sealing, prevents surface checking. One coat each of primer and finish is superior to three coats of paint on other siding!

↳ **Self-aligning lap slashes installation time!** Only first course needs leveling. Solid lumber back nails flush to wall, eliminates furring strips, wedges. Ends butt tightly without mastic. No splitting, no waste.

↳ **1/2" Rabbet gives 96% net coverage!** This new siding is completely weather-tight with only 1/2" lap! And it can save you up to \$40 per M sq. ft. over other kinds of bevel siding, on coverage alone.

GPX® YELLOW BEVEL SIDING

made only by

GEORGIA - PACIFIC

Lumber & Hardboard • Pulp & Paper
World's largest producer of Plywood & Redwood

Protective packaging!
Heavy-duty G-P carton contains 64 ft. Easy to store, one man can handle. Keeps siding clean and damage-free until used.

Call your G-P dealer or send coupon for information.

BIRD & SON, INC., DEPT. AB-4, EAST WALPOLE, MASS.; CHARLESTON, S. C.; CHICAGO, ILL.; SHREVEPORT, LA.

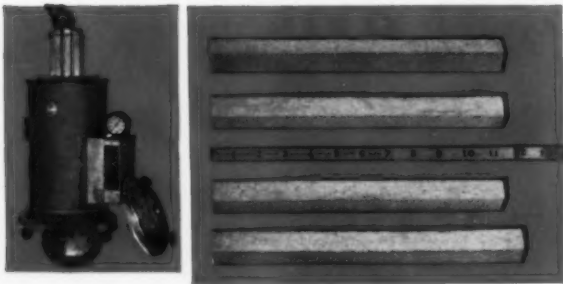

BRIXMENT MAKES

BRIXMENT is a waterproofed masonry cement for every kind of brick, tile, concrete block or stone masonry, and also for stucco and plaster. Brixment complies with the requirements of the American

Society for Testing Materials Specification C91 and the Federal Specification SSC-181 for Masonry Cement (both Type I and II). Specify one part Brixment, three parts damp sand.

BRIXMENT MAKES SOUND MORTAR

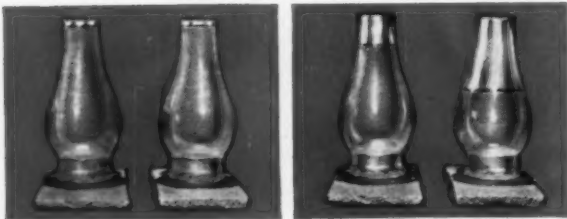

The autoclave test requires the use of a high pressure steam chest. Neat cement bars are exposed to 295 lbs. steam pressure, 420° F., for 3 hours. The two bars above the ruler are both Brixment, one before and one after autoclaving. The Brixment is sound—it has not expanded. The two bars below the ruler are portland cement and lime, one before and one after autoclaving. They are made of one part portland and one part of a lime which does not meet the autoclave test. Note the expansion—proof of unsoundness.

Unsoundness in mortar material is readily detected by the autoclave test. This severe test rapidly accelerates the chemical reaction of mortar materials, and the slightest unsoundness is immediately revealed by excessive expansion.

Brixment easily meets the requirements of the autoclave tests included in Federal and ASTM Specifications for Masonry Cement. Therefore, when Brixment is used, sound mortar and strong, durable brickwork are assured.

BRIXMENT IS WATERPROOFED

Prepare two slabs of mortar, one with Brixment and one with ordinary cement-and-lime mortar. After mortars have hardened, seal a lamp chimney to each of the mortar slabs, and fill with water.

After 24 hours, note how much water has gone into and through the ordinary cement-and-lime mortar and how little water has gone into or through the Brixment mortar.

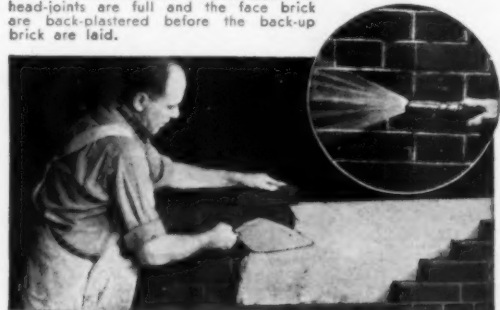

Brixment is waterproofed, during manufacture, with the most effective air-entraining water-repelling agent known. Even under pressure, water cannot readily penetrate Brixment mortar. Brixment meets the special requirements of Federal Specification SSC-181 for water-repelling masonry cements.

BRIXMENT MORTAR HELPS PREVENT LEAKY WALLS

When a wall leaks, water almost never passes through the brick or through the mortar. It works its way through cracks or openings between the brick and mortar.

The best precaution, therefore, is to parge or back-plaster the face brick with waterproofed mortar before the backup units are laid. Therefore, if the face brick are back-plastered with Brixment mortar, a water-repelling barrier is set up against the further penetration of any water which may have worked its way through cracks or voids in the outside four inches of the wall.

This kind of brickwork will not leak. All head-joints are full and the face brick are back-plastered before the back-up brick are laid.

BETTER MORTAR!

BRIXMENT MORTAR IS MORE DURABLE

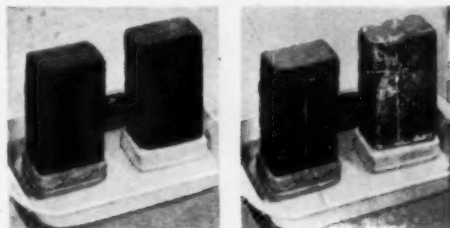

To compare the durability of Brixment with that of ordinary cement-and-lime mortar, make a cylinder of each, let both cure for a month, then freeze and thaw them 40 or 50 times with a little water in the pan.

After a number of freezings and thawings, you will note that the cylinder of Brixment mortar retains its original condition, while the cylinder of non-waterproofed materials has badly crumbled and scaled.

Brixment mortar is *durable*. This durability is due partly to the strength and soundness of Brixment mortar, and partly to the fact that an air-entraining water-repelling agent is incorporated into Brixment during manufacture. This helps prevent the mortar from becoming saturated — therefore helps protect it from the destructive action of freezing and thawing.

BRIXMENT MORTAR HELPS PREVENT EFFLORESCENCE

Brixment helps prevent efflorescence. The air-entraining water-repelling agent in Brixment helps to prevent water from saturating the mortar and dissolving the small amount of salts that it may contain. Moreover, Brixment mortar prevents water from percolating down through the wall, dissolving salts which may be in the brick, and carrying them to the surface.

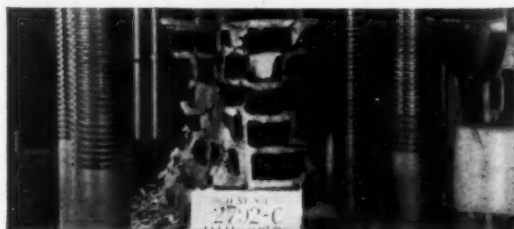

To test Brixment and ordinary cement-and-lime mortar for resistance to efflorescence, "cap" two brick heavily with the mortars—let harden, and keep both brick for a few weeks in a shallow pan of water as shown. See the difference with Brixment mortar!

BRIXMENT MORTAR ASSURES STRONG WALLS

The strength of Brixment mortar is more than adequate for any type of brickwork. It is recommended for foundations, loadbearing and cavity walls, for free-standing stacks—for every kind of masonry where strength is required.

Brixment mortar is equivalent in strength to 1-1-6 cement-and-lime mortar. It meets the requirements of ASTM specification C270 for mortar, type N.

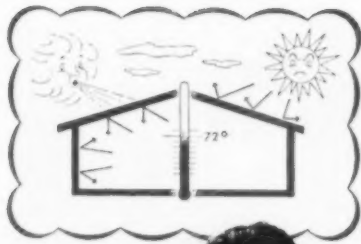

BRIXMENT MORTAR HAS BETTER WATER-RETENTION AND GREATER PLASTICITY

Place a dab of Brixment mortar and a dab of ordinary cement-and-lime mortar on a brick. Wait a minute, then feel each mortar. The one that stays plastic longer will be the one having the highest water-retention. Feel the difference with Brixment mortar!

Brixment mortar has high water-retaining capacity. Brixment strongly resists the sucking action of the brick and stays smooth and plastic longer when spread out on the wall. *This permits a more thorough bedding of the brick and a more complete contact between the brick and the mortar.* Brixment's exceptional plasticity has made it the most widely-used masonry cement in the field. Brixment makes it easy for the bricklayer to secure neat, economical brickwork.

"We'll be warm in winter's cold — cool in summer's heat... Thanks to ***REFLECT-O-RAY***"

Proof of the product is in its performance — and its relation to costs. That's why a growing number of builders are taking advantage of insulation materials faced with REFLECT-O-RAY. In new or remodeled homes, costs are lower... insulating results better for REFLECT-O-RAY helps keep homes winter warm and summer cool. Its millions of tiny, sparkling, mirror-like flakes (which are bonded to

tough, durable kraft) provide a *more efficient* type of heat reflecting surface. "Young Moderns" appreciate your sound judgement of usage, too, because it means savings in both fuel and air-conditioning efficiency. There's no need to fret about condensation build-up either because REFLECT-O-RAY is a natural "breather." For *comfort everyone can afford* use only insulations faced with REFLECT-O-RAY.

Protect your homes against costly damage like this!

How well do corners hold up? That's one good proof of quality in wallboard construction—and your corners will be stronger when you reinforce with STEEL.

Gold Bond Wallboard Arch Corner Bead does two important jobs. Use it straight for permanent protection of a straight corner—or snip one flange to form any arch you want. Exclusive triangular design gives maximum joint-cement bonding... deep knurled flanges prevent cement slippage during application and provide better adhesion afterwards.

Gold Bond No. 400 Wallboard Casing Bead helps you finish and paint faster at every door and window. It costs less than wood trim! Exclusive ridge design locks in wallboard, assures a permanent, tight fit. Available with mitered ends. Other styles are: square, recessed, angle and channel edges.

These Gold Bond® STEEL Beads protect and reinforce the walls while you're building...and long after the house is sold. For full information, write Dept. AB-48, National Gypsum Company, Buffalo 2, New York.

Wallboard Arch Corner Bead

Wallboard Casing Bead® No. 400—Quarter Round
U. S. Patent No. 2,663,290

NATIONAL GYPSUM COMPANY

LOC-WALL: Idaho White Pine and Inland Red Cedar in Formal and Traditional styling; Larch in Formal styling. Plywood Panels look like individual boards of random lengths and widths, edge and end-Vee'd. Also produced with Gruve-Ply pattern. Interlocking furring strips are already attached.

GRUVE-PLY: Idaho White Pine or Knotty Cedar plywood produced with surfaces carefully sliced like the most expensive imported woods. Looks like individual boards side by side. Goes up quickly, economically. Pre-grooved edges give uniform joints, eliminate need for mouldings.

Weyerhaeuser 4-SQUARE®

LUMBER AND BUILDING PRODUCTS

NU-WALL: Ponderosa Pine paneling with random Vee horizontal end-matching. Kiln-dried and packaged to specified 7' or 8' lengths. Comes in three distinctive stylings: Formal (clear), Traditional (small to medium knots) or Contemporary (medium to large knots).

3 NEW WOOD PANELINGS STYLED FOR MODERN HOMES

● More and more home owners are learning to appreciate the extra beauty and decorative warmth of wood panelings. And more and more builders are capitalizing on this trend by including panelings as important features in their new homes.

Today you can give your prospects a wide choice of distinctive wood panelings . . . with an interesting range of Western species and patterns to meet the trends of modern and traditional architectural stylings.

Weyerhaeuser 4-Square panelings arrive on the job ready for application—carefully packaged for protection from dust, stain and damage.

You will enjoy examining the complete line of wood panelings, including Loc-Wall, Gruve-Ply, and Nu-Wall. Contact your nearest Weyerhaeuser 4-Square Lumber Dealer, or write us for descriptive literature.

Ways you can

SELL MORE HOMES

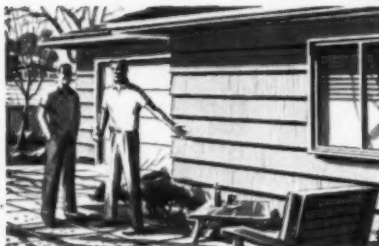

using *Shake-a-Ply* cedar siding

FAST APPLICATION—It takes only about 12 man-hours to apply 1000 sq. ft. of Shake-a-Ply. The easy-to-handle panels can be sawed in any direction or nailed anywhere without splitting or checking. No special nailing strips or backing necessary.

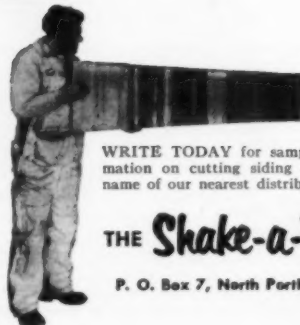

MITRED CORNERS, made from Shake-a-Ply panels, save the cost of fitting corner joints, and help establish correct spacing and chalk line for panels. Like Shake-a-Ply panels, they are machine-made to square, uniform dimensions.

NO PAINT FAILURE with Shake-a-Ply because its resin-coated moisture barrier prevents formation blisters. Shake-a-Ply comes either natural or brush-painted at the factory in primer or 12 colors.

MORE "VISIBLE" QUALITY because the home buyer can actually see and touch the cedar shakes. Shake-a-Ply has an expensive quality look, but the installed cost of these factory assembled units is less than any other wood siding.

Shake-a-Ply panels are 8 feet long by nominal 18 inches wide. They are made like plywood, using No. 1 clear machine-grooved Certigrade Western Red cedar shakes and cedar shingle undercoursing, with a cross-bind of veneer core coated with waterproof resin.

WRITE TODAY for samples, full information on cutting siding costs, and the name of our nearest distributor.

Barrett **RANCHLINE**† Shingles
create a stunning first impression!

We had been looking *everywhere* for *just* the ranch house! And, my dear, when we drove up to *this* one! Completely ranch style. So sleek—everything designed to make it *long and low*. Even the roof, with those long, slim tabs, was created for modern homes—in *pastel*! You know how mad I am for color. We couldn't be more thrilled!"

Quick-to-see Sales-Winning Points

- Longer "Ranchline" Shingle tabs *integrate* modern design.
- Exciting colors *carry decorator theme* roof-high.
- King-size, two-tab shingles *resist wind* better—18" tabs instead of conventional 12".
- They're made by Barrett, famous in the building field.

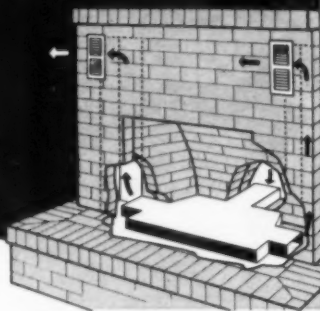

For full information about "Ranchline" Shingles and the complete Barrett line, write BARRETT DIVISION, 40 Rector Street, New York 6, N. Y.

New... Fireplace Heat Circulator Costs Two-Thirds Less!

DOUGLASS hearth form

Compare these advantages with any other fireplace heat circulator:

- Makes any masonry fireplace, including Swedish design, an effective forced air heating plant.
- Lightweight, compact for convenient handling and warehousing.
- Easily, quickly installed by one man.
- Serves as a form or template for the fireplace.
- As an air conditioner, draws fresh, smokeless air into the home.

Inexpensive to purchase, easy to install, DOUGLASS hearth form brings new utility to fireplace heating and increases the dollar value of any home.

FREE: Send for illustrated literature on the new low cost DOUGLASS hearth form fireplace heat circulator.

VITROLINER
prefabricated *Chimneys*

FOR ALL
HOME BUILDERS

Builders and Contractors, large and small alike are SOLD on Vitroliner chimneys! Here's why—

- **QUALITY-BUILT** of finest materials for safety and long life.
- **ENGINEERED** construction using the same time-tested design, for more than 15 years.
- **ASSEMBLED** on the job in lightweight sections for fast, easy installation in floor or ceiling joists, providing maximum flexibility.
- **FEATURES** the choice of many Styles, Sizes, Colors and Flue Diameters.
- **AVAILABLE** from Chicago factory, tailor-made to fit. Also shipped in knocked-down form by nearby distributors and dealers direct to the job.

All Vitroliners are class "A" chimneys for one or two story homes and buildings, providing complete chimney functions.

Listed by Underwriters Laboratories for all fuels—accepted by Local and State Building Authorities—Insurance Rating Bureaus—and the Building Officials Conference of America.

Write today for details.

HOW TO SAVE 30% +

on siding installation and painting costs and still maintain the quality and strength of natural wood.

SAVE 30% + ON LABOR. Large, easy to handle 4' x 8' Simpson overlaid plywood sheets go up fast with fewer nails, less cutting, less waste, less bracing and blocking.

SAVE 30% + ON PAINTING. The overlaid surface has a unique velvety tooth that takes paint easier, saves paint and painting time, eliminates the need for sanding, sealing and patching. Two coats do the job of three and they last years longer between re-painting. Overlaid surface prevents checking and blistering. *Specify "Simpson Medium Density Plywood."* Write for free sample and additional information.

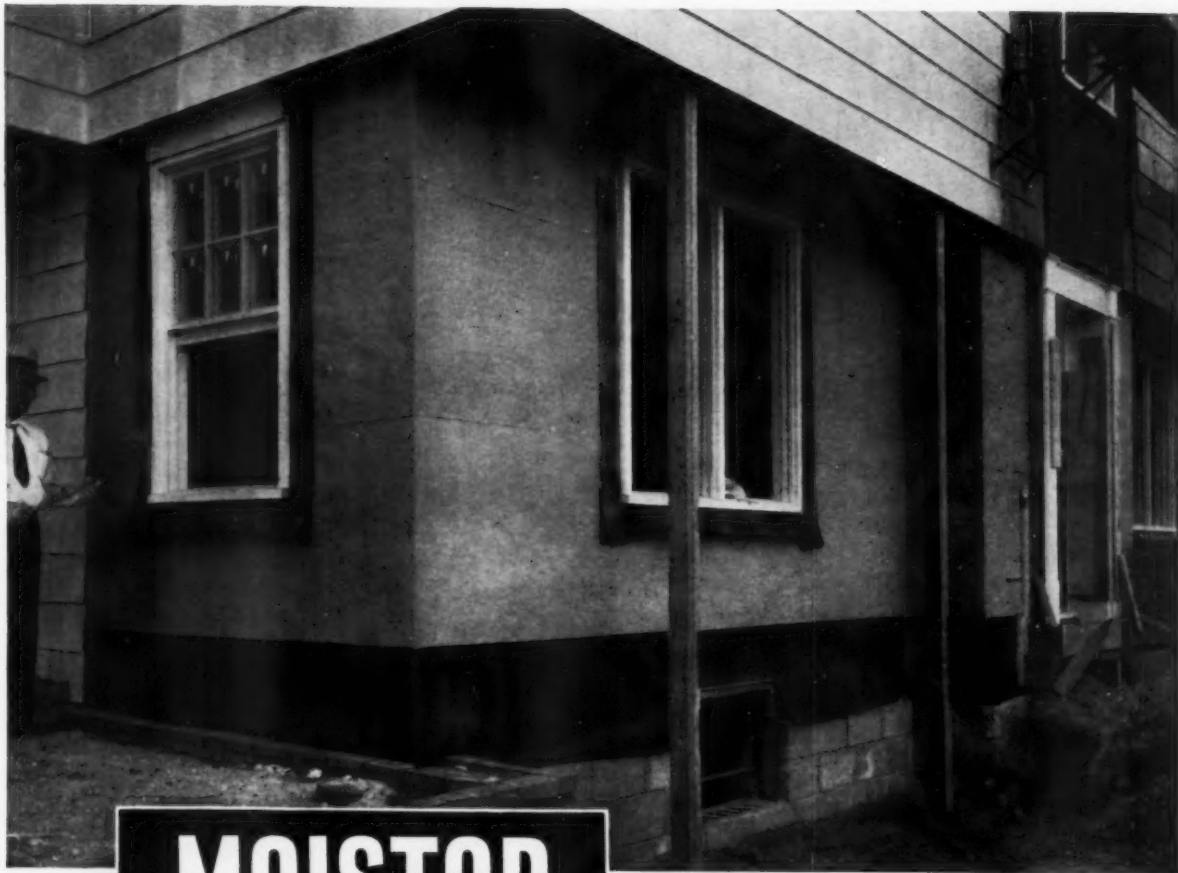

Simpson Medium Density Overlaid Plywood Siding is an exterior-grade fir plywood with a resin impregnated fiber (CREZON) bonded to one or both sides under heat and pressure. Color: yellow. Available through your dealer.

MOISTOP

New, Low Cost, Concealed Flashing Now Available for FHA & VA Homes

Moistop is a new low-cost concealed flashing which provides permanent protection against moisture. Its super strength makes it easy to apply. Moistop is made of rot-resistant Sisalkraft bonded to polyethylene. It provides a unique combination of tough, strong Sisalkraft and the permanency of polyethylene — at a new low cost!

You'll find Moistop unsurpassed under concrete in slab-on-ground homes, under basement floors, in crawl spaces . . . wherever a permanent vapor barrier is required to stop the passage of moisture — on or below grade.

Available in flashing-size rolls from 6" to 60"; large vapor barrier rolls of 72", 84" and 96" at your building materials supplier.

**for less than 4¢ per sq. ft. in
flashing size rolls**

Available at considerable savings
in the vapor-barrier size rolls.

KILN DRIED

Photo by Morley Boer

—and only the most skillfully controlled
kiln drying captures the permanent values
 exclusively inherent in redwood

No other wood on the market offers so much in dimensional stability and freedom from swelling and shrinkage—if properly processed from forest to home-site. The Pacific Lumber Company, oldest of leading redwood producers, has long pioneered advanced methods which have established *Palco Architectural Quality Redwood* as the standard of comparison. When you specify Palco Certified Dry Redwood, you know that it

803

has been first air dried for months—then *kiln* dried under the most exacting control of time, temperature and humidity—followed by special processes to equalize moisture content throughout each individual piece. This is your assurance that Redwood's beauty will outlast the longest mortgage.

See Sweet's Architectural File, or write for your personal reprint of the bulletin outlining specification data, PALCO Redwood patterns, sizes, grades, grains, etc.

G-E silicones help new houses look better, sell sooner

Masonry water repellents made with General Electric silicones are quick and easy to apply. They penetrate *deep* into the capillary pores of masonry, forming an invisible water-repellent shield. This eliminates those ugly stains caused by rain-splashed mud or by dust and dirt on the masonry surface. Rain runs right off, carrying dirt with it.

But that's just the beginning! Silicone water repellents help prevent surface salt deposits; retard chipping and cracking; minimize water penetration and resulting freeze-thaw damage. They keep moisture *out*, yet permit masonry to breathe—thus protecting interior surfaces against peeling and flaking.

A recent survey shows that home buyers expect to pay far more for this protection than the actual cost to you. Find out more about G-E silicones and what they can do for your new homes—in appearance, protection and *sales!* Mail the coupon today.

LOOK FOR THIS LABEL!

General Electric does not market masonry water repellents—it supplies silicones to formulators. This label is your assurance of getting the very finest masonry protection obtainable.

Progress Is Our Most Important Product

Fast, low cost remodeling made easy by
PLASTER-WELD[®]

Permanently bonds new plaster to old . . . or to any sound surface!

Example
of
PLASTER-WELD
at Work

Ambassador Hotel, Milwaukee, Wis.
 Need for new washroom caused lobby wall to be broken through. Plaster-Weld was applied to old surrounding painted wall to facilitate blending of white coat from patch over old wall. One of many applications for this versatile bonding agent. General Contractor: Kurtischenreuter Company; Plasterer: L. W. Rosin.

For as little as 2¢ per square foot, you can now permanently bond new plaster or cement to any surface. Think what a difference this can mean to you in the cost of remodeling, renovation or new construction!

From "One Coat Plastering" of homes, garages and club rooms . . . to finishing concrete ceilings, beams and columns of large office buildings, apartments and hotels . . . and refinishing any structurally sound surface . . . Plaster-Weld gives you an easy, job-proven way of obtaining permanent, ageless bonds that *never let go!*

Plaster-Weld is the original and patented liquid bonding agent approved by F.H.A. and New York Board of Standards and Appeals . . . so you can recommend and use it with confidence. Easy to apply . . . just like paint. For permanently bonding new concrete to old concrete, specify Weld-Crete, another Larsen product. Get fact-packed literature from your Building Supply dealer, see Sweet's File, or write direct to Larsen Products Corporation, Box 5756F, Bethesda, Md.

use latex paints

**14 homes a day prove
they speed the job**

1,757 homes in 1957 . . . 4,300 homes in three years! That's the story of Mr. John F. Long and his Maryvale community in Phoenix, Arizona. Maryvale, recently featured on a national TV show, is one of the country's largest planned communities. Its development has put Mr. Long among the nation's top ten builders. Home buyers pick their own decorating scheme from a wide color selection in latex paint—a real plus feature.

Latex paints enable a 54-man crew to stay on top of the current Maryvale production schedule of 14 home completions a day. Latex paints will keep your work schedules up to the minute, too. They put an end to time- and cost-consuming delays in decorating. They're easy to apply and dry fast enough for a second coat the same day. And painting equipment rinses clean in plain water.

From application to clean-up to homeowner satisfaction, you can't beat latex paints. You're way ahead when you specify them! THE DOW CHEMICAL COMPANY, Midland, Michigan, Coatings Sales Dept. 2107G.

YOU CAN DEPEND ON

HEATILATOR® PRODUCTS...

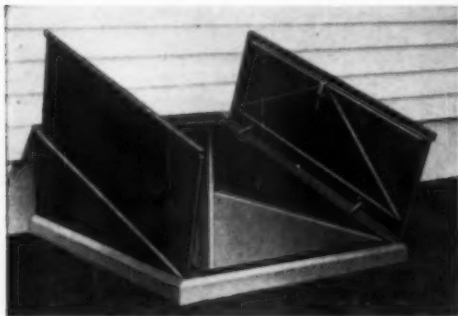

FOR EXTRA SALES APPEAL,
BETTER QUALITY IN YOUR HOMES

HEATILATOR SERVICE-WAY

... prospective buyers quickly recognize the extra convenience of the modern, all-steel Service-way. By providing direct access from the basement to outdoors, it saves countless steps, simplifies dozens of household tasks. Makes basement space easily available for storage or recreational purposes. Homes are easier to sell.

Model "S"—Single Door—provides a wide, unobstructed opening with plenty of clearance for bulky, hard-to-handle items. Double-action coil springs counterbalance door for finger-tip operation. The heavy gauge steel door is reinforced for maximum strength. Overlapping flanges on door and frame make it weathertight. A quick release safety rod prevents accidental closing. Shipped assembled for faster and easier installation on the job.

Model "D"—Dual Doors—has concealed torsion bar counterbalancing for smooth, effortless operation. Flanges on doors and frame interlock to form a weathertight seal. Anti-closing safety catches are easily released by a touch of the toe. Built of heavy gauge reinforced steel. Shipped knocked down for quick assembly and installation with a minimum of labor. Available in two sizes.

HEATILATOR FIREPLACE UNIT

AMERICA'S LEADING FIREPLACE

Here's why more genuine Heatilator Fireplaces are in use today than all other makes combined:

Maximum heat circulation . . . smoke-free operation. Firebox, throat, damper, downdraft shelf, and smoke dome are built into *one unit*, all correctly proportioned and located to assure perfect operation. No tubes or fins to obstruct flow of heat or smoke. Heat circulates throughout room . . . doesn't smoke regardless of winds or drafts.

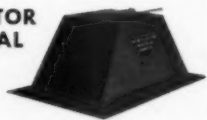

Exclusive pressure-seal damper . . . simple and positive in operation. Poker control holds damper firmly in any open position . . . pressure seals throat air-tight when closed. No fixtures through mantel, no moving gears or ratchets to jam or break. Prevents loss of heat in winter, costly air conditioning in summer.

One-piece firebox . . . built of heavy $\frac{3}{16}$ " boiler plate steel. No reinforcing ribs needed. Provides maximum strength and durability.

Easy to install . . . provides correct form for finished masonry . . . saves time and labor.

Available in many sizes . . . for fireplaces with openings from 28" to 60" in width, and fuel capacities up to 48".

HEATILATOR UNIVERSAL DAMPER

Designed and engineered for open-sided fireplaces. The Universal Damper incorporates both smoke dome and damper in one compact unit. Scientifically designed for smoke-free operation.

Sloping sides permit back-up course of masonry above damper for safety. Reinforced flange serves as lintel. Positive chain pull control holds damper blade firmly in any position. Available in five sizes.

What an X-ray would show where Dur-O-wal

is used in every second course 16" c. to c.

DUR-O-WAL prevents cracking and adds lateral strength to masonry walls at low, low cost . . .

DUR-O-WAL[®]

RIGID MASONRY WALL REINFORCEMENT

- Mechanical bond every 8 inches of wall
- Electric butt welds place all rods on a single plane
- Deformed side rods lay straight and flat
- Trussed design causes side rods to work together
- Two mortar locks at each weld
- Deformed side rods for maximum bond strength
- Conforms to ASTM Standard A-82-34 for high tensile steel
- 10 foot lengths for easy handling
- 6 inch lap at splices develops continuity and maintains reinforcing strength
- All steel in single plane makes possible uniform mortar joints

DESCRIPTION:

Extra Heavy Dur-O-wal is manufactured with 3/16 inch (.1875) Side Rods and No. 9 (.1483) Cross Rod. Standard Dur-O-wal is manufactured with No. 9 (.1483) Side Rods and No. 9 (.1483) Cross Rod.

SELECTION TABLE

Wall Thickness	4 in.	6 in.	8 in.	10 in.	12 in.	13 in.
Extra Heavy Dur-O-wal	4-EH	6-EH	8-EH	10-EH	12-EH	13-EH
Wt. per 1000 lin. ft.	247 lb.	250 lb.	257 lb.	266 lb.	276 lb.	282 lb.
Standard Dur-O-wal	4-S	6-S	8-S	10-S	12-S	13-S
Wt. per 1000 lin. ft.	178 lb.	180 lb.	187 lb.	196 lb.	207 lb.	212 lb.

Furnished in either bright basic or galvanized steel. Specify Drip Section Dur-O-wal for Cavity Walls.

NOTE — In determining whether to specify Standard weight or Extra Heavy weight Dur-O-wal, comparisons in following table should be properly evaluated:

	Weight lbs. tensile steel per lin. ft.	Surface bond area—sq. in. per lin. ft.	Number of mortar locks per lin. ft.
Standard weight Dur-O-wal	0.19	11.18	3
Extra Heavy Dur-O-wal	0.26	14.14	3

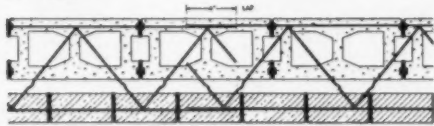

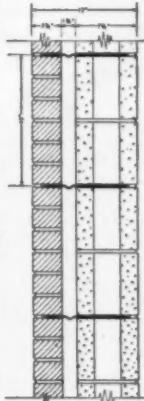

CAVITY WALLS

Cavity walls shall be reinforced with drip section deformed Dur-O-wal in the first and second bed joints (8" c to c) immediately below window sill and first and second bed joints (8" c to c) above window lintels and every second bed joint (16" c to c) throughout remainder of masonry area. Dur-O-wal in first bed joint immediately above and below openings shall be continuous. In second bed joint it shall extend two feet beyond each side of opening. Joint reinforcement shall be wide enough to extend to within one inch of both exterior and interior faces of wall. Diagonal cross rods that serve as ties shall be formed with a drip and shall be of non-corrosive (galvanized) metal. Drip can be placed at center or off-center in cross rod as required. Codes generally call for a minimum of one 3/16 in. tie for each 3 sq. ft. of wall. Dur-O-wal exceeds this requirement and provides maximum anchorage with positive and uniform spacing of ties.

COMPARISON TABLE VARIOUS TYPE TIES

Type	Spacing	Cross Sectional Area of Ties per sq. ft. wall
Z-Bars	1 for each 3 sq. ft.	.009 sq. inches
Rectangular	1 for each 3 sq. ft.	.0184 sq. inches
U-Bars	1 for each 3 sq. ft. Spaced 16 in. o.c.	.0184 sq. inches
Dur-O-wal	vertically	.0207 sq. inches

Dur-O-wal for Cavity Walls is furnished with steel side rods and galvanized cross rod or with all galvanized steel rods.

**FIRST IN ACCEPTANCE
IN SPECIFICATIONS**

EXTERIOR WALL BEARING CONSTRUCTION

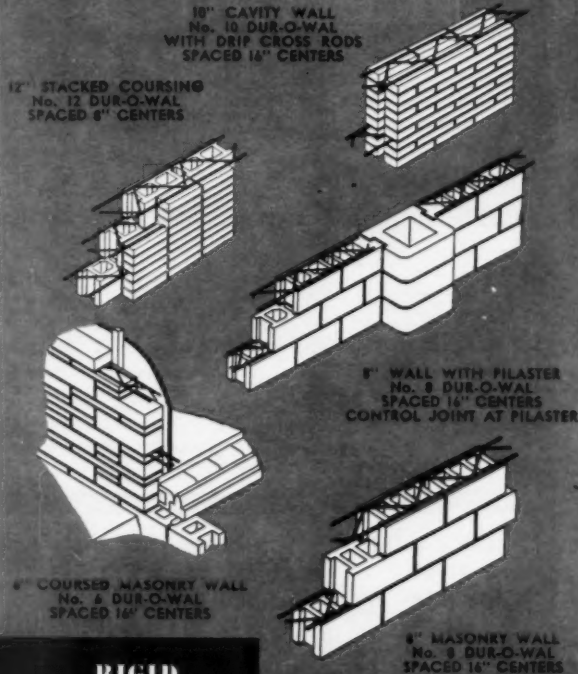

Joint reinforcement — Dur-O-wal — shall be placed in first and second bed joints (8" centers) immediately below window sills and first and second bed joints (8" centers) above window lintels and every second bed joint (16" c to c) throughout remainder of masonry area. Joint reinforcement shall be wide enough to bridge air space and shall be 2 inches less in width than normal thickness of the wall. Minimum mortar coverage on exterior exposed face of wall shall be not less than 3/4". Reinforcement shall be lapped sufficiently at splices to insure continuity and corners shall be cut and bent as shown in details.

WALLS OF STACKED COURSING

Masonry walls of stacked coursing of through wall units or stacked coursing of brick not bonded to backup shall be reinforced with deformed Dur-O-wal placed in every course (8" c to c) and shall be wide enough to extend to within one inch of both exterior and interior faces of wall.

INTERIOR PARTITIONS

Interior partitions shall be reinforced with deformed Dur-O-wal in first and second bed joints over door openings (8" c to c) and every second course (16" c to c) throughout remainder of masonry area.

Butt Weld **DUR-O-WAL**

**RIGID TRUSSED
Design**

the Backbone of Steel for EVERY masonry wall

Dur-O-wal is manufactured in 10 foot lengths and shipped in clearly marked, easy-to-handle bundles containing 500 lineal feet.

Certain-teed**BUILDING MATERIALS****for New Construction or Remodeling****CERTAIN-TEED
COLOR-TUNED
ASPHALT ROOFING**

Color-styled by Beatrice West from findings based upon an extensive national survey, Certain-teed's entirely new line of 10 "Color-Tuned" colors puts an end to color confusion . . . completely meets and satisfies the demands of distributor, builder, dealer, contractor and home owner.

**CERTAIN-TEED
FIBERGLAS*
INSULATION**

*Trademark OCF Corp.

Fireproof Fiberglas is moisture resistant, rotproof, will outlast the house. Available in rolls, batts (regular, foil enclosed and foil faced), pouring wool, perimeter insulation; roof insulation for built-up roofs.

**INSULATING
BOARD PRODUCTS**

Featuring a complete line; an insulating board product for every purpose:

- Insulating Sheathing 1/2" and 25/32"
 - Integrally Asphalted
- Insulating Backer Board 3/8"
 - Integrally Asphalted
- Insulating Coated Building Board 1/2"
 - Painted One Side
- Insulating Ceiling Tile
 - Decorated or Plain

All have great structural strength plus insulating qualities.

**CERTAIN-TEED
ASPHALT
INSULATING AND
ASBESTOS
CEMENT SIDINGS**

Complete line of styles and colors, including new pastels. Handsome, durable, economical—never need painting or other maintenance. Asphalt Insulating Sidings come in shake, stone and brick designs; Asbestos Cement in shake, waveline and straight edge.

For additional information on above items write for catalogs and brochures.

Packaged masonry chimney is permanent, attractive

Genuine masonry construction of the Van-Packer Chimney gives you safety and permanence. Time-tested fire clay tile liner is acidproof — won't dent, rattle or corrode. Fire protection is built-in.

Attractive appearance of the Van-Packer Factory-Built Masonry Chimney assures buyer acceptance. Asbestos-cement housing looks like brick — comes in red, buff, gray or white — won't dent, rust or streak roof.

Saves space — enough for an extra closet. Ceiling or floor suspended installation eliminates pier, lets you locate furnace anywhere. Van-Packer provides highest draft for most efficient furnace operation, also.

Easily installed by one man in three hours or less. You save up to 40% in cost of labor and materials. No delays, you get immediate delivery to job site from your local Van-Packer Jobber.

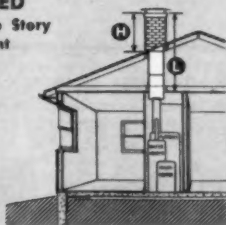

The Van-Packer is a 7" I.D. Chimney that comes completely packaged with all parts provided. The tile liner withstands 2100° F., and flue sections have the insulating value of 24 inches of brick. No clearance is required at floor, ceiling or roof so the 14" O.D. flue sections will fit between joists 16" O.C. without joist cutting. Machined-smooth section joints are sealed permanently with acidproof cement, and rein-

forced with drawbands. Flashing is leak proof and adjustable to any roof pitch. Flue sections are enclosed above the roof by a weatherproof asbestos-cement housing and rain cap assembly. Also available: Van-Packer Gas Vent constructed of acidproof 3/8" fire clay tile with asbestos-cement jacket. UL listed for Class B service—used with all gas-fired appliances requiring 3" to 7" I.D. flues (except incinerators.)

To order a Van-Packer All-Fuel Chimney or Gas Vent, or for quotations, give your Van-Packer Heating or Building Material Jobber the "H and L" measurements as indicated above. See "Chimney—Prefabricated" in the Yellow Pages for your nearest jobber, or write Van-Packer for Bulletin RS-1-12.

Tested and listed by Underwriters' Laboratories for all fuels, all home heating plants and incinerators; and is approved by major building codes.

 **Van-Packer** FACTORY-BUILT MASONRY **Chimney**

Van-Packer Company • Division of The Flintkote Company
P. O. Box No. 306, Bettendorf, Iowa • Phone: East Moline, Ill. 3-5288

BUILDERS AND MASONS AGREE:

**"BENNETT Fireplace Products
save time and money for us . . .
. . . give greatest satisfaction
to home owners"**

Benefire **THERE'S LESS TO DO
FROM HEARTH TO FLUE**

MR. BUILDER—"Benefire takes all the guesswork out of fireplace construction. It's the complete fireplace form . . . and gives complete satisfaction to the owner."

MR. MASON—"Benefire's square shape simplifies brick-laying, cuts down time, saves up to a ton of masonry per job. Throat damper, combustion chamber, down-draft shelf and 'Ductops' are all built into the form."

Beneform **THE ONLY CHOICE FOR
UNUSUAL FIREPLACES**

MR. BUILDER—"Beneform does a terrific job . . . for projecting corner fireplaces, 2-sided or 3-sided openings, openings in 2 rooms, open all around, etc. . . assures lower construction costs and smoke-free operation."

MR. MASON—"Because of its flexibility, Beneform allows a choice of chimney stack locations. And the heavy flange on all four sides is strong enough to carry any masonry load. No lintel bars required."

NEW DEEP-THROAT DAMPER BENNETT-

**DESIGNED FOR FAST,
EASY INSTALLATION**

MR. BUILDER—"For standard fireplace construction, I've found that the Bennett Deep-Throat Damper gives the most satisfactory performance. And it holds down construction costs."

MR. MASON—"The Deep-Throat Damper makes my work easier. It's sized and shaped for standard brick . . . saves cutting and fitting. New 10" deep throat insures maximum draft. Interlocking closure along entire top, and full overlap ends, prevents heat loss and cold down drafts."

**EVERYTHING YOU NEED FOR LOW-COST FIRE-
PLACE CONSTRUCTION**

SWEEPIT

LINTEL BARS

CLEAN-OUT DOORS

ASH DUMP

The Bennett line has all the accessories you need for every type of fireplace in demand today. For example:

SWEEPIT—Perfect for raised hearth and basementless homes. Sweep ashes into the galvanized pan. Easy to remove and empty.

CLEAN-OUT DOORS—Standard design, but with frame and door cast in attractive patterns.

ASH DUMP—Extra heavy cast iron . . . firebrick size frame seats deep in hearth, can't be dislodged.

LINTEL BARS—Each bar made from right weight and size of angle to support its span length without spring or sag.

Yes, builders and masons agree that Bennett Fireplace Products solve their fireplace construction and cost problems.

And, best of all, once the job is done the owner is happy about its performance and easy operation. The finished fireplace costs less. Smoke-free construction is guaranteed. The exterior of the fireplace is more beautiful. Extra heat is there when needed . . . and there are no cold floor drafts.

ESTIMATING RESILIENT TILE

TABLE I ACTUAL DIMENSION REQUIREMENTS

(Based on 9" x 9" units)

LENGTH	TILE	LENGTH	TILE	LENGTH	TILE	LENGTH	TILE
9"	1	8'-3"	11	15'-9"	21	23'-3"	31
1'-6"	2	9'-0"	12	16'-6"	22	24'-0"	32
2'-3"	3	9'-9"	13	17'-3"	23	24'-9"	33
3'-0"	4	10'-6"	14	18'-0"	24	25'-6"	34
3'-9"	5	11'-3"	15	18'-9"	25	26'-3"	35
4'-6"	6	12'-0"	16	19'-6"	26	27'-0"	36
5'-3"	7	12'-9"	17	20'-3"	27	27'-9"	37
6'-0"	8	13'-6"	18	21'-0"	28	28'-6"	38
6'-9"	9	14'-3"	19	21'-9"	29	29'-3"	39
7'-6"	10	15'-0"	20	22'-6"	30	30'-0"	40

TABLE II SQUARE FOOTAGE REQUIREMENTS

(Based on 9" x 9" units)

SQUARE FEET	TILE REQUIRED	SQUARE FEET	TILE REQUIRED
1	2	60	107
2	4	70	125
3	6	80	143
4	8	90	160
5	9	100	178
6	11	200	356
7	13	300	534
8	15	400	712
9	16	500	890
10	18	600	1068
20	36	700	1246
30	54	800	1424
40	72	900	1602
50	89	1000	1780

HOW TO USE THESE TABLES

Either of these tables may be used to ascertain the number of 9" x 9" resilient tile required for given areas. A typical example would be to find the number of tile required for a room 15' x 21':

Using Table I
15'-0" = 20 tile
21'-0" = 28 tile
28 x 20 = 560 Total
number of tile required

Using Table II
15 x 21 = 315 sq. ft.
300 sq. ft. requires 534 tile
10 sq. ft. requires 18 tile
5 sq. ft. requires 9 tile

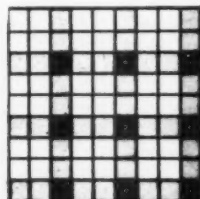

Total tile required 561

Note: Table II is based on mathematical factors which accounts for the slight difference. In all cases 2 percentage factor should be added to the total to allow for waste.

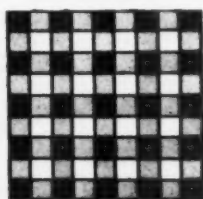

PERCENTAGE FACTORS FOR WASTE

NUMBER SQUARE FEET	ADD
1 to 50	14%
50 to 100	10%
100 to 200	8%
200 to 300	7%
300 to 500	6%
500 to 1000	5%
Over 1000	3%

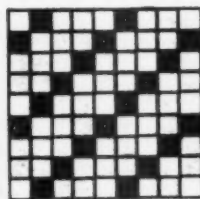

QUANTITIES OF TILE FOR FLOORING DESIGNS

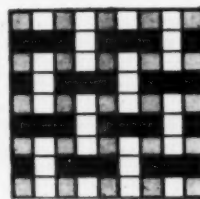

36% 16% 48%

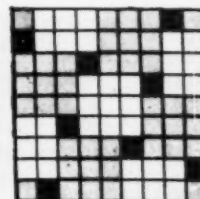

25% 25% 25%

26% 26% 48%

37% 38% 25%

10% 45% 45%

FLOORING ESTIMATING

HARDWOOD FLOORING DATA

STANDARD SIZES, COUNTS and WEIGHTS

"Nominal" is the size designation used by the trade, but it is not always the actual size. Sometimes the actual thickness of hardwood flooring is 1/32-inch less than the so-called nominal size.

"Actual" is the mill size for thickness and face width, excluding tongue width. "Counted" size determines the board feet in a shipment. Pieces less than 1 inch in thickness are considered to be 1 inch.

OAK				BEECH, BIRCH, HARD MAPLE AND PECAN			
Nominal	Actual	Counted	Weights M. Ft.	Nominal	Actual	Counted	Weights M. Ft.

5/16 x 1 1/2 in.	5/16 x 1 1/2 in.	face count	1200 lbs.	5/16 x 1 1/2 in.	5/16 x 1 1/2 in.	face count	1200 lbs.

NOTE: Oak, Beech, Birch, Hard Maple and Pecan Flooring are bundled by averaging the lengths. A bundle may include pieces from 6 in. under to 6 in. over the nominal length of the bundle. No piece shorter than 9 in. admitted.

The percentages under 4 ft. referred to in the grading rules on this page apply on total footage in any one shipment of the item.

3/4-in. allowance shall be added to the face length when measuring the length of each piece.

Flooring shall not be considered of standard grade unless the lumber from which the flooring is manufactured has been properly kiln-dried.

ESTIMATING FLOORING

Figures below are board feet of various sizes of flooring required to cover square feet of floor space shown at left.

COMPUTING FLOORING NEEDS

To ascertain the amount of hardwood flooring required for a room, first determine the area of the room by multiplying the width by the length. Then add one of the following percentages to that figure, depending upon the size of flooring you intend to use.

25/32 x 1 1/2 in.	50%
25/32 x 2 in.	37 1/2%
25/32 x 2 1/4 in.	33 1/2%
3/8 x 1 1/2 in.	33 1/2%
1/2 x 1 1/2 in.	33 1/2%
3/8 x 2 in.	25%
1/2 x 2 in.	25%
25/32 x 3/4 in.	24%

The above figures are based on laying flooring straight across the room. Where there are bay windows or other projections, allowance should be made for additional flooring. It is well to order 5% additional flooring to take care of floor layer's cutting and possible damage if carelessly handled.

NAIL SCHEDULE — OAK FLOORING

Tongued-and-grooved flooring. To be blind-nailed.

Flooring Dimen., in.	Type, Size, Spacing of Nails
3/8 x 2 3/8 x 1-1/2	Bright casing nail — 4d wire or cut nail, or screw nail. 8 in. apart. Wood subfloor required.
25/32 x 3-1/4 25/32 x 2-1/4 25/32 x 1-1/2	7d or 8d screw type or cut steel nail.* 10-12 in. apart.
1/2 x 2 1/2 x 1-1/2	5d screw type or cut steel or wire nail. 10 in. apart. Wood subfloor required.
Square-edge flooring. Face-nailed.	
5/16 x 2 5/16 x 1-1/2	1-in. 15 gauge fully barbed flooring Brad, preferably cement coated. 2 nails every 5 in. Wood subfloor required.

*If steel wire flooring nails is used, it should be 8d, preferably cement coated.

GLASS

INSULATING GLASS SIZES

STANDARD SIZES OF 1" THICK UNITS

Units listed below have overall thickness of 1" consisting of 2 panes of $\frac{1}{4}$ " polished plate glass with $\frac{1}{2}$ " sealed air space between.

STANDARD SIZES OF $\frac{1}{2}$ " THICK UNITS

Twindow is a glass-edge unit composed of 2 panes of $\frac{1}{8}$ " DSA window glass with a $\frac{3}{16}$ " air space between.

Thermopane is a sealed unit composed of 2 panes of $\frac{1}{8}$ " polished plate or DSA window glass with a $\frac{1}{4}$ " air space between.

PICTURE OF PANORAMA WINDOWS

Most manufacturers of aluminum double-hung, casement, projected and awning windows offer picture or panorama windows in heights and widths that complement their standard sizes. These windows accommodate either 1/4" plate glass or 1" double glass of the "Thermopane" or "Twindow" type. See manufacturers' catalogs for available sizes.

WINDOWS

ALUMINUM WINDOW STANDARDS (COMMERCIAL)

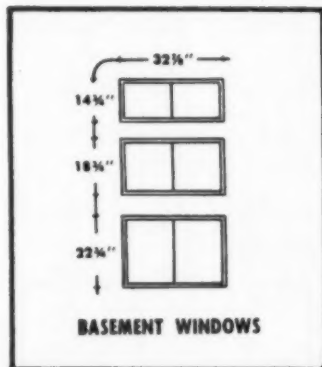

Dimensions shown are window opening dimensions

C-A2 and C-A3 CASEMENT WINDOWS
for commercial and monumental-type buildings

Horizontal and/or vertical muntins may be added if desired, provided they are based on 20" or 24" bar centers for width and 16" bar centers for height. Fixed light may be provided at sill in place of sill vents.

Fixed types furnished for all sizes shown.

P-A2 PROJECTED WINDOWS
for commercial and monumental-type buildings

All vents shown to project out may be made to project in, provided all vents in the same unit project in.

200 series indicates architectural projected.

400 series indicates intermediate projected.

Vertical muntins may be added to 200 and 400 series windows if desired, provided they are based on 20" or 24" bar centers.

Fixed types furnished for all sizes shown.

DOUBLE-HUNG WINDOWS (DH-A1, DH-A2, DH-A3)

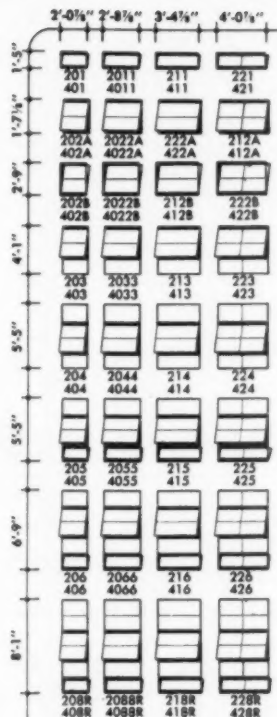

for commercial and monumental-type buildings are also available. Consult manufacturers' catalogs for available sizes.

DH-A1 are double-hung (and single-hung) for residential-type buildings.

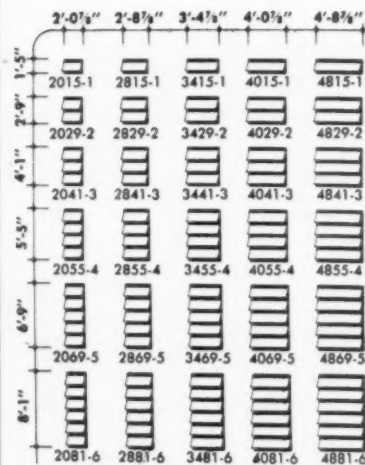

DH-A2 are double-hung (and single- and triple-hung) windows for commercial-type buildings.

DH-A3 are double-hung (and single- and triple-hung) windows for monumental-type buildings.

A-A2 AWNING WINDOWS
for commercial and monumental-type buildings.

A handy reference guide to Weldwood Products— the most complete line in the building industry

ADHESIVES

Contact Cement—nonstaining, instant bonding; for laminates, installing plywood without nailing—no clamps or presses needed.

Plastic Resin Glue—water-resistant; permanent bond for wood, other porous material; mixes with cold water.

Presto-Set Glue—ready-to-use; in tubes or jars; for plastic, paper, cloth or wood.

Resorcinol Glue—completely waterproof; completely weatherproof; withstands cold, heat, acids, alkalis, fungus, and mold.

ARMORPLY®—plywood faced with any metal; strong, light and rigid; has metal's toughness, wood's easy workability; made to specification.

CHALKBOARD—porcelain-surfaced steel*** bonded to plywood—metal backing; surface defies abrasion, chipping or cracking; displays and visual aid material attached to magnets cling to its surface; in 4 shades of eye-pleasing gray and green and new "Projection White." Booklet-1660.

Aluminum Chalkboard Trim—for all Weldwood Chalkboard installations.

Tackboard—bulletin board color-matched for use with Weldwood Chalkboard.

CONCRETE FORMS—see "Fir Plywoods—Plyform."

CORE STOCK—see "Paneling—Novoply."

COUNTERFRONTS— $\frac{3}{4}$ ", 5-ply; hardwood or fir veneer; lumber or Novoply cores; expansion or contraction almost never occurs; in a variety of handsome surfaces.

COUNTERTOPS—see "Micarta."

DOORS, BI-FOLD—Space-saving doors made of nonwarping Novoply for closet and wardrobe fronts. Complete kit includes track, hardware, etc. Available with birch faces.

DOORS, FIRE†—combine protection and rich wood beauty; have exclusive Weldrok® incombustible mineral core; UL labeled for Class "B" and "C" openings. Lifetime guarantee covers replacement cost including hanging and refinishing. Booklet-1591.

DOORS, FLUSH—(all with fine hardwood faces)
Hollow Core Door— $1\frac{3}{8}$ " or $1\frac{3}{4}$ " thick; all sizes; proven stability in exhaustive tests; reinforced construction for Institutional Doors; may be painted or finished natural; for exterior, use $1\frac{3}{4}$ " only.

Solid Core Door—exterior or interior; hardwood or pine core; thicknesses from $1\frac{3}{8}$ " to $2\frac{1}{4}$ "; all sizes; crossbanded and laminated with waterproof glue; best of its type.

Stay-Strate® Door—incombustible Weldrok core; lifetime guarantee against manufacturing defects, warping or twisting; covers replacement cost including hanging and refinishing; full variety of sizes; $1\frac{3}{4}$ " thick. Booklet-1592.

DOORS, LOUVER—In fir, pine, and certain hardwoods. Wide range of sizes.

DOORS, SLIDING—Made of nonwarping Novoply. Doors alone or complete kit including track, hardware, etc. All standard sizes.

DOOR STOCK, CUPBOARD—wide variety of sizes, thicknesses, including door with core of nonwarping Novoply; good one or two sides; birch-faced; requires no finishing; won't warp, sag or bind. Booklet-1323.

DOORS, METAL-FACED—Doors with Armorply facing; on special order. Send your requirements for all details.

DOORS, MICARTA-FACED—The "Custom Royal." Lumber, hollow or Weldrok core flush door with faces of Micarta. Booklet-1635.

Duraply®—Weldwood exterior plywood with tough, smooth overlay permanently bonded to face. Takes paint better, holds it longer. Weatherproof, easy to work. Also available lap-cut with furring strip. Booklet-1413.

EDGING—see "Flexible Wood-Trim."

FINISHING MATERIALS

Firzite®—for fir plywoods or softwoods; seals pores, minimizes wild grain, reduces checking and grain raise; in white or clear; may be tinted. White Firzite easy way to popular blond finish. Booklet-1639.

Satinlac®—brings out natural beauty of any wood; quick to apply and dry; satin finish.

FIR PLYWOOD

Weldtex®—striated; butt seams don't show; won't check; made in both interior and exterior grades; easy to install and finish. Booklet-1288.

Exterior Douglas Fir—superior plywood for any purpose, including:

Plyform®—exterior—for concrete forms; produces smooth surface; multiple re-use.

Plyshield®—"A" face, "C" back; all sizes.

Sheathing—"C" face and back, all sizes.

Underlayment—lies flat; resists warping and twisting; all sizes.

2·4·1 Panel— $1\frac{1}{8}$ " thick panel that's combination underlayment and subflooring.

Texture One-Eleven®—deep-grooved every 2" to 4"; splitproof and punctureproof; ship-lapped edges; $\frac{5}{8}$ " thick; 16", 32", 48" width; 96", 120" length. Booklet 54-10.

Interior Douglas Fir—all grades and sizes including:

L-1R—Plyform made with new L-1R adhesive; gives many of the advantages of exterior-type plywood yet sells at interior grade price.

Lebanex®—5-ply, hardboard faced; tough and smooth to resist wear and denting; for concrete forms, table tops, sliding doors, etc.

Plybase®—base for linoleum, carpeting; backing for wall panels.

Plyform (interior)—"B" face and back, all sizes.

Plypanel®—3 grades; for paneling, built-ins,

counters, backing; sanded both sides.

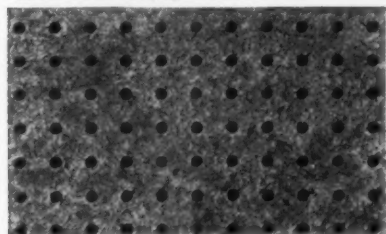

Plycard[®]—C.-D. grade; unsanded; low cost; for sheathing and underlayment; all sizes.

FIRZITE—see "Finishing Materials."

FLEXIBLE MATERIALS—see "Flexwood," "Kalistron."

FLEXIBLE WOOD-TRIM[®]—Real wood veneer in handy rolls to cover plywood edges. Many species; 1" wide—larger sizes for industrial use.

FLEXWOOD[®]—genuine wood 1/85" thick on cotton backing; 12" to 24" widths, 8' to 12' lengths; for any smooth, dry surface; 40 wood surfaces, wide choice of grain, figure; applied like wallpaper. Booklet-28.

HARDBOARD—Weldwood offers a complete line of standard, tempered, textured and perforated hardboards. Special fast delivery service on any type, variety, size.

KALISTRON[®]—clear, wear-resistant sheeting; color permanently fused to underside (pattern and color never show wear); 33 colors; ideal wall covering; less expensive utility grade, too.

LUMBER—Weldwood is currently producing all common western species of lumber and invites inquiries on carload lots.

MARINE—Duraply, Douglas Fir, Philippine Mahogany, and other hardwoods with 100% waterproof adhesive; will not delaminate. Booklet-1446 for more details.

METAL-FACED PLYWOODS—see "Armorply."

MICARTA[®]—made by Westinghouse, distributed by Weldwood; highly durable and beautiful plastic laminate; resists chipping, denting, burning, grease or fruit staining; easy to clean; needs no refinishing; for table tops, countertops, etc. Booklets-1671, 1722, 1723.

Unitop—complete Micarta sink top with covered backsplash and no-drip front edge all in one piece. Booklet-1508.

MOLDINGS

Metal—aluminum, faced with hardwood veneers; matches popular Weldwood veneers; 8' strips for corners, caps, dividers.

Wood—all-plywood Cove Moldings for cabinets, trim, etc. Solid hardwood moldings available, too. Booklet-1617.

NOVOPLY[®]—see "Paneling," "Doors."

PANELING

Algoma Grade Hardwoods—carefully selected, matched veneers; uniform color and appearance; many fine hardwoods. Booklet-1457.

Architectural Grade Hardwoods—finest obtainable; superlative veneers, perfectly matched; in all fine woods. Booklet-1034.

Imported Hardwoods:

Korina[®]—from the Belgian Congo; blond; complements modern or traditional.

Limba—from Africa; blond, mahogany-style; fine grained figure.

Nakora[®]—blond; low-cost Japanese hardwood; highly figured grain pattern.

Samara[®]—low-cost African hardwood; interesting grain pattern; light reddish color.

Prefinished Paneling—Booklet-1707—completely and expertly factory-finished; just install. Panel styles include:

Plankweld[®]—7 woods; put on old walls or new studs—no furring; edge-grooved for neat joints; special clips eliminate nail holes.

V-Plank[®]—4' x 8' panels "v-grooved" for a random-plank effect; wide variety of beautiful hardwoods.

Colonial V-Plank—like V-Plank but specially "pegged" for plank appearance; 10 woods.

Specialty Paneling

Novoply—unique wood-plastic product; wood chips and flakes give mosaiclike effect; amazingly flat, easily fabricated; for cores, sliding doors, wall paneling, partitions.

Planktex[®]—6" bands of striations alternating with the smooth Philippine Mahogany grain pattern; comes finished or unfinished.

Sea Swirl[®]—low-cost panel with weathered, textured look; grain stands out from etched-out background; free of knots.

Complete information and details
are listed.

Surfwood[®]—similar to Sea Swirl but with occasional knots; very low cost.

Surfwood-Duplex—3/4" thick fir panel with one Surfwood face; combination ceiling and roof-decking for open-beam construction.

Weldtex Squares—Weldtex (see "Fir Plywood") in 3 sizes of squares, from 11 1/8" to 24"; 5/16" thick.

PARTITIONS, MOVABLE—real wood beauty; panels have incombustible Weldrok core; units interchangeable; accessible concealed wiring. Other faces available: Kalistron, Micarta, and Novoply (Novowall). Booklet-1662.

PEW SEATS—5 fine hardwoods; for churches, terminals, etc. In lengths up to 10'.

PINE PLYWOOD—"Old Craftsman" brand, for cabinets, built-ins; and paneling with two joint treatments: 1. *Cape Cod*, butterfly; 2. *Plank*, deep, broad v-groove. All-pine construction; interior grade made with mold-resistant glue. Exterior also available. Paints faster, smoother; exceeds Pine Plywood Commercial Standards. Booklet-1695.

PLANKTEX—see "Paneling."

PLASTIC MATERIALS—see "Kalistron," "Micarta."

PORC-LIN-PLY[®]—weatherproof porcelain panel for building fronts, or interior paneling; hardwood core, durable porcelain face, steel back. 9 standard colors. Booklet-1659.

SAMARA—see "Paneling."

SATINLAC—see "Finishing Materials."

SHEATHING—see "Fir Plywood."

SIDING—see "Fir Plywood"—Exterior Weldtex, Duraply, Texture 1-11, Hardboard.

STORE-FRONT MATERIALS—see "Armorply," "Porc-lin-ply."

VINYL PLASTIC—see "Kalistron."

WELDBORD—smoothly sanded all-hardwood panel that sells at a softwood price. No grain raise—perfect for painting.

WELDTEX—see "Fir Plywood."

The Man From Fenestra Shows You How To: TRIM YOUR COSTS INSTEAD OF YOUR WINDOWS

You'll never have to trim—or shim—again when you use Fenestra® aluminum or steel nail-on windows. Just set in place, level, and nail.

A Texas builder, using Fenestra aluminum fin-frame windows *cut installation time in half* . . . and a St. Louis builder reports *savings of 20 carpenter hours per house* with Fenestra inside-outside trimmed steel windows.

Drive *your* construction costs down with Fenestra "nail-on" windows in aluminum or steel. The Man From Fenestra will be happy to show you how much you can save. Call him today. He's listed in the Yellow Pages . . . or write to Fenestra Incorporated, AB4, 2260 East Grand Blvd., Detroit 11, Mich.

BILT-WELL DOORS

Add Charm to Your Homes with
Unique **BILT-WELL** Decorator-designed Doors

BILT-WELL New Orleans and Belvedere Doors with their beautifully designed decorative glass panels are the talk of the door industry!

Decorative designs which will add a distinctive touch to every home you build are fired ceramic and are fused right into the glass panel...no chance of chipping or peeling. Scrubbing and scraping will not mar their beauty.

Both the New Orleans and the Belvedere doors have veneered stiles, using waterproof glue. Rails are solid, all clear, kiln-dried Ponderosa Pine.

BW-2357

The Belvedere Door is available with either of 2 different decorative glass panel designs, with plain glass panels with or without glass. This door is available in 3'-0" x 6'-8" x 1 3/4" only. Glass panels are 16" square.

BILT-WELL

AWNING WINDOWS
SUPER 7 REMOVABLE WINDOWS

BILT-WELL Super 7 REMOVABLE WINDOW

... Fully Removable

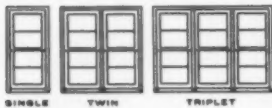

... Perfectly Counterbalanced

... Completely Weathertight

7 Good Reasons Why Your Homes Should Feature BILT-WELL Super 7 Windows:

1. Easily Removable—Sash quickly removed from either side, without sacrificing weathertightness.
2. Unitized—Sill design facilitates groupings.
3. Counterbalanced—Flat overhead balances guaranteed for life of the unit. No cocking or sticking.
4. Weatherstripped—Completely weatherstripped. Patented stainless steel jamb-liner. Head, sill and check rail anodized aluminum alloy weatherstrip.
5. Durable—All wood parts, water-repellent preservative pressure treated in strict accordance with NWMA requirements.
6. Standardized—Fits all standard walls.
7. Guaranteed—Meets U. S. Dept. of Commerce, Bureau of Standards requirements for weatherstripped double-hung wood windows. Also bears AWWI Seal of Approval.

BILT-WELL CASEMENT WINDOWS

The all new BILT-WELL Casement

...an entirely new concept in fenestration... combining guaranteed workmanship, guaranteed performance, unmatched economy

Here it is at last! A window that is *absolutely* weathertight... *exceptionally* easy to operate... *amazingly* simple to install... *completely* flexible in arrangement possibilities... and *surprisingly* low in cost.

Compare these exclusive BILT-WELL features with any other Casement Window on the market:

New unitized sill construction makes the BILT-WELL Casement the most versatile unit on the market. Unlimited combinations and arrangements can be made with minimum time and labor costs.

Patented, concealed sliding-type hinges with nylon bearings throughout and worm-gear operator with a nylon roller, and long arm provide quiet, effortless operation and positive locking action. Opens sash to full 90°.

Two independent weatherstrip systems... an inner constructed of tubular vinyl and an outer made of formed stainless steel... provide positive weathertightness.

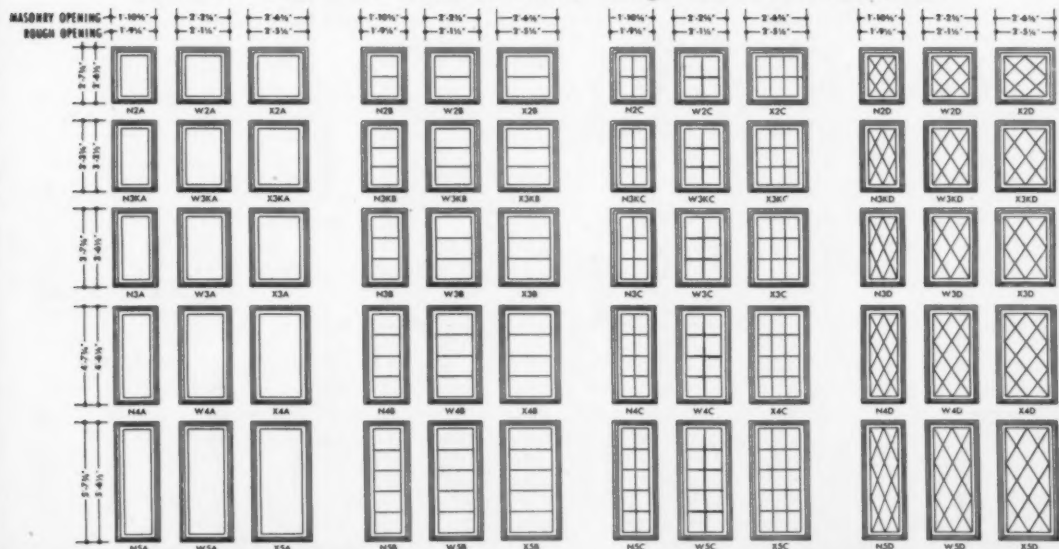

Newly designed lock draws sash into closed position and when unlocked provides positive pressure to open.

Plus these important BILT-WELL Extras . . .

- Manufactured from clear, kiln-dried Ponderosa Pine.
- Water-repellent preservative treated.
- Unit conforms to Commercial Standard 205-56.
- Frame members extra heavy for long service: Head 1 1/4" thick, Sill 1 3/4" thick, Side Jamb 1 1/4", joined together at corners with dovetail construction.
- Unit can be used with or without optional reversible windbreak.
- Sash joints glued and pinned for maximum rigidity.
- Wide choice of glass widths and heights: 16, 20 and 24" widths, 24, 32, 36, 48 and 60" heights. Also picture sash—35 1/2", 44 1/2", 55 1/4", 68 1/4" and 75" widths; 36", 48 1/4" and 60 1/4" heights.
- Available with double (1/2") insulating glass, clamp glazed; or single strength glass, face glazed.
- Statuary bronze lock matches gear operator. Push-out feature partially opens sash when unlocked.
- Scientifically designed hinges permit opening of sash 90 degrees for each cleaning of both sides of glass from inside.
- Lightweight, corrosion-resistant screens and storm panels available.

BILT-WELL Casement Styles and Sizes

THE BILT-WELL LINE: WINDOW UNITS, Double-Hung, Awning, Casement, Basement, Storm and Screen. CABINETS, Kitchen, Multiple-Use, Wardrobe, Storage, Vanity-Lavatory and Vinyl Counter-tops. DOORS, Exterior, Interior, Screen and Combination

BILT-WELL CABINETS

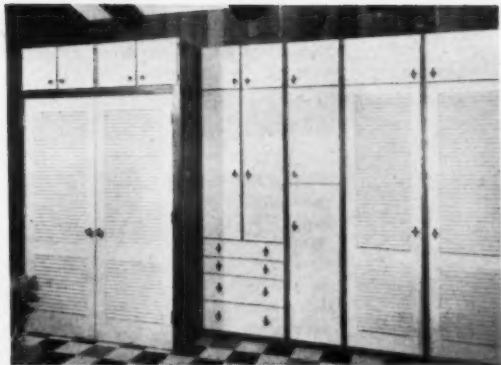

for Kitchens and General Storage...

BILT-WELL Cabinet Units

Provide Maximum Beauty and Efficiency at Minimum Cost

These are the same popular cabinets featured in many nationally advertised kitchens, including the 1958 FRIGIDAIRE-BILT-WELL "Oriental Magic" Kitchen shown here.

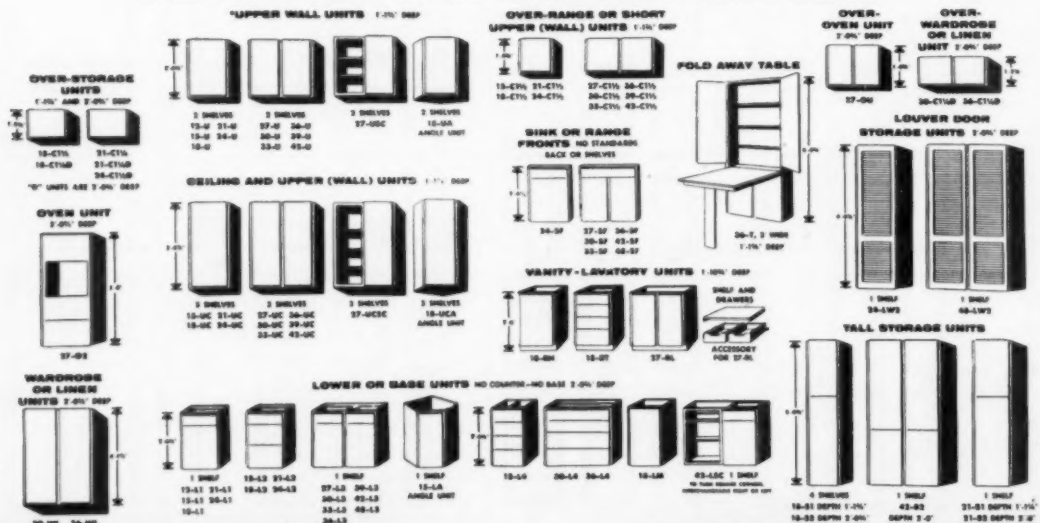

Versatile BILT-WELL Cabinets are also perfect for complete storage walls. Compare the bedroom wardrobe wall pictured here with a similar conventional closet in floor area...in convenience...in cost...in actual storage capacity.

COMPARE THESE BILT-WELL FEATURES:

- ... Available with beautiful Ponderosa Pine or elegant Birch door and drawer fronts.
- ... Special purpose cabinets including units to fit all of the most popular brands of built-in appliances.
- ... Tongue and groove construction throughout for maximum stability.
- ... Over 90 different types and sizes fit any size or shape of kitchen or storage area.
- ... Semi-assembled and individually carton-packed cabinets can be assembled and installed on-the-job in half the time it takes to custom build cabinets.
- ... Complete line of the latest kitchen and wardrobe cabinet accessories.

THERE'S A BILT-WELL CABINET FOR EVERY STORAGE PURPOSE

THE BILT-WELL LINE: WINDOW UNITS, Double-Hung, Awning, Casement, Basement, Storm and Screen. CABINETS, Kitchen, Multiple-Use, Wardrobe, Storage, Vanity-Lavatory and Vinyl Counter-tops. DOORS, Exterior, Interior, Screen, and Combination

TRUSCON...

Trained Salesmen help you
build better, economically
...for faster Sales

REPUBLIC STEEL KITCHENS offer "her" cabinets of "her" choice for every kitchen storage need and counter arrangement—available right from stock. The open-plan arrangement, above, features an island or peninsula center that provides generous storage and counter space with handy access to cabinets from either side. Sturdy wall cabinets, hung from ceiling rods, have shelves that adjust to comfort reach. For kitchen planning ideas send for the "102 Ways" booklet. See your RSK distributor.

TRUSCON HOLLOW METAL SWING DOORS AND FRAMES are as handsome as they are functional. Doors swing open easily, close silently because whisper-quiet, sound-deadening insulating material absorbs noise. Truscon doors are easy to install. No cutting, trimming, planing, sanding needed. Simply erect the steel frame and hang the door. No pre-paint preparation needed. Just one-coat paint-to-match room decorations. For additional facts, details, sizes—write today.

TRUSCON SERIES 138 DOUBLE-HUNG WINDOWS are ever-popular, low-cost. Operated on stainless steel balances, they open and close with fingertip action. Stainless steel weatherstripping keeps weather out, comfort in—reduces fuel and air conditioning costs. Truscon 138 Double-Hung Steel

Windows are available in a wide range of sizes up to 5 feet wide and 6 feet, 5½ inches high for picture window luxury. Unit above features fixed picture window at center. Truscon dealers everywhere are ready, willing and able to help you with your building plans.

Naturally, you prefer to deal with a man who knows his business.

And the men who represent Truscon and Truscon Dealers are trained to help you solve building problems. As active participants in "O.M.I." (Order Makers Institute—Truscon's sales training program), these experts-in-their-field can help you turn shoppers into buyers. Here's why:

They know Truscon Products—from the smallest basement or utility window to the largest picture window unit. They can recommend the right Truscon building product or accessory with the style, size, and convenience for greater home buyer appeal.

They know installation. Because they are Truscon-trained, they are skilled at adapting out-of-warehouse-stock standard Truscon items to special conditions and applications. And they work with developers and builders to reduce installation costs and increase sales values.

They know the importance of jobsite decisions. Truscon-trained representatives have the know-how and ability to make on-the-jobsite adjustments that keep building schedules on time and keep building costs low.

Seeing building ideas come to life is the job of your Truscon-trained representative. To learn more about Truscon and Truscon building products, call your Truscon representative—or send coupon below.

American GLASS PRODUCTS

American Lustraglass and Lustracrystal Sheet Glass

(Lustraglass—single and double strength)(Lustracrystal— $\frac{3}{16}$ ", $\frac{7}{32}$ ", $\frac{1}{4}$ ")

1. **Superiority**—Clearest, whitest, most transparent sheet glass made. Less distortion. More luster. No additional cost.
2. **Tolerances**—See table of exacting tolerances at right.

STRENGTH TYPES	MAX. SIZE		THICKNESS—INCHES			LBS. PER SQ. FT.
	Width	Length	Min.	Av.	Max.	
Single	40"	50"	.087	.091	.095	1.183
Double	60"	80"	.121	.125	.129	1.625
$\frac{3}{16}$ "	72"	120"	.187	.193	.199	2.509
$\frac{7}{32}$ "	72"	120"	.212	.218	.224	2.834
$\frac{1}{4}$ "	72"	120"	.240	.248	.256	3.224

3. **Economy**—Architects and builders are specifying and using AMERICAN LUSTRACRYSTAL where suited, instead of more costly plate glass, to save many "glass dollars." Note comparison table at right, showing LUSTRACRYSTAL advantages.

COMPARISON $\frac{1}{4}$ " American Lustracrystal TO $\frac{1}{4}$ " PLATE GLASS

	LUSTRACRYSTAL	PLATE
Clarity (visible light transmission)	GREATER	LESS
Clarity (ultraviolet transmission)	"	"
Strength (impact)	"	"
Strength (constant pressure)	"	"
Strength (surface abrasion)	"	"

For An Added Selling Feature

SPECIFY VENTO Windows

BASEMENT WINDOWS

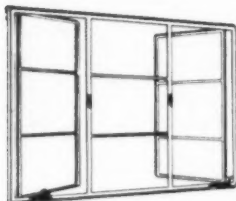

Champion Aluminum. An improved type with rigid 6063-T5 extrusions and a 2-point contact of vent in frame. An exceptional 1/4" clearance permits free operation of vent. Unique cam action latch provides positive locking. Putty or puttyless glazing. Combination screen and storm sash available.

Champion Steel. Made of 14 gauge formed steel sections. Welded construction. Three position ventilation plus 2-point contact of ventilator in frame. Unique cam action lock with greater tolerance provides positive and easy locking action. Putty or puttyless glazing. Bonderized.

Thrifty Steel. Especially designed for lower cost housing. Simplicity of design provides an attractive window of sturdy construction, smooth operation, two position ventilation and easy ventilator removal. Putty or puttyless glazing. Bonderized.

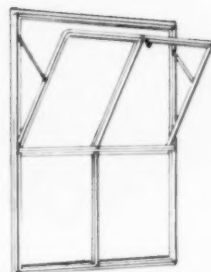

ALUMINUM AWNING WINDOWS

Exclusive harness design provides positive self-locking of each vent. Windows are permanently adjusted at factory and do not require adjustment in the field. Fully weatherstripped. Balanced ventilator design combined with nylon roller blocks at all friction points permit finger tip operation of multiple vents. No metal to metal contact at friction points to freeze or wear. Heavy type extrusions to provide a window of lasting beauty and quality. We guarantee no need for service or adjustments.

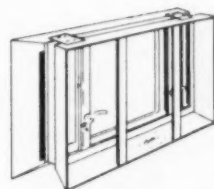

RESIDENCE STEEL CASEMENT WINDOWS

Precision made and attractively designed for use in all types of homes, apartments, housing projects, hotels, etc., and every type of wall construction. Made of hot rolled shapes, low carbon steel. Vents are made of same Z bar section as frames. Extension type hinges for easy cleaning. All operating parts are easy to replace; operating arm is screwed to hardware housing, arm guide channel is screwed to bottom vent section, fastener keeper is screwed to vent section. Bonderized.

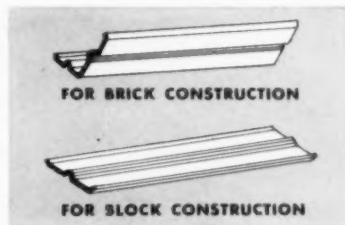

STEEL UTILITY WINDOWS

A complete line of 3 lite, 4 lite, 6 lite and 9 lite. Eash sash furnished with a positive cam action lock. Vento Barn Windows include side draft shields. Bonderized. This line also available in aluminum.

STEEL BUCKS

Heavy duty pouring bucks for poured wall construction. Eliminates labor and material for making wood forms.

STEEL LINTELS

Various sizes and lengths for both brick and block construction. Formed from 10 gauge hot rolled steel with stiffening crimp in center and beveled edge.

Also a full line of Commercial Windows: Projected Aluminum, Projected Steel, Pivoted Steel, Architectural Projected Steel and Security Steel.

• We have factory-trained field representatives to give you added service including engineering service on larger jobs. Let us have your inquiries.

New Decorator Idea Book

SEND \$1.00 for the most stimulating idea book of room interiors you have ever seen. 43 settings in full color with floor plans for all kitchens and bathrooms. Dozens of ideas on every page for giving your interiors new style, color and sales appeal. The custom builder will use this book with customers to finalize plans. Write Formica, 4611 Spring Grove Ave., Cincinnati 32, Ohio.

in Formica®

HERE IS A NEW **FORMICA** APPLICATION IDEA

...FOR MERCHANDISING BUILDERS

This illustration at the left shows how shop fabrication and on-the-job applications can be combined for an unusual decorative kitchen.

The procedure used for remodeling this illustrated kitchen from a hodgepodge of pieces into built-in beauty and efficiency is a most logical approach to the use of Formica.

Counter tops, cabinets, and the decorative scalloped valance were all shop fabricated using Formica and plywood core. They were installed in sections. The random width planking of the Formica Colorgrain on walls was applied directly to existing walls on-the-job with Contact Bond Adhesives.

Refrigerator and freezer doors are available for inserting $\frac{1}{16}$ " thick Formica inserts. Matching Formica fronts on dishwashers are also available from some appliance manufacturers in place of stainless or color finish.

Call your Formica Fabricator or look in the yellow pages under plastic products for the Formica office nearest you.

ALCOA "CARE-FREE" HOME

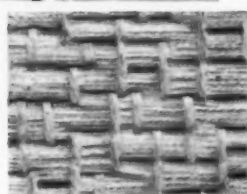

Sales resistance goes down

when you put up B.F. Goodrich

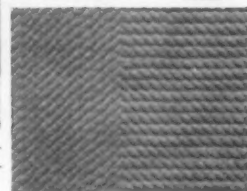

Koroseal wall covering

B.F. Goodrich Koroseal, in this popular white Bali pattern, lends a unique decorative effect to this space divider between kitchen and living area.

The bedroom of this nationally-promoted Alcoa "Care-Free" Home is decorated with a bold area of B.F. Goodrich Koroseal in the colorful Rope Square pattern.

To put more sales appeal into both residential and institutional buildings, decorate with beautiful, rich-looking B.F. Goodrich Koroseal vinyl wall covering! Here are the facts you should know about Koroseal fabric-backed vinyl:

1. *Wide range of distinctive textures, patterns and colors for any decor.*
2. *Long life, fade proof, washable with soap and water, resists gouging and scraping.*
3. *Moderately priced. Easy to apply. Won't tear.*
4. *Available in 54-inch widths. Fabric-backed vinyl (do not confuse with light-weight vinyl coverings).*

For sample swatches, Sweets catalog pages and other data, write Dept. AB-4, B.F. Goodrich Industrial Products Company, Marietta, Ohio.

B.F. Goodrich

 WALL COVERING AND UPHOLSTERY

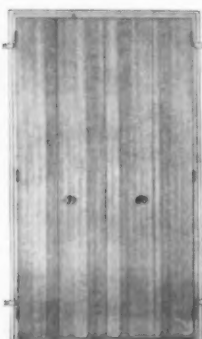

SYMBOL OF QUALITY

for fine homes

The nationally-advertised brand-name PRECISION, means something to your prospective home buyer. He knows immediately that the PRECISION Stairway is a quality product—a guaranteed product—for he has been told of the quality and dependability of PRECISION Attic Stairways for over a decade in such widely read national publications as . . . Better Homes & Gardens, House Beautiful, House & Home, House & Garden and Living For Young Homemakers. Again this year, home buyers will be seeing the PRECISION Stairway in these and other national publications.

Use the nationally-advertised PRECISION Deluxe Folding Stairway in your homes as a sales feature. It's a symbol of quality and guaranteed dependability to home buyers everywhere.

Another practical and economical new PRECISION product is the "Money-Saver" Closet Front Assembly. This PRECISION Closet Front comes completely assembled and braced . . . features strong folding doors with heavy butt type hinges to insure "life-time" ease of operation. Steel alignment brackets assure perfect lining of doors when closed, with no over-lapping. Full closet space is available when both doors are open . . . and there's no door stop to sweep or stumble over. Can be installed in just 20 minutes by one person with a hammer and screwdriver.

Also manufacturers of the PRECISION Electric Stairway and the economical Simplex Stairway Line

Manufacturers of America's most complete line of attic stairways

AMERICAN BUILDER

For his new "Mark 58" model, home builder **Donald Scholz**

chooses mahogany **Craftwall** wood paneling!

Trend-setting home producer, Donald J. Scholz has made his "Mark 58" truly the "house of the year" with everything from electronic cooking to built-in hi-fi. In the living room, rich mahogany Craftwall wood paneling lends warmth and charm.

Craftwall has that genuine hand-rubbed look . . . professionally pre-finished to give the most durable wood finish known. Every "plank" is hand-selected to show rich, natural grain. Yet Craftwall costs as little as \$60 retail for an 8' x 12' wall.

How beautifully Craftwall wood paneling gives the feeling of warmth and "livability" so in demand by today's home buyers. Handsome example is the friendly living room shown above—now being featured in Craftwall advertising in *Better Homes and Gardens*, *Newsweek* and other leading magazines.

Craftwall will help your homes sell faster. In living room, bedroom, family room or den, this striking wood paneling

gives the "touch of distinction" that impresses prospects.

And builders like Craftwall's adaptability. You have nine woods to choose from: *Elm, Birch (2 tones), Maple, Cherry, Oak, Mahogany, Knotty Pine and Walnut*. Each is glowingly beautiful . . . and factory prefinished to stay that way. Scuffs, stains and dirt can't mar Craftwall. There's

no need to wax. Clean with a damp cloth. You save time and cut waste with the 1/4" modular panels (48"x96", 48"x84", 32"x64", 16"x96", or longer). They go up fast with nails or Roddis Contact Cement.

And your buyer's satisfaction is assured . . . because Craftwall is guaranteed, in writing, for the life of the installation. Send coupon for Builders' Idea File.

Roddis also offers custom Hardwood Paneling . . . Doors . . . Wood Finishes . . . Adhesives . . . Plywood . . . Timblend

Roddis Plywood Corporation
Dept. AB-458, Marshfield, Wis.

"They're low in cost, easy to install"

That's what Al Small says about steel windows

"We use steel windows exclusively," reports Albert H. Small of Southern Engineering Corporation of Silver Spring, Md. "The reason is simple. We're pleased with them and so are our customers. I like their low price and easy installation. That keeps our costs down. And once you have the windows in, there are no fitting or trimming out problems.

"Our buyers tell us their windows operate smoothly. They don't warp or swell in damp and humid weather. The result is we get far fewer complaints, which suits me fine."

Mr. Small likes steel windows, and he ought to know. His remarkably successful firm has built and sold hundreds of medium-priced homes in suburban Washington, D. C. He's shown here at Plyers Mill Estates, where all seventy-two homes

were sold in a single week-end. An equally successful and more recent project of the same firm is 370-house Holiday Park.

Use steel windows in your next project. They give you the most window for the money, and their unequalled strength means less damage during construction. You'll like steel windows—and so will your customers!

Bethlehem Steel Company does not make steel windows. But we do roll the slender but strong steel sections that give steel windows such great strength. See the advertisements of steel window manufacturers in this magazine, or look up their catalogs in Sweet's—AIA File 17b.

BETHLEHEM STEEL COMPANY, BETHLEHEM, PA.
On the Pacific Coast Bethlehem products are sold by Bethlehem Pacific Coast Steel Corporation, Export Distributor, Bethlehem Steel Export Corporation

New! Anders Stru

...a new component that jo

! The sen utwall

joins window and wall!

SAVES LABOR!

Cuts installation steps two-thirds . . . saves materials! Conventional windows require three installation operations (framing, installing window, finishing), around 22 separate steps. But the new Andersen Strutwall needs only one operation—seven steps. It also eliminates the two long cripples standing on either side of conventional window illustrated below. Saves buying, cutting, fitting all the window members in front of conventional window below. Waste is practically eliminated.

operation instead of . . .

New Strutwall

1. OPERATION (7 simple steps)

Conventional

- 1. FRAMING (approx. 12 steps)**
- 2. INSTALLING (approx. 5 steps)**
- 3. FINISHING (approx. 5 steps)**

Installs in minutes . . . fits tighter! Simply cut the two load-bearing struts to fit header construction you use. Nail Strutwall to adjacent studs, tilt up with wall. It's that quick and easy. In multiple openings, Strutwalls are

simply butted against each other. Because all parts are nailed or nailed and glued at the factory, the Andersen Strutwall has great resistance to racking. Gives you the tightest possible joining of window and wall.

Available in 7 sizes, 2 styles! Andersen makes seven sizes of new Strutwalls, two sizes of Strutwall door

frames. New window components include both famous Beauty-Line* and Flexivent® styles.

*Patent Pending

Andersen Windowalls

TRADEMARK OF ANDERSEN CORPORATION

ANDERSEN CORPORATION • BAYPORT, MINNESOTA

Looks better . . . costs less installed! New Andersen Beauty-Line Strutwalls (below) and Flexivent Strutwalls add extra beauty and sales appeal to any home. On the exterior, absence of separate casing provides cleaner, trimmer lines. In multiple openings, like this, note

how there is more glass area. New Andersen Strutwalls add plenty of extra profit, too. All of the builders throughout the country who have tested new Strutwalls report a good saving in total installed costs—even when figured against inferior quality conventional windows.

New! The Andersen Strutwall

... a new component that joins window and wall!

A black and white photograph of a man in a suit and bowler hat, smiling and pointing towards a window frame. He is holding a rolled-up document. The window frame is a large, multi-paned unit with a wooden or metal frame. The background is a plain wall.

SAVES LABOR!

New! Andersen Strutwall:

TRADEMARK OF ANDERSEN CORPORATION

← Cuts installation steps two-thirds

← Provides tightest possible fit

← Saves materials

← Gives lower total installed cost

← Fits any type of frame construction

← Available to builders everywhere

Here's a great advance in building technique. A new component that makes a quality window an integral part of the wall.

Complete factory assembly of load-bearing side struts, nailers and lower jack studs gives the new Strutwall unusual resistance to racking. Provides the tightest possible joining of window and wall. Cuts installation from three operations to one—from around 22 steps to 7. Saves materials.

The new Andersen Strutwall fits any type of frame construction—including panel systems. It's been perfected and proved by field tests all over the country. It's sold throughout the United States and Canada. Get more information by contacting your lumber or millwork dealer. Or write: Andersen Corporation, Bayport, Minnesota.

Put wood paneling in your homes at half the cost!

PLYWALL... an exclusive new development gives your homes a luxurious look... costs you far less, saves labor time.

Now, with Plywall, you can give your homes the added sales appeal of fine wood paneling at a much lower cost (about half).

Plywall has a natural wood grain effect that is transferred to Plywood panels through a photographic process, without the use of paper or plastic laminations. Plywall comes to you prefinished in four-foot-wide panels. The grain finishes of the panels are uniform, eliminating matching problems. You cut the time needed to finish a room as well as drastically reduce labor costs.

Plywall won't warp and is back-sealed to resist moisture. It comes in ten different grain finishes, available in V-grooved or plain. Get full details now.

The "hidden quality" of Long-Bell Plywood is in the laminations. Hidden from the most practiced eye is sound, firm wood fully up to grade with proven and tested glue line. Herein lies the secret of Long-Bell Plywood's greater uniform strength. This is where "hidden quality" really counts.

There's a Long-Bell Plywood made especially for your job; paneling, sheathing or marine use . . . interior and exterior.

And, even though we think we have the best plywoods ever made, we're constantly working to improve them.

That's why you're years and dollars ahead with Long-Bell Plywood . . . the plywood with "hidden quality".

From 27 Modern Plants—
Long-Bell Supplies These Quality Wood Products:

Capitol PRIME SLIDING WINDOWS
have features no other can match

Capitol is the first manufacturer to design a prime sliding window with a *positive* airtight, weather-tight seal. The new Capitol aluminum prime slider uses a special compressive vinyl seal and employs a new design of the meeting rails that is so efficient that wind-driven water at hurricane force cannot get through!

Sell Capitol and you'll further benefit from the product development and sales experience of Capitol, world's largest manufacturer of aluminum doors.

Keep in mind that you can get your aluminum combination storm doors and windows from Capitol, too.

PRIME WINDOWS • ROLLING GLASS DOORS AND SCREENS • COMBINATION DOORS AND WINDOWS • JALOUSIES • EXTRUSIONS

**RIGID FRAME . . . EASY OPERATION
 . . . NOT A RATTLE**

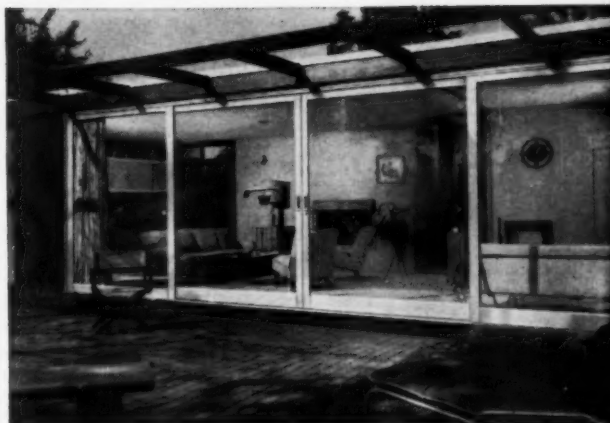

Heavy aluminum extrusions are welded into a rigid frame, reinforced by the strength of a fixed center bar. This design plus perfectly mitered corners make sagging or warping impossible. Sliding sections have nylon guides. Units slide freely at the touch of a finger.

**PATENTED FINGER-TIP
 AUTOMATIC LOCK**

This is the finest sliding window lock made today. Attractively designed, it opens at the touch of a finger . . . automatically locks when the window is closed. It's truly fool-proof.

EASY, TROUBLE-FREE INSTALLATION

With the simplicity of design and easy-to-follow instructions on every window, improper installation is virtually impossible.

**A wonderful sales opportunity . . .
 ROLLING GLASS DOORS**

by **Capitol**

You can capitalize on the growing demand of homeowners for modern rolling glass doors with the complete line of magnificently engineered doors by Capitol.

Available in two and four-panel units, in widths from six to sixteen feet, in various heights to eight feet, Capitol rolling doors appeal to the builder because of their sound engineering, quality construction, ease of installation.

Perfect machining, careful assembly and factory checking assure trouble-free installations. You may have Capitol rolling doors with 1/4" plate or Thermopane.

"WARE-TITE" GLASS JALOUSIES AND DOORS Weatherstripped

Floating stainless steel weather cushion at jambs; neoprene at head and sill. It's the tightest closing jalousie. Travel bar equalizes leverage, sealing louvers. Sure-Lock spring clip holds glass firmly. 120° opening range for easy cleaning and increased air flow. Cost-saving KD packing. Quick assembly—only 8 screws. Adjustable—widths can be reduced at job site if needed. Heavy-duty crank operator. Sturdily built 3 1/4" frame.

PRIME WINDOWS—
BREEZEWAYS—PORCHES

Standard Metal Window Institute sizes—special sizes on request.

ARCHITECTURAL AWNING Weatherstripped

A real quality window for architectural use in commercial and institutional construction. Structural strength to support large glass areas: Full 2 1/4" depth of frame section. Ventilator sections 1 1/4" deep, thickness structural members 1/8".

INTEGRAL CURTAIN WALL UNIT—Jamb width permits continuous jamb for windows and panels without adapters. Wide weatherstripped surface of vinyl, locked in extruded aluminum channel, 7/16" overlap of weathering members. INDIVIDUAL INSIDE ADJUSTMENT OF EACH VENTILATOR. Roto operator, manual bar, or remote control.

Custom-made in wide range of sizes and venting arrangements.

WARE

WARE FACTORY WAREHOUSES are located in Chicago, Houston, Atlanta, and Newark—assuring you faster delivery and prompt servicing of all your needs.

NATIONALLY ADVERTISED IN Saturday Evening POST AND BUSINESS WEEK

AMERICA BUILDS BETTER AND LIVES BETTER WITH STANLEY

STANLEY

This famous trademark distinguishes over 20,000 quality products of The Stanley Works—hand and electric tools • builders and industrial hardware • drapery hardware • door controls • aluminum windows • stampings • springs • coatings • strip steel • steel strapping—made in 24 plants in the United States, Canada, England and Germany

JALOUSIE WINDOWS

This all-weather window is equipped with the exclusive tension seal lower clip for easy rattle-free installation and positive sealing. Heavy-duty roto operator assures finger-tip control. Vinyl weatherstripping on jamb, head and sill. Also available are integral fin models and strip hardware.

AWNING WINDOWS

Stanley Aluminum Awning Windows are completely weather-stripped plus double-metal-to-metal contact on jamb, sill, and meeting rails. Available with side or center heavy-duty roto operator. Integral fin models also available.

SLIDING WINDOWS

Just out... the integral fin model! For complete beauty and ease of installation there is no equal. Wool pile weatherstripping. Available in wood buck type, and complete size ranges in two or three sash series.

SINGLE AND DOUBLE HUNG WINDOWS

America's most popular window... suitable for all areas and climatic conditions. Aluminum tube spiral sash balance for smooth quiet operation, easily accessible for adjustment. Interlocking meeting rail and wool pile plus metal-to-metal contact.

MARLITE PANELING

...beautiful way to lower building and remodeling costs!

You can install completely finished walls, cut days off completion time with beautiful Marlite. In-place cost is low because this easily-installed paneling goes up fast over new walls or old, needs no painting or other finishing. And Marlite soilproof melamine plastic finish stays like new for years with an

occasional damp cloth wiping. Plan on Marlite paneling for fast, profitable commercial and residential interiors.

See your building materials dealer or write to Marlite Division of Masonite Corporation, Dept. 5803, Dover, Ohio.

Marlite Panels

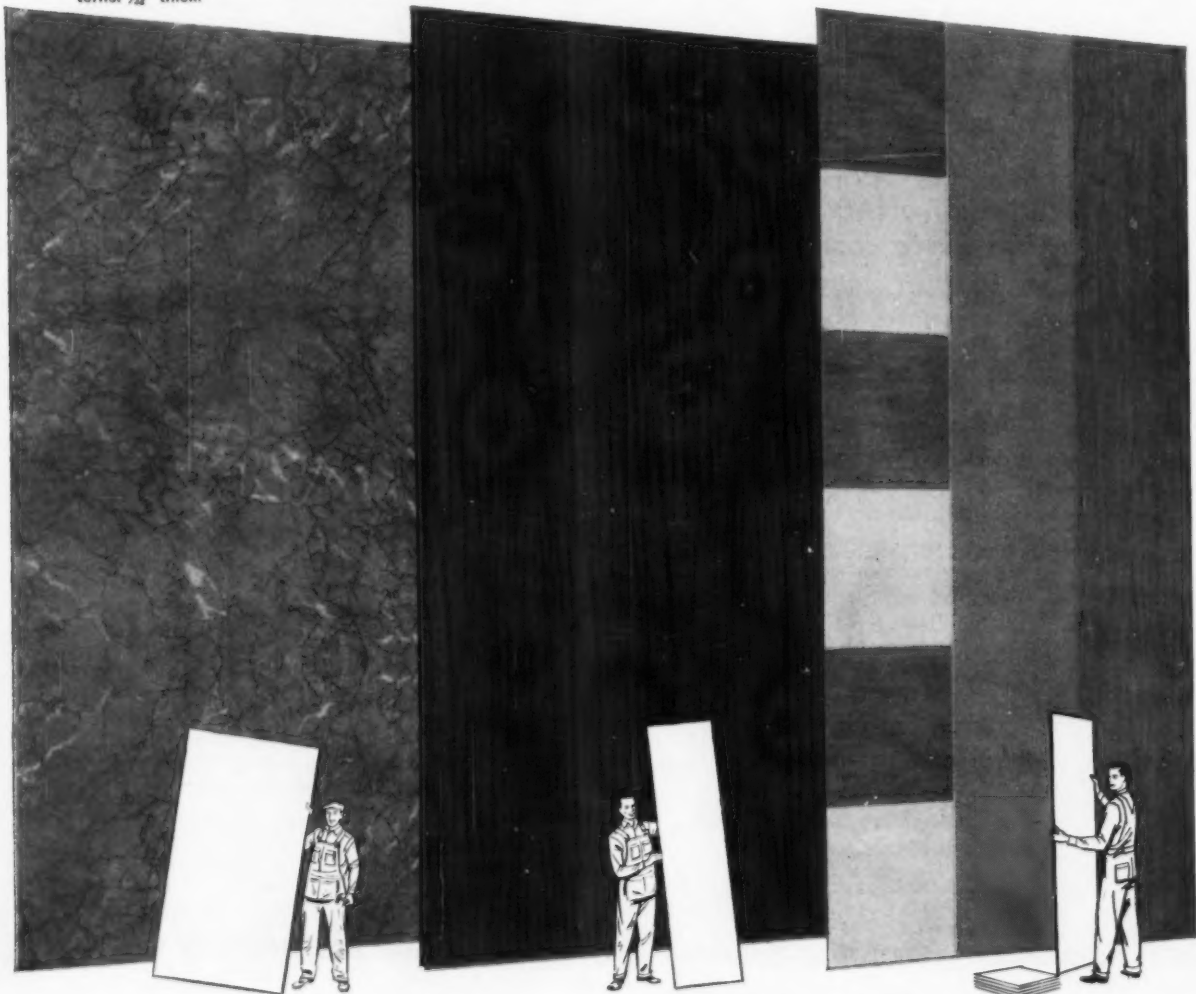

4' widths. Lengths to 8'. Deluxe Hi-Gloss, Woodpanels, Marble Panels, Peg-Board Panels. Available in 9 decorator colors, 7 wood finishes, 5 marble patterns. $\frac{3}{8}$ " thick.

Marlite Korelock

2' x 4' and 2' x 8'. Strong, rigid hollow-core tongue and groove paneling. Available in 10 Loewy "Companion Colors," 6 wood finishes. $\frac{3}{8}$ " thick.

Marlite Plank and Block

16" x 8', 16" square. Available in 10 Loewy "Companion Colors," 6 wood finishes. Tongued and grooved for fast installation. $\frac{3}{8}$ " thick.

that's the beauty of **Marlite**[®]
plastic-finished paneling

MARLITE IS ANOTHER QUALITY PRODUCT OF MASONITE[®] RESEARCH

WOOD MULTI-PURPOSE AND twinlite WINDOWS

NEW DESIGN twinlite! NEW EXCLUSIVE removable muntins!

TWINLITE WINDOWS present the appearance of conventional windows but provide all the convenience features of PELLA MULTI-PURPOSE WINDOWS. Each TWINLITE consists of a fixed window at top, ventilating unit below, and with a new slim, trim, joining mullion between. Multi-Purpose features include self-storing screens, insulating glass, GLIDE-LOCK[®] underscreen operator and spring-type, stainless steel weatherstripping all around ventilating sash.

SNAP-IN, SNAP-OUT MUNTIN BARS not only speed window cleaning and painting—they also provide an effective means of varying the appearance of the homes you build. Available in traditional crossbar design, horizontal bars only, and diamond pattern. Reinforced construction, concealed connectors.

**ONLY Fleetlite Sliding Glass Doors
HAVE PASSED THIS TEST!**

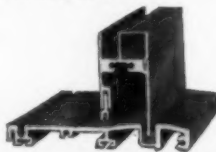

**100 mph. winds and heavy rains
stopped by water barrier threshold**

Before you select a sliding glass door, ask the question, "will it protect costly rugs and hardwood floors from water damage in pouring rain and high winds?" The answer is YES when you specify Fleetlite. These doors give protection in a man-made hurricane of 100 mph. with a 2" per hour downpour. No other door has ever passed this test. The Fleetlite exclusive "water barrier" double threshold and double weather seal block winds and water... provide automatic drainage so water cannot build up from the outside. Fleetlite Sliding Glass Doors are quickly installed, easily adjusted and are maintenance free. Write today for literature and complete information.

Above: Cross section of Fleetlite double threshold that blocks wind and water.

Below: Fleetlite flat threshold is recommended only for interior sliding door installations where weather is no problem.

WOOD FOLDING DOORS

In pine, oak, birch, and Philippine mahogany veneers for rich, natural beauty and modern convenience

PELLA is the *original* wood folding door. It is preferred by leading builders and architects for its clean-cut design and quality construction.

Can be finished on the job to match paneling, etc. or, ordered factory finished. Factory assembled and packaged. Quickly installed.

Pella CONSTRUCTION FEATURES

- 1 **LAMINATED DOOR PANELS**—PELLA WOOD FOLDING DOORS have core block panels "LAMICOR" processed to prevent warpage...veneers that are finished like fine furniture. Quiet, air-cushioned closing.
- 2 **SPRING HINGING**—Exclusive alloy steel springs hold PELLA door panels together. These spring connectors run horizontally and are spaced 14-7/10" apart.
- 3 **LATCH AND HANDLE**—All PELLA DOORS are equipped with spring-type latch, at no extra cost, to secure door firmly to the jamb when closed. Thumb or key locks available as extras.
- 4 **CONCEALED TRACK**—Track is concealed at the top. Beveled matching wood mould, drilled and complete with screws, is furnished with each PELLA WOOD FOLDING DOOR. There is no exposed hardware to mar the beauty of PELLA DOORS, either open or closed.
- 5 **HANGERS**—Free-riding, solid nylon rollers attached to alternate panels provide PELLA DOORS with easy, rolling action. No adjustment required to insure good fit and proper operation even in slightly out-of-plumb door frames.
- 6 **HEAD-STOP**—Simple, spring-action catch on the end post engages head-stop to insure tight stack. No track or guide on floor necessary for PELLA DOORS.

STOCK SIZES: 2'4", 2'8", and 3'0". Height of all stock doors is 6'8".

CUSTOM SIZES: Heights up to 12'1". Widths up to 30'2 1/4" in a single door. No limit to multiples.

Bayley

Steel Heavy Intermediate PROJECTED WINDOW

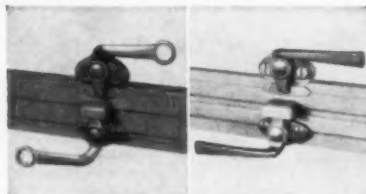

A Better Value in Commodity
Sizes, available for quick shipment

Featuring new one-piece solid hot-rolled sections assembled by machine welding, this new Bayley Steel Heavy Intermediate Projected Window now offers you a window that exceeds all present industry standards. It retains the time-proven advantages of Bayley section design *plus* new shape and weight characteristics, hardware and fabrication details that result in greater strength, better weathering and maximum freedom from upkeep — an extraordinary dollar value in window service and operating qualities. The features listed below readily reflect the Bayley window engineering experience and modern manufacturing methods embraced in this new window.

- 3.5 lbs. per foot weight of ventilator frame and jamb
- Sections (one-piece) 1½", 1¾" and 1¾" deep — with wide parallel double-contact weathering rolled integrally
- Joinery — machine welded and finished
- Outside glazed — accommodates ½" insulated glass
- Wide triple-contact brass friction shoes assure smooth operation of ventilators

Meeting rail between PO and PI Ventilators FULL SIZE

Left: Steel handle fastener, lacquered (standard)

Right: Bronze handle fastener (at extra cost)

Bayley Projected Windows are also available in aluminum in commodity sizes.

Textured Cushiontone is a perfect complement to the elegant simplicity of this attractive living room. A low-cost wood-fiber ceiling, Cushiontone quiets noise and gives your model homes today's smart new look.

New Armstrong Ceilings give

Today's new home buyers are looking for more value. Besides more living space, better design, and more work-saving features, they're looking for the "new ideas" in interior decoration—the "new ideas" in home comfort.

Twice each month your prospects hear about the new home comfort of sound conditioning on the Armstrong Circle Theatre (CBS-TV). And they read about the smart, new look in ceilings in leading magazines, as well.

You'll find prospects will be impressed when they see these beautiful new ceilings in your next model home. And your salesman will have an

Sell the woman and you'll sell the house . . . a prospect's wife is impressed with new home comforts like the attractive Full Random Cushiontone Ceiling shown here. She knows that Cushiontone soaks up annoying household noises, makes her home more pleasant to work and live in.

your homes today's smart, new look

important selling extra to offer prospects when he tells them that Cushiontone ceilings absorb up to 75% of the noise that strikes them — make living more restful, more relaxed.

Here's another important benefit for you. Cushiontone ceilings won't crack, chip, or peel. They're fast and easy to install and end costly callbacks to repair cracked plaster.

Put up an Armstrong Ceiling in your next home and see just how merchandisable this "smart new look" can be. No other feature you can build into a house costs so little yet does so much to help sell the house as Armstrong Cushiontone Ceilings.

For more information on Armstrong Ceilings, call your lumber dealer or write Armstrong Cork Company, 3904 Rider Ave., Lancaster, Pennsylvania.

FARLEY & LOETSCHER

WOOD CASEMENTS

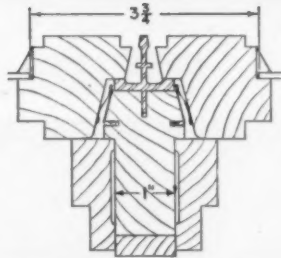

WITH EXCLUSIVE
Narrow Mullions

Qualitybilt Casements emphasize modern, narrow lines, fine hardware and accessories. Check these outstanding features:

NARROW LINE MULLIONS

A heavy, cross-shaped aluminum extrusion is expertly combined with the wood mullion to give great strength and rigidity, yet allow a slender appearance. Bulkiness is eliminated.

EXTENSION HINGES

Permit easy, quick cleaning from inside of building.

DOUBLE GLAZE PANEL

Attaches to inside with clips, forms an integral part of sash for year 'round insulation. Easily removed and replaced for cleaning.

INSULATING GLASS

Hermetically sealed air space eliminates the need of double glazing panels. Meets all insulating and air-conditioning requirements. Cuts window cleaning time in half.

OPERATOR

Powerful worm and gear operator holds sash in any desired position, operates without interfering with screen.

SASH LOCK

Pick-up closing action. Forcibly ejects sash slightly when opening. Operates without interfering with screen.

SELECT YOUR CHOICE OF GLAZING

Casements are supplied with three types of glazing.

1. Horizontal lights as shown, glazed standard window glass. (Double glazing panels optional.)
2. One light sash, glazed standard window glass. (Double glazing panels optional.)
3. One light sash, glazed with insulating glass. (Double glazing panels not required.)

PICTURE WINDOWS

Can be furnished in many sizes with plate or insulating glass to combine with casements. Standard frame parts are used for picture windows with or without casement flankers.

"TWINDOW helps me

says BOB SCHMITT, Berea, Ohio, builder

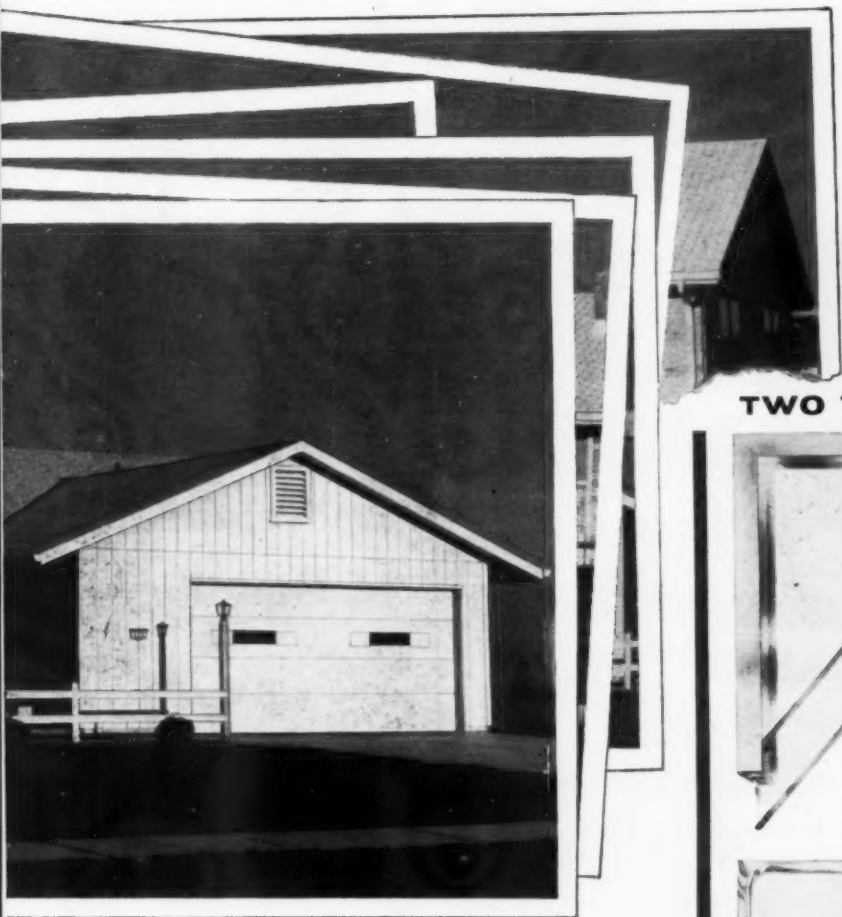

MR. SCHMITT, well-known Ohio builder, has won national recognition for his efficiently built homes, which are presently in the \$22,000-\$30,000 price range.

He includes TWINDOW insulating glass in the houses he builds, because, as he stated: "In the first place, these insulating glass units help me sell my homes faster. That's because I can tell prospective buyers that TWINDOW substantially reduces heating and cooling costs . . . keeps rooms warmer in winter, cooler in summer . . . lessens cold air downdrafts . . . minimizes window steaming and icing . . . muffles outside noises.

"I emphasize, too, that this insulating glass eliminates the need for storm windows. This is a matter of great concern to the purchaser, for, with TWINDOW, he is not faced with the extra expense and bother of storm windows, after he moves into the house. Also, it means a lot to me as a builder, since I am not subjected to customer complaints on this score, after

sell my homes faster"

Architects: Heine, Crider & Williamson, Berea, Ohio

the sale is made. What's more, I have found that TWINDOW costs no more than single-pane windows plus storm sash. And these units are quickly, safely and easily installed."

Why not get all the facts on TWINDOW? Find out how these insulating glass units can help *you* sell more homes faster. Write to Pittsburgh Plate Glass Company, Room 8179, 632 Fort Duquesne Blvd., Pittsburgh 22, Pennsylvania.

TWO TYPES OF TWINDOW

TWINDOW—METAL EDGE.

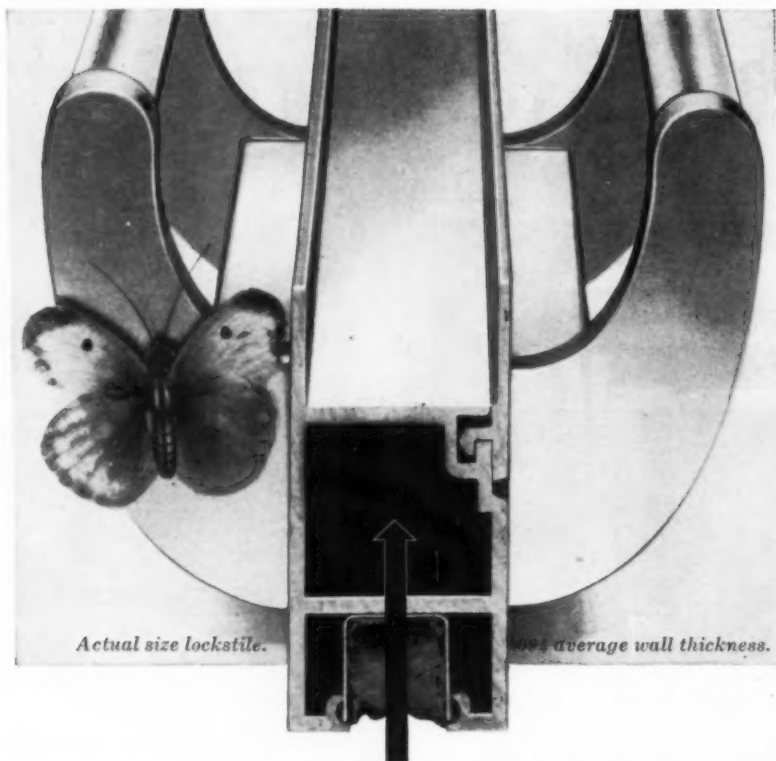

This type is ideal for large windows and where maximum insulation is needed. It's made up of two panes of 1/4" clear-vision Plate Glass, with a 1/2" sealed air space between. Its stainless steel frame, a TWINDOW feature, eliminates bare edges . . . makes handling safer, quicker, and easier.

TWINDOW—GLASS EDGE.

This type is just the thing for modern window wall construction. It, too, has exceptional insulating properties. It is constructed of two panes of 1/8" PENNVERNON®—the quality window glass—with a 3/16" air space between. TWINDOW—glass edge units come in popular sizes for a variety of window styles.

HOW BRAUN BACKS UP THE BEAUTY OF MILLER SLIDING GLASS DOORS

Because a door's performance is vital, Miller's use of heavy tubular sections—with their engineered method of construction—produces a door unmatched for strength and design freedom.

For maximum weatherproofing Miller double-seals the vents with Schlegel Certified woven pile (silicone treated). All aluminum frames are Alumilited for durability and permanent satin finish. Thus the beauty of the lines (2 in aluminum, 1 in steel) is backed by strength and dependability...plus strong selling aids and national consumer advertising. Write for name of your stocking Distributor. See Sweet's Arch. File 16d/Mi.

4-WAY Qualitybilt WINDOWS

4-WAY WINDOWS

TWO SASH

AWNING

HOPPER

CASEMENT

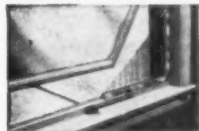

Here they are . . . brand new Qualitybilt 4-WAY WINDOWS designed to be used as Awning Type, Hopper Vents, Out-Swinging Casements or Fixed Units, installed individually, stacked or combined horizontally.

The TWO-SASH Series have a slender meeting rail . . . only 2½" between glass instead of the usual 4" or 5" when single units are stacked. Illustration shows both sash operative, but, for greater economy with still ample ventilation, units can be furnished with top sash fixed. As casements, simply install them with sash vertical.

The SINGLE SASH Series is a perfect companion to the TWO-SASH Series. It meets the demand for the popular "shoulder-high" awning units or ribbons. Can also be used as Awning or Hopper Vents above or below TWO-SASH or Picture Sash Units. As Casements they can be installed to operate either right or left; singly, in groups, or as flankers for Picture Units.

And versatility is only part of the story! All units are supplied complete, fully weather-stripped, set up, ready to install. You can select roto, bar, or manual operation . . . single glazing with removable double glazing panels, or insulating glass. Screens are all-aluminum with gun-metal finish wire. Wood parts are toxic-treated with approved water-repellent preservative.

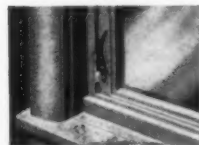

See complete catalog in Sweet's 1958 Architectural and Light Construction Files or write us for catalog and name of nearest distributor!

WHAT'S NEW IN DOORS AND FRAMES?

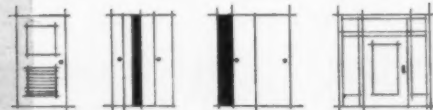

Amweld® takes on new dimensions with its newly expanded line of hollow metal doors and frames. Mass produced—and priced accordingly—Amweld's versatile light and heavy duty lines offer the architect smart contemporary styling, adaptability and low cost maintenance—plus the practical convenience of specifying doors and frames throughout his building from a single source.

To the alert builder or contractor, too, Amweld offers the price and delivery advantage of ordering from one supplier rather than several. Unique design features in both doors and frames make possible new lows in per-opening installation cost, eliminate call-backs, assure better jobs more quickly completed.

Flush and recessed panel heavy duty doors—limited duty 1¾" and 1½" doors—Underwriter's doors and frames—air conditioning doors—folding and sliding closet units. The most comprehensive and experience-backed line in the industry. That's what's new in doors and frames... from Amweld.

For complete information on Amweld's doors, frames, and closet units, send for free catalog today.

SUPERBLY STYLED FOR POPULAR APPEAL • BRILLIANTLY ENGINEERED TO SIMPLIFY CONSTRUCTION
SKILLFULLY DESIGNED FOR ABUNDANT DAYLIGHT AND VENTILATION

FOUR GOOD REASONS WHY YOU SHOULD CHOOSE

LUPTON ALUMINUM WINDOWS & SLIDING DOORS

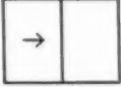

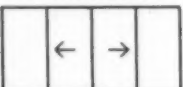

FOR THE PROJECT YOU'RE PLANNING RIGHT NOW

The "Extra" they're insisting on!

LUPTON Aluminum Sliding Doors

Floor to ceiling Lupton Sliding Doors are especially suited to the modern home. They offer the convenience of a door to garden or patio—and striking outdoor view—with none of the usual disadvantages. Weathertight construction with double row of woven pile weatherstrip on all sides of movable sash make

them ideal in any climate. Low sloped heavy aluminum threshold keeps water out, and lessens danger of tripping. Special door design allows for leveling adjustment at installation. And hardware, of course, is to exacting Lupton standards. Heavy-duty sliding screens available at extra cost when specified.

A fast-growing favorite with "buy-appeal!"

LUPTON Aluminum Sliding Windows

Here's a handsome, sturdy window ideally suited to the contemporary home. Quiet nylon rollers—standard with Lupton Sliding Windows—make for smooth, effortless operation. Frames and sash are of extruded aluminum, beautifully cleaned, etched and lacquered at the Lupton factory. Weather strip is woven pile on aluminum backing, to protect

against air and water leakage. A continuous grip for operation is extruded as a part of the vertical sash bar, and a sturdy lock is provided at the meeting bar. Extended fin as part of the frame makes installation easy, quick, and economical. Aluminum screens available at additional cost—may be inserted and removed from within the room.

Engineered for quick, easy installation...

LUPTON Aluminum Double-Hung Windows

These double-hung Lupton windows are designed to give years of satisfactory service at comparatively low initial cost. Installation is swift and simple. Frames interlock at mullions, require no extra pieces for installation. Frame and sash members are accurate extrusions of high-strength aluminum alloy. Weather stripping is stainless steel. Balances are

completely concealed, yet easily accessible for adjustment should it be necessary. Sash float between guides of stainless steel that are continuous from head to sill, eliminating window rattle. And, as with all Lupton windows and sliding doors on these pages, delivery is prompt. Screens and storm sash can be furnished at extra cost.

Smart, sturdy, and "sellable"...

LUPTON Aluminum Residence Casement Windows

Maximum glass area and superior ventilation distinguish these Lupton Aluminum Casement Windows. They are weathertight, of course; easy to operate, easily and safely cleaned from the inside. Construction is of accurately extruded solid section bars of high-strength aluminum alloy, with corners of frames and ventilators electrically welded. Hand-

some operating hardware is die cast of special alloy. Both fixed and ventilated units are available at no extra cost with any or all muntins omitted (any remaining muntins must be in standard locations). Aluminum screens and interchangeable storm sash, located on inside, are available at extra cost.

Grant Folding Doors

make home values grow!

and no wonder! No folding door on the market can duplicate the many fine selling features of the Grant Folding Door!

- * a real door that folds
- solid, $\frac{1}{4}$ " thick hardboard core
- finely textured vinyl fabric, laminated to core
- sound resistant and light-proof
- nylon carriers, aluminum track
- minimum stacking space
- "built-in" friction catch
- a variety of colors in a wide range of sizes
- designed by nationally famous Paul McCobb

Grant assists you with its greatest array of sales aids and most extensive program of consumer advertising ever! Write for your copy of the Grant Folding Door Reference Manual.

Outstanding single source for sliding hardware

Bolta-Floor[®] Solid Vinyl

modern long-wearing beauty . . . COSTS LESS TO MAINTAIN

Wherever flooring must withstand a beating, day-in day-out, Bolta-Floor solid vinyl is being specified. Here's why. Bolta-Floor's natural lustre, rich color and pattern run the full depth of each tile. Its smooth non-porous surface resists the wear and tear of heavy traffic . . . is easier to keep fresh and new-looking. Bolta-Floor is dimensionally stable . . . eliminates unsightly seams that shrink, catch dust and dirt. Bolta-Floor is resilient, recovers quickly from indentation, is quiet and comfortable underfoot. Before you specify flooring compare Bolta-Floor with any other. For complete information write:

THE GENERAL TIRE & RUBBER COMPANY • FLOORING DIVISION • AKRON, OHIO

*The finest quality
flooring for*

- Stores ■ Restaurants ■ Motels
- Hospitals ■ Offices ■ Homes

*In addition to "Classic" Terrazzo shown above, **Bolta-Floor**[®] is available in a full range of colors, patterns, gauges, tile sizes and roll widths. See Sweet's Architectural file 131/Ge.*

HARDWARE DATA

HAND OF DOORS

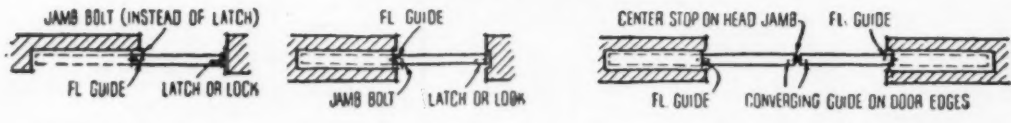

HAND OF CASEMENT WINDOWS

Specify whether in- or out-opening. Also applies to crumone bolts.
 NOTE: These conventions are exactly opposite to those followed by the metal window institute.

NOTE: Refrigerator doors follow these conventions.

TYPICAL PLANS OF SLIDING DOORS

OPEN SIDE POCKET

WALL POCKET

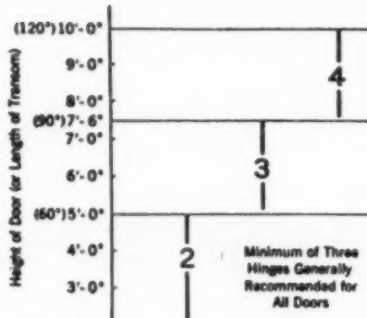

May be used with open side pockets.

SINGLE SLIDING DOORS

BI-PARTING DOORS—May have jamb bolts on both doors or latch (lock) at center.

HARDWARE

BUTT HINGE DATA

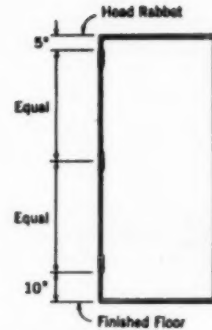

NUMBER OF HINGES PER DOOR
VARIES WITH HEIGHT OF DOOR

HOW TO SPECIFY HINGES

Number (in Pairs)—Either Ball or Oilite Bearings (if Required)—Type of Tips—Type of Screws—Type of Hinge—Metal—Height—Width (Required Only for Full Mortise Hinges)—Weight (Regular or Heavy)—Finish

TEMPLATE HINGES are Made to Standard, Templates or Patterns (Usually in Accordance with Government Standards) to Insure Exact Matching of Hinge and its Screw Holes with Metal Doors and Metal Jamb's Fabricated by Other Manufacturers

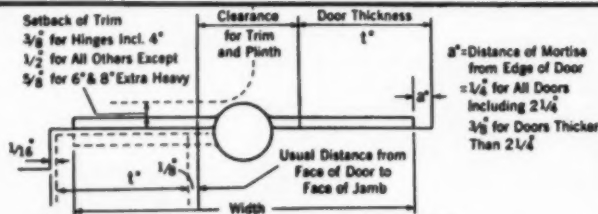

LOCATION OF HINGES

WOOD STEEL	1 1/4" & 1 3/8" Transom	1 1/2" & 1 7/8" Transom	1 1/4" Thick Door	—	1 3/8" Thick Door	1 9/16" to 1 7/8" Thick Door	2" to 2 1/2" Thick Door
	1 1/4" & 1 3/8" Transom	1 1/2" & 1 7/8" Transom	—	1 1/4" Thick Door	—	1 1/4" to 1 7/8" Thick Door	2" to 2 1/2" Thick Door
50"	4'-0"	4'-2"					
43"	3'-7"					6"-x	6"-x
37"	3'-1"					5"-x	
36"	3'-0"				4"	6"	
32"	2'-8"		3"	3 1/2"			5 1/2"-x
2'-0"							
20"	1'-8"			3 1/2"	4 1/2"	3 1/2"	4 1/2"
1'-0"			2 1/2"	3"			

HEIGHT (LENGTH) OF EACH HINGE
FOR HIGH FREQUENCY DOORS,
USE EXTRA-HEAVY HINGES

Varies with Width, Thickness and Material—(Note:—X Means Extra Heavy)
Note: Doors of Wrought Bronze, Since They Weigh About 50% More Than Steel, Always Require Extra-Heavy Hinges

WIDTH OF FULL MORTISE BUTT HINGE

$$\text{Width} = 2t - 2a + \text{Clearance} + 1/8"$$

$$= \text{Usually} = 2t + \text{Clearance} - 3/8"$$

$$\text{Conversely: Clearance} = \text{Hinge Width} - 2t + 3/8"$$

CLEARANCES WITH OTHER TYPES OF HINGES

Length of Hinge	Half Surface	Full Surface	Full Surface	Half Mortise
3"	1"	(Stalmain & Angle Iron Doors)	(Tubular Steel Doors)	
3 1/2"	1 1/4"			
4"	1 1/4"			
4 1/2"	1 3/8"	1 3/4"		1 3/4"
4 1/2" Extra Heavy	1 7/8"	1 7/8"	7/8"	1 7/8"
5"	1 7/8"	1 7/8"		1 7/8"

TO DETERMINE SIZES OF BUTT HINGES

Door sizes given are jamb opening dimensions.

Thickness of Doors in inches	Width of doors or height of transoms in inches	Height of butt hinges (length of joint), in inches
3/4 and 7/8 cupboard doors	To 24	2 1/2
7/8 and 1 1/8 screen doors	To 36	3
1 1/8 doors	To 36	3 1/2
1 1/4 and 1 3/8 doors	To 32	3 1/2
"	Over 32 to 37	4
1-9/16, 1 3/4 and 1 7/8 doors	To 32	4 1/2
"	Over 32 to 37	5
"	Over 37 to 43	5 Extra heavy
"	Over 43 to 50	6 Extra heavy
2, 2 1/4 and 2 1/2 doors	To 43	5 Extra heavy
"	Over 43 to 50	6 Extra heavy
1 1/4 and 1 3/8 transoms	To 20	2 1/2
"	Over 20 to 36	3
1 1/2, 1-9/16, 1 3/4 and 1 7/8 transoms	To 20	3
"	Over 20 to 36	3 1/2
2, 2 1/4 and 2 1/2 transoms	To 20	3 1/2
"	Over 20 to 36	4

Doors 60 inches high and under	2 butt hinges
Doors over 60 inches high and not over 90 inches high	3 butt hinges
Doors over 90 inches high and not over 120 inches high	4 butt hinges
Transoms 48 inches wide and under	2 butt hinges
Transoms over 48 inches wide and not over 84 inches wide	3 butt hinges

RELATION OF GROSS VENTILATOR AREA TO NET AREA

FHA REQUIREMENTS

Provide cross ventilation for all spaces between roof and top floor ceiling with corrosion-resistant 8-mesh screened louvers as follows: **ROOFS WITH SLOPES 2 IN 12 OR GREATER, 1/300th** of the horizontal projection of the roof area over each space. One-half the required ventilation shall be in the upper part of the ventilated space as near the high point of the roof as practicable. **ROOFS WITH SLOPES LESS THAN 2 IN 12, 1/150th** of the horizontal projection area over each space unless a complete, continuous vapor barrier is provided, in which case use 1/300th.

FREE AREA VENTILATION GUIDE

HOW TO USE FREE AREA VENTILATION GUIDE

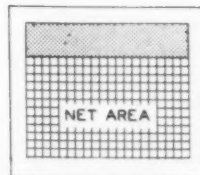

Using length and width dimensions of each rectangular or square attic space, find one dimension on vertical column, the other dimension on horizontal column. These will intersect at the number of square inches of ventilation required by FHA to provide 1/300th. Multiply this re-

quired ventilation by two for roof slopes of less than 2 in 12 without vapor barrier.

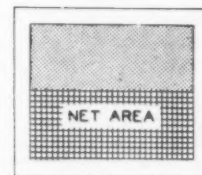

Remember — 1. Include overhang of roof area in measurement of attic areas. 2. At least 50% of the required ventilation must be in the highest part of the roof practicable. 3. Provide cross ventilation for each separate space.

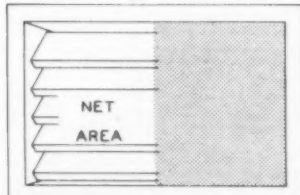

1/4" MESH SCREEN
Gross area = Net area

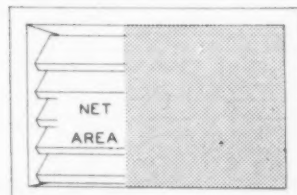

1/8" MESH SCREEN
Gross area = 1.25 × Net area

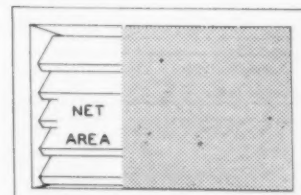

1/16" MESH SCREEN
Gross area = 2 × Net area

LOUVERS WITH 1/4" MESH SCREEN
Gross area = 2 × Net area

LOUVERS WITH 1/8" MESH SCREEN
Gross area = 2.25 × Net area

LOUVERS WITH 1/16" MESH SCREEN
Gross area = 3 × Net area

Frantz Garage Doors

**Accent
Home
Beauty**

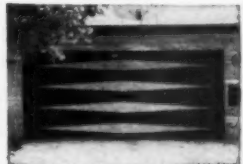

• No. C 527—Carved Door with panel pattern

• The garage door is the most important door in the modern home of today. It must operate as easily as an entrance door, and should achieve complete architectural harmony. In the augmented Frantz line of Overhead Doors, there is a wealth of modern styles to blend with and accent the beauty of any home design. Frantz doors not only add more to home beauty but also provide more in home convenience. Their ease of opening, their mechanical excellence in either torsion spring or extension spring types, and their many exclusive features, are the talk of the industry. Frantz quality is topmost! Virtually every part of every door—from the steel ball bearings in the rollers, to the door sections and zinc plated hardware—is made in our own plants! When you feature Frantz Doors you feature the greatest combination in beauty, quality and engineering. See Your Lumber Dealer.

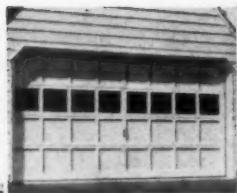

• No. 250—5-section horizontal panel, popular for ranch homes

• No. F227—Flush Door with molding strip design

Want To Sell More Houses In '58?

*You Can-Here's How-
Order And Read Your Copy
of*

SELLING HOUSES SUCCESSFULLY

by Alfred Gross

A TOP MARKETING EXPERT shows you, in detail, the *newest tested sales techniques and promotions* that successful builders will use this year. In addition, SELLING HOUSES SUCCESSFULLY contains scores of actual case histories and other materials compiled by the editorial staff of AMERICAN BUILDER magazine. Here is sound practical advice by one of the nation's leading sales authorities. *Don't miss this vital marketing information.* Take full advantage of the research and pre-testing behind this book. It's your shortcut to a rising sales curve.

The book explains how to get the most from your advertising dollar . . . shows how to "package" your homes for greatest customer appeal . . . points out the "extras" that pay off in closing sales . . . tells how to present *hidden values* effectively . . . presents complete details on how to organize a practical trade-in sales plan . . . and it's packed with new workable ideas for effective sales promotions to fit your building program.

In no other single volume will you find this concise marketing data. This book can help you make 1958 your best year! Tight money and the "hard sell" won't touch those builders across the nation who will build more homes and pile up greater profits in 1958 than ever before! BUT, much hinges on the effectiveness of the builder's sales program. Tailor yours to today's market and see the sales come in.

Note the full coverage of these chapter headings:

- Marketing—The Key to Profits
- It's a Wonderful Market
- Give Buyers What They Want
- Be a Show-Off—With Models
- Make the Most of Hidden Values
- Package Your Houses Distinctively
- Newspaper Advertising Is Rated Tops
- Radio and Television Brings Them In
- Show the Way With Outdoor Advertising
- Everybody Loves A Show
- Give Your Salesman An Assist
- Trade-Ins Make It Easy to Buy

SAVE SHIPPING CHARGES. I enclose \$5.00 in full payment. If I return the book within 5 days after receipt, you agree to refund this sum.

Ridiculous, you say. Delay can't *kill* anyone. It isn't a disease.

Yet last year, of the 250,-000 Americans who were cancer's victims, 75,000 died *needlessly*. 75,000! . . . the populations of cities like Charleston, Santa Monica, or Racine. They might have been saved . . . but they put off seeing their doctors until it was too late. Their story is told in our dramatic film "The Other City" . . . a film which can save thousands of lives. Perhaps your own. It teaches you the seven danger signals by which early cancer often reveals itself, and emphasizes your need for an annual health checkup as your best insurance against cancer.

"The Other City" is available, without charge, for showing at your church, your club, your community center, plant or office.

To arrange to see this and other life-saving films, made possible by your contributions, call the Unit of the American Cancer Society in your community or write to "Cancer" in care of your local post office.

This wood window is a sales-winner

It is equipped with Zegers Dura-seal Combination Metal Weatherstrip & Sash Balance. And it is Dura-seal that makes it the best window on the market . . . providing the most complete and efficient weather protection . . . the easiest operation. It offers the outstanding features shown at right . . . features that assure the home buyer that he is buying the best!

Dura-seal equipped windows are immediately recognized as such by the home buyer . . . they are quickly identified for the name is embossed on the metal and each unit carries a special "Advertised in LIFE" sticker.

Let these engineered features and LIFE promotion work for you . . . look into Zegers Dura-seal now. Contact your dealer—he will show you an actual operating sample window and explain the many Dura-seal benefits. Zegers, Incorporated, 8090 South Chicago Avenue, Chicago 17, Illinois.

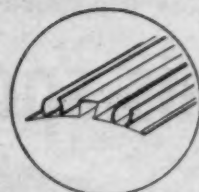

Send for this free booklet, "Today—Quality Sells The Home Buyer." It tells all about Dura-seal and the strong promotion program back of it.

NEW TWIST* gives SPIREX floating-lift action!

Like a variable pitch propeller, the graduated twist of the new Spirex torque rod provides constant lifting power all the way up and down. Actuated by a more responsive coil spring and quietly gliding through a new nylon drive bearing, this graduated rod makes windows operate almost without effort.

NEW SPIREX, plus good windows, eliminates profit-robbing service calls

Why continue to let window servicing call-backs eat away at the normal profit to which you are entitled? Any dealer or builder who handles or installs *Spirex-balanced* windows will tell you that it doesn't have to be.

Now, the *Spirex* balance is even better than ever before. The graduated twist of the spiral rod provides constant lifting and holding power all the way up and down. A more responsive flat coil actuating spring reduces inertia, and a new nylon drive bearing eliminates friction and all noise. The result is the spiral sash balance that makes a good window better.

Over the years, *Spirex* has established an unequalled record for trouble-free performance and we confidently stake our reputation on the *new Spirex* doing even better. You can count on more satisfied customers, virtually no servicing call-backs, and a better margin of profit when you handle and install quality windows with *new Spirex* balances.

For additional information on the new *Spirex* call your Caldwell representative or contact the factory: Caldwell Manufacturing Company, 68 Commercial Street, Rochester 14, N. Y.

The new Spirex balance is now being used in our Spireflex Weatherstrip-Sash Balance combination unit—factory pretensioned at no extra cost.

Troublefree service . . .

the part of its value you don't see

There's more to the value of a lockset than meets the eye. There's the matter of engineering and materials that go into its construction. Sound engineering and quality materials help assure long life, positive security and dependable service. Remember, "call-backs" for repairs are costly. That's why, so often with cheap brands, the first cost is not the last cost. Quality construction . . . fresh, smart styling . . . competitive price tag . . . these are the factors that make NATIONAL LOCKset "America's Outstanding Lockset Value". Ask your building material supplier.

Illustrated is Doric knob with Square escutcheon. Can be mounted as square or diamond for 5" or 18" backset.

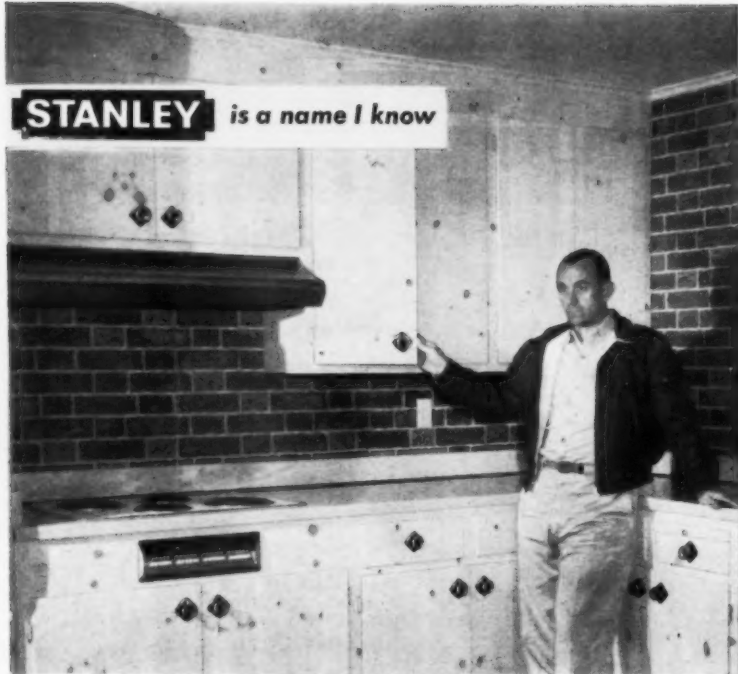

Specify it with confidence . . . Install it with pride

NATIONAL LOCK COMPANY

STANLEY is a name I know

HAYDEN G. PRICE, General Contractor, San Mateo, Calif.

"Stanley cabinet hardware helps sell my new homes"

"Home buyers around here these days know what they're looking for and I find it pays to cater to their wants.

"That's why I use Stanley cabinet hardware exclusively in my kitchens. In the first place, Stanley's wide selection gives me a style to match any decor. Then, I know I can take for granted the quality and performance of every piece. Finally, buyers know Stanley's great

reputation for quality, too—and that boosts their confidence in the rest of my homes.

"I also like to do business with a company who advertises, 'Best investment I know is the best new home you can afford,' as Stanley will, in The Saturday Evening Post in May."

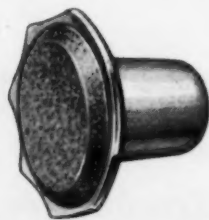

Write for details on the full line. Stanley Hardware, Division of The Stanley Works, 104 Lake St., New Britain, Conn.

The "Floating Rings" for Mr. Price's homes are supplied by Bairs Hardware Co. of San Mateo. They're part of Stanley's new Copper-Mode style, featuring brushed copper rings on black supports.

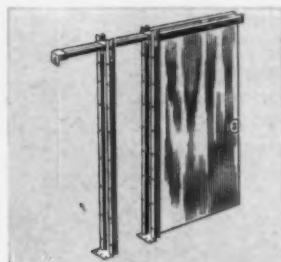

Also in the Copper-Mode line: square concaves—beautiful contemporary designs in brushed copper.

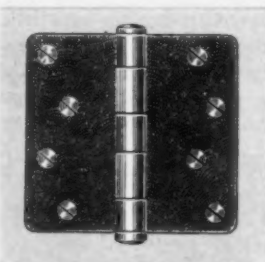

A Stanley exclusive—ceramic pulls in yellow, pink and blue on brushed silver or bronze supports. Twelve possible selections for every kitchen decor.

STANLEY IS THE NAME TO LOOK FOR ON QUALITY PRODUCTS LIKE THESE

Stanley's pocket frame set is adjustable—just one set fits all sliding door sizes from 2' 0" to 3' 0" wide.

Stanley's round-cornered RD241 hinge—the Standard of the World. New pin is guaranteed not to rise.

Stanley's closet hardware includes closet bars, hat holders and roller latches, "extras" buyers appreciate.

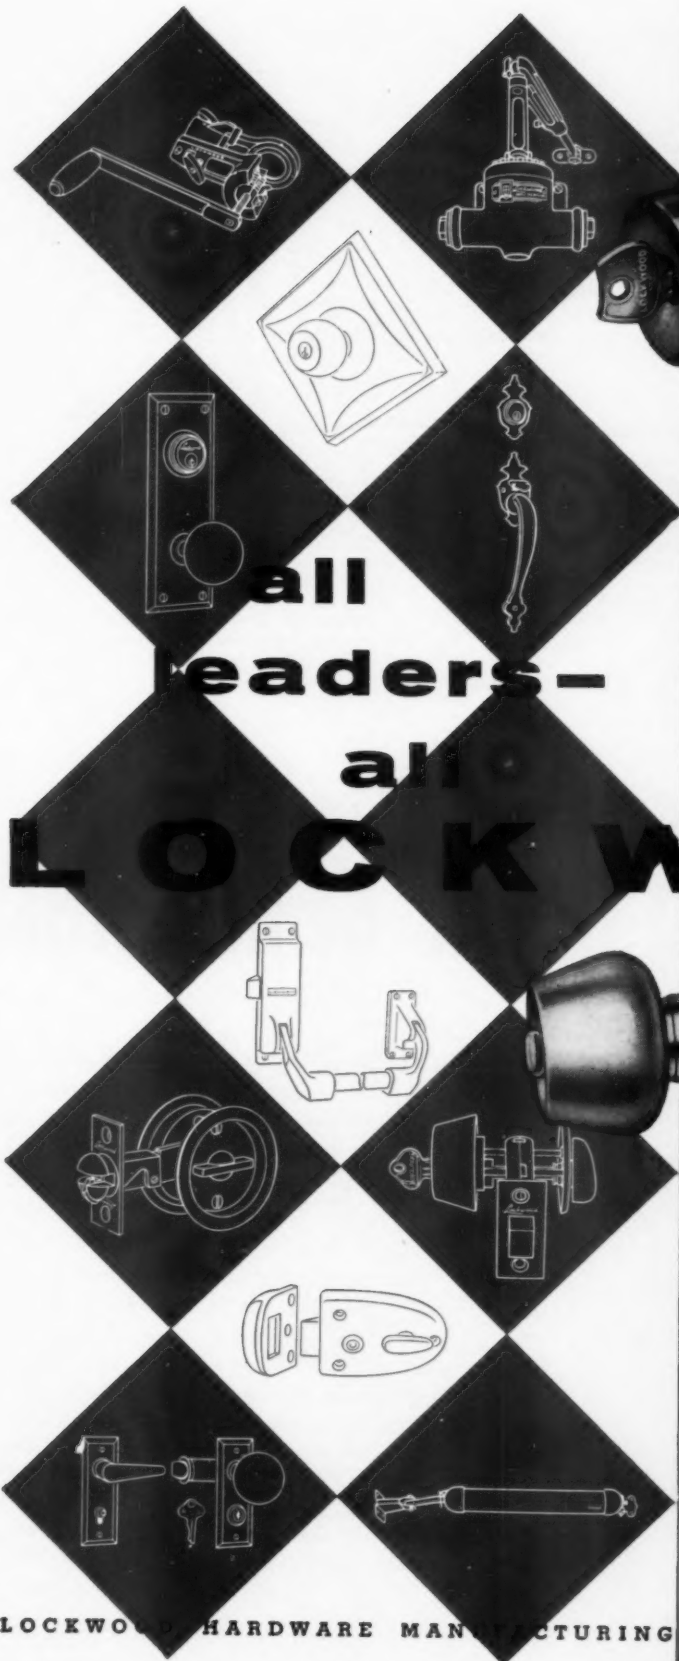

Stanley "Cape Cod" Cafe rods with gleaming brass ends, for windows up to 90 inches wide.

AMERICA BUILDS BETTER AND LIVES BETTER WITH STANLEY

STANLEY

This famous trademark distinguishes over 20,000 quality products of The Stanley Works—hand and electric tools • builders and industrial hardware • drapery hardware • door controls • aluminum windows • stampings • springs • coatings • strip steel • steel strapping—made in 24 plants in the United States, Canada, England and Germany.

WATER SUPPLY

SHALLOW WELL PUMP INSTALLATION

ATTIC & EXHAUST FAN INSTALLATION

GENERAL INSTALLATION RULES

Where fans are installed to discharge directly to outside they should be located with prevailing winds. Fans discharging directly into attic should be centrally located if possible.

Flat roofed buildings without adequate attic space should be provided with a penthouse for fan location. Either vertical or horizontal units may be used.

Provide adequate protection against fire in all installations. Various devices are available to insure fan cut-off and closing of intake louvers.

MINIMUM AREAS FOR DISCHARGE OPENING

TYPE OF OPENING	SQUARE FEET PER 1000 CFM FREE AIR FAN DELIVERY
Wood louvres backed with 1/2" hardware cloth, 40% minimum free area.....	2.27 Sq. Ft. per 1000 CFM
Metal louvres backed with 1/2" hardware cloth, 50% minimum free area.....	1.82 Sq. Ft. per 1000 CFM
Plain opening covered with 1/2" hardware cloth, 80% minimum free area.....	1.14 Sq. Ft. per 1000 CFM
Automatic or manual shutters, 90% minimum free area.....	1.01 Sq. Ft. per 1000 CFM

ESTIMATING FAN REQUIREMENTS

The following formula will aid in determining the size of the fan required to adequately ventilate a given area:

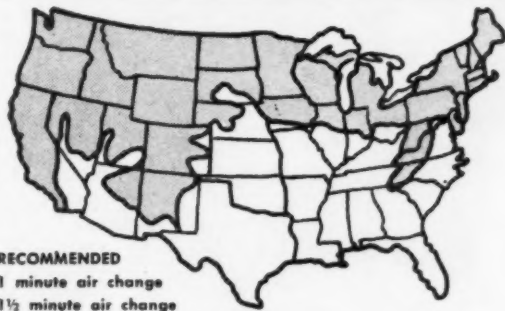

$$\frac{\text{*Cu. Ft. Volume of Area}}{\text{**Rate of Air Change}} = \text{CFM (Fan Capacity)}$$

*When estimating cubic feet contents, closets, and other unoccupied areas may be deducted.

**Select rate of air change according to locality from map at the right.

Example:

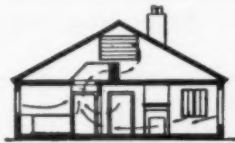

$$\frac{\text{Volume} = 15,000 \text{ Cu. Ft.}}{\text{Desirable air change} = 1\frac{1}{2} \text{ Minutes}} = \frac{15,000}{1.5} = 10,000 \text{ CFM (Fan Capacity)}$$

RECOMMENDED

- 1 minute air change
- 1 1/2 minute air change

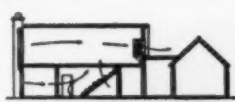

FAN LOCATIONS

SUCTION BOX

ATTIC STAIRWAY

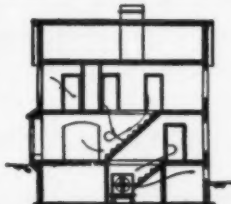

GABLE INSTALLATION

ATTIC WALL

PENT HOUSE

BASEMENT

The installation of attic fans generally follows the three methods shown at top of page. In homes with basements it is sometimes practical, and equally effective, to install the fan in a compartment beneath the basement stairs allowing the discharge to exhaust directly into the basement proper. Intake and discharge louvers should follow the same rules that apply to attic installation. The same precautions should be taken against fire.

VERTICAL DISCHARGE

When they ask to see the Furnace...
...SHOW THEM THE ONE THAT'S
*Show them SUN VALLEY*All-Year[®]*

*TRADEMARK PRODUCT OF ARKLA AIR CONDITIONING CORP., EVANSVILLE, IND. & SHREVEPORT, LA.

AN AIR-CONDITIONER TOO!

Gas Air-Conditioning by **ARKLA-SERVEL!**

**Cools the entire home in Summer
from a single compact Gas unit.
(Heats in Winter, too!)**

SHOW THEM the most effective way to beat any heat spell. No more drafty fans . . . no more spot cooling in a couple of rooms. The Sun Valley* by Arkla-Servel cools the entire house (every room of it) from a single compact unit. And your prospects will like the peace and quiet of the Sun Valley*, too! There's no noise because there are no moving parts in the cooling system.

SHOW THEM how easily the air conditioner can be turned into a furnace when blustery winter comes booming in. A simple dial setting—and presto!—the Sun Valley* by Arkla-Servel is the most wonderful furnace! It circulates gentle warm air to every room of the house. And with Gas your prospects will never have to worry about late fuel deliveries—dependable Gas is piped right into their homes.

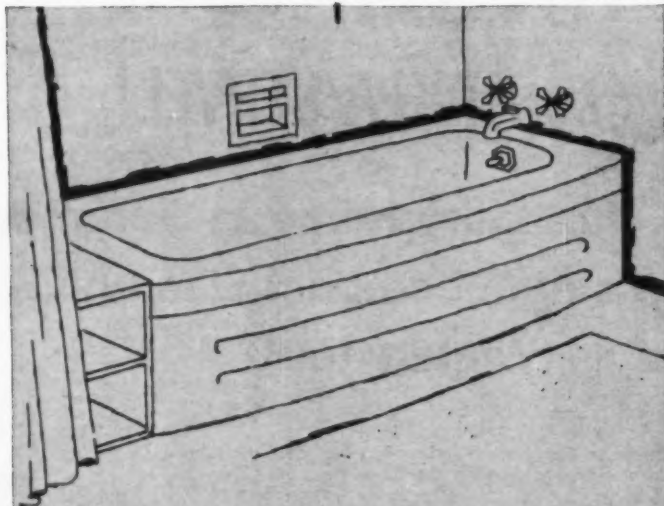

SHOW THEM how a single and simple thermostat looks after them night and day—with complete and correct moisture control both winter and summer. They merely set the thermostat to a desired temperature, and the Sun Valley* maintains that degree of heat or cooling around the clock. They're safe from all kinds of weather . . . and further protected by Arkla-Servel's five year warranty, too. **AMERICAN GAS ASSOCIATION.**

ONLY GAS 
**does so much more...
for so much less!**

If you sell only people who want the cheapest, you may sacrifice your profits

If you sell only people who want the fanciest, you may sacrifice your volume

SELL

The Mighty Middle

If you build homes for the Mighty Middle — the vast majority of American buyers — are your plumbing costs and quality in line with your other building costs?

Gerber plumbing fixtures are built and priced for the Mighty Middle. Not cheap, nor fancy with needless expensive frills, Gerber fixtures offer modern bathroom appeal — plus many deluxe features ordinarily found in much more expensive plumbing.

Gerber makes a complete line of matched vitreous china, steel enamelware, and brass plumbing fixtures. In addition, Gerber has complete "packaged" bathrooms to provide matched styling and colors, and to save you planning time and expense. Gerber fixtures are smartly styled and specially designed for easy installation.

WHEN MODEL HOME VISITORS CHOOSE
YOUNGSTOWN KITCHENS 10 TO 1...

Above: 800 acre "Rockland"
home-site at former Camp
Shanks, Orangeburg, N. Y.
Lester Robbins, builder (left).

wise builder switches kitchens for 2500 units

Homebuyers saw this Youngstown Kitchen in garage
...chose it over competitive model installed in home

When Mr. Thomas O'Loughlin, Youngstown Kitchens Distributor, learned a competitor's kitchen had been chosen to equip the 2500-unit development at "Rockland," he proposed a consumer test. A Youngstown Kitchen was set up in garage and home-buyers voted overwhelmingly for Youngstown. Plans were changed...Youngstown Kitchens

were ordered for 1900 homes, 600 apartments in "Rockland."

More builders every day are turning to Youngstown Kitchens. This complete line offers the widest selection of cabinets and appliances plus the Youngstown Kitchens 10-Point Builder Program that helps you sell the whole house. Contact your Youngstown Kitchens Distributor today.

PUT YOUR MONEY IN SALES APPEAL

but don't "Gold-Plate" the drain!

Specify Republic Steel Pipe for maximum economy in waste line service

Today, more than ever, it is true extra-value that converts "just-lookers" into home buyers. That's why discerning building contractors put more dollars into practical sales stimulators—and insist on maximum economy in basic material selection.

When it comes to waste line specification, Republic Steel Pipe provides actual savings for home builders and owners alike.

For the builder, low initial cost is only the first of many advantages of Republic Pipe. This, coupled with stability in price and availability, means no profit-robbing cost fluctuations or work stoppages. And, since

one grade meets all requirements, inventory expense and problems are minimized. Danger of installing wrong grades is eliminated.

Finally, excellent workability of Republic Steel Pipe, plus years of know-how in handling steel pipe offered by every reputable plumbing contractor, add up to fast economical installations—good for the life of the building.

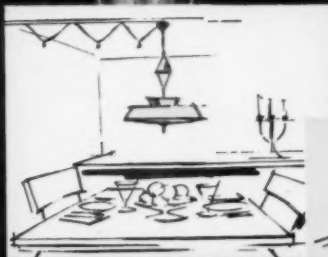

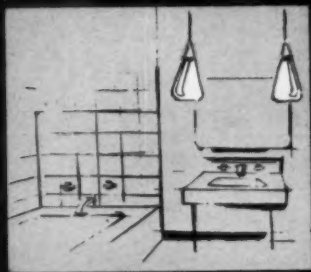

All of these factors mean true extra-value for builders and buyers. For complete data, consult your Republic Pipe Distributor, or write Republic Steel Corporation, Dept. AB-5368, 1441 Republic Building, Cleveland 1, Ohio.

KOHLER MINOCQUA BATH

space-saver size

4 FT. - 6 IN.

... as displayed at the Kohler exhibit, N.A.H.B. Convention, Chicago

With the Minocqua available in a 4½-foot length, as well as the 5-foot, you have greater opportunities for installing new and remodeled bathrooms where space is limited.

The Minocqua's trim, low design gives small bathrooms a spacious effect. The

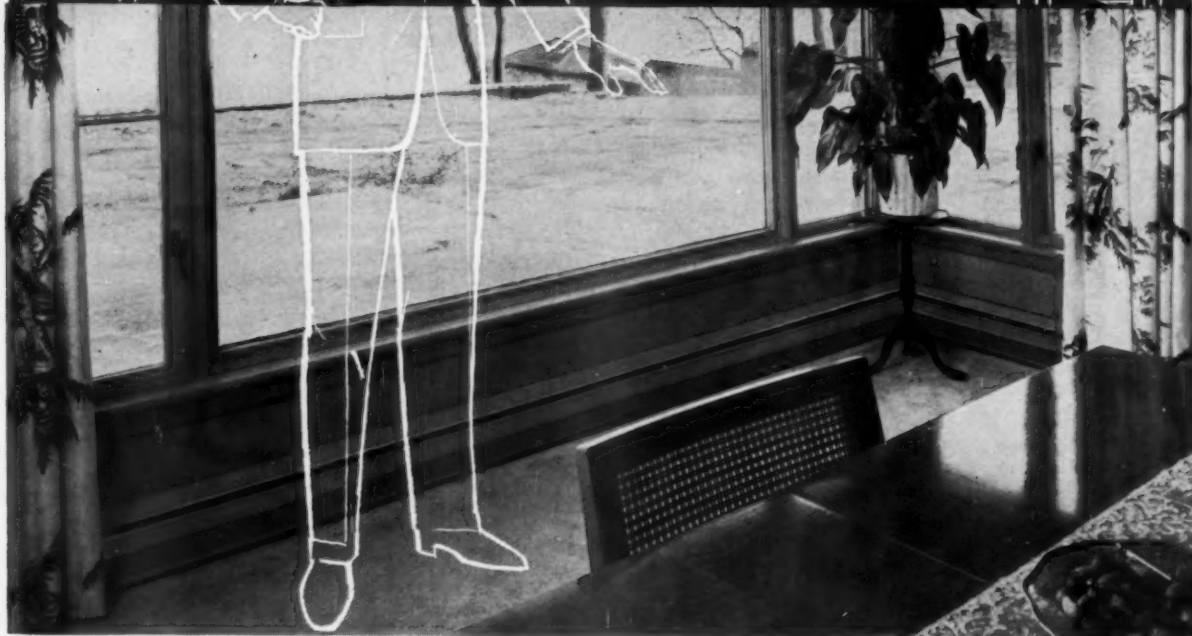

bench rim, easy-to-step-over front, flat bottom and slope end afford comfort and safety.

The Kohler line includes sizes and styles for every requirement—all with sparkling, easy-to-clean enamel fused to a base of non-flexing iron, cast for rugged strength.

KOHLER CO. Established 1873 KOHLER, WIS.

For All-Around Comfort... All Around the Year

Every day's a perfect day, when your Warren Webster Man plans the weather. In the chill of winter, decade-proved Webster Baseboard Heating uses the modern science of Hydronics to wrap your house in a blanket of gentle, clean, draft-free warmth. It's hot water heating at the peak of comfort, to complement the finest home.

And, in the heat of summer, the Webster Cool-Air System takes over. An independent but compatible central cooling system, it brings delightful whole-house air conditioning within the reach of any home owner. Uses its own inexpensive ducts, outlets and controls . . . or teams with existing ductwork. Easily installed in attic, basement, crawl space, or equipment room.

For 52 weeks of springtime, get the facts from your Warren Webster Man. Or send for Bulletins AR-669 (Baseboard) and F-141 (Cool-Air). Warren Webster & Company, Camden 5, New Jersey. Since 1888. Offices in principal U.S. cities and Canada.

New builder designed

FRIGIDAIRE

1958 CUSTOM IMPERIAL FRIGIDAIRE DISHWASHERS

24" Undercounter or Free-Standing, or 48" Dishwasher-Sink Combination models, designed to match the complete family of Frigidaire Appliances.

Custom Imperial model

BRAND NEW DE LUXE MODEL 24" UNDERCOUNTER DISHWASHER

De Luxe in every respect—same full size, same hold-more capacity, same Sheer Look full-width door as Custom Imperial models—to put you out front in home-selling features.

DISHWASHERS

WITH FAMOUS SHEER LOOK...PLUS MATCHING COLORS, MODULAR DESIGN, AND WANTED CONSUMER FEATURES!

The big dishwasher news is Frigidaire... new in style, capacity, superb performance and new in "Minute Man" installation. Now, you can build-in, blend-in a full-size Frigidaire Dishwasher wherever it makes a kitchen more efficient, more salable—with less on-site labor cost!

Builder designed 24" modular construction means perfect undercounter fit in standard cabinets. You get complete flexibility of kitchen design with five Frigidaire Dishwasher models — Portable, Custom Imperial Undercounter, Free-Standing, or 48" Sink-Combination, and the all-new Builder De Luxe Undercounter model — to satisfy every home buyer. And every model upgrades kitchens with the consumer-accepted Frigidaire Sheer Look, fashion leader of the appliance industry. You can choose from a rainbow of color to match the mood of

every kitchen you plan with Sunny Yellow, Turquoise, Charcoal Gray, Mayfair Pink, White or optional Satin Chrome finish in some models.

Every detail of new Frigidaire Dishwashers has been engineered with you, the builder, in mind. Plumbing and wiring connections are simplified and separated to speed installation. Drain system is designed for easier connection to high wall or simple gravity drains. Hook-up to a disposer is a snap, with factory-installed flexible adapter that eliminates threading fittings and cuts labor costs. Best of all, new Frigidaire Dishwashers are loaded with better living features for homemakers. See how new Frigidaire appliances can spark up your kitchen-planning and home-selling. Call your Frigidaire Custom Products Representative at the nearest Frigidaire distributing headquarters.

INSTALLS FAST! HOLDS UP TO 48% MORE, WASHES BETTER

Cost-cutting "Minute Man" undercounter installations are easy with sure-fit 24" modular construction and new easy-to-reach wiring and plumbing connections. Even an apprentice helper can follow these simplified steps: (1) Rough-in utilities under counter or in cabinet—clearance 24" W x 34-1/2" H x 24" D. (2) Slide unit into place and connect. Plumbing connections are made on left, wiring on the right—with complete front access for greater safety. (3) Attach bottom panel and the dishwasher is built-in! Optional left or right hand side panels available in choice of color for end-of-counter installation.

No other 24" dishwasher matches new Frigidaire capacity... 12 full place-settings *plus**... as much as 147 pieces... up to 48% more than other leading models checked. And every model has Glide-to-You racks.

Every dish comes sparkle-clean, with Frigidaire Turbo-Spray washing action. All Custom Imperial models have two detergent wash cycles and three rinses, including a special automatic "Spots-Away" rinse.**

*National Electrical Manufacturers Association Standards.
**DeLuxe model has a slightly different operating cycle and does not include "Spots-Away" or Dual Detergent Dispensers.

Designed today...for satisfied homeowners tomorrow!

Plumbing and Heating Notes

Sanitary drainage system cost cut 20% with Copper Tube

Using lightweight, easy-to-handle copper tube, a plumbing contractor can install the typical sanitary drainage system shown below for approximately \$50 less than if he used cast-iron and steel piping.

Most of the saving is possible because, according to many plumbing contractors, copper tube can be installed so much faster. Note also that the cost of material is less in copper.

This particular job—which calls for two bathrooms back-to-back, a kitchen and a laundry—was figured in January, 1958, by a New England plumbing contractor as follows:

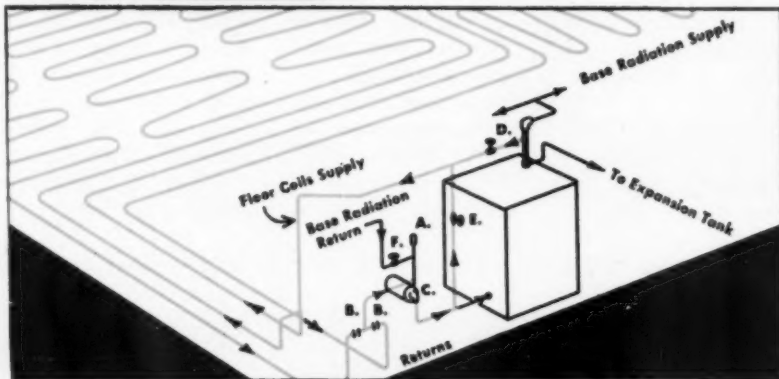

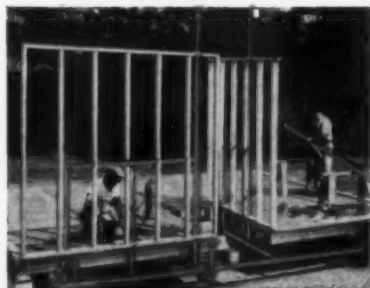

USING COPPER

Copper Drainage Tube.....	\$80.84
Type DWV, 1 1/4" - 3"	
Cast Brass Fittings.....	58.36
Solder & Flux.....	1.10
Total material cost.....	\$140.30
Add 12 Hours Labor.....	46.50
Installed cost.....	\$186.80

USING FERROUS PIPE AND FITTINGS

Cast-Iron, Steel and Lead Pipe	
1 1/2" - 4".....	\$71.03
Wiping Solder, Caulking	
Lead, Oakum.....	26.38
Fittings.....	53.33
Total material cost.....	\$150.74
Add 22 Hours Labor.....	85.25
Installed cost.....	\$235.99

Comparable savings are possible using copper tube and solder-joint fittings whether the system is smaller or larger than the one illustrated. **A detailed cost comparison of this typical layout is available on request. Ask for Publication C-33.**

New Heating System prevents cold floors in below-grade rooms

The problem of heating below-grade rooms in split-level houses has been solved by Builder Joseph J. Fleming of Wilmington, Delaware. He uses radiant panels in the basement slab, baseboard radiation in the upper floors.

Mr. Fleming designed the dual system to be operated by one circulator. He used Anaconda's preformed Panel Grids for the floor coils. The result was a substantial saving in installation costs.

But even more important, after two years of occupancy, the home buyers report complete satisfaction with the system. The downstairs rooms are just as warm and comfortable as the others. "That means a lot to me and my reputation," Mr. Fleming says.

The diagram shows how the system is laid out. "A" is the automatic air valve. "B," balancing cocks. "C," circulator. "D," proportioning valve. "E," bypass valve. "F," base radiation control valve. The water temperature and flow in the floor coils are regulated by adjusting valves D, E and F.

New codes require Copper Tube to be die-marked

Recent revisions in some plumbing codes require that copper tube used on a job be permanently die-marked to show manufacturer's name or brand as well as the type of tube. Such mark-

ings are additional to the removable color coding used to identify the type and size of tube. Anaconda Copper Tubes, straight lengths, are also marked "Made in U.S.A."

Anaconda Panel Grids—PG's®—reduce costs in many ways. They're machine-formed radiant-heating coils that come all ready to install (see photo above). No on-the-job bending is necessary. All the plumbing contractor has to do is open them out to the proper spacing to meet design requirements. Each coil contains 50 linear feet of Type L copper tube—3/8" nominal size for ceilings, 1/2" for floors.

For more information on Anaconda Panel Grids, write for Publication C-6, **The American Brass Company, Waterbury 20, Conn.** In Canada: **Anaconda American Brass Ltd., New Toronto, Ontario.**

Any home you build

can be heated with the

boiler guaranteed 20 years

CRANE *Sunnyday*

Whether you're in the big development business or building custom homes, you'll find Crane Sunnyday Hot Water Boilers for every heating requirement. Btu/hr. output ratings from 66,000 to 450,000. For gas or oil.

What's more important: *every one* of these boilers comes with a written 20-year guarantee against failure of their cast iron sections.

Add Crane Sunnybase radiation to this guaranteed boiler and you present your prospects with the finest

heating available—hydronic heating. Look at these selling features you can use: Guaranteed boiler, even temperature from floor to ceiling, radiant heating that feels like healthful sunshine. Plus the convenience of baseboard: hugs walls, takes up no wall or floor space, makes decorating easy.

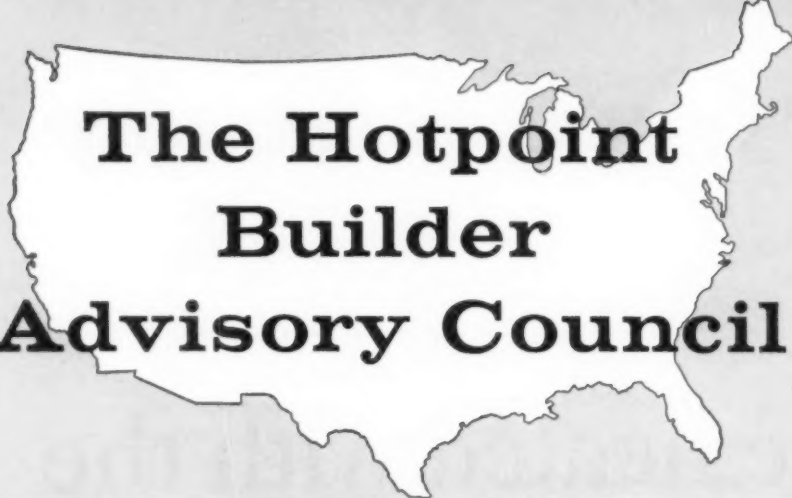

Why not get all the facts from Crane's new Builder Section? Ask for the heating specialist at your Crane Branch or Crane Wholesaler.

Their practical advice has helped make the Hotpoint line the Builder line!

The men who best know the builder business are operating builders.

That's why Hotpoint—to better serve the industry—chose this advisory panel of successful and progressive building men.

Based on their practical and realistic background, they tell us what builders want in the way of product features—dimensions—installation methods—billing and bookkeeping procedures, etc.

As a result of their recommendations, Hotpoint products are specifically designed for the builder—and Hotpoint operational procedures are geared to fit into the building business.

For these reasons, we can honestly say—"The Hotpoint Line is the Builder's Line"—the line that will help you realize more economical and more profitable home sales. To capitalize on all of the advantages offered by Hotpoint, contact your Hotpoint Distributor Builder Specialist today.

Cash in on the sales magic of famous Hotpoint features

When a woman buys a kitchen, she wants FEATURES—and that means Hotpoint!

Only Hotpoint offers such an array of dramatic convenience features—features that women recognize, appreciate, and *want* in their 1958 homes.

You can put this sales magic to work for you—whether you're building \$10,000 or \$100,000 homes. You'll find the right models for your market in the wide variety offered by the Hotpoint Customline.

Hotpoint backs you up with powerful national advertising, strong local merchandising, and with prices that mean maximum builder profits. Take advantage of the plus values offered by Hotpoint—contact your Hotpoint Distributor today!

Hotpoint Customline offers 4 different oven models and 5 surface sections in gleaming Stainless Finish, Coppertone, Pink, Yellow, Green and Brown. Pictured at left are de luxe Oven RJG601, drop-in Surface Section RN101, and 7CH12 combination Refrigerator-freezer.

Look for that

Hotpoint

Difference / Home Buyers do!

Mealtimer—automatically controls any surface unit.

Roast-Right Thermometer—automatically signals when meat is done.

Rota-Grill Rotisserie—lets you enjoy outdoor barbecues all year 'round.

Handi-Raise Broiler Shelf—raises, lowers meat with fingertip ease.

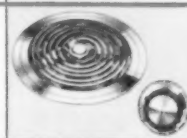

Big Insulated Panorama Window—keeps entire meal in full view.

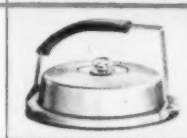

Super "2600" Calrod® Surface Unit—heats instantly.

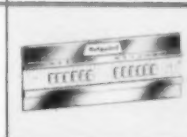

Super-Matic Unit—makes any pan an automatic utensil.

Coffee-Perk—brews up to 25 cups for parties.

Lighted Push-buttons—show exact heat in use.

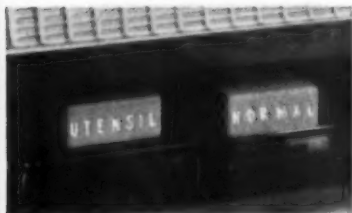

This advertisement will "pre-sell" the great Hotpoint Dual-Cycle to your home-buying prospects.

NOW! TWO-CYCLE DISHWASHING

SPOTLESS CYCLE FOR ALL YOUR DISHES—PLUS EXCLUSIVE
EXTRA CYCLE FOR HARD-TO-WASH COOKING PANS

Only Hotpoint gives you an added *utensil* cycle that loosens and flushes away even stuck-on foods.

Spotless Dishes, too! Two power washes, with fresh detergent in each. Two scalding rinses, with super wetting agent added automatically in *spotless* second rinse. Water spreads so smoothly that drops cannot form, cannot dry as spots. *Spotless* drying in sanitary electrically heated air.

Two-Level Water Action—surging jets of water whirl

up from two rotors, one below each rack, scouring every individual piece. Whisper-quiet—yet so effective no pre-rinsing by hand is necessary.

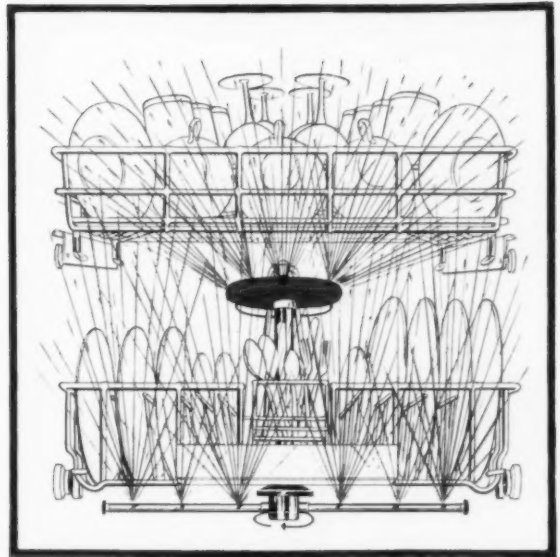

New Extra Capacity—easy, new straight-line loading. Racks roll out separately, hold complete service for ten, take 13-inch plates, even range broiler racks.

Hotpoint Dishwashers are now available in three new 24-inch undercounter models, and in four new plug-in mobile models on wheels. See them today.

Easiest Installation of All! Once plumbing has been roughed in, connections are easily made from the front—forward of the motor—with a screwdriver, pliers and a small wrench. 24" wide, 24" deep, 34½" high. For use on 115-volt, 60-cycle A C circuits.

Interchangeable Front Panels—In just 3 minutes, you can have your choice of color—pink, yellow, brown, green, white, Coppertone, Stainless Steel or provision for Natural Wood.

**Cross section showing exclusive
Hotpoint Double-Deck Water Action**

ADD THE SELLING POWER OF
**AMERICA'S GREATEST
DISHWASHERS**
TO YOUR KITCHENS!

Millions of your home-buying prospects are reading this dramatic ad in TIME, BETTER HOMES & GARDENS, HOUSE BEAUTIFUL, SUNSET and other leading national magazines.

Women know that the Hotpoint Dual-Cycle is so brilliant in performance—in flawless beauty—in years-ahead features—that it's in a class by itself.

When they see famous Hotpoint Dual-Cycle Supreme Dishwashers in your kitchens, their estimates of your homes will soar.

The Hotpoint Dual-Cycle Supreme Dishwasher will be one of the most powerful selling features in your entire home—so contact your Hotpoint Distributor Builder Specialist today.

The key to more kitchen business **BETTER BUILT-INS!**

Quality built-ins sell kitchens! Nothing says quality faster or more emphatically than a KitchenAid automatic dishwasher, by Hobart, for both efficiency and beauty. There isn't another dishwasher in the industry with the effective water pattern of the KitchenAid—the only machine that has the exclusive Hobart revolving power wash and power rinse principle that cuts through the toughest dried-on foods. Only KitchenAid has the separate motor and blower-fan circulating electrically heated air that goes around and through every crevice and opening in the spacious racks, drying everything to sparkling perfection.

And for quality workmanship, let the KitchenAid dealer service record speak for itself—*less than 1% service calls!* KitchenAid is easy to install in any of the models in the line, automatic pump-drain or gravity drain, regardless of plumbing conditions. In addition to the undercounter

model with its wide choice of beautiful decorator fronts (all porcelain interiors), KitchenAid offers free-standing, sink-dishwasher combination, counter-height or portable models. Many of the quality features of your kitchens cannot be seen, but the built-ins you include are among the first things noticed. Make sure they don't let you down.

For information write The Hobart Manufacturing Co., KitchenAid Home Dishwasher Division, Dept. KAB, Troy, Ohio.

— General Contractors

Used in the talked-about buildings and the sought-after homes of today.

For the impressive new Mutual Benefit Life Building in Newark, N. J. . . . subject of favorable comment in the architectural press and national magazines . . . *galvanized steel pipe* was used for vent and drainage lines!

This 10 million dollar, white limestone and green glass insurance company home office building represents the best in contemporary architecture as well as construction techniques and materials.

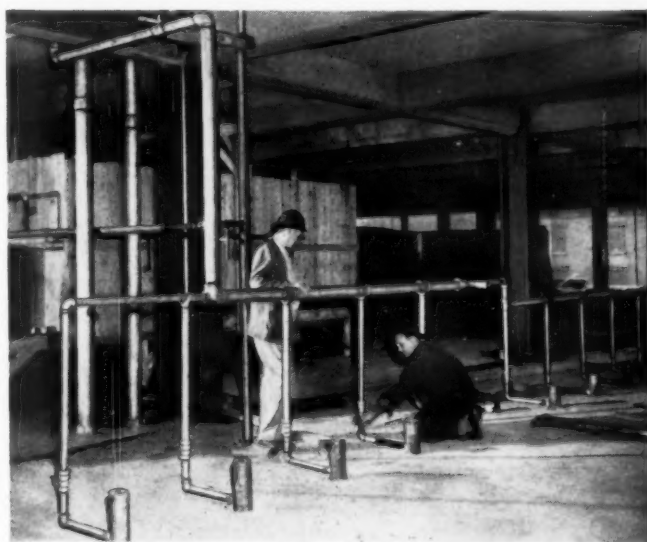

Again, *steel pipe* was first choice for the vital health lines of an ultra-modern structure because only *steel pipe* combines all the desirable factors of lowest material cost, unexcelled strength, acceptability in national plumbing codes, life expectancy equal to that of the building and is available everywhere through more than 6900 distributors.

For the same sound reasons, *galvanized steel pipe* that is used in today's most advanced multi-million dollar structures, is also the sensible selection for the vents and drainage lines of the nation's new homes.

Always specify *galvanized steel pipe* vent and drainage lines for greatest satisfaction.

Proof of the integrity of galvanized steel pipe for drainage and vent lines is illustrated by its selection for so many modern new buildings, as in this installation at the great New York Coliseum.

For another of the largest and newest office buildings in the country, galvanized steel pipe was selected for the vent lines in the impressive Socony Mobil Building in New York City.

Only Steel Pipe gives
all these advantages:

- Lowest cost with durability
- Strength unexcelled for safety
- Formable—bends readily
- Weldable—easily, strongly
- Threads smoothly, cleanly
- Sound joints, welded or coupled
- Grades, finishes for all purposes
- Available everywhere from stock

Sold by leading plumbing, tile, and hardware dealers everywhere.

32-minute installation — with new

In actual tests, The Eagles Company, Louisville builders, installed a G-E built-in oven and cooktop in less than 32 minutes. Reason: New G-E Built-in Ranges come from factory ready to install.

One-piece oven with one-piece front slides into 27-inch cabinet or wall opening. No knobs or trim to remove or replace . . . no assembly necessary. Comes from factory ready to install.

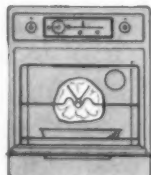

One-piece drop-in cooktop has built-in pushbutton controls . . . is easy to install. Drops into 29 13/16" x 20 7/16" opening . . . fits flush into countertop with accompanying sink-rim flange trim.

Tighten six thumb screws . . . connect one conduit . . . the job is done in minutes! Built-in oven and drop-in cooktop have been completely installed in as little as 32 minutes from cartons to finished job.

★ Plenty of features to talk about, too!

Electric Rotisserie in Custom and Deluxe models barbecues 12-pound roast. Plugs right into outlet in oven; separate pan catches drippings.

Electric Meat Thermometer . . . Standard equipment in Custom model . . . has easy-to-read dial; stainless steel meat probe plugs right into oven outlet.

Picture-window oven door in Custom model. Pushbutton-controlled floodlight illuminates interior. Available in satin chrome, 5 colors.

All models feature:

- Automatic Oven Timer and Minute-Minder
- Eye-level Control Panel
- Fully enclosed Calrod® bake and broil units
- Focused-heat Calrod broil unit
- Automatic Floodlight
- Built-in Oven Vents
- Starlight Grey porcelain interior
- Giant-size 21" oven with wide-opening platform door
- All in one standard size for easy installation
- Available in Mix-or-Match colors (yellow, pink, turquoise, brown) white, satin chrome.

No service headaches:

All equipment carries the General Electric warranty . . . backed by dependable General Electric service! Consult your local General Electric dealer or distributor . . . a representative will be glad to tell you about the

sales and service program especially designed to fit the needs of builders and kitchen modernization contractors. General Electric Company, Range Department, Louisville 1, Kentucky.

GENERAL  **ELECTRIC**

General Electric Built-in Range!

★ **New! Rotisserie, meat thermometer, picture-window oven!**

Custom oven with remote control cooktops in 2-unit and 4-unit sizes gives this kitchen true custom beauty, plus extra cooking convenience. Remote control conduit plugs into cook-

top...can be installed in any convenient location...in the cabinet or on the wall. *All* General Electric cooktops have fast-heating, fully-enclosed, dependable Calrod units.

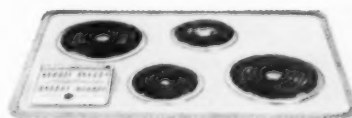

Deluxe oven available in five decorator colors or satin chrome. Features sturdy electric Rotisserie, simplified Automatic Oven Timer and Minute-Minder, Eye-level Control Panel. True deluxe beauty at a common-sense price.

Master oven available in 5 decorator colors or satin chrome. Same roomy 21-inch width as Custom and Deluxe ovens. Features Automatic Oven Timer and Minute-Minder; fully enclosed Calrod® heating units; economy price.

Colorful Folder gives you dimensions, complete installation directions. Send 10¢ for publication 3-147B. Address Range Dept., Bldg. 2, General Electric Company, Louisville 1, Ky.

Up-front pushbuttons on new drop-in cooktop give customer true push-button cooking convenience. Both of the 4-unit cooktops available in 5 colors plus satin chrome; 2-unit cooktop in stainless steel only.

Textolite Ideas

In this luxurious \$14,950 model, Long contrasts light cabinets and walls with warm woodgrain-pattern Textolite counters.

How John Long sold 1,800 homes in 1957:

**“Low prices . . . good design . . . lots of models
. . . colorful Textolite® counters in every kitchen!”**

Famous Arizona builder finds General Electric's easy-cleaning counter tops, in Mix-or-Match color styling, have tremendous appeal to women.

“Today's buyers expect plenty of value for their dollar,” says John F. Long, builder of the phenomenally successful Maryvale community near Phoenix. “And an attractive, convenient kitchen can often clinch the sale. That's why we install postformed Textolite on kitchen counters in all our homes.”

General Electric Textolite offers every builder important selling advantages: over 70 market-tested patterns and colors, including exclusive Mix-or-Match colors; stain and scratch resistance; easy cleaning; years of beauty and convenience.

See the full line of Textolite patterns in Sweet's Light Construction File, Catalog 7e/Ge. For recommendations on where Textolite can be of most value to you, see the dealer nearest you. (He's listed in the Yellow Pages under “Plastics.”) Or send description of surfacing problem to Laminated Products Dept., Section AB-84, General Electric Co., Coshocton, Ohio. You'll get professional help—fast.

Important selling feature of Long's \$10,995 “Saratoga” model is easy-to-clean, postformed Textolite surfacing in Mix-or-Match colors.

LAMINATED SURFACING
GENERAL  ELECTRIC

A "bosun" showed us where we were missing the boat

We were just wrapping up a Personnel-Relations meeting when the head of Marine Transportation spoke up. "A crewman aboard the *Melissa* wants to have U. S. Savings Bonds deducted from his pay. Can do?"

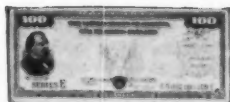

It was a significant question. If one employee didn't know he could buy Savings Bonds automatically through our Payroll Savings Plan, there were likely to be others. We planned a course of action.

And we did it the easy way.

We got in contact with our State Savings Bond Director. He suggested ideas for promoting the Payroll Savings Plan and provided the necessary materials—pay envelope stuffers, posters, leaflets . . . the works. And he made sure everyone received an application card.

Our employee participation rocketed. We never realized how many of our people wanted the security of U. S. Savings Bonds. The Payroll Savings Plan makes it so easy for them to salt a little away, and it's so simple to make it available.

Today there are more Payroll savers than ever before in peace time. Look your State Director up in the phone book or write: Savings Bonds Division, U. S. Treasury Dept., Washington, D. C.

Which is the best way to air condition your houses?

That depends on the kind of houses you build. But whether they are contemporary, ranch, split-level, Cape Cod or Colonial, your local Carrier dealer can show you how to air condition them most efficiently and at the lowest price. We suggest you discuss your house plans with him. He knows installation and he knows where costs can be cut without sacrificing performance. He handles every kind of air conditioning made so his only interest is to recommend what is best for you.

Besides expert technical service, your Carrier dealer can also offer you a bonus in the form of

tested merchandising support. You have your choice of everything from brochures to billboards plus the impact of the famous Weathermaker Home promotion package.

Remember, too, that Carrier is the best known name in air conditioning. It's a name that will look good on your own sales literature. Let a Carrier dealer show you what he can contribute to installation economy and to the value and sales appeal of your houses. You'll find his name listed in the Yellow Pages of your Telephone Directory. Call today. Carrier Corporation, Syracuse, New York.

1. If you want to offer the option of heating now and cooling later, the Carrier Winter Weathermaker, "the Furnace with a Future," fills the bill handsomely. Upflow, downflow and horizontal models. Input from 75,000 to 200,000 Btu. Gas or oil fired. At a later date, the Carrier Summer Weathermaker is easily added for cooling. Summer Weathermaker is shown here on top of an upflow furnace.

2. If you want to offer year-round air conditioning at a budget price, choose the revolutionary new Carrier Thermo-Center. Consists of a Carrier Winter Weathermaker (up or downflow) and plenum, located next to an exterior wall. Short duct connects plenum to outdoor cooling section. Costs hundreds of dollars less than conventional air conditioning systems. Installation is quick, easy.

3. If you want to offer the finest heat pump on the market, the Carrier Heat Pump Weathermaker has lowest first cost, lowest installation cost, lowest operating cost of any heat pump. Exclusive "Climate Balanced" design gives maximum efficiency over year-round temperature range. Two-piece construction permits easy, low-cost installation. Outdoor section eliminates need for ductwork to bring in air.

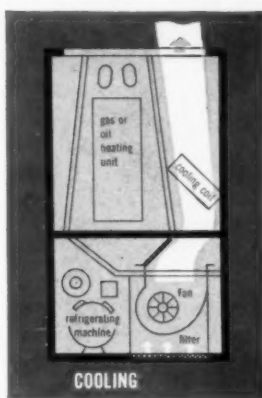

4. If you want the finest heating and cooling to be standard equipment in your new houses, choose the Year-round Weathermaker—it's the top of the Carrier line. It combines matching heating and cooling sections in one cabinet. Moving a single lever changes operation from heating to cooling. Famous Carrier refrigeration system carries 5-year warranty. Aluminized steel heat exchanger is guaranteed for 10 years. Special centrifugal fan is not only spring-mounted but is completely isolated from ductwork so fan sounds can't travel through the house. Year-round Weathermakers can be ordered with gas or oil fired heating, air or water cooled refrigeration. Heating capacities, gas: 105,000 to 140,000 Btu/hr, input; oil: 84,000 to 112,000 Btu/hr, output. Cooling capacities, air-cooled: 1.7 to 3.9 tons; water-cooled: 2 to 3 tons.

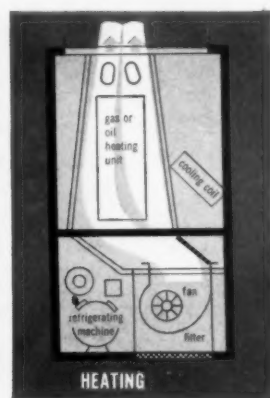

first name in air conditioning

Quiet Year-round Weathermaker can be installed in a utility room, takes little more space than an average furnace. Baked enamel finish is easy to keep clean. Full-size plenum mounts on unit when installed in a basement.

For summer cooling, a damper directs all the air from the fan through a large, sloping cooling coil which cools and dehumidifies it thoroughly.

For winter heating, air passes over heat exchanger only. Alternate air paths for heating and cooling lower air resistance, noise, save fan power.

Installed in Lake Isle Estates "Show House" near Scarsdale, N. Y.

Chosen for America's Finest Homes!

BERMICO®

The modern pipe for modern living.

In hundreds of today's smartest home developments all over the country, installation of Bermico pipe has solved house-to-sewer or house-to-septic-tank connections for keeps.

Economical, too! Fact is, you simply can't find a more efficient pipe for sewage disposal that costs so little installed.

This tough cellulose fibre pipe is impregnated through and through with coal tar pitch, making it waterproof and durable.

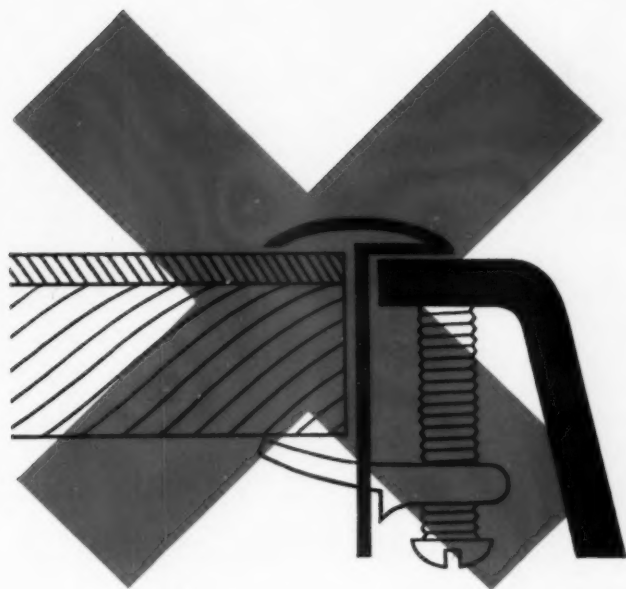

Bermico is light in weight and comes in convenient 8-foot lengths . . . fast and easy to lay. A few hammer taps seal joints tight, assure lasting protection against root penetration. It is unaffected by acids and alkalis usually found in the soil and won't crack under soil settlement.

For years of dependable, trouble-free service use or specify *Bermico® Sewer Pipe* for house-to-septic-tank and sewer connections, storm drains, downspout run-offs—*Bermiseptic® Perforated Pipe* for septic tank disposal beds—and *Bermidrain®* for foundation drainage.

Send for free copies of our new 50¢ booklets for home owners—"How and Where to Install a Septic Tank System" and "What Every Homeowner Should Know About Foundation Drainage." Address Dept. HB4, our Boston office.

Redi-Rim

eliminates dirt-catching crevices!

Builders and homemakers at the 1958 National Builders Show were quick to praise Lyoncraft's exclusive Redi-Rim Sink design. Now, separate rim installations are completely outmoded! Dirt- and water-catching crevices are eliminated because rim and sink are one integral unit! The Redi-Rim chrome-nickel stainless sink drops into the counter top instead of fastening below . . . being self-supporting it assures a tighter seal than was possible with

lightweight, flimsy rims of old-fashioned designs. Other Lyoncraft "plus" features: the recessed ledge, overflow-preventing center partition, non-splash sidewall design.

Learn more about the Lyoncraft Redi-Rim Sink—and the revolutionary new Dispo-Well* Sink. Fill in the coupon below and mail today for a free color catalogue with full details and specifications.

WESTINGHOUSE
BRINGS YOU THE BIGGEST
BUILT-IN OVEN—WITH THE
SHAPE OF TOMORROW
FOR THE HOMES YOU'RE BUILDING TODAY!

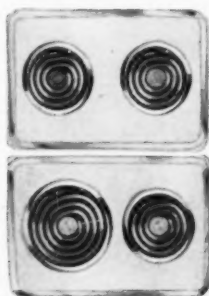

This Westinghouse Deluxe Oven has a full twenty-four inches of *interior width*. That makes it the biggest built-in oven you can get from a major manufacturer of electric appliances. The Westinghouse Deluxe is indeed the big oven that sells the kitchen that sells the home. (Rough-In Dimensions: 30 $\frac{3}{4}$ " W x 25" H x 21 $\frac{1}{2}$ " D.)

With the Deluxe Oven and Deluxe 4-Unit Platform shown at left, you'll have a wealth of convincing sales points. You can tell prospects about the Miracle-Sealed Oven, show the Drop-Down Door which serves as a loading shelf, and the controls below oven . . . out of the heat zone. Then demonstrate the exclusive Plug-Out Units on the platform; they lift out (completely) for easy cleaning.

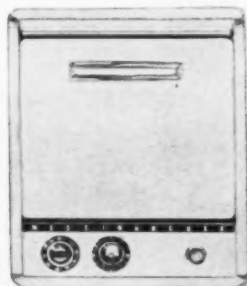

And of course your prospects will know about the Westinghouse SHAPE OF TOMORROW, the new custom look in all Westinghouse appliances.

Westinghouse Built-In Ovens are available in a wide range of Confection Colors, plus brushed chrome and antique copper. You can choose exactly the oven you need, the color you want, and the range platform that suits your kitchens best.

You'll want to take advantage of the powerful merchandising aids that are yours for the asking from your Westinghouse Distributor. Call him right away or write to the Westinghouse Electric Corp., Contract Sales Dept., Major Appliance Division, Mansfield, Ohio.

WESTINGHOUSE 2-UNIT PLATFORMS can solve space problems . . . also permit unique kitchen designs. Available with two 6", or one 6" and one 8" Corox® units. Both models have remote controls, come in Confection Colors, plus Stainless Steel. (Rough-In Dimensions for both: 13 $\frac{3}{4}$ " W x 20 $\frac{3}{4}$ " H x 7 $\frac{3}{4}$ " D.)

WESTINGHOUSE ECONOMY 17" OVEN is a completely automatic built-in oven designed for minimum space requirements. (Rough-In Dimensions: 21 $\frac{1}{2}$ " W x 26 $\frac{1}{4}$ " H x 23" D.) It has same Miracle-Sealed Oven, Single Dial Oven Control and color availability as deluxe model shown at left.

WESTINGHOUSE ELECTRONIC RANGE is the latest development in built-in ovens. Its Microwave cooking means food is ready in seconds and minutes instead of hours. Foods are cooked in same utensils they're served in. Here's a new way to build model home traffic. (Rough-In Dimensions: 21 $\frac{3}{4}$ " W x 25 $\frac{1}{4}$ " H x 24" D.)

NEW SALES APPEAL... NEW PLANNING FREEDOM

Perfection's Regulaire® "Home Conditioner" heats, cools... fits any living area

backed by
Perfection's
powerful

**LOCAL
SALES
PUNCH**

Full page color ads in Sunday Newspaper Supplements will tell your clients and customers about Perfection Regulaire and how it will modernize any home—even to adding a room. Ask your Perfection Wholesaler for full details.

Here's a new concept in home comfort... a year 'round heating-cooling unit so *attractive, compact and efficient*—fits into any living area.

Perfection's new Regulaire "Home Conditioner" is the first unit *styled* for living areas. You can install it anywhere... basement, recreation room, utility room, hallway, even a living room. Think of the planning freedom this gives you! Consider the sales appeal it can add to the homes you build!

Five sizes—from 100,000 to 200,000 BTU input. Regulaire... Perfection's exclusive automatic brain... guarantees an end to cold, drafty floors... keeps air in con-

stant circulation... keeps warm air from rising to the ceiling. Automatically *controls room temperatures to within 2 degrees.*

And 3-Stage Fire gives moderate fire for mild weather, high fire for cold... provides real heating economy, an important selling point to your prospects.

Whether you want gas or oil fired heating, with or without cooling, Perfection has the model, including the revolutionary NEW HEAT PUMP, that will help sell the homes you plan and build. See the Perfection Distributor in your city for full information or write Perfection Industries, Cleveland 10, O.

The homes you
heat and cool
deserve

Perfection DIVISION OF HUPP Corporation

Guaranteed Comfort Since 1888

Suddenly

perfect comfort becomes

PERFECT AIR CONDITIONING—The cleanest, freshest air ever known, perfectly cooled throughout all living areas, with a special blower speed to meet demands of high day-time temperatures and heavy sun exposure. Unit capacities from two to 10 tons.

PERFECT HEATING—Ideal warmth in winter, with an exclusive "accordion-type" heat exchanger that wrings maximum heat out of fuel, and a special blower speed for heating. The Landmark heats efficiently with gas, oil, electricity or heat pump.

PERFECT AIR HANDLING—A big, two-speed blower, cushioned on live rubber in a sound-conditioned chamber, quietly "floats" large volumes of air through the home. Over-size Hammock Filter does a vastly better job of cleaning the air.

a powerful selling point for you!

Ready now—the first true all-year comfort system:

LANDMARK* by LENNOX

Separate "blocks of comfort" offer heating and air conditioning *made-to-measure* to your homes . . . with big savings on installation . . . dramatic sales appeal to prospects!

You know it's different the moment you set eyes upon it! For here is not the usual pre-packaged furnace with cooling added. Instead, the Landmark consists of *separate* comfort components—*blocks of comfort*.

Why separate? That's so your Lennox Comfort Craftsman can select the *one* right heating unit, cooling unit, air handling unit best suited to the needs of your climate and of each home you build. Now, for the first time, you can offer prospects year-round comfort that's precisely *made-to-measure* for each home and for the personal needs of each family.

Super-quiet, trouble-free!

This remarkable comfort system functions so *effortlessly*, you hardly know it's operating. There are no sudden "ticks" or thumps; no "popcorn" noises; no vibrations or annoying air surges. Fuel bills are lower, for air travels in "slow motion" to pick up *all* the cooling it can hold (or all the heat in winter), as it passes through the Landmark.

The superb efficiency of these specially-designed components keeps the Landmark operating trouble-free, and treats your customers to the cleanest, most comfortable, most healthful indoor air ever known to man! And these easy-to-handle *blocks of comfort* save you as much as three hours of installation time!

For information, see your Lennox Comfort Craftsman, Sweet's, or write Lennox Industries Inc., Dept. AB-84, Marshalltown, Iowa.

A SOUND PLAN FOR SELLING HOMES
Prepared by experts, it gives you the merchandising help you need in these competitive times—saves you time, trouble and money. It's available from Lennox, NOW!

320 "Medallion" Homes

Indiana builder cashing in
on merchandising power of new
Live Better Electrically Medallion Home Program
... typical of builders all over the country.

BUILDER HARRY SWANSON

Each of the 320 homes in Harry Swanson's South Bend subdivision, "Swanson Highlands," will be awarded the Live Better Electrically Medallion—the new hallmark of elec-

trical excellence in home building. The Medallion is being promoted both nationally and locally by electric utilities, leading manufacturers and distributors to help builders profit from the growing consumer demand for better electrical living. Swanson's homes—in six models priced from \$23,000 to \$28,000—feature all the latest in electrical appliances and equipment.

"Houses of the latest electrical design sell faster," says Swanson, "and the merchandis-

ing opportunities of the Medallion Home are a bonanza to the builder." Swanson is working closely in his promotions with Indiana & Michigan Electric Company, and will launch a full-scale sales campaign this March. The

Live Better Electrically Medallion Home certificate awarded to Harry Swanson by J. Benson Hall and Harold West of Indiana & Michigan Elec. Co.

**CONTACT YOUR LOCAL ELECTRIC UTILITY
YOU CAN TAKE ADVANTAGE OF THE LIVE BETTER**

Going Up in South Bend

utility will run their own newspaper ads featuring Medallion Home living. Swanson will run newspaper ads and use radio spots over three stations.

Whether you build 6 or 600 homes a year, you can benefit from the sales power of the Live Better Electrically Medallion Home Program. The entire electrical industry will back you up. In addition to powerful utility support, you'll get promotional help from leading manufacturers whose products you feature—Frigidaire, General Electric, Hotpoint, Kelvinator, Philco, Westinghouse and Whirlpool.

Live Better Electrically Medallion is installed on new home as builder Swanson looks on.

Medallion homes now under construction at the "Swanson Highlands" subdivision. Every home has its own sign featuring electrical living.

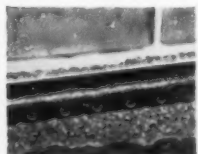

Utility's home economist, Patricia Altenberg, demonstrates built-in electric oven to new owner of Live Better Electrically Medallion home.

the
holes
do the
job!

Keep cellars dry . . . drain wet spots . . .
make septic tank filter beds work better

The scientific design of Orangeburg Brand Perforated Pipe . . . with two rows of $\frac{3}{8}$ " holes, on 3" centers, 100 degrees apart . . . increases drainage capacity . . . creates uniform seepage . . . Unique Snap Couplings maintain positive alignment . . . prevent silting . . . Lightweight 8-foot lengths *grade easily, install easily*, save time and cut cost. Orangeburg Perforated comes in 4" size . . . it is the ideal pipe for foundation drains, septic tank disposal fields, land drainage.

Orangeburg Perforated Pipe keeps cellars dry. Makes efficient, long lasting foundation footing drains.

Unique Snap Coupling maintains alignment, gives permanent joint cover, permits seepage at joint.

For house sewers, run-offs from downspouts and other tight-joint drainage lines use Orangeburg Brand Root-Proof Pipe.

Make sure you get *genuine* Orangeburg. Look for the Brand Name on Pipe and Fittings. For more facts write Dept. AB-48.

R&M-HUNTER

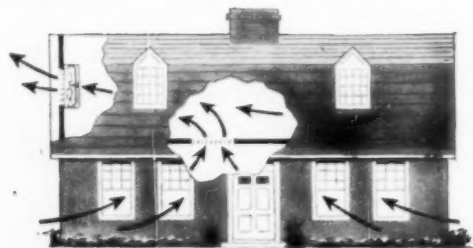

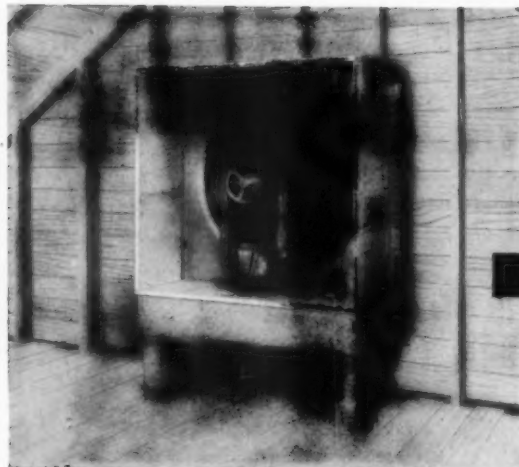

HOME VENTILATING FANS

for cool comfort at low cost

CEILING INSTALLATION

Package Attic Fan (BV-Type) rests on attic floor or joists over a pre-framed opening. Automatic or motorized shutter fastens to ceiling with flanges covering raw edges . . . no decorating problem. Wiring is simply a matter of connecting to power supply and installing control switch. Buyers recognize the brand name R&M-Hunter as top quality.

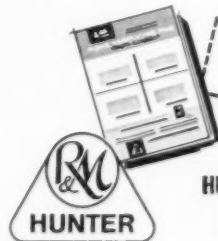

WALL INSTALLATIONS

R&M-Hunter's A-Type Fan is suitable for gable, sidewall, suction box, stairwell and basement installations. Shipping case serves as a prefabricated mounting plenum. This versatile fan is designed for vertical or horizontal discharge. Either automatic or motorized wall shutters can be used.

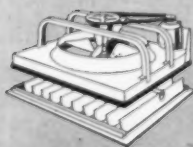

R & M - HUNTER FEATURES

- Two speed motors optional on 24", 30" and 36" sizes
 - Certified air deliveries from 5100 to 16000 cfm
 - Sound-tested ball bearings on frame and motor
 - Heavy-duty motor, rubber mounted
 - Built-in thermal overload protection
- Fan guaranteed 5 years; motor and shutter, 1 year

TWO IMPORTANT REASONS WHY

ELJER TOILETS WILL HELP YOU SELL HOMES

◀ Integral China Overflow

Made of real vitreous china...an integral part of the tank itself...this Eljer feature eliminates metal parts that rust and corrode. It's an exclusive Eljer feature!

◀ Ground-in Valve Seat

This, too, is real china, built right into the tank. It, too, will last the life of the toilet.

Integral china overflow and ground-in valve seat are only two of many Eljer features that provide **extra** fine quality at no extra cost. That's why there is no maintenance expense for your customer, no service expense for you.

These are features, too, that you will find in every Eljer toilet for the home, from the deluxe models to the least expensive. That's why it will pay you to install Eljer . . . the only name you need to know in plumbing fixtures.

For the full story of these two important, exclusive Eljer features and other Eljer quality construction details, write Eljer Division, The Murray Corporation of America, 3 Gateway Center, Pittsburgh 22, Pa.

E-A-S-Y DOES IT!

Rodale

Sets The Face In Modern, Push-Button Living With The

E-A-S-Y ACTION

"B" Touchette®

No knob to turn. No toggle to flip. Now, there's a switch designed for today's push-button living. It's "B" Touchette, the touch switch with feather-light operation.

Consider, too, Touchette's tremendous merchandising potential for your convenience-minded buying public. There's no time wasted freeing the hands... no spilling or breakage while juggling trays or groceries. And "B" Touchette is easy to install... needs no special wiring... fits standard outlet boxes and toggle wall plates. It operates on full line voltage, withstands motor loads up to 80% of rated capacity. Rated: 15A-120-277V (A.C. only).

All these features... and "B" Touchette is the least expensive touch switch on the market!

Put *Broan* Range Hoods in your kitchen picture

Premium in Everything - but price

If you'd like solid ammunition to outsell your competition, if you're interested in easy, fast-running installations to hold down cost, if you're concerned about the right price in making a bid — take a look at the great advantages Broan hoods provide:

- a fresh new look in styling . . . with contour corners that allow adjacent cabinet doors to open fully
- removable, reversible top plate with rectangular and circular knockouts — a Broan origination — to save time and work in installation
- heliarc welded seams eliminate trim strips that collect grease
- push-button controls — out-in-front and eye-high — factory installed and wired
- concealed counter lighting; no shadows, no glare
- adaptable to 3 exhaust systems — a great performing twin blower, a 10" ceiling fan or an 8" ceiling fan

All of these plus values come your way without any premium in price. So check into Broan as hundreds of alert contractors already have. Write today for the name of the distributor in your area and for a fully illustrated specification bulletin.

New GENERAL ELECTRIC

Custom OIL FURNACE

A Mighty Mite for Builders

ONLY 55 INCHES HIGH!

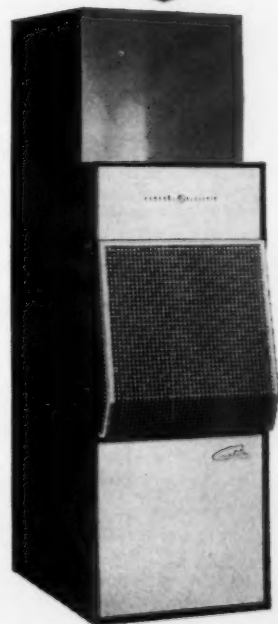

Every model of the new General Electric Custom Oil Furnace line is only 55" high regardless of BTU output—it's the lowest hi-boy line on the market. And the smallest unit occupies only 28" x 22" floor space. Can be tucked away neatly in otherwise unusable space. Capacities from 84,000 to 112,000 BTU output.

COMPLETELY FACTORY ASSEMBLED

And this means every unit has been fire-tested at the factory—a big advantage over "field-assembled" furnaces.

"GROWS" INTO YEAR 'ROUND AIR CONDITIONING

Entire line designed with cooling in mind. Coil enclosure fits neatly atop furnace—integrates beautifully as a compact year 'round air conditioning unit.

A DREAM FURNACE THAT ADDS QUALITY TO YOUR HOMES

Smart as any kitchen appliance. Priced competitively with ordinary furnaces. Heat exchanger carries General Electric's 10-year warranty. Meets all F.H.A. requirements, plus compliance with Commercial Standard CS195-57. For full information, contact your General Electric Home Heating and Cooling dealer—in the yellow pages of your phone book. General Electric Company, Home Heating and Cooling Department, Tyler, Texas.

Progress Is Our Most Important Product

when homes are heated with

THRUSH

Radiant Hot Water!

WHAT DO buyers want in a home? They realize that comfort depends on heating. They also know radiant hot water heat is the most modern and dependable heating today . . . cleaner, quieter, milder, more uniform, and more economical in fuel consumption. That's why hot water heated homes are easier to sell.

Thrush Radiant Hot Water Heat is ideal for split-level homes. It's easy to zone and low in installation cost because forced circulation permits smaller pipes, valves and fittings. It's a real sales feature.

**CARLTON
STAINLESS STEEL SINKS**

for
Everlasting Beauty
plus
Built-in Efficiency

The home-owners first choice

Standard equipment for hundreds of modern homes and remodeled kitchens. Available in 4 sizes and designs. Carlton's exclusive sparkle finish.

The new, exclusive Vegi-Prep design

Very much in demand by the woman who likes to do her kitchen chores while seated. Shallow bowl is for paring and rinsing fruit and vegetables.

Good neighbor to your dishwasher

A ledge type single compartment design frequently installed next to the automatic dishwasher, or in kitchens where sink top space is limited.

Newly designed for laboratories, schools

One of many new Carlton combination ledge type and drinking fountain sinks. Installation of bubbler puts drinking fountain right in the schoolroom.

For hotels, restaurants, schools, hospitals

One of several triple compartment designs used where health regulations require an extra bowl for sterilizing.

For boats, corners, powder rooms

A lavatory bowl idea that adapts perfectly for use in mobile homes, boats, any place where sink space is very limited.

"We give this seal to no one—the product that has it—earns it."

Carlton advertising in dozens of consumer magazines is creating an ever-increasing nation-wide demand for these fine Carlton Sinks. Carlton's many exclusive features, including its exclusive sparkle finish, are making more and more people realize that simply specifying a stainless steel sink is not enough—since it doesn't cost any more to specify Carlton . . . Write for our New Illustrated Catalog No. 286, and the name of our nearest distributor . . . CARROLLTON MFG. CO., (Sink Division), Carrollton, Ohio.

BUILDERS—this lady says

"My Inter-Call Saves Me a MILE OF STEPS EVERY WEEK!"

An **INTER-CALL** homemaker estimates she saves *over 1700 steps a week*, thanks to **INTER-CALL!** She monitors her nursery, front door and two bedrooms — all from her kitchen or any room in the house. And **INTER-CALL** gives her radio programs at the same time. Here's why **INTER-CALL** belongs in your Homes. You offer your prospects:

1. Two-way voice intercommunication, and listen to radio at same time
2. Slide button selection of remote stations
3. Remote stations can call master
4. Remote stations can call other remotes
5. Turned off remotes can still call the master.
6. Monitor nursery
7. Master and five speakers at budget prices
8. Answer the Front Door
9. AM radio programs and music
10. Phone jack for record player
11. Appliance outlet
12. Smart Copper or Gold styling

Recessed Clocks

Today your homes need that **FINISHED** and **PERSONAL** touch. Excellent for kitchen soffits, bathrooms, frontrooms, dens, offices, etc. Available from 6" to 36" in satin brass, copper, chrome and black finishes. Indoor and outdoor installations priced surprisingly low! Send today for complete literature.

AMERICAN BUILDER

LOW COST ZONING

with Forced Hot Water Heating

B&G
Hydro-Flo
 System offers
 the only practical way
 to zone-control the
 heating of both conventional and split-level houses

B&G BOOSTER
 ...key unit of the B&G
 Hydro-Flo System

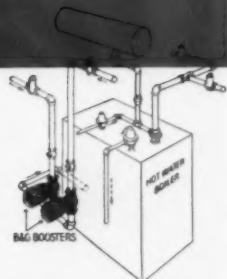

Engineered for compactness, silent operation and years of service, this electric pump circulates boiler water for heating the house. It is built with precision manufacturing methods which translate good design into superior product... permit mass production with custom-built quality.

The B&G Booster has a solid reputation for quiet, dependable and long-lived operation. That's why over two million units have been sold to date!

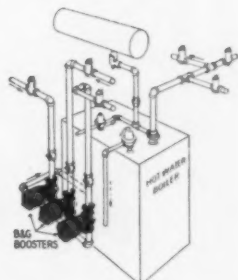

The growing popularity of split-level homes and their need for zoned heating gives added value to the easy zoning characteristics of the B&G Hydro-Flo Forced Hot Water System. Only a minimum of simple, dependable equipment is required.

The tri-level house illustrated above is heated with a baseboard system which can be optionally installed in one, two or three zones. For one or two zones, the basic piping plan is not changed—the three zone system requires a short additional piping circuit.

A two-zone effect can be achieved, if desired, with only one pump. The balancing valves installed in the return lines from the two piping circuits can be adjusted to maintain either a uniform temperature throughout the house or to provide different temperatures in the living-dining-kitchen area and in the bedroom-recreation-garage area.

Two zone system
 By introducing a second pump, completely automatic temperature control in two zones is effected. Each zone pump is controlled by a thermostat which permits the occupants to vary the temperature in the respective zones as desired. The piping differs from a one zone system only in the return connections to the boiler.

Three zone installation
 With three B&G Booster Pumps installed, each level of this tri-level home is under individual thermostatic control, permitting three different temperatures in the same house. The economy in fuel and the added comfort is obvious when it is considered that each section of the house can be warmed to a degree consistent with its functions.

FASCO

POWER RANGE HOODS
with the

**Slim Trim
LOOK**

TYPICAL INSTALLATION

Quick and easy to install . . . sleek design . . . performance perfect

Yes, the Fasco power range hood was the hit of the National Builders Show in Chicago! Why? Because it gives both the builder and the home owner so *much* more. Designed to fit today's trim modern trend this new Fasco power range hood with built-in light, easy-to-clean filter and quiet, powerful turbo-impeller is completely pre-wired—ready to install in minutes. And since time is money, it will pay you to specify and use Fasco Power Range Hoods.

In lustrous copper or gleaming white finish, plus sparkling stainless steel, it fits any kitchen decorative scheme. Matching splash plates also available.

Fasco has a complete line of Slim Trim power range hoods and Fasco ventilators that will add new sales appeal and extra value to your homes. For complete information on the Fasco line for builders fill in the margin below.

BRYANT LEADS THE WAY WITH NEW

ROBO-trol

HEATING

© 1958, B. M. C.

Colorful Consumer Ads!

We're sparing no expense to tell home owners about ROBO-trol! Typical of the persuasive consumer advertising is a two-page spread in full color in THE SATURDAY EVENING POST, to be read by millions of the very best potential customers.

A Complete Dealer Kit!

We're going all out to help Bryant dealers achieve their greatest sales-and-profit-making year. Every certified Bryant dealer will receive this kit containing newspaper mats, radio commercials, direct mail and hand-out literature, with complete instructions for their most advantageous use! Ask your Bryant distributor about the Bryant Certified "Doctor of Heating" Program.

This new Bryant electronically controlled heating system is sensational from every angle . . . and we're making certain that Bryant dealers will cash in on it. Powerful Bryant consumer advertising will acquaint the public with the amazing new advantages of ROBO-trol . . . and Bryant dealers will have the sales helps and promotional material to take full advantage of it! ROBO-trol provides Bryant dealers with the greatest sales-winner since 1907, when Bryant produced the *first* successful automatic gas heating system in the world. For complete information, write us today.

4500	39.11	..	15	28	45	70	115	170
5000	43.46	25	40	65	105	160
6000	52.14	20	35	55	85	135
7000	60.83	28	45	75	115
8000	69.52	25	40	65	100
9000	78.22	35	55	90
10000	86.91	30	50	80

*Above figures represent a one-way distance in feet for a 2 wire run. If a 4% voltage drop is permissible, double the distance listed.

If only 1% voltage drop is allowable, divide the distance listed by 2.

SINGLE PHASE 115 Volt A.C. — Use 115 Volt table above.

SINGLE PHASE 115/230 Volt A.C., 3 Wire — Use 115 Volt table above for each 115 Volt circuit.

SINGLE PHASE 230 Volt A.C. — In table above, use Watts column, multiply distances by 4, or use Amperes column, multiply distances by 2.

SINGLE PHASE 440 Volt circuit — In table above, use Watts column, multiply distances by 16, or use Amperes column, multiply distances by 4.

115 Volt D.C. — Use 115 Volt table above.

230 Volt D.C. — In table above, use Watts column, multiply distances by 4, or use Amperes column, multiply distances by 2.

THREE PHASE SYSTEMS

1. Three phase 230 volt circuit.—Multiply the distances in the 115 volt table No. 6A by 2^{1/4} for the same load. Use the Amps column.

2. Three phase 440 volt circuit.—Multiply the distances in the 115 volt table No. 6A by 4^{1/2} for the same load. Use the Amps column.

3. Single phase 120 volt circuit.—Use the distances in the 115 volt table No. 6A. Use the Amps column.

TYPICAL RUNNING CURRENT REQUIREMENTS OF MOTORS

120 ft.....	275	245	240	240

The tables shown on this page have been adopted as minimum capacity standards by the Contractors Pump Bureau of The Associated General Contractors of America, Inc., and set forth the performance requirements under average job conditions.

PULLEYS & "V" BELTS

SELECTING PULLEY SIZES AND SPEED RATIOS

$$\frac{\text{MACHINE RPM} \times \text{MACHINE PULLEY DIAM.}}{\text{MOTOR PULLEY DIAM.}} = \text{MOTOR RPM}$$

Example: To find the RPM of the Motor when the following facts are known:

Machine RPM.....	3,500
Machine Pulley Diameter.....	3 inches
Motor Pulley Diameter.....	6 inches

$$\frac{3,500 \times 3}{6} = 1,750 \text{ RPM — Motor Speed}$$

$$\frac{\text{MOTOR RPM} \times \text{MOTOR PULLEY DIAM.}}{\text{MACHINE PULLEY DIAM.}} = \text{MACHINE RPM}$$

Example: To find the RPM of the Machine when the following facts are known:

Motor RPM.....	1,750
Motor Pulley Diameter.....	6 inches
Machine Pulley Diameter.....	2 inches

$$\frac{1,750 \times 6}{2} = 5,250 \text{ RPM — Machine Speed}$$

$$\frac{\text{MACHINE RPM} \times \text{MACHINE PULLEY DIAM.}}{\text{MOTOR RPM}} = \text{MOTOR PULLEY DIAM.}$$

Example: To find Motor Pulley Diameter when the following facts are known:

Machine RPM.....	3,500
Machine Pulley Diameter.....	2 inches
Motor RPM.....	1,750

$$\frac{3,500 \times 2}{1,750} = 4 \text{ inches — Diameter of Motor Pulley.}$$

$$\frac{\text{MOTOR RPM} \times \text{MOTOR PULLEY DIAM.}}{\text{MACHINE RPM}} = \text{MACHINE PULLEY DIAM.}$$

Example: To find Machine Pulley Diameter when the following facts are known:

Motor RPM.....	1,750
Motor Pulley Diameter.....	2 inches
Machine RPM.....	600

Using the above formula:

$$\frac{1,750 \times 2}{600} = 5.8 \text{ inches — Diameter of Machine Pulley}$$

"V" BELTS

GENERAL SUGGESTIONS

1. For most efficient drive design to operate with a belt speed of less than 5,000 feet per minute.
2. Allow 1/4" minimum take-up for stretch, and 1/4" additional for each 20" of belt length.
3. Allow a minus adjustment for easy belt installation.
4. Avoid having belts too tight. This will overload the bearings and stretch the belt. Proper tension can be gaged by pressing belt together at mid-point between pulleys. The movement of the belt should be about 1/2" to 1".
5. A reduction of only 10% in tension will increase belt life up to 60%.
6. Increasing the diameters of the pulleys increases the belt life.
7. Pulleys should be in line. Misaligned pulleys wear the sides of the belt and place undue strain on bearings and motor.

BELT DESIGNATION STANDARDS

Now belt numbers, now standard with most manufacturers are based on the top width dimension and the outside circumference of the belt.

Belt designations are given thus:

Width of top of belt in 8ths of an inch.

Belt length in inches.

Example: a belt 3/4 inch wide with a circumference of 44 inches would read:

Width of top (6/8) or 6L
Circumference 44" or 440
Belt designation: 6L 440

BELT SPEEDS

To find the speeds in feet per minute of belt travel the following formula is used:

$$\text{RPM} \times D \times 0.262 = \text{fpm}$$

or

$$\text{RPM} \times d \times 0.262 = \text{fpm}$$

Note: RPM = revolutions of pulley used in formula

D = Diameter of largest pulley

d = Diameter of smallest pulley

BELT LENGTH REQUIREMENTS

The following symbols are used in these formulas:

- D = Outside diameter of larger pulley in inches
- d = Outside diameter of smaller pulley in inches
- C = Distance between centers of pulleys

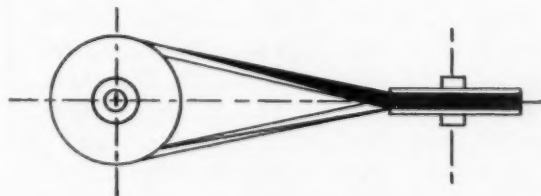

To find the length of belt required when both pulleys are the same diameter:

$$\text{Formula: } \frac{2D \times 3.15}{2} + 2C = \text{Belt length required}$$

To find the length of belt required when pulleys are unequal diameter:

$$\text{Formula: } 2C + 1.57(d + D) + \frac{(D - d)^2}{4C} = \text{Belt Length}$$

QUARTER TURN DRIVES

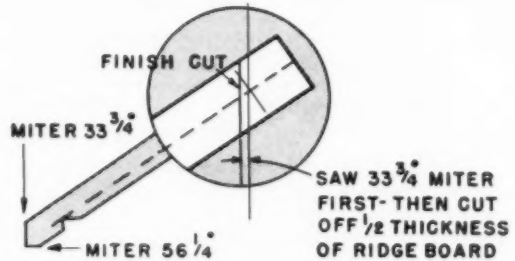

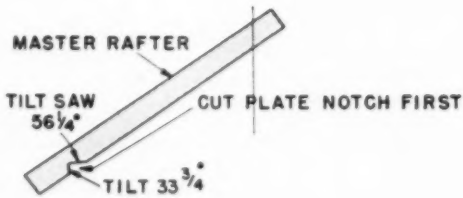

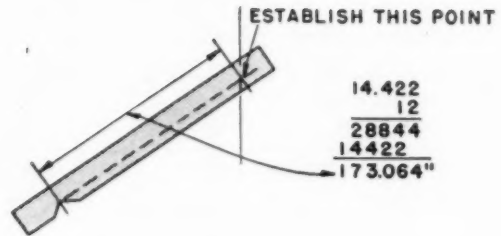

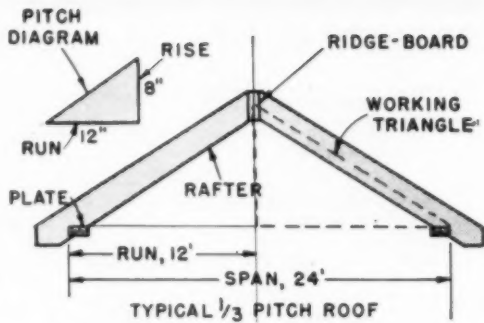

This type of drive is used where it is necessary to have the motor and driven pulleys at right angles to each other. The design is basically the same as a standard drive with the following exceptions:

1. The center distance should be about six times the diameter of the largest pulley to insure maximum belt life.
2. When the speed ratio exceeds 2 1/2 to 1 it is usually more practical to incorporate a reduction drive to the 1/4 turn drive to reduce its ratio to about 1 to 1.

NOTES: All saws listed operate on A.C. or D.C. current. Where voltage is given as 115/230 it indicates saw is available for either. Retail prices with an asterisk (*) indicates carrying case is included. All others priced without case.

10:05 A.M. The test begins. Making a variety of cuts, the Black & Decker Saw will get rugged, continuous on-and-off use in 2" lumber.

4:00 A.M. It's 18 hours since the test began. The Black & Decker Saw has used 10 blades and has cut over 4,000 feet of lumber so far. Technicians will spell each other to keep up the steady pace.

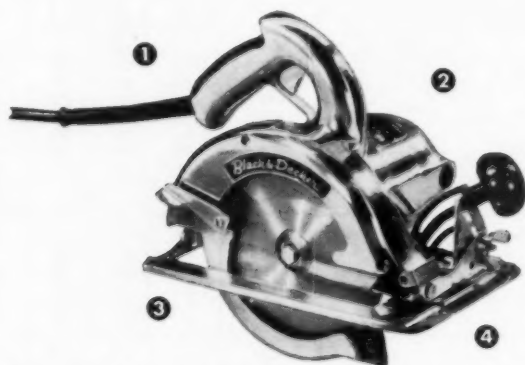

8:30 A.M. Over twenty-two hours of work and a third shift of technicians. The B&D Saw is as fresh as a daisy although it has used 13 blades to this point.

7-DAY TORTURE TEST PROVES B&D SAW TOO TOUGH TO BEAT!

How would you get an unbiased check on your saw's performance? Black & Decker called in United States Testing Company, Inc., Hoboken, N. J., and told them to give their saw a torture test!

Hour after hour, day and night . . . for one full week — a Black & Decker Saw was tested continuously. The saw made angle cuts, rip cuts, cross cuts and other cuts typical of normal operation. Every part was subjected to more wear and tear than most saws ever get in a lifetime of use.

And the saw stood up! After seven days and nights, the motor, switch, gears and every other part of the saw itself were found to be in perfect condition. And this was after the equivalent of cutting $7\frac{1}{2}$ miles of 2" lumber with no let-up, no chance to cool off! Here is proof of Black & Decker quality . . . why we say Black & Decker Saws are tough enough for any job — and the *builder's best buy!* THE BLACK & DECKER MFG. Co., Dept. H-104, Towson 4, Md.

1. EASIER HANDLING—Lightness and balance, easy adjustments, safety features give better control in the wood.

2. MORE POWER—Cool running B&D-built motor is custom engineered for abundant power on tough sawing jobs.

3. PROVED RUGGEDNESS—Your Black & Decker Saw is built to last for years of dependable sawing. Unsurpassed B&D quality!

4. BETTER VISIBILITY—Exclusive picture-window view insures line-of-cut accuracy.

Test continues through the night: After twenty-four hours of on-the-job service, the saw was still in top operating condition. It was then put on laboratory testing machine to continue this grueling ordeal for another 6 days and nights. Entire experiment was under impartial supervision of the United States Testing Company, Inc.,* a leading independent laboratory. *Report No. 37135, Nov. 27, 1957

American business buys more

New Ford 139-hp Six.
Now with up to 10%
greater fuel economy.

**New Ford 292-cu. in.
V-8 with 186 hp.** Bigger
cubic inch displacement
for greater pep and power.

Whatever your business . . . there's a Ford truck for your special needs

Official registrations for 1957 show that American business buys more Ford trucks than any other make. There are many reasons for this popularity.

To begin with, Ford offers a complete line of over 360 truck models, ranging from pickups to mighty Extra Heavy Duty tandems. And there are dependable Ford Dealers almost everywhere, ready to help you select the truck best suited for your individual job. They're ready with modern service facilities, trained mechanics and low-priced Ford parts to keep your trucks on the job, earning for you.

Ford trucks are your best buy, too! Ford's initial costs are *low* and resale value is traditionally *high*. Only Ford offers the economy of Short Stroke power in all engines, Six or V-8. And rugged chassis design means these new '58s are built to last. All this plus the proven fact that Ford trucks last longer adds up to America's No. 1 truck value.

See your local Ford Dealer right away for the latest in '58 trucks or the best in A-1 used trucks.

FORD TRUCKS than any other make!

Ford's F-250 Styleside pickup is well suited for fast, economical bulky-load delivery. Over 70-cu. ft. capacity; 7400-lb GVW. Choice of V-8 or Six.

F-600 with van body is standout performer for straight truck service. No other two-tonner is so well built for proven longer life.

P-350 Parcel Delivery chassis with 104- and 122-in. wheelbases for 7- to 11½-ft. bodies with maximum load-space in stop-and-go service.

FORD TRUCKS COST LESS

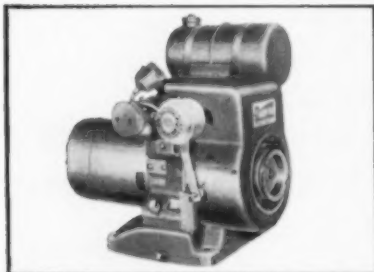

... LESS TO OWN
... LESS TO RUN
... LAST LONGER, TOO!

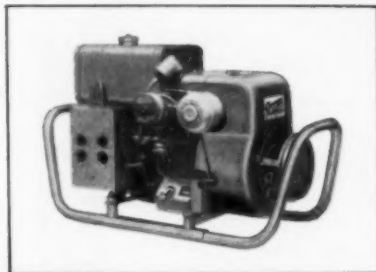

ELECTRIC PLANTS

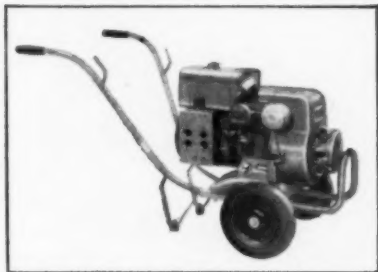

500 to 75,000 WATTS

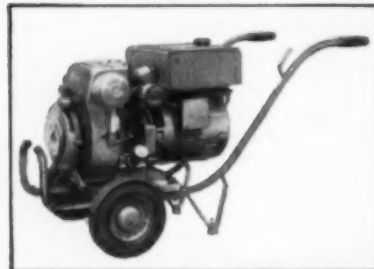

AK SERIES—500, 750 and 1,500 watts, A.C. 115 and 230-volt models. One-cylinder air-cooled, 4-cycle gasoline engine. Available with recoil starter, carrying frame, 2-wheel dolly, plug-in receptacles.

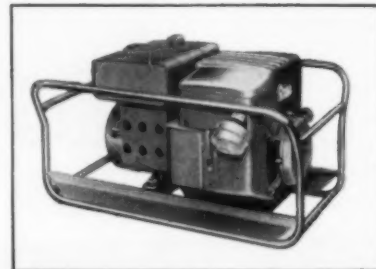

AJ SERIES—(Shown with carrying frame) 1,000 and 2,500 watts A.C. 115 and 230-volt models. One-cylinder, air-cooled, 4-cycle gasoline engine. Standard portable has recoil starter, carrying frame, 4-plug-in receptacles.

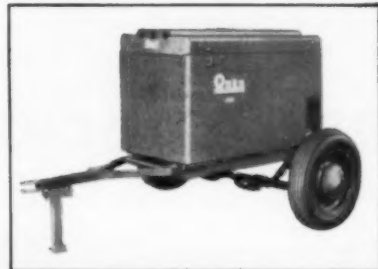

AJ SERIES—(Shown dolly-mounted) Same general description as at left. Dolly-mounting is preferred where the electric plant is moved around frequently on the job. Available with recoil starter, 4 plug-in receptacles.

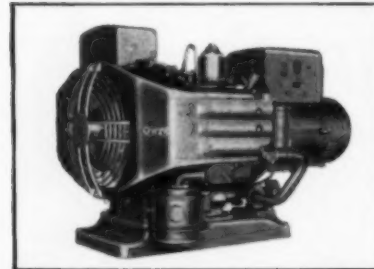

LK SERIES—2,000 watts A.C. 115 or 230 volts. One-cylinder, air-cooled, 4-cycle gasoline engine. Available with carrying frame, 2-wheel dolly, recoil starter and plug-in receptacles. Heavy-duty model.

CCK SERIES—3,500 and 5,000 watts A.C. 115 or 230 volts. Two-cylinder, air-cooled, 4-cycle gasoline engine. Available with carrying frame, 2-wheel dolly, 6 plug-in receptacles. Smooth-running; high capacity.

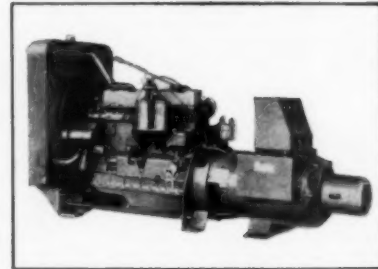

CW SERIES—7,500 and 10,000 watts. All standard voltages. Two-cylinder, air-cooled, 4-cycle gasoline engine. Electric starting. Model shown has weatherproof housing, and is mounted on high-speed trailer.

AIR-COOLED DIESEL PLANTS—3KW, single-cylinder; 5KW, two-cylinder (shown). All standard voltages. Full Diesel. Electric starting. Built for continuous heavy duty. Economical operation.

HOUSED WATER-COOLED MODELS—10, 15, 25 and 35KW, A.C. All standard voltages. Powered by heavy-duty industrial engines. Voltage regulated. Equipped with all necessary instruments and controls.

UNHOUSED WATER-COOLED MODELS—10, 15, 25, 35, 50 and 75KW, A.C. All standard voltages. Powered by 4, 6, and 8-cylinder heavy-duty industrial engines. Voltage regulated. Equipped with controls and instruments.

WORLD-WIDE PARTS AND SERVICE CENTERS

Throughout the U.S., Canada, and most of the world, Onan has set up special service centers with complete stocks of engine and generator parts . . . and trained service men. Onan service is another reason why Onan Plants serve you better . . . longer.

All Onan Portable Electric Plants are completely Onan-built. Specially-designed, longer-life, short-stroke, Onan 4-cycle engines are direct-connected to Onan all-weather generators in compact, rugged units. Pressure lubrication, Stellite-faced exhaust valves, solid Stellite valve-seat inserts, and extra-large bearings are a few of many Onan quality features. Onan water-cooled plants are powered by heavy-duty industrial engines. All Onan plants are factory-tested, ready to run.

Call your Onan distributor listed in the yellow section of your phone book or write for specifications.

Just out! The newest in pickups!

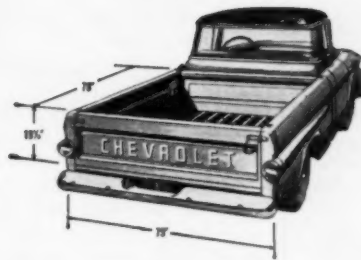

NEW FLEETSIDE BY CHEVROLET

Here's the new sweetheart of the Task-Force fleet, Chevrolet's new Fleetside pickup! No truck has ever been better to look at . . . or better for your business.

Long, sweeping lines, graceful body contours . . . new truck appearance that's fleet, dashing and completely modern! Yet there's even more to the new Chevrolet Fleetside than the striking beauty that first meets your eye. There's size, for instance: extra room inside to pack many additional cubic feet of payload. And with double-walled lower side panels, durable hardwood floor, and solidly constructed full-width tailgate, the new Fleetside is the toughest of pickup bodies, too! A new adjustable latch keeps graintight tailgate free from rattles.

Here's a new high in hard-working utility, matched by new styling that makes you stand out on any street. See the new Fleetside at your Chevrolet dealer's now! . . . Chevrolet Division of General Motors, Detroit 2, Michigan.

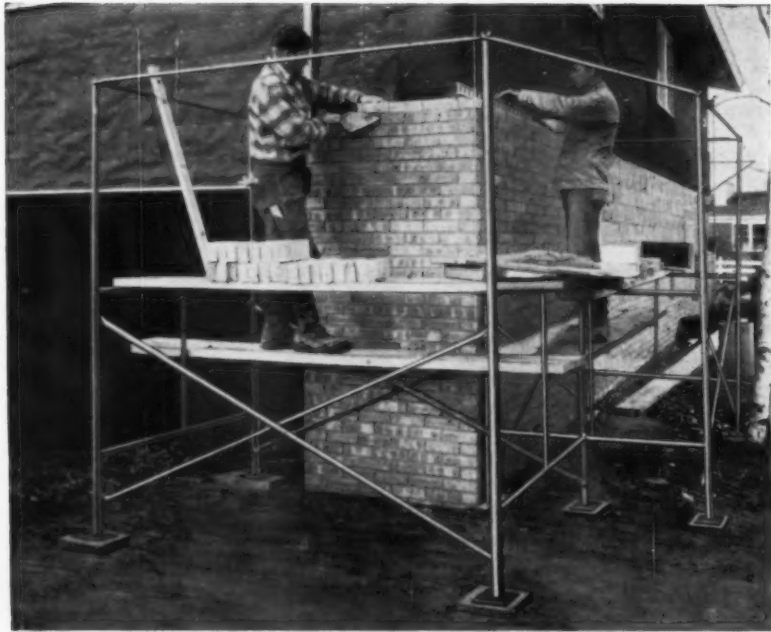

More load space than any other comparable low-priced pickup. In lengths of either 78 inches or 98* inches and a full six feet in width, this new body actually provides 50% more cubic capacity than the conventional pickup box!
**Optional at extra cost.*

Plenty of work-whipping hustle and muscle. Your choice of two great engines—standard 145-h.p. Thriftmaster 6 or optional at extra cost 160-h.p. Trademaster V8. And truck-engineered chassis components will take all the abuse your most bruising hauls can give them!

CHEVROLET TASK • FORCE TRUCKS

Low-Cost Steel Scaffolding Fits All Light Duty Needs

Light but Sturdy Scaffold Saves Time Everywhere

4-BY-4 Scaffold Advantages:

- ★ Frames made from high-carbon structural steel tubing — assembled by master welders — treated with rust-inhibiting enamel, inside and out.
- ★ Frames are rigid and strong — yet light and balanced for easy handling, transporting and storage.
- ★ Horizontal planking supports every 16 in. permit waist-level material platforms.
- ★ All frames have a built-in ladder.
- ★ Scaffolds can be used safely at heights to five stories.

SAFWAY 4-BY-4 STEEL FRAMES EASIER TO HANDLE AT JOB, ON TRUCK AND IN YARD
YOU SAVE TIME—save money—every time you handle Safway 4-BY-4 steel scaffolding!

In your yard and on the truck, these light four-ft. square frames permit easy one-man handling and compact storage. On the job, they are easily passed up to any level and assembled in place.

Safway 4-BY-4 scaffolding is made from high-carbon structural steel tubing—nature's strongest form—and rigidly welded. Rated capacity is 50 lbs. per sq. ft., with a liberal safety factor. 4-BY-4 is recommended for work up to five stories high.

Multiple planking levels spaced 16 in. apart provide working and material platforms wherever you need them—make it easy to follow brick or block walls as work progresses.

Even on the smallest jobs, Safway 4-BY-4 pays off through faster scaffold erection, minimized worker fatigue and better craftsmanship. 4-BY-4 is priced so low it makes wood scaffolding obsolete!

GET COMPLETE DETAILS!

NEW GREAT

**THE HENRY
L-600
UTILITY
LOADER**

with new **ADVANCED DESIGN**

NOW . . . you get more workability at less cost when you buy the new HENRY L-600 . . . the newest and finest loader sold. With lighter boxed-section construction and modern design, it's the best loader buy for the money today.

with new **JOB-TAILORING**

There's few jobs impossible with a loader that has maximum dumping height, lower operating pressure, equalized weight distribution, and the widest selection of attachments. With the new HENRY L-600 you actually get the job done faster . . . better!

**ALSO NEW
THE
HENRY
MARK II
BACKHOE**

With 200° arc of swing, 12½ ft. digging depth, maximum operator visibility and control, the new HENRY Mark II is years ahead in design with greater eye appeal. Large diameter pins, chrome piston rods, and replaceable pins at all pivot points make this backhoe outstanding in value.

Get the facts about this new equipment from your nearby HENRY equipment dealer today! Sold and serviced by better equipment dealers everywhere.

YOU CAN DO IT BETTER WITH A HENRY

SAWZALL

all-purpose electric hacksaw

Now
cuts
wood
twice
as
fast

MODEL 414
SAWZALL

\$94.50

MODEL 414L
\$89.50
without steel
carrying case

with **NEW genuine SAWZALL
Deluxe BLADES** that cut twice
as fast — last 10 times longer!

• Using SAWZALL and these new, Deluxe Blades, you can breeze easily thru any thickness of wood, like sheathing, 2 x 4's or heavy joists. You can "plunge-cut" in wood or like materials without a starting hole, cut any shape, saw close, right or left.

For fast roughing-in or scroll cutting, you just can't beat this combination.

Simple Rugged Construction: No complicated mechanisms. Full ball and roller bearings.

Gets in the Tight Spots: Blade straddle-mounted, centered for close sawing right or left.

Powerful: Full ½ HP Milwaukee-built motor. Cooler running, won't overload, won't overheat.

Ideal balance: Weighs only 6¼ lbs. Easy one-hand operation.

39 Genuine SAWZALL Blades: A size and type for every sawing need. Deluxe blades for fastest cutting, longest life.

Ask your distributor about SAWZALL and the New Deluxe blades . . . or write for literature.

MILWAUKEE ELECTRIC TOOL CORP.
5356 WEST STATE ST. • MILWAUKEE 8, WIS.

New International Travelette!

Another INTERNATIONAL first . . . this pickup is able to take a six-man crew to and from the job with up to a full ton load capacity!

The new TRAVELETTE combines smart styling and a roomy 6-man cab with a rugged INTERNATIONAL chassis and 6-foot pickup body or 7-foot service-utility body. All in one money-saving unit! You can transport crew *and* load. You save the double expense of a car *and* pickup.

INTERNATIONAL TRUCKS

*Carries 6 passengers
plus a full
equipment load!*

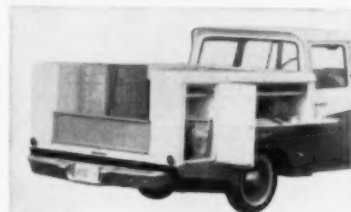

True-Truck six-cylinder engines offer more usable power. And you can have four-wheel-drive for extra traction. Look over the new TRAVELETTE at your INTERNATIONAL Dealer. See for yourself why this model, like all INTERNATIONAL Trucks, costs *least* to own!

cost least to own!

Full-width seating front and rear! Six passengers can ride in roomy, cushioned comfort. Plenty of visibility and ventilation. Three-door cab for easy in-and-out.

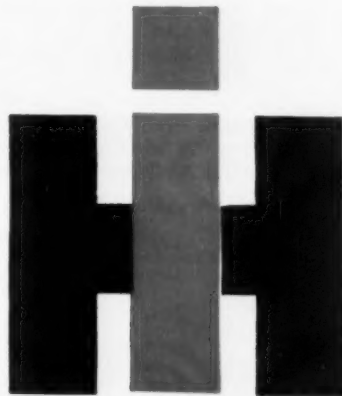

Factory-installed service-utility body! Body is of proven design, with time-saving compartments for tools and gear. Lots of load space.

Four-wheel-drive model available! Takes crew and equipment right to the job, on or off the road. Dependable traction in rough or slippery going.

Big load capacity! The Travelette offers up to a full ton load capacity. Pickup load space 90 inches with tailgate down.

Cummins
MAXAW

Makes All Cuts In 2" Dressed Lumber!

MAXAW 757—\$69.95 (Illustrated)
6 1/2" blade cuts 1 1/2" @ 45°; 2 1/4" @ 90°.

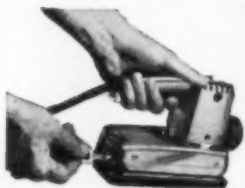

MAXAW 7800—\$84.95
7 1/4" blade cuts 2 1/4" @ 45°; 2 1/2" @ 90°.

Cummins professional quality and design show up fast when you put a MAXAW to work! Balanced for easy handling without fatigue... rugged and dependable for hour after hour operation! Exclusive magic-pivot gives MAXAWS the cutting capacity of power saws with greater blade diameter, yet MAXAWS have the heft, feel and maneuverability of finishing saws for interior trim. You save the price of an extra power saw with *one* double-duty MAXAW! See it—try it at your dealer's today!

NOW! Another Cummins "First"!

Cummins Double Action Sander

2 Sanding Actions in ONE Sander

Exclusive new KEY CONTROL! Simply turn the key for fast, efficient orbital sanding (Standard Finish) or straight-line sanding for hand-rubbed effect, no-chip end sanding (Super Fine Finish). 3-position auxiliary knob makes hard-to-reach spots accessible. Abrasive papers quickly change; self-cleaning action for long abrasive life. With Cummins super-powered motor, timing belt drive, heavy-duty ball bearing construction—\$49.95.

Both models feature 100% ball and roller bearing construction. *Balanced Hand Grip*—"hand-saw" feel for easy handling. *Exclusive True Course Guide*—keeps blade on line, cut open. *Clutch-Like Blade Action*—prevents damage to motor or blade, eliminates dangerous kickback. *Full-Size Saw Shoe*—no wobble or sway; calibrated for accurate short cut-offs. *Pedestal Base*—simplifies blade changing. *Instant Adjustments* for bevel and depth of cut.

ASTOUNDING REPORT

on Rocform Concrete Forming Systems

Positive Proof that ROCFORM SYSTEMS must be more economical, must produce better results, and must be easier to handle was given recently when the fact came to light that not one single operator of ROCFORM SYSTEMS has ever changed from ROCFORM to another type forming device! This astonishing record covers a period of many years and hundreds of operators who are using ROCFORM SYSTEMS all over the United States, Canada and South America.

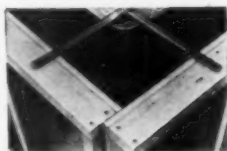

Look around you. In all probability, there is a set of ROCFORMS now operating in your neighborhood. Notice the speed with which ROCFORMS are "stripped" from one job and set up on the next, whether it be on the next lot or 20 miles away. ROCFORM's engineered panels are so easily handled that stripping, moving and setting up can be accomplished in only a few hours, enabling the contractor to pour a job every day with each set of forms.

Inquire. Ask your nearby ROCFORM contractors for their opinion. Our customers are the biggest boosters for the famous ROCFORM SYSTEM. They will confirm the fact that this is the fastest method of concrete forming, and, best of all, will demonstrate to you the unsurpassed quality of work it produces... straight... smooth... clean walls, job after job after job. With reasonable panel care (no crowbars... only a carpenter's hammer to strip the forms) a set of ROCFORMS will still produce top-quality work after as many as 300 jobs.

Lowest depreciation. This means an extremely low depreciation per job, only about half as much depreciation as other methods of concrete forming, far overcoming the slightly higher initial cost. And, even after the panels are worn out, you still retain 50% of your original investment. All walers, tie rods, tie rod pins and clamps are guaranteed and will be replaced without charge.

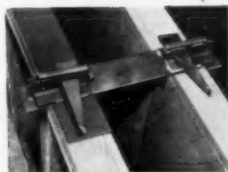

Financing arranged. Our teamwork concept goes even one step further. If you need financing, you can purchase ROCFORMS for a small down payment and pay off the rest in small monthly installments. The better and additional jobs you pour with the faster, better, cheaper ROCFORM SYSTEM will more than meet the monthly payments.

Outstanding features of Rocform Systems that make them the world's most advanced concrete forming method—

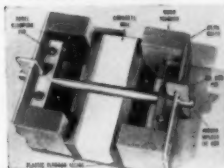

Round corner form eliminates filler strips and results in strong, attractive, rounded basement corners.

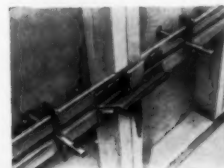

Patented wall aligners automatically give wall of uniform desired thickness and line up tops of panels.

Tapered steel tie rods with special pins hold forms rigidly in place. Can be re-used continuously.

ROCFORM metal walers are permanently built into forms. Sections lock together with patented clamps.

Adjustable outside corner clamps allow for a 3-inch variable without necessity of corner fillers.

SYNTRON CONCRETE VIBRATORS & FLOATS

Save time and labor settling and finishing concrete . . .

SYNTRON Vibratory Floats take the hard work out of floating concrete. Their 3600 vibrations per minute produces a denser, stronger vibrated concrete — making stronger, safer and more durable floors, side walks, drives, etc.

SYNTRON Electromagnetic Form Vibrators, equipped with quick-acting vise clamps assure faster more uniform settling of concrete.

Faster settling and handling means reduced costs — increased production and profit.

PORTER-CABLE

1 BALANCE—Comfortable, contoured handle is specially designed and located for easy one-hand operation and for operator comfort on every cut . . . in any position!

2 PRECISION BALL BEARINGS—Heavy-duty, oversize ball bearings are used THROUGHOUT; grease packed at factory for life time trouble-free service.

3 WIDE WRAP-AROUND BASE—Heavy-duty machined base projects on both sides of blade to provide full support and greater stability on cuts from either direction.

4 CHROME-PLATED BLADE—Chrome plating gives blade extra-hard

cutting edge for longer life. Standard equipment on all new models.

5 GEAR LUBRICATOR—Keeps gear chamber well lubricated without having to dismantle saw. Simple twist of cup ring injects grease onto gear and pinion. (Not shown on drawing.)

6 PRECISION MACHINE-WOUND ARMATURE—Features a newly-developed winding technique which assures identical electrical and physical characteristics of the coils. Coils are nylon-clad and insulated for maximum power and top performance.

7 HEAVY-DUTY BRUSHES AND BRUSH MECHANISM—Spring-loaded car-

tridge type brushes are self-adjusting. Specially designed for better commutation and peak performance.

8 CALIBRATED DEPTH SCALE—Eliminates guesswork. Simply loosen depth adjustment knob and instantly raise or lower saw to desired depth as indicated on the scale.

9 DUST BLOWER—Specially designed to maintain high efficiency of motor and keep cutting line clear.

10 PRECISION ANGLE SEGMENT—Quick and easy to set for accurate bevel cutting from 0° to 45°. Weight of saw is held by heavy die castings at any depth or angle setting.

11 PRECISION MACHINED GEARS—Hardened for greater tooth strength, larger contact area, peak performance and longer life.

12 KICKPROOF CLUTCH—Eliminates kickback. Protects operator. Prevents motor and switch burnout.

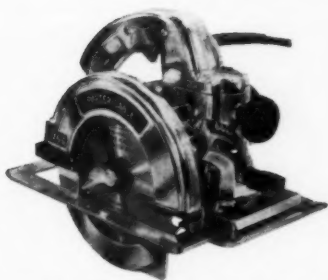

13 SINGLE LINE OF CUT—Only one sighting line to follow on any cut—whether straight, angle or bevel.

14 SAFETY "NO-DRAW" GUARD—Patented miterlip on leading edge prevents jamming at start of any cut, and eliminates "drag" during the cut. Positive action of new coil spring returns guard immediately after cut is completed.

SAWS

are the world's finest...

HERE'S WHY: When it comes to designing a **better** saw — you can depend on Porter-Cable to do it—and do it first! Typical of Porter-Cable's fifty years of leadership are these three models—the newest additions to the famous line of Porter-Cable saws. Today, more than ever, it pays to see these quality saws at your Porter-Cable dealer. You'll get more cutting power... more satisfactory use... more professional features... more lasting value... at special low introductory prices!

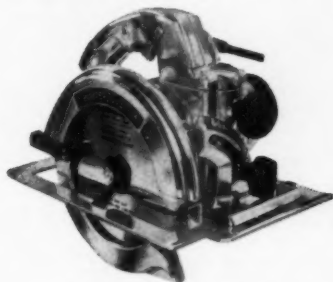

LIGHTWEIGHT 6 1/2" SAW

A 6 1/2" lightweight saw with full professional construction. 10-amp. motor for rugged cutting jobs. Perfect for all framing and roughing cuts.

Model 146A \$69.50

146A Saw, in handy Builder Kit, with rip guide for fast, accurate ripping and steel carrying case. **Model 146Ak Saw Kit \$83.50**

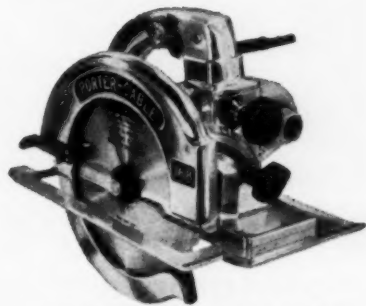

RUGGED 7" SAW

A rugged 7" all-purpose saw with a full 12-amp. motor to give you power and speed usually found only in higher priced saws. Provides trouble-free, dependable service on every type of cutting job.

Model 115A \$79.50

115A Saw, in handy Builder Kit, with rip guide for fast, accurate ripping and steel carrying case. **Model 115Ak Saw Kit \$93.50**

HEAVY-DUTY 8 1/4" SAW

A low-priced, heavy-duty 8 1/4" saw with rugged 13-amp. motor. Designed especially for the builder who wants added power with big cutting capacity. Safety features include auxiliary front blade guard.

Model 168 \$99.50

168 Saw, in handy Builder Kit, with rip guide for fast, accurate ripping and steel carrying case. **Model 168K Saw Kit \$113.50**

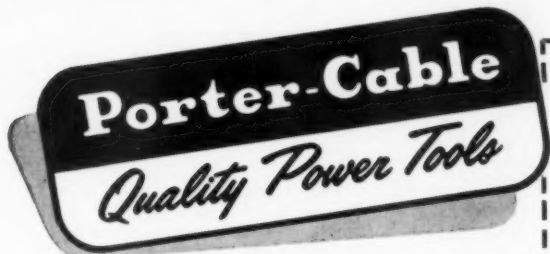

PATENTED DESIGN of telescoping guard eliminates jamming and "drag" during any cut, even compound miter.

HANDY GEAR LUBRICATOR keeps gear and pinion well lubricated without having to take saw apart.

EASY TO HANDLE on any cut — because of light weight and balance. Ideal for cut-off and trimming operations.

EXCLUSIVE auxiliary front blade guard, on Model 168 only, covers saw teeth even on shallow cuts.

ABRASIVE BLADES are available for cutting metal, stone, masonry, plastics and other problem materials.

SYMONS FORMS keep jobs moving on a time saving schedule

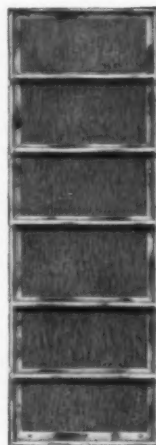

2' x 6'

There are four principal reasons for the high acceptance of Symons Forms in the home and light construction market.

1. They can be quickly and easily set-up and stripped
2. Wood-Ply Forms have often lasted for more than 200 uses . . . frames of Mag-Ply Forms will last indefinitely
3. Forms can be used on any type of general construction . . . they are not confined to a single type of application
4. Symons engineers and field representatives can help you with any forming problem

← "CHAMP"—Inexpensive Wood-Ply Form

Here is an efficient and accurate form at a cost approximately 20% less than Symons Standard Panel Form. Designed primarily for light commercial and residential construction, it is equally satisfactory for high pours where strength and durability are "musts."

2' x 6'

"MAG-PLY"—Hi-First Cost, Lo-Per-Use Cost →

Initial cost of this lightweight form is high. However, the many reuses possible makes the cost per use exceedingly low. Form averages only 3 pounds per square foot. Frame of extruded, rust-proof magnesium completely encases the plywood face. 2½" wide frame reduces loading and storage space.

Symons Forms can be rented with purchase option

(Continued on page 384)

Mr. Lewis Parley who operates a Sherman Power Digger for the Hood Construction Co. of Los Angeles, Calif. says, "I have been a backhoe operator for six years and in that time have run several different makes, but I have never run one as good as the "F" Sherman."

If You Excavate ... What These Men Say About Sherman Diggers Is Important

When it comes right down to it, the men who own and operate power diggers day after day are the ones who really know how such units perform and how they stand up.

That's why the comments of these typical Sherman Power Digger operators are important to every excavator. They prove the Sherman saves you money for two reasons: First, the Sherman digs faster, completes jobs quicker. Second, the Sherman is so rugged and dependable that downtime is kept at a minimum.

Prove to yourself the Sherman is your best buy—"Clock it" on your own job—without obligation. At the same time, check the many exclusive features that *keep the Sherman out of the repair shop and "on the job."*

Write today for Bulletin No. 776.

SHERMAN PRODUCTS, INC., Royal Oak, Michigan
POWER DIGGERS • LOADERS • FORK LIFTS
SOIL WORKING TOOLS • CRANES AND EXCAVATORS

Mr. E. L. Shaner handles an "F" Sherman Power Digger for contractor E. A. Irish at a new subdivision in Laguna Beach, Calif. He says, "I have run them all and I like the Sherman best. It is easier handling. For instance, if I am sitting on a bank, I can swing up-hill—something you can't do with some of the other rigs. They just won't do it. And the Sherman has a full 90 degree swing both ways."

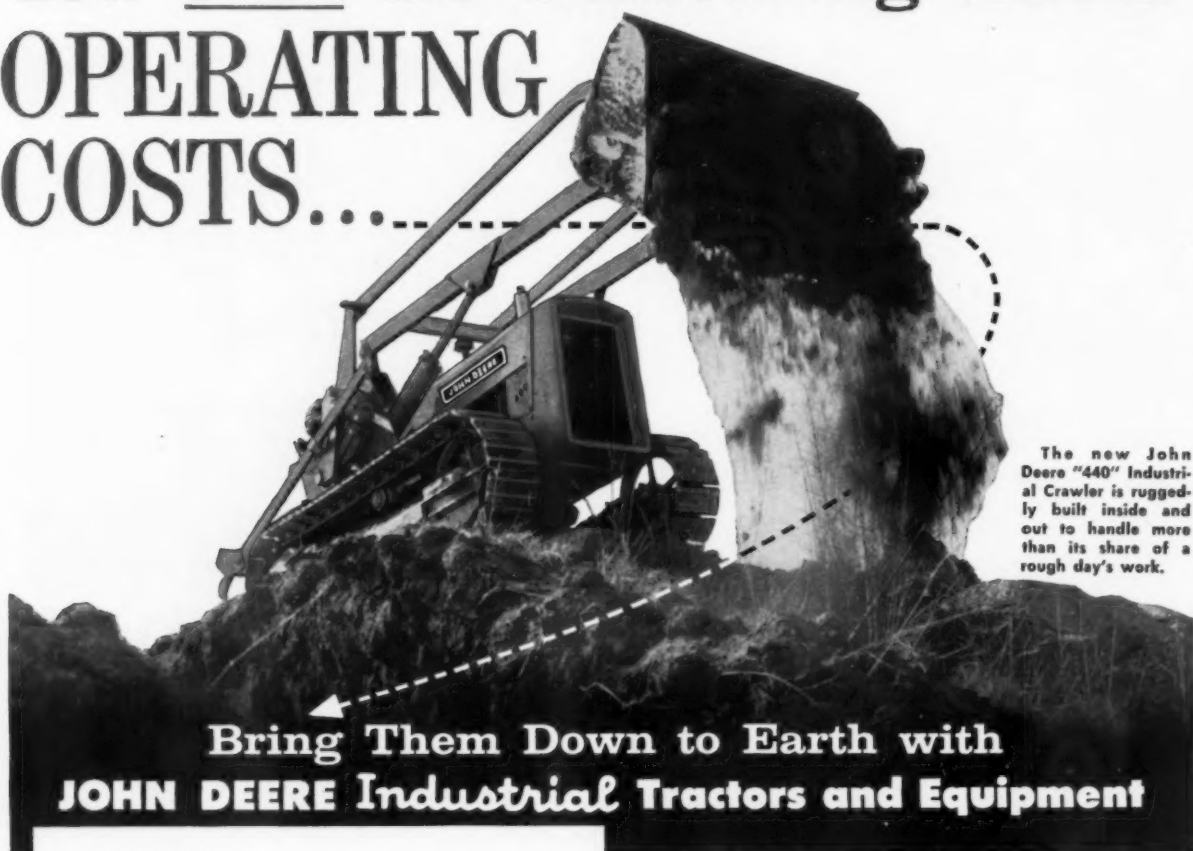

In Seattle, Mr. Sam English, one of the owners of Excavators, Inc., reports a saving in money on a utility contract because the Sherman undercuts eight feet unbroken sections of pavement, thus eliminating expensive handwork. He says, "The maneuverability, efficiency and economy of the Sherman make it the best digger I have seen."

Mr. L. L. Donaghue and Mr. Vernon O. Lippoldt, co-owners of the D & L Ditching Service of Haysville, Kansas, say, "The Model "F" is our fifth Sherman digger and if we were going to buy a digger tomorrow, it would be one just like this one. We already have 275 hours on it and have yet to tighten a bolt."

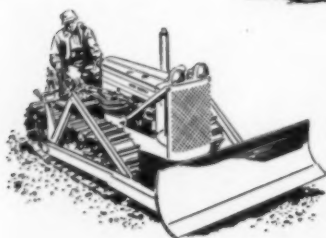

You CAN Do Something About OPERATING COSTS.....

The new John Deere "440" Industrial Crawler is ruggedly built inside and out to handle more than its share of a rough day's work.

Bring Them Down to Earth with JOHN DEERE Industrial Tractors and Equipment

New "440" Wheel Tractor is a highly mobile unit that can make your power dollars go farther than you thought possible.

The long-popular "420" Crawler is a busy, capable and economical tractor that continues to merit the praises of efficiency-minded industrial users.

Many optional features, including built-in power steering on wheel models and a new clutch-type direction reverser on all models, add to the versatility of John Deere Industrial Tractors. Equipped here with trencher is the "420" Wheel Tractor.

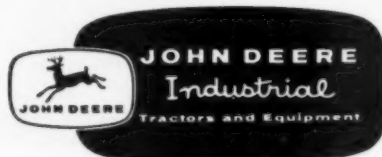

NO need to point out here that there is no room for waste in construction methods. You know that.

But did you know that there's one sure way of cutting that waste? That you can pick up new savings daily on those earth-moving jobs? And also on moving, loading, and hauling of sand and gravel and other construction materials?

Well, you can—by investing in John Deere Industrial Power and Equipment, starting your savings with the initial purchase price and continuing them with lower fuel, maintenance, and servicing costs.

Here is big-capacity power with built-in economy—four John Deere Tractors, both wheel and crawlers—especially engineered for industrial work of all types, and all available with a complete line of matched working equipment.

Learn about the John Deere way of bringing operating cost down to earth from your John Deere Industrial Dealer. Ask for a free demonstration.

How Dodge saves you money by matching your truck to your needs

Dodge medium- and heavy-duty trucks have always been built from a wide range of "Job-Rated" components to match a truck exactly to your job. This means that you aren't forced to pay for capacity you don't need, and you don't get undersized units that shorten your truck's life. Just look at the range of components today's line of *Power Giants* offers:

In power, there are Sixes from 125 to 141 hp., Power-Dome V-8's from 204 to 234 hp. Exclusive Power-Dome V-8 design reduces harmful carbon deposits, greatly reducing the need for engine overhauls to maintain maximum power.

In payload, numerous Dodge medium- and heavy-duty models offer G.V.W.'s from 11,000 to 46,000 lbs., G.C.W.'s from 30,000 to 65,000 lbs. in gradual

steps. A wide range of "Job-Rated" axles, transmissions, tires, springs and other components makes possible gradual increases in capacity and assures you a dependable, economical truck because it fits your job exactly.

In economy, Dodge provides the thriftiest and most efficient engine and transmission combinations. A range of eight engines and eight transmissions, including automatic Torqmatic, makes this possible. You save on gasoline, too, because Dodge engines operate efficiently on regular gasoline!

Priced competitively throughout the line, in many models Dodge is priced *lowest!* No matter what Dodge *Power Giant* your job calls for, you'll be agreeably surprised at its thrifty price tag. See your Dodge dealer soon, and get his special 40th-Anniversary deal!

DODGE *Power Giants*

COMET "CLIPPER"... ONE OF THE MOST POPULAR POWER SAWS IN THE BUILDING INDUSTRY

More Cuts per Dollar

MEN WHO KNOW SAWS have sworn by COMET RETRACTABLE, radial arm saws for a quarter of a century. And for good reason . . . rugged construction . . . power . . . capacity . . . accuracy . . . ease of operation . . . safety. The COMET'S ENTIRE WORKING UNIT MOVES BACK after the stroke so that you can see your work. A safety return spring pre-sets cut-off strokes and assists quick return of the blade. The big steel arm rolls through 8 permanently lubricated ball bearing rollers, COMPLETELY ENCLOSED AND PROTECTED FROM DUST. COMETS can "take it" year after year without repairs. There's a correctly engineered COMET for every job, from light work up to timber cutters that handle 16" beams. Check the list below and mail coupon for specific information about COMET COST-CUTTERS FOR YOUR BUSINESS.

Build Stronger Masonry Walls with Sure-Lok

... the corrugated reinforcement designed to give your masonry walls the greatest lateral strength possible.

Sure-Lok's side wires are corrugated horizontally to assure a better bond between mortar and reinforcement. Corrugating does not destroy the effectiveness of the galvanizing on galvanized wire. Cross wires support reinforcing so mortar completely surrounds the corrugated wires. You receive greater protection against expensive and unsightly cracks so common in non-reinforced walls.

Sure-Lok stays together. Each 10 gauge galvanized cross wire is pressure welded to the side wires. You get uniform thickness and higher strength. Side wires available in 8 and 9 gauge and $\frac{3}{8}$ " in plain, galvanized and galvanized after fabrication wire.

Sure-Lok is manufactured in standard 12-foot lengths which can be cut or bent for corners. It is stocked in five different widths to meet the requirements of walls 4", 6", 8", 10" and 12" wide and is shipped in convenient bundles of 300 lineal feet.

Clip the coupon below for free facts on Sure-Lok and other Sure-Grip concrete accessories.

Speed completion—slash your costs with time-saving Bostitch staplers

BOSTITCH H4 HEAVY-DUTY STAPLING HAMMER LAYS ASPHALT SHINGLES UP TO 4 TIMES FASTER

In the picture, the man with the Bostitch H4 Hammer laid twice as many shingles as the man with hammer and nails. Many users report: "4 times as fast as hammer and nails." One hand, one blow drives a 3/4" staple deep into the wood—even at arm's length. You cut staging time and costs, too.

STAPLES are .070" x .050" galvanized steel wire with 3/4" legs. Legs diverge inside the work for extra holding power.

BOSTITCH H2B MEDIUM-DUTY STAPLING HAMMER. FASTEST METHOD FOR LIGHT NAILING JOBS

Swings like a hammer with no time out for positioning nails. Drives 1 1/32" crown staples with 1/4" and 3/8" legs in H2B, 1/2" legs in H2B1/2. Easy to refill even with gloves on.

BOSTITCH T5-8 TACKER PUTS THE SQUEEZE ON RISING COSTS

Easy to use even in cramped spaces. Drives three staple sizes: 1/4", 3/8", and 9/16". Places a staple wherever you want with a squeeze of the handle. Fastens as fast as you can squeeze it. No hammer dents. Like all Bostitch builder tools, can be used and easily reloaded even with gloves on.

Recommendations for fastening _____ to _____

Name _____

Firm _____

Address _____

City _____

Zone _____ State _____

Where the construction efficiency of Bostitch stapling can keep your costs down

"A good man can lay twice as many shingles a day with the Bostitch H4 as with hammer and nails—sometimes more."

H4 STAPLING HAMMER

- Applying asphalt shingles
- Applying metal lath to studding
- Applying metal discs for built-up tar-and-gravel roofs
- Laying underflooring
- Applying paper to studding for installing blown-type rock wool
- Building wire storage bins

"For installing insulation, Bostitch is not only faster, it does a better job. And it cuts costs way down."

H2B STAPLING HAMMER

- Installing insulation
- Installing wooden undercourse shakes
- Applying cornerite
- Applying felt and waterproof paper to exterior walls
- Installing flashing paper
- Laying underfelt for roofing
- Installing vapor barriers

"Stapling is 50% faster than hammer and nails for installing ceiling tile. No danger of marring the edges either."

T5-8 TACKER

- Installing ceiling tile
- Installing insulation
- Installing screening
- Installing low-voltage wiring

Whether you operate one truck or twenty trucks, you can't buy a tire that costs less per mile than Firestone. Billions of miles of carefully kept fleet records prove Firestone truck tires outwear all others.

That's because Firestone truck tires are now combining the world's toughest tread rubbers with a new fortified-cord body. That's made possible by Firestone's exclusive S/F—Safety-Fortified—Cord! It's making Firestones last longer by building them stronger than any tire ever made. Yet this new kind of tire costs no more than regular tires.

Every Firestone truck tire, tubed or tubeless, is an outstanding value in long-wearing, dependable performance. No wonder more going concerns go on Firestones! See your Firestone Dealer or Store soon. That's the place for fast, dependable service, too.

YOU CAN'T BUY A TIRE THAT COSTS LESS PER MILE THAN FIRESTONE

BETTER RUBBER FROM START TO FINISH

IH INTERNATIONAL
Pippin

NOW! a complete new line of full IH factory warranty... quality

12.8 hp International Cub® Lo-Boy® ... lowest cost tractor-help you can get for cutting costs on a wide range of the lighter jobs. You'll be amazed at its productive capacity! Loader lifts 6 cu ft or 450 pounds.

25.0 hp International 130 gives you utility loader service at low cost... holds down your investment for equipment on odd jobs and seasonal needs. Loader can be used in combination with mowers, blades, etc.

40.0 hp International 330. New and really rugged! Has the built-in 'beef' to handle 1,600 pounds with front-end loader; step up yardage with choice of heavy-duty backhoes that maintain grades, digging 10 or 12-ft ditches.

unit-engineered for top capacity at lowest cost!

50.2 hp International 350, with gas, diesel, or LPG engine. Has built-in brawn to handle a full ton with heavy-duty loader. Three models of heavy-duty backhoes match your job and your pocketbook for lowest cost.

60.0 hp International 450. Over 6,600 pounds built-in operating weight. Loaders handle $\frac{3}{4}$ -cu yd buckets, lift 2,500 pounds over 10 feet. Backhoes take bites up to 10 cu ft, dig 12 or 13½ feet deep.

68.0 hp International 650 diesel gives you trenching capacity approaching that of small power shovels, with wheel tractor economy and mobility. Loads up to $\frac{3}{4}$ cu yd, digs ditches to grade, as deep as 12 feet.

loaders and backhoes

service and parts available everywhere

Whether you buy on price, performance, or service—or all three together—you'll find today's best buy in tractors, loaders, and backhoes at your International Harvester Dealer's. The reasons are many...all sound:

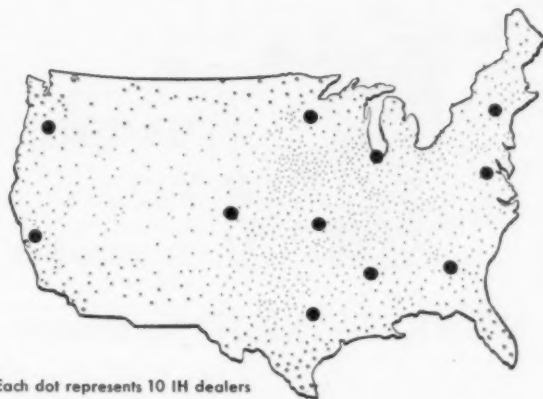

Exclusive high-capacity loader and backhoe designs, manufactured for International Harvester by Pippin and Wagner—recognized leaders in the field.

Fully warranted and nationally distributed by International Harvester Company. Factory-mounting available.

Sizes to match your job most economically—Nine loaders for six power ratings of International® tractors, 12.8 to 68 hp... five backhoes and backhoe-loader combinations for 40 to 68 hp models.

Exclusive protection against costly down time—Tractor, loader, and backhoe parts stocked by IH Dealers and at all IH parts depots. (see map)

"One stop" sales-service for all your tractor-loader-backhoe needs saves you time and money... see your International Tractor Dealer!

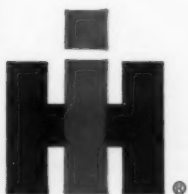

● Each dot represents 10 IH dealers

● IH Parts Depots

No matter where your job is located, you'll find well-equipped parts and service facilities nearby in the hands of a capable, experienced IH tractor dealer and his factory-trained mechanics. His facilities, in turn, are backed by the industry's most extensive network of parts depots.

One of the 5,000 IH Dealers is near you. See him for the tractor-loader-backhoe combination sized and priced to meet your specific job requirements. He'll gladly demonstrate! **Financing?** Ask him about the IH Income Purchase Plan.

ALL THESE FEATURES!

✓ Practically indestructible
... Made of reinforced rubber and fiber — strong metal handle reinforced at joints. **Lightweight!**

✓ Can't dent, break, leak, rust, crack, ding!

Resists acid, sea water, soap, grease, alkali corrosion. **Mold-proof!**

Not affected by cement, lime, plaster, paint, chemicals, insecticides, sprays, disinfectants, preservatives. **Overnight sediments loosen quickly—without damage!**

Graduated for measuring mixes and liquids!

Extreme heat and cold will not harm.

Fully guaranteed!

NEW!

WORK BULL 202 and DAVIS LOADER-BACKHOE BEST POWER-MATCHED EQUIPMENT BUILDING CONTRACTORS CAN BUY!

Here, at last, is a powerful *industrial* tractor, loader, and backhoe designed and integrated to each other! They work together as a single unit, unsurpassed for increasing a builder's operating range while actually lowering production costs!

The all-new Work Bull 202 Tractor has low-silhouette styling, full-time power steering, dual-range, multiple-speed transmission plus many other features to increase job-site efficiency. High-torque, 40-h. p. engine delivers more sure-footed lugging power at low speeds than any other tractor in the utility class.

Look how the Davis Loader is matched to the Work Bull. Tractor has built-in mounting to eliminate necessity for bumper. Provides easy installation and service — plus greater reach out front. Scarifier, Fork Lift, Landscape Bucket, Angle Dozer, and Crane provide quick-change versatility.

The Davis Backhoe — the only machine in the world that can flush-dig — as well as handle normal digging assignments, features 10,000-pounds breakaway and exclusive seat that swings with boom so operator always faces his work. Five-minute detachability simplifies mounting other Massey-Ferguson Power-Matched attachments such as multi-purpose blade, scarifier-scraper, cable layer, tipping trailer, and others.

Other new Power-Matched Work Products include the Work Bull 1001 Multi-Purpose Tractor Loader convertible into eight different machines — the Work Bull 303 and 500 Loader, Work Bull Fork Lift, plus the famous Auburn Trencher for the Work Bull 202. Write for complete literature and name of dealer. Ask for Brochure G-4.

cost-conscious builders
prove SKILMANSHIP

cut '58 SKIL

Model 297 Router was used to mortise 1700 doors on one job by this builder.* About 100 doors a day were hung—twice the previous daily number.

*Name supplied upon request

Not only does this contractor* cut installation time by one hour per unit, but he also obtains tighter fittings with the SKIL Model 172 Driver.

This builder* says that the Model 77 Saw has meant 50% less repair cost and downtime. In his experience he never has any major trouble with a SKIL saw.

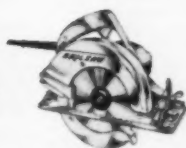

on-the-job costs with *portable* power tools

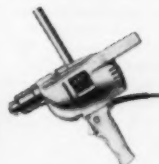

On-the-job performance proves the ability of SKIL tools to cut building costs, make savings on every operation. For example, the SKIL Router cut door hanging time in half. The SKIL Super-Duty Saw cut maintenance and down time by 50%. One SKIL Plane replaced four men using hand planes and cut working time from 4 hours to 20 minutes. The SKIL Driver cut one hour off each window installation. Here's proof of SKILMANSHIP—the ability of superior SKIL tools to do more. Ask your SKIL distributor for a Proof Test of these SKIL power tools.

Model 857
Top-Handle Saw

Model 874
Heavy-Duty Saw

Model 80
1/2" Drill

Model 448
Belt Sander

Only one operator* with the SKIL Model 100 Plane is needed to do the same amount of planing it took four hand planes to do on this job.

There are 33 factory branch service stations located in major cities throughout the country. Prompt and dependable service on all SKIL tools available. Look for the SKIL trademark in the yellow pages of your phone directory.

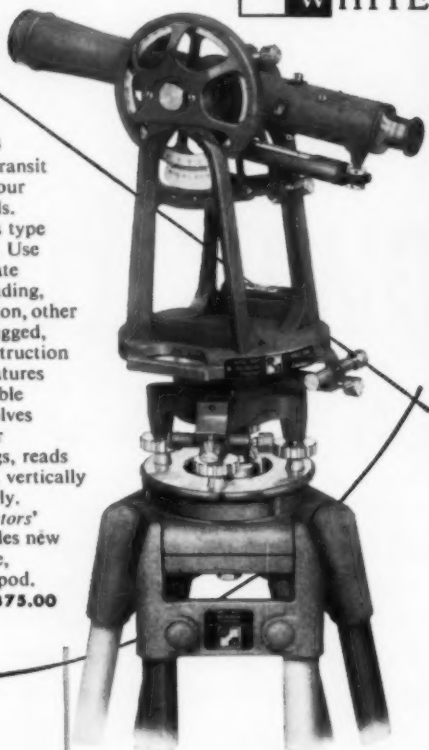

Made only by SKIL Corporation, manufacturer of famous SKIL and SKILSAW products, 5033 Elston Avenue, Chicago 30, Ill. In Canada: 3601 Dundas Street West, Toronto 9, Ontario.

Builders and contractors know...
THE SIGHT IS RIGHT WITH A

DAVID  WHITE

FOR CONTRACTORS

A brand new transit designed for your particular needs. Only one of its type on the market. Use for fast, accurate surveys for grading, road construction, other major jobs. Rugged, simplified construction with all the features you need: double centering, revolves 360 degrees for reverse readings, reads to one minute, vertically and horizontally. *T8200 Contractors' Transit*. Includes new American-style, wide-frame tripod. *Retails for \$375.00

For Concrete Contractors—Determine differences in elevation, run lines for curbs, plumb walls, lay out angles. New streamlined styling. *T8007 Light Construction Level-Transit*. Tripod included. Retails for \$89.50.

For Excavators—For determining grade, setting out building stakes, running lines, sloping drainage ditches. *T8114 Builders' 12-Inch Dumpy Level*. Includes new American-style, wide-frame tripod. *Retails for \$169.50.

For Builders—Heavy-duty instrument for building construction. Use to align piers, plumb walls, level floors, lay out foundations and drain tiling. *T8300 Universal Builders' Level Transit*. Includes new American-style, wide-frame tripod. *Retails for \$217.00

Write today for your free David White surveying instrument catalog.
*The T8200, T8300 and T8114 may be purchased at 10 per cent down at your lumber, building supply or hardware dealer.

2-in. gypsum block	9½	Masonry, ashlar, limestone, oolitic	135
3-in. gypsum block	10½	Marble	173
4-in. gypsum block	12½	Sandstone	144
6-in. gypsum block	18½	Timber, cypress, southern	32
2-in. solid plaster	20	Timber, fir, douglas	34
		Timber, oak, red or white.....	45
		Timber, pine, southern yellow	39
		Timber, redwood	28
		Timber, spruce, red, white or sitka.....	28

ESTIMATING MATHEMATICS

LONG MEASURE

12 Inches.....	1 foot
3 feet.....	1 yard
3 1/2 yards.....	1 rod
40 rods.....	1 furlong
8 furlongs.....	1 sta. mile
3 miles.....	1 league

SQUARE MEASURE

144 sq. Inches.....	1 sq. ft.
9 sq. ft.....	1 sq. yard
30 1/4 sq. yds.....	1 sq. rod
40 sq. rods.....	1 rood
4 roods.....	1 acre
640 acres.....	1 sq. mile

SURVEYOR'S MEASURE

7.92 Inches.....	1 link
25 links.....	1 rod
4 rods.....	1 chain
10 sq. chains or 160 sq. rods.....	1 acre
640 acres.....	1 square mile
36 sq. miles or 6 miles sq.....	1 township

CUBIC MEASURE

1,728 cubic inches.....	1 cubic foot
128 cubic feet.....	1 cord wood
27 cubic feet.....	1 cubic yard
40 cubic feet.....	1 ton shpg.
2,150.42 cu. ins.....	1 stand. bushel
268.8 cu. in.....	1 standard gal. liquid
231 cu. in.....	1 standard gal. liquid
1 cubic foot.....	about 4/5 of a bushel
1 perch. A mass 16 1/2 ft. long, 1 ft. high and 1 1/2 ft. wide, containing 24 3/4 cu. ft.	

MEASURES AND WEIGHTS

APPROXIMATE METRIC EQUIVALENTS

1 decimeter.....	4 inches
1 meter.....	1.1 yards
1 kilometer.....	5/8 of mile
1 hectare.....	2 1/2 acres
1 stero. or cu. meter.....	1/4 of a cord
1 liter.....	1.06 qt. liq. or 0.9 qt. dry
1 hektoliter.....	2.8 bushels
1 kilogram.....	2.2 pounds
1 metric ton.....	2,200 pounds

METRIC EQUIVALENTS—LINEAR MEASURE

1 centimeter.....	0.3937 in.
1 decimeter.....	3.937 in. or 0.328 ft.
1 meter.....	39.37 in. or 1.0936 yards
1 dekameter.....	1.9884 rods
1 kilometer.....	0.62137 mile
1 inch.....	2.54 centimeters
1 foot.....	3.048 decimeters
1 yard.....	0.9144 meter
1 rod.....	0.5028 dekameter
1 mile.....	1.6093 kilometers

WEIGHTS

1 gram.....	0.03527 ounce
1 kilogram.....	2.204622 lbs.
1 metric ton.....	0.9842 English ton
1 ounce.....	28.35 grams
1 pound.....	0.4536 kilogram
1 English ton.....	1.0160 metric tons

AVOIRDUPOIS WEIGHT

27 1/2 grains.....	1 dram
16 drams.....	1 ounce
16 ounces.....	1 pound
25 pounds.....	1 quarter
4 quarters.....	1 cwt.
2,000 lbs.....	1 short ton
2,240 lbs.....	1 long ton

DRY MEASURE

2 pints.....	1 quart
8 quarts.....	1 peck
4 pecks.....	1 bushel
36 bushels.....	1 chaldron

LIQUID MEASURE

4 gills.....	1 pint
2 pints.....	1 quart
4 quarts.....	1 gallon
31 1/2 gallons.....	1 barrel
2 barrels.....	1 hogshead

ACREAGE AND AREAS

ACRES	ONE SIDE SQUARE TRACT	AREA
1/10	66.0 lin. ft.	4,356 sq. ft.
1/8	73.8 "	5,445 "
1/6	85.2 "	7,260 "
1/4	104.4 "	10,890 "
1/3	120.5 "	14,520 "
1/2	147.6 "	21,780 "
3/4	180.8 "	32,670 "
1	208.7 "	43,560 "
1 1/2	255.6 "	65,340 "
2	295.2 "	87,120 "
2 1/2	330.0 "	108,900 "
3	361.5 "	130,680 "
5	466.7 "	217,800 "

MENSURATION

Area of a square = length x breadth or height.
 Area of a rectangle = length x breadth or height.
 Area of a triangle = base x 1/2 altitude.
 Area of parallelogram = base x altitude.
 Area of trapezoid = altitude x 1/2 the sum of parallel sides.
 Area of trapezium = divide into two triangles, total their areas.
 Circumference of circle = diameter x 3.1416.
 Circumference of circle = radius x 6.283185.
 Diameter of circle = circumference x .3183.
 Diameter of circle = square root of area x 1.12838.
 Radius of a circle = circumference x .0159155.
 Area of a circle = half diameter x half circumference.
 Area of a circle = square of diameter x .7854.
 Area of a circle = square of circumference x .07958.
 Area of a sector of circle = length of arc x 1/2 radius.
 Area of a segment of circle = area of sector of equal radius—area of triangle, when the segment is less, and plus area of triangle, when segment is greater than the semi-circle.
 Area of circular ring = sum of the diameter of the two circles x difference of the diameter of the two circles and that product x .7854.
 Side of square that shall equal area of circle = diameter x .8862.
 Side of square that shall equal area of circle = circumference x .2821.
 Diameter of circle that shall contain area of a given square = side of square x 1.1284.
 Side of inscribed equilateral triangle = diameter x .86.
 Side of inscribed square = diameter x .7071.
 Side of inscribed square = circumference x .225.
 Area of ellipse = product of the two diameters x .7854
 Area of a parabola = base x 2/3 of altitude.

Area of a regular polygon = sum of its sides x perpendicular from its center to one of its sides divided by 2.
 Surface of cylinder or prism = area of both ends plus length and x circumference.
 Surface of sphere = diameter x circumference.
 Solidity of sphere = surface x 1/6 diameter.
 Solidity of sphere = cube of diameter x .5236.
 Solidity of sphere = cube of radius x 4.1888.
 Solidity of sphere = cube of circumference x .016887.
 Diameter of sphere = cube root of solidity x 1.2407.
 Diameter of sphere = square root of surface x .56419.
 Circumference of sphere = square root of surface x 1.772454.
 Circumference of sphere = cube root of solidity x 3.8978.
 Contents of segment of sphere = (height squared plus three times the square of radius of base) x (height x .5236)
 Contents of a sphere = diameter x .5236.
 Side of inscribed cube of sphere = radius x 1.1547.
 Side of inscribed cube of sphere = square root of diameter.
 Surface of pyramid or cone = circumference of base x 1/2 of the slant height plus area of base.
 Contents of pyramid or cone = area of base x 1/3 altitude.
 Contents of frustum of pyramid or cone = sum of circumference at both ends x 1/2 slant height plus area of both ends.
 Content of frustum of pyramid or cone = multiply areas of two ends together and extract square root. Add to this root the two areas and x 1/3 altitude.
 Contents of a wedge = area of base x 1/2 altitude.

Mr. Home Builder:
if you can build a basement
you can earn...

on every Romar pool!

More than 55,000 private swimming pools will be built in 1958 and it's just the start in this rapidly expanding field. Some builders are forming subsidiary companies to engage in pool building in order to take advantage of income tax benefits. Romar's invitation to you is to "Come on in the profit's fine."

Builders everywhere are diversifying their business to protect themselves against the possibility of reduced residential construction. If you are among this group, **HERE IS YOUR OPPORTUNITY** to jump into the biggest boom since post war housing — the swimming pool.

Romar pools

EASIER TO SELL —

Low consumer cost, easy maintenance plus a superior, crystal-clear Romar filtering system, are an unbeatable combination to give you more sales... easier!

EASIER TO BUILD —

Within a matter of days, you can completely construct a Romar swimming pool from any one of four available sizes. If you can build a basement... you can build a Romar pool.

GIVES MORE PROFIT per dollar invested —

Direct factory to you prices make it possible to beat your competition on price and quality with Romar, and yet make **MORE** per dollar invested.

Romar offers a *complete* swimming pool package, nothing for you to do but sell and install.

Directory of Prefabricated Home Manufacturers

This section comprises a comprehensive directory of companies engaged in the manufacturing of Prefabricated Homes. Every effort has been made to include all manufacturers who distribute through builders or qualified dealers.

Information on each company has been compiled from the latest available at the time this issue went to press and any omission is unintentional. Every attempt has been made to standardize the data on each manufacturer giving only that information which is of interest to the builder, or prospective buyer, of prefabricated homes. Manufacturers are listed alphabetically by States to make it easier for the reader to find the plant in his locality.

For further information and literature direct all inquiries to the contact given at the address of the main plant. Please mention AMERICAN BUILDER.

This symbol indicates the manufacturer is a member of the Prefabricated Home Manufacturers' Institute, an association whose purpose is to establish high quality standards for the industry. For general information on the subject of prefabrication write: Prefabricated Home Manufacturers' Institute, 910 Seventeenth St., N.W., Washington 6, D. C.

WHERE ARE YOU HEADED IN HOME BUILDING?

UP?
DOWN?
OUT?

If your plans during the next few months are realistically geared to the market—fine! If not—look out!

Every builder is *hoping* for an upturn in home sales during the spring and summer months. But the builder who can *expect* it is the one who operates at top efficiency in *every* phase of his business. The one who spends *less time* with time-consuming details and *more time* in productive selling!

If you have any doubt whatever about *any* phase of

your building or selling program—whether it involves locating financing or finding the right merchandising tools—get the *full* story on the Harnischfeger Plan, and how it's helping other builders. A letter will bring you the facts—quick! Select dealerships available in Wisconsin, Illinois, Indiana, Ohio, Missouri, Iowa, Michigan, Minnesota, and northern Kentucky.

Beautiful Homes You Can Erect with Less On-Site Labor Cost

The Business That Builds the Homes: A mature organization, experienced in *every* phase of the building industry . . . equipped to precision-manufacture finest components . . . eager to counsel you on land planning, financing, erection principles, merchandising and advertising.

The Homes That Build the Business: Dynamic new houses, each research-tested for easier, more profitable erection . . . each bright with fresh new ideas to win sales over competition . . . each attesting to this fact: You'll do better to build *exclusively* with Stylecraft.

Each of these Stylecraft Homes provides 3 bedrooms, full bath and powder room. Each is available in crawl or basement models. Bedrooms all twin-bed size; oversize closets have mahogany folding doors. Choice of one and two-car garages, with or without large terraces under roof.

Write, wire, or phone in complete confidence for our free Stylecraft Homes information kit.

This index is an editorial feature, maintained for the convenience of readers. It is not a part of the advertiser's contract and American Builder assumes no responsibility for its correctness.

The Month Ahead

START THINKING "LOW COST"

Even this early in the year it's becoming obvious that low cost housing is going to be bigger than ever before. First, FHA section 203i is gaining new adherents, as you saw in the story on Jim Burke in the March issue of *American Builder*. And second, the new FHA down payment schedules are persuading an increasing number of builders to price their houses down closer to the levels where the new schedules really pay off.

Figure it out for yourself. A \$10,000 package takes just a \$300 down payment; that's almost as good as VA (remember it?) used to be. A \$14,000 house needs just \$1,000 down.

It takes work and efficiency to produce a good house at these levels, but the reward is a good market. Any planning you do in the coming months should take this into consideration.

NEW FHA SPECS

The first installment of FHA's new Minimum Property Specifications is due out early in April, and *American Builder* will cover them for you in an early issue.

There's more than normal interest in the new specs. For the first time, builders themselves have had a real voice in putting them together. Both the National Association of Home Builders and the Prefabricated Home Manufacturers Institute have had an opportunity to read and comment on the specs before they are published. And according to Neil Connor, head of FHA's architectural division, these comments are receiving the most careful consideration.

SPOTLIGHT ON BRICK

Also next month, we'll show you the new SCR Masonry Process for laying brick. With it, masons have handled better than 1,000 bricks a day. 'Nuff said.

Spring is for remodeling

Spring is the season that brings the birds back North, and the bears and remodelers back out of doors. Granted, April is a little early to start tearing the walls out of houses; you could still freeze out your clients. But it certainly isn't too early to start merchandising your remodeling services.

At the risk of repeating ourselves, we want to emphasize that selling remodeling must be done on an individual basis. The family that doesn't have a screened-in porch may not care, and will continue not to care until you knock on his door and tell him how much he needs it.

A merchandising program, whether it's a full newspaper barrage or just a postcard mailing, takes time to bear fruit. And then there will be dickering and estimating time, too. Start now, and you'll be on your way to a full schedule when warm weather hits.

Next month—the big sell

While we're on the subject, merchandising will be the big story in the May issue of *AMERICAN BUILDER*. We'll take you all the way from the first whisper to the final signing, with case histories of builders who have proved they can sell houses. It's an issue you should pay extra special attention to.

It was a bad winter—don't you forget it

April sunshine will be a more than welcome sight this year to those who spent a good part of the winter under three feet of snow (and this includes some builders in the sunny South). Now, with nothing more than acres of mud to contend with, you can start building houses again. But first, here's a suggestion.

If you could start the winter over again, there are lots of things you could do to lessen the grief it brought you. While the whole chilly mess is still fresh in your mind, take a notebook and write down all of these things you can think of. Maybe you'd finish just some shells, so your crews would have a place to work when the outdoors got impossible. Maybe you'd put in some foundations before the ground froze up. This would tie up some working cash, but look at it as insurance. It might save you many times what it cost.

Now put that notebook where you'll find it around next October. We'll have winter building ideas for you then too, but there's nothing like personal experience to jolt your memory.

Buyers shop for this valuable extra . . .

New "Berylstone" Vinyl Flooring by Gold Seal®

For tract units or custom jobs, you'll sell faster with new Berylstone® paving the way. Beautiful for bedrooms. Practical for kitchens. Wherever you use it, this new vinyl makes a terrific impression. "Berylstone" is different . . . smart! This Gold Seal® Nairon® Standard plastic is a rugged vinyl, too. Its pattern goes deep down, so it keeps its new look for ages. An exclusive Gold Seal finishing process gives "Berylstone" a unique surface gloss and smoothness that's especially easy to maintain. And there's no lining felt needed. "Berylstone" — both tile and yard goods — has its own under-cushion for added quiet and comfort. And it fully meets FHA Title I requirements. See "Berylstone" today!

FOR THE LOOK THAT'S YEARS AHEAD

Bring beauty and modern efficiency to the kitchen

The practical homemaker thrills at the ease with which cabinet doors operate with fingertip control. A cabinet and drawer space saves time and precious space in the daily kitchen routine.

A place for everything and everything in its proper place is housekeeping at its best. The beauty of the lustrous finishes on the hardware reflects a sparkle of cleanliness. Installation and operation are quite simple. Your family will appreciate all of these features.
