Hello Everybody!

Sep 25 Raleigh

<-**TMH Modernist Home Tour**, Saturday, September 25, 1-430pm, featuring nine incredible houses from the mid-century 1950's through just-completed Modernist homes of today. With an emphasis on **green sustainability**, our famous free bus shuttles stop in front of each house every nine minutes! There is no clogging streets with traffic, no annoying the neighbors, no getting lost, no finding a place to park! And, best of all, photography is allowed everywhere on the tour. Here are two of the nine to whet your appetite:

(left) Laurent Decomarmond's modernist renovation in Cameron Village, and (right) one of Raleigh's greatest classics, The Milton Small House on Lake Boone Trail, designed by Milton Small and built by Frank Walser.

Tickets will be available online at TMH and other area ticket outlets starting June 15th -- stay tuned as we disclose more houses, volunteer opportunities. Our wonderful sponsors include Beyond Blue, Preservation North Carolina, Ambiente International, NCSU Gregg Museum of Art and Design, Center Studio Architecture,

PRICE DROPS

1958 - The Margie and Julius Goldstein Residence, [447 Merwick Circle](#), Charlotte. Architect: Al Cameron, who worked for Odell Associates but designed houses on the side. Built for current owners. For sale, \$400,000 down from \$450,000, [here](#).

1959 – The Bobby and Beverly Raskin Residence, [901 South Howard Circle](#), Tarboro NC. Designed by Bobby Griffin. 4 br 3 ba 2807 sqft. Overlooks Hendricks Creek, fireplace, recreation room, wet bar, new carpeting, and screened back porch. 1.17 acre lot. Has been on the market for several years.

1964 - The Leonard Asher Edwards Residence, [301 Glen Oak Drive](#), Goldsboro NC. Designed by Milton Small. Landscape design by [Lewis Clarke](#). Construction by Robert Helms. The kitchen cabinets, study paneled walls and book shelves, wet bar, etc are solid walnut. Edwards' son, Eddie, recalls moving in when he was seven years old. He remembers making trips to Raleigh to meet Milton Small at both his office and home on Lake Boone Trail. "I recall Mr. Small being adamant that the wood grains consistently match from one cut to the next. Additionally, I remember the builder did not use the specified thickness for flagstone flooring. Mr. Small made the builder tear out the flagstone and replace it with the proper thickness. The exterior siding was imported from Belgium. It took a little over a year to construct the house and the cost in 1963 was \$117,000." That was a fortune back then. Sold in 1979 to Samuel Samuelson. Sold around 1997 to current owner Mike Pate. Has been empty for several years.

Kind regards,

George
