DLK Architecture

Tues., November 5, 5:30 p.m.
410 S. Michigan Ave., Suite 400
Sponsor: Design Committee

Diane Legge Kemp, FAIA presents the work of her firm. Limited to 20 people. The presentation is credited with three CES learning units. RSVP using form at right.

Frederick Phillips & Associates

Wed., November 6, 6:00 p.m.
AIA Chicago
Sponsor: Young Architects Committee

Join Frederick Phillips, FAIA for a roundtable discussion of his work and practice philosophy. The program is credited with three CES learning units. RSVP using form at right.

Career Day '96

Sat., November 9, 8:30 a.m.
Art Institute of Chicago
(Columbus Drive entrance)
Sponsor: Chicago Consortium for Construction and Design Careers

AIA Chicago president John Syvertsen will be the keynote speaker for the 1996 Career Day, a half-day program for high school and college students interested in careers in architecture, interior design and construction management. The event is free and open to students, parents, teachers and counselors. Reservations required. For information and a program brochure, call AIA Chicago at 312/670-7770.

**AIA Chicago on the Internet:
www.aiachicago.org.**

Chicago's Master Transportation Plan

Tues., November 12, 5:30 p.m.
Chicago Cultural Center, 78 E. Washington St., second floor
Sponsors: Planning and Urban Affairs and Environment Committees

Thomas Walker, commissioner of the Chicago Department of Transportation, reports on the city's master transportation plan, its priorities, and its support for neighborhood development. The program is credited with three CES learning units. RSVP using form at right.

How Clients See the Corporate Architect

Tues., November 12, 6:00 p.m.
AIA Chicago
Sponsor: Corporate Architects Committee

Members of the Corporate Architects Committee host an open forum about clients' views of corporate architects. RSVP using form at right.

Planning Session: Working With an Architect

Fri., November 15, 12:00 noon
AIA Chicago
Sponsor: AIA Chicago

Leaders of the Working With an Architect seminar are invited to a lunch meeting to plan the future of the free public program series. AIA Chicago initiated this program in 1995 to introduce potential residential clients to the benefits of hiring an architect for home improvement or new construction projects. Architects who are interested in joining the program, which includes training on presentation and public speaking skills, are invited to attend. RSVP using form at right.

■ **The Environmental Knowledge Base Advisor**

Tues., November 19, 6:00 p.m.
(business meeting at 5:30 p.m.)
AIA Chicago

Sponsor: Committee on the Environment

Thomas Napier is responsible for conducting research in environmental sustainability for facilities design, construction, and operations at the U.S. Army Construction Engineering Research Laboratories in Champaign. He is developing a personal computer-based Environmental Knowledge Base Advisor (EKBA). The software will be compatible with existing software environments such as CADD, energy analysis, cost estimating, and IAO exposure tools. The lecture will give an overview of EKBA. The program is

credited with three CES learning units. RSVP using form on page 3.

■ **1996 Lecture Series Finale: Chicago 2020**

Wed., November 20, 5:30 p.m.
Chicago Cultural Center, 78 E. Washington St., second floor theater
Sponsor: AIA Chicago

How can we describe the foundations for a new Burnham Plan and address the question: Will the center hold? A presentation on the process for imagining the future.

■ **Sealants Part II**

Thurs., November 21, 12:00 p.m.
Chicago Bar Association, 321 S. Plymouth Court

Cost: \$8.50, includes lunch; purchase ticket in first floor membership office before proceeding to designated room
Sponsor: Technical Committee

The second of two seminars on sealants, their uses and causes of failure. The program is credited with three CES learning units. RSVP using form on page 3.

■ **Surviving in the '90s**

Thurs., November 21, 5:30 p.m.
SMED International, 344 W. Hubbard St.
Sponsor: Interior Architecture Committee

A second annual panel discussion with representatives from the architectural and interiors communities about our fiscal state of affairs. Panelists will include: professional engineers, architects, interior

NO MATTER HOW HARD THE WINDS OF RISK BLOW, CHICAGO-AREA ARCHITECTS HAVE TEN PILLARS OF SUPPORT.

ANNOUNCING THE NEWLY EXPANDED ANDERSEN COMMERCIAL GROUP.SM

It's a team of ten commercial window specialists dedicated to helping you reduce the risks of the world you work in. And it puts the resources of the entire Andersen Corporation at your disposal.

Call Brian Musselman, your Chicago pillar, at (312) 464-1805. His new 1500 square foot Andersen showroom in the Merchandise Mart will keep you out of the wind. Or call any member of the Andersen Commercial Group. 1-800-299-9029.

designers, brokers, general contractors, clients, millworkers and furniture manufacturers. RSVP using form on page 3.

■ Saving Money on Employees: Keeping People Happy While Keeping Costs Down

Tues., November 26, 5:30 p.m.
AIA Chicago

Sponsor: Office Practice Committee

AIA Chicago is very pleased to host a seminar offered through the AIA Trust which offers a series of programs available only through AIA components. Thomas O.S. Reid, from ADP/WTR Consulting Group, an employee benefits consulting firm will present this interactive seminar. Designed for firm owners and principals,

this program will be beneficial to employees as well. The learning objectives for this seminar are: (1) an understanding of the total compensation picture; (2) knowing the profitable uses of life and disability coverage; (3) means of managing health care, including managed care, wellness programs, and flexible spending accounts. The program is credited with four CES learning units. RSVP using form on page 3.

■ Capital Development Board's A/E Manual Update

Two Dates!

8:30 a.m., Friday, November 1
Arlington Park Hilton, Euclid Avenue at
Rohlfing Road, Arlington Heights
or

8:30 a.m., Friday, November 15
Hilton Hotel, 700 E. Adams St.,
Springfield
Co-sponsor: AIA Illinois

A seminar designed for project team members and will benefit principals and senior level architects in firms involved with Capital Development Board projects. The full-day workshop is offered on two different dates, in different locations. Space is limited for both. Registration is \$85 for the first registrant of a firm; \$75 for each additional registrant. The fee includes materials, breakfast, lunch and snack breaks. AIA members will receive 13 learning units of AIA/CES credit. For more information or to register, call the Illinois Society of Professional Engineers at 217/544-7424.

EUCLID

**We have Big Plans
for your Small Firm**

AIA Chicago 401(k) and Profit Sharing Association Plan

IRS compliance is a key factor in the cost of pension plan administration costs.

By combining smaller firms together in a larger group, the costs will be lower. That is exactly what the AIA Chicago 401(k) and Profit Sharing Association Plan did. Euclid and Sandner & Emering developed a plan that will allow smaller employers to offer the same options as their larger counterparts. The annual charges are the following:

\$500.00 per firm

\$33.50 per participant

These charges include everything for a "turn-key" pension plan... filings, 5500's testing, investing, reporting, bookkeeping...

For more information, please contact :

Jim Lorenz at 708 833-1000

Euclid Insurance Agencies, Inc.

977 Oaklawn Avenue, Elmhurst, IL 60126

James Nagle, FAIA and his wife, Ann, arrive at the Design Awards with their daughter Kathleen Nagle, AIA and son-in-law Ralph Johnson, FAIA. Mr. Nagle and Mr. Johnson won 1996 Distinguished Building Awards.

Record Number Attend Annual Design Awards

Well over 600 members and guests attended the 1996 Design Excellence Awards on Friday, October 4 to honor this year's winners (*Focus: Architecture Chicago*, October 1996) and to hear a keynote address by Cynthia Weese, FAIA. Thirty awards were given in four categories, including Distinguished Building, Interior Architecture, Unbuilt Design and Twenty-five Year Distinguished Building Honor Awards were presented to Perkins & Will for a laboratory building at Ohio State University and Eckenhoff Saunders Architects Inc. for the Unicom Thermal Technologies Plant at State and Adams streets in Chicago.

AIA Mails Continuing Education Transcripts

On October 15, the AIA/Continuing Education System (AIA/CES) records office at the University of Oklahoma

mailed individual AIA/CES transcripts to all members who had learning units recorded before September 15. Those members who do not yet have learning units reported received a letter reminding them of the continuing education requirement and the December 1997 deadline. AIA Chicago members who have questions about their transcripts can contact the AIA/CES Records Office at 800/605-8229.

To access your transcript on AIA Online:

On the Internet, go to www.aiaonline.org. Click on "Logon to AIAOnline." Type your ID number and password, click send. Click on "AIA Access." Click on "Continuing Education." Click on "CES Transcripts." In the area "Enter Search String," enter your national AIA member number. Click on "Boolean Search." When the message indicating "1 report found" comes up, click on it.

ArchiPages Deadline Nears

The final deadline for returning firm questionnaires for inclusion in the 1997 *ArchiPages* is November 15. In addition to the thousands of copies mailed to AIA members in Illinois, AIA Chicago distributed over 700 *ArchiPages* to local libraries and potential clients. Don't miss this opportunity to market your firm in Illinois' most complete directory of architectural firms, members, consultants, products, and services. For information, call Mark Crossley at 312/670-7770.

Project Manager Salaries Rise in the Past Year Survey Reports

Median salaries for the highest paid project manager in design and construction organizations now stands at

\$60,000, unchanged from 1995 according to the 1996 *Project Management Survey* conducted by the Association for Project Managers (APM). Salaries of the lowest paid project manager rose \$3,000 to \$43,000. This was an increase of 7.5 percent over 1995. For the entire sample, median salaries of \$50,000 with a range of \$30,000 to \$100,000 were found. The overall experience level of project managers rose from 10 years (median) in 1995 to 12 years currently. The 22-page 1996 *Project Management Survey* is available for \$25. Contact the APM at 312/472-1777.

Building Department Streamlines Permit Process

In September, the Department of Buildings combined the building and electrical permit process. This change,

according to Commissioner Cheryl Thomas, is part of a two-year effort to streamline the approach to permitting.

Previously, when customers planned to do electrical work they were required to obtain both a building permit and a separate permit for electrical work. Under the new system, all applications for building permits must be accompanied by an electrical wiring permit application which has been completed and signed by a licensed supervising electrician.

When the planned work involves wiring a new building or rewiring, rehabbing or remodeling an existing building, the electrical permit application must be submitted in conjunction with the application for the general building permit in room 800 of City Hall.

Licensed electrical contractors can obtain wiring applications in room 803. Electrical contractors won't receive a separate permit for electrical work. Instead, authorization to proceed with electrical work will be granted under the single building permit.

Building and electrical permit applications must be accompanied by all required plans and load calculations dictated by various sections of the Chicago Electrical Code. The building permit applicant is responsible for ensuring these requirements are met. All electrical fees will be included in the final cost of the building permit.

The only exceptions to the merged process requirements will be those building permit applications which don't involve the installation or alteration of electrical wiring or equipment. Applications for permits involving electrical work only will continue to be received and processed by the Bureau of Electrical Inspection on the standard wiring permit application.

**"Last week the job market got more competitive. Twelve professionals learned CAD at The CFA/CADD TRAINING CENTER.™
Now it's your turn to catch up."**

Why Consulting For Architects for CAD training?

Exceptional Learning Environment

- **Small Class Size:** An average of 4 students per class in an intimate learning environment • Taught by state-licensed instructors • Curriculum supports design and construction professionals including architects, engineers, interior designers and the building trades.
- **Multiple Software Packages and Platforms Taught:** AutoCAD, AutoVision, 3D Studio, form Z, Microstation, DataCAD, MiniCAD, ARCH-T, AutoArchitect, and many others • DOS, WINDOWS 95, and MAC.
- **Flexible Schedule and Locations:** Morning, afternoon, evening, and weekend sessions at your office or our convenient state-of-the-art downtown classroom facility - close to work, accessible by car and "L" • Our facility is handicapped accessible.
- **Customized Training:** Our instructors are all current practitioners • Hands-on curriculum based exclusively on professional practice methods • Optional training by the hour.
- **Accelerated Instruction:** No need to wait one year or even one semester to become more marketable • Learn basic CAD in twenty hours • One to five week programs available • A full range of intermediate, advanced and management level courses are offered as well.
- **Three Months Free Lab Time:** Each class includes practice time in our completely updated computer lab • Reinforce what you have learned, or prepare a project for a job interview.

Superb Educational Credentials

- **Autodesk Premier Training Center:** As the producer of AutoCAD, the world leader in computer-aided design software, Autodesk Training Centers maintain the most rigorous and comprehensive educational programs; providing training of the highest quality for the widest range of professionals within the design industry.
- **Licensed by the Illinois State Board of Education:** The CFA/CADD Training Center™ is fully accredited as a private school. Our facilities and instructors must comply with strict standards of excellence, audited and monitored on an annual basis.
- **AIA/CES Provider:** Our program meets American Institute of Architects Continuing Education System Quality Level 3 criteria. Participants earn 60 LU's (learning units) for each 20-hour course.

Helmut Jahn, FAIA to Keynote Professional Excellence Awards on December 3

by Susan Nelson

The well-traveled Helmut Jahn, FAIA will speak as part of AIA Chicago's Annual Meeting and Professional Excellence Awards Program on Tuesday, December 3. Focusing specifically on his firm's new international projects—from airports to office buildings—Jahn will reflect on the current state of world architecture.

Join the board of directors and fellow members at The Cliff Dwellers, 200 S. Michigan Ave. Enjoy the spectacular view from the 22nd floor of the Borg Warner building and explore the club's new home designed by Larry Booth, FAIA who integrated the original fireplace, furniture and artwork into the redesign.

The evening's events begin at 4:30 p.m. with a business meeting; the Professional Excellence Awards are presented at 5:30 p.m. A cocktail reception follows at 6:45 p.m. Invitations will be mailed to all members. For more information or to reserve a ticket, call the Chapter office at 312/670-7770. ■

Susan Nelson is editor of Focus. Comments about the newsletter can be sent to her attention at aiachgo@mcs.com.

Members Approve Smaller, More Effective Board

by John Syvertsen, AIA

On September 24, during a special meeting of the AIA Chicago board of directors, the membership voted to approve changes to the Chapter's by-laws. The changes are a direct result of the recent membership survey and set into motion a restructuring of the board of directors.

"The new board structure will improve continuity of leadership and clarify the role of board members," said president-elect Stephen Saunders, AIA. "By reducing the size of the board, we will increase its effectiveness and be able to move quickly on issues."

In May, a survey was mailed to all architect and full associate members of AIA Chicago to measure the members' level of satisfaction, to identify reasons members joined and reasons they remain a

member, to measure members' satisfaction with specific programs and activities, to measure the importance of specific programs and activities, and to solicit suggestions for new member services and programs.

The members told us they want AIA Chicago to promote the value of the architect, they need services and benefits delivered in different ways, and they are too busy for all but the most relevant programs

"As time becomes more precious to all of us, it's important to find specific ways members can participate," Saunders said.

In response to the member survey, completed in July and reported to you in the September issue of *Focus*, the board of directors endorsed changes to better serve the membership. At the board meeting on August 27, they voted to ask the membership to approve a restructuring of the board. Members approved the changes on September 24.

The goals of these changes are to 1) focus on large issues of common concern to the whole membership; 2) target programs and services to specific groups of members by needs and location; 3) provide opportunities for participation beyond committees. In addition, they will reduce turn-over on the board, thus building expertise at the board level on issues such as promotion, government affairs, and the ever-changing needs of members.

At the meeting, committee chairs voiced a commitment to continuing communication with the board and asked that open communication remain a priority. Members expressed a desire for the board, although smaller, to remain diverse to reflect the Chapter's membership. ■

The membership and the board of directors of AIA Chicago have grown steadily since 1954 when the officers and directors (pictured here) totalled only nine. Standing from left to right: Walter Sobel, FAIA; Levon Seron; Jim Wares; Howard Fischer; Lee Mielke; Sam Lichtman; Bill Bachman. Seated: Phillip Will, vice president and president, Alfred Alschuler, FAIA.

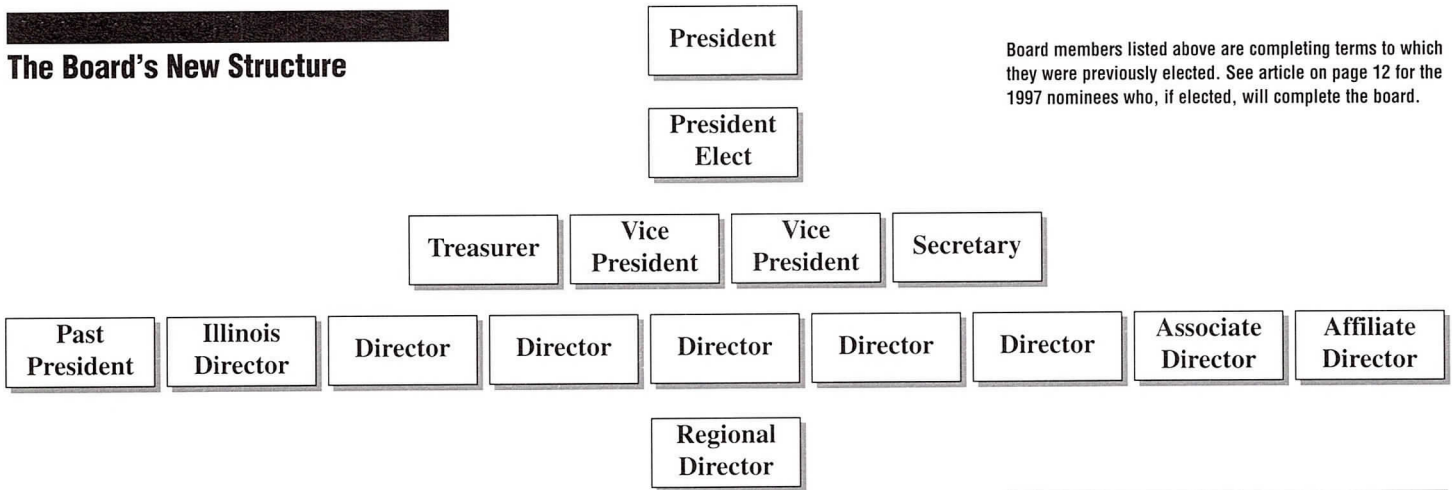

John Syvertsen, AIA is the president of AIA Chicago. He is a principal at OWP&P.

Board Members in Place for 1997

<i>Stephen Saunders, AIA</i>	President
<i>James Jankowski, AIA</i>	Treasurer
<i>Hill Burgess, AIA</i>	Director
<i>Doug Garofalo, AIA</i>	Director
<i>Harold Olin, FAIA</i>	Director
<i>Holly Gerberding, AIA</i>	IL Director
<i>Gaines Hall, FAIA</i>	Reg. Director

Board members listed above are completing terms to which they were previously elected. See article on page 12 for the 1997 nominees who, if elected, will complete the board.

The Board's New Structure

State Delegates in Place for 1997

Holly Gerberding, AIA
Richard Fencil, AIA
Kevin Hall, AIA (alternate)

AIA Illinois delegates listed above are completing terms to which they were previously elected. See article on page 12 for the 1997 nominees.

Previous Board Structure

The **executive committee** of the board of directors consists of the president (one-year term), president-elect (one-year term), two vice presidents, a secretary and a treasurer (all for two-year terms).

The current board structure includes **six directors-at-large**, each serving a two-year term, and **eight directors** selected from committee chairs. The directors serve for one-year.

Two directors each representing the concerns of associate and affiliate members respectively are elected to one-year terms.

The immediate past president sits on the board of directors.

An AIA Chicago delegate to the AIA Illinois board serves as a **director-at-large** on the AIA Chicago board.

The AIA regional director serves as an **ex-officio director**.

There are **25 members** of the board of directors.

New Board Structure

Remains the same.

Five directors are selected based on experience with and interest in the primary issues of concern to members. These directors will be elected to three-year terms. Committees are redeveloped into Professional Interest Areas (PIA). PIA chairs report to the board of directors quarterly.

The **associate director** and **affiliate director** serve three-year terms.

Remains the same.

Remains the same.

Remains the same.

There are **16 members** of the board of directors.

Nominees to the 1997 Board of Directors

The following candidates are submitted to the membership by the AIA Chicago nominating committee. The election of officers and directors will take place at the annual meeting on Tuesday, December 3 (see related story on page 9).

director of the firm's newspaper group and Tom Rossbach vice president of its aviation group.

Thomas Stat has joined **Perkins & Will** as principal and director of marketing. Most recently, he was vice president of Asian operations for Lohan Associates. Stat is a graduate of Boston University and the Rhode Island School of Design and Stanford University.

Harper Richards, founder of Hague Richards (now Loebel Schlossman & Hackl/Hague Richards), died on September 26 at the age of 88. Richards designed Abbott Laboratories' corporate headquarters and product packaging soon after opening his Chicago-based firm in 1944. Similar assignments followed for Beatrice Foods and the Cory Company for whom he invented the famous coffee servers still used today. Richards' clients included Blue Cross-Blue Shield; Smith, Barney & Company; and Freehling & Company. In 1987, already in retirement for 14 years, Richards designed a Hawaiian estate which won him an AIA Honor Award.

Maureen Reagan Architects' design for an office building for Opus North Corp.

Carol Ross Barney, FAIA has been appointed to the AIA's 1997 Jury of Fellows.

The national jury is chaired by Martha Wellborne, FAIA and includes: Fred Bland, FAIA; Peter Piven, FAIA; Edward Sovik, FAIA; Thomas Nathan, FAIA; and Kenneth Neumann, FAIA.

On September 30, RTKL Associates announced the opening of its Chicago office at 515 N. State St. **Jerry Quebe, FAIA** and **James Allen, AIA** will join the firm as senior vice presidents and co-directors of the Chicago office. **Lisbeth Quebe** joins as vice president and firm-wide director of marketing.

Jeffery Wolfe, P.E., a professional affiliate member of AIA Chicago, has been appointed a principal and stockholder of Bard, Rao + Athanas Consulting Engineers, Inc. Wolfe will continue to manage the Chicago office.

The **Yas/Fischel Partnership** has relocated its office to the 10th floor of the First Chicago Bank building at 1063 Orrington Ave. in Evanston. In addition, the firm has added three staff members: Mark Bastian, who worked with Josef P. Kleihues on the Museum of Contemporary Art, and Jeffrey Peck, formerly of ASC Architects, join the firm as architects. Sarah Cashore has been hired to assist with marketing.

NEW PROJECTS

Dobrin + Associates Ltd. has been selected as park architect for Internationale Centre, a business park in Woodridge. The firm has also begun to design a third building in Buffalo Grove for Courtesy Corp., a manufacturer of plastic specialty items for the food and health

SOM's protective covering for Chagall's "The Four Seasons," opened in September to rave reviews.

care industries. The 276,000-square-foot, rail-served facility is designed with exposed aggregate and flat-stained precast concrete panels and blue reflective vision and spandrel glass.

The GAP Inc. has hired Fosnot/Pope & Associates to analyze the company's CADD operations, including the existing procedures for store project development. The evaluation will be used to develop a prototype CADD automation system. The Oak Brook-based architectural CADD services firm will present its developments to The GAP with a series of "real-time" computerized demonstrations later this year.

Groundbreaking ceremonies recently were held for a new 310,000-square-foot office building design by Maureen Reagan Architects (MRA) for Opus North Corp. in Downers Grove. After completing a master plan for

the 42-acre office park in which the building will be located, MRA designed the office building, a seven-story facility with a bowed entry and end. An interior boulevard around the building will link future office sites within the park. Occupancy is planned for October 1997.

Otis Associates will provide architectural services for the development of a town center for Lincolnshire. The center, which according to Otis Associates is influenced by Howard Van Doren's 1916 design of Lake Forest's Market Square, will be located west of the new town hall on 14.4 acres at the intersection of Olde Half Day Road and Milwaukee Avenue.

In September, Skidmore Owings & Merrill LLP's protective canopy for Marc Chagall's Chicago mosaic "The Four Seasons" was unveiled in The First National Bank of Chicago Plaza downtown. The design, with its main span of 90 feet, mullionless glass roof, and bronze cladding, is in harmony with the surrounding office

buildings and ensure the continued play of light on the mosaic.

Construction has begun on VOA Associates' television and radio broadcast teaching facility at the University of Illinois at Urbana-Champaign. Campbell Hall for Public Telecommunication, a 44,000-square-foot building clad in red brick with limestone features and a standing seam metal roof, is designed to complement the campus' traditional Georgian architecture. Bill Bradford, AIA, an alumnus of the university, is design architect.

PROFESSIONAL DEVELOPMENT

On Wednesday, November 6, architectural historian Kathleen Cummings will launch an exhibit of the Architecture of George W. Maher with a discussion and presentation of photographs by Judith Bromley. The exhibit will continue through January 9, 1997 at the Graham Foundation for Advanced Studies in the Fine Arts, 4 W. Burton Place. The lecture begins at 6:00 p.m. For information, call 312/787-4071.

George W. Maher's water tower in Fresno, CA (1893) is one of many projects featured in an exhibit at the Graham Foundation.

Judith Bromley

The Chicago chapter of the **Construction Specifications Institute (CSI)** is presenting an eight-week course beginning in February to prepare candidates for CSI's professional certification examination. Classes will be held from 5:30 to 7:00 p.m. at the offices of Perkins & Will, 330 N. Wabash Ave., Suite 36. There is no charge to attend the course. For more information, call Laura Young at Griskelis + Smith Architects, 312/645-0011. For examination dates, call CSI at 800/684-0300.

The American Center for Design (ACD) is sponsoring the fourth annual **Living Surfaces Conference: Design for the Internet** November 13 through 16 in the First Chicago Center at Dearborn and Madison streets. Speakers include designers, technologists, educators and corporation communications executives. Registration for ACD members is \$495; for non-members the fee is \$620 and includes a one-year membership. For a brochure, call 312/787-2018.

Eric Owen Moss will present his recent projects, including several works in Culver City, CA, at a lecture on Thursday, November 14 sponsored by the Architecture and Design Society. The presentation begins at 5:30 p.m. in the Rubloff Auditorium (Columbus Drive entrance) of the Art Institute of Chicago. For information, call 312/857-7166.

The *New Waterfront: A Worldwide Urban Success Story* will be released on November 13 in conjunction with the Waterfront Center's 14th Annual Urban Waterfronts Conference in Washington, D.C. The publication features 120 widely varied waterfront developments from around the world, including waterfront trails, greenways, brownfields, old docks and new developments. Jointly published by Thames and Hudson Ltd. and McGraw-Hill Inc., the book features 350 illustrations and sells for \$79.95.

A completely revised *Standard Method for Measuring Floor Area in Office Buildings* is available now from the Building Owners and Managers Association (BOMA). The new version utilizes a building-wide measuring method designed to fairly account for spaces that benefit all tenants such as entrance lobbies, conference centers, and daycare facilities. This is a major departure from previous editions which measured on a floor-by-floor basis. The new Standard Method is available by calling 800/426-6292. It is \$25 for BOMA members; \$35 for non-members.

Robert Murray, vice president of economic affairs for McGraw-Hill's Construction Information Group, and Erin Fossett of First Chicago Bank, will examine recent financial trends in the construction industry at the **Chicago Building Congress' economic forecast meeting** at 11:30 a.m., Thursday, November 21 at the Union League Club, 65 W. Jackson Blvd. Cost: \$45 for Chicago Building Congress members; \$55 for non-members. For reservations, call 312/294-9974.

CALLS FOR ENTRY

The Washington University School of Architecture in St. Louis is calling for entries to its fourth annual **Distinguished Alumni Awards**. Nominations of outstanding Washington University School of Architecture alumni who have excelled in their careers are being sought. A special category, the Young Alumni Award, will be given to an outstanding candidate who graduated from the School of Architecture within the last 15 years. Deadline for nominations is November 15. For a nomination form, call Faith Maddy at 314/935-5121.

OPTION 1

Temporary placement - CFA's total billing rate averages \$15 to \$45 per hour for entry to senior level staff. This price combines a fair market value for the temp's service (architects compensation) and fair market value for our service (CFA fixed fee) Our service includes recruiting, candidate interviewing, reference checking, and credit (cash flow financing) on weekly payroll. Also, our accounting department administers project time records, invoicing, accounts payable and collection. *This allows for risk-free, flexible, project-based staffing on an as-needed basis only.*

Ron Gordon Photography

Affordable housing designs, such as the West Washington Street Homes in South Bend, IN designed by Schroeder Murchie Laya, are on display at the Chicago Architecture Foundation as part of the Sheltered by Design exhibit.

Programs are now available for the 1996 Paris Prize in Public Architecture sponsored by the Van Alen Institute. This year's program is a proposal for a temporary building in Wall Street. Recent and prospective graduates (1988-1997) of U.S. architecture schools are

eligible. Submission forms are available by the following means: vanalen@designsys.com (e-mail); <http://www.vanalen.org> (web site); 212/924-7000 (phone); 212/366-5836 (fax); or VAI, 30 W. 22nd St., New York, NY 10010.

The American Consulting Engineers Council (ACEC) is calling for entries to the 1997 Engineering Excellence Awards Competition. Any firm engaging in the private practice of consulting engineering or land surveying is eligible to enter. Categories include: building and structures, support systems, environmental, and transportation, among others. A detailed program is available by writing the ACEC at 1015 15th St., N.W., Suite 802, Washington, D.C. 20005. Submissions are due on March 3, 1997.

VARIOUS MATTERS

Graham, Anderson, Probst & White is planning its 125th anniversary celebration for 1998. The firm is looking for former and retired employees who would like to share their memories of projects, partners, staff and operations. Please send letters to Graham, Anderson, Probst & White, 17 E. Erie St., Chicago, IL 60611.

The six-part *Chicago Tribune* series "Sheltered by Design" originally appeared from Sunday, June 18

"The leader in architectural recruiting and staffing"

through Friday, June 23, 1995. Written by architecture critic Blair Kamin and featuring photographs by Bill Hogan, the series showed "how architects, officials and residents can create public housing that works." The Chicago Architecture Foundation is sponsoring **Sheltered by Design**, an exhibit that interprets and illustrates the material covered in the newspaper series. The show includes photographs, renderings, and floor plans of low-income developments that have improved public housing across the country. The exhibition runs through January 31, 1997 in the atrium gallery at 224 S. Michigan Ave. Information: 312/922-3432

Archeworks, an alternative design school that applies all aspects of design to social issues, is hosting a **Design-Build as a Process of Thinking and Making** at 6:00 p.m., Wednesday, November 20 at the school, 1727 S. Indiana Ave. The guest lecturer is Clark Stevens. His presentation includes details about his work on the Lakota Nation University Campus, a project that follows Native American cultural principles. For information, call 312/913-0043.

On November 7, three of the 1995 Design-Wise winners discuss their award-winning projects at a kick-off event for the second annual **Design-Wise Competition**. Eileen Jones of Eva Maddox Associates presents her designs for the "World of DuPont" showroom; Ron Krueck and Mark Sexton of Krueck/Sexton Architects talk about their Northern Trust Bank of California; and Don Powell and Bob Kleinschmidt feature designs for a private residence in a Mies van der Rohe apartment building. Design-Wise committee members will answer questions about the 1996-1997 competition. Cost: \$5, at the door. The event is being held from 5:30 to 7:30 p.m. at the Chicago Architecture Foundation, 224 S. Michigan Ave.

CONTRIBUTIONS

AIA Chicago would like to thank Joe Krozel of **Merchandise Mart Properties**, Tom Cichy of **W.E. O'Neil Construction**, and Peter Mielach and Roger Jensen of **Mielach Woodwork** for their generous contribution of time, labor and materials for improvements to the Chapter's offices.
