We Make You Look Good.

American Awning and Patio has been Colorado's leading home improvement center since 1969. And when it comes to any type of residential, commercial or industrial installation we make you look good.

Canvas Awnings

Any type, size, shape and color of canvas awnings custom made to your specifications. Call for free estimates.

Andersen Windows

All types of Andersen Windows and gliding doors. Immediate availability. Free delivery. Fast installation.

Insulation

K-13, Celbar and Ure-K.

- Spray on thermal insulation
- Acoustical enhancement
 - Condensation control
 - Noise reduction
- By National Cellulose

Howmet Metal Roofing Systems

- Mansards, fascia and equipment screens
- Extruded and roll-formed wall panels
 - Canopies
- Walkway covers

"Some Solid Choices... for Today... and Tomorrow..."

If you're building today you're really building for tomorrow. You want to be sure that the materials you use will do the job. That is why Martin Marietta Cement offers you so many choices when it comes to cement. We know that every job makes special physical and chemical demands on the cement that is used. We can offer you the product that is best for your particular needs. Look at your specifications and then look at our choices of cement... You'll find exactly what you want in building for tomorrow.

MARTIN MARIETTA TYPE I: You'll choose this as a general purpose cement on those jobs which require no special treatment.

MARTIN MARIETTA TYPE II: This is a special purpose cement you'll want to use when the job calls for lower heat generation and moderate sulfate resistance. Type II, with a Tricalcium Aluminate (C₃A) content of 8.0% maximum, has most of the properties of Type I plus less volume change, better sulfate resistance, less bleeding or water gain, and improved durability.

MARTIN MARIETTA TYPE II MODIFIED: If you need still lower heat generation and higher sulfate resistance than offered in Type II, this is the product you'll want. With a C₃A content of 5.0% maximum, Type II Modified—maintaining the same high standards as Types I and II, with even less volume change, higher sulfate resistance, still less bleeding or water gain, and even greater durability.

MARTIN MARIETTA PRODUCT CEMENT: If you need a cement for concrete products, our product cement is what you're looking for. Specially designed, this high performance cement is fast setting and strong—just the thing for prestressed and precast concrete products, block, pipe and such specialty areas as shotcrete.

MARTIN MARIETTA MASONRY CEMENT: When you need a cement which complies with current specifications for both Type I and Type II Masonry cement, this is your answer. Our Masonry Cement has been designed and developed to accommodate the fast drying conditions typically found in the West.

Remember, special purpose cements should be used only after an accurate assessment of your requirements. We, at Martin Marietta Cement, will gladly help you with any technical assistance you may need.

If you're building for tomorrow, give us a call today... We have all the solid choices you'll ever need.

Send for our descriptive brochure on our various types of cement and their uses:

We can talk all day about the benefits of Manville's new technology in built-up roofing. Talk about how good, safe and pretty our Johns-Manville fiber glass shingles are. Point out the features of our gold fiber glass building insulation.

**If we can't
guarantee our
products,
who needs us?**

But none of it means a thing.

Not if you have the slightest question about the warranties and guarantees of Manville roofing systems.

For the past 124 years, Manville warranties and guarantees have meant a lot to our customers. They've been so good, they're considered the best the industry has to offer.

Now Manville has taken significant steps to assure our warranties and guarantees. We have established a third party Customer Assurance Trust Fund with one purpose—to pay bona fide claims if, for any reason, Manville can't.

We'll do everything we can to give our customers what they need in warranty and guarantee protection. If we don't, who needs Manville?

If you have the slightest question about our warranties and guarantees, question us. Write our President, Charles DeBiase, Manville Building Materials Corporation, Dept. F., Box 5108, Denver, CO 80217.

No one is looking harder at Manville than Manville.

(MEMBER: A.W.I. AND A.I.K.D.)

WE'LL MATCH YOU BRICK FOR BRICK.

When you're trying to remodel with finesse or create a new classic precisely, color selection, design freedom and service are essential.

At Robinson Brick we have 103 years of experience in one business —brick. Our staff will help you match our brick to an existing structure or find you that special color and texture that will ensure that your finished work is as you originally conceptualized it.

Robinson. With over 200 styles of brick, we can help you turn a building into a masterpiece.

The Longer We're Around, The Better We Look.
