IN THIS ISSUE:

- Design Conference
- GAC Report
- Centennial Committee

BOARD OF DIRECTORS:

President:	Kathryn L. Zeeb, AIA
President Elect:	Curtis W. Fentress, AIA
Secretary:	Peter Orleans, AIA
Treasurer:	Charles Brenner, AIA
Treasurer Elect:	Chick Lee, AIA
Past President:	Marvin Sparr, AIA
	Dennis Humphries, AIA
	Frank Wagner, AIA
	Wendy Thoresen, AIA
	Dean Ibsen, AIA
	Randy Swanson
Ex-Officio:	Professor Mark Gelernter
	Professor Peter Schneider
	Linda T. Smith, CAA

The AIA Field Report is published monthly by AIA Colorado, 1459 Pennsylvania Street, Carriage House, Denver, CO, 80203. The Field Report is a service provided free to members of AIA Colorado. Articles for publication should be submitted to Linda Smith, CAA, Executive Director. Your expertise on articles of interest to AIA members is encouraged. Deadline for newsletter material is the 20th of each month.

THE 1992 DESIGN CONFERENCE: "MAN IN HARMONY WITH NATURE" October 9-11, 1992

By Sam Caudill, FAIA

Architectural conferences in the past have consistently provided professional assistance to the attending conferees through the plenary sessions and workshops by answering the question "What can the American Institute of Architects do for me?" This time, at the AIA Centennial Conference, in October, the conferees will be challenged to say "What can I do to make this world a better and safer place to live?" This will be a 180 degree turn in conference philosophy. To complete this circle, this year's design conference will be casual -- "no ties allowed!"

The opening shot of our Centennial Year was fired on February 5, 1992, by our Governor, the Honorable Roy Romer, when he issued an Honorary Proclamation declaring 1992 as the "Year of the Colorado Architect." The Proclamation issued a challenge to all of us and it has been accepted. The gun is now being loaded for the second and last shot—a dynamic conference slated for October in the awe-inspiring Rocky Mountains surrounding Snowmass, Colorado.

This year's conference theme, Architecture/Environment... "Man in Harmony with Nature," will primarily address our stewardship of the land...what has been the result of our past experiences? What are we doing now? And, what will we be doing in the future in order to make this world a better and safer place to live? I've been afforded the privilege, as Program Chairman, to assemble the spectrum of opportunities that will be offered in October.

On Friday, October 9, the opening session will set the tone for the entire conference with a film outlining the theme. This theme film is graciously being sponsored by Charlie Farver of Aspen representing the Pella Corporation and is being produced by Dale Anderson of the Aztec Media Workshop in Aztec, New Mexico. Dale's credits are impressive, including interpretive films for the Mesa Verde, Bryce and Zion National Parks. The film will ultimately pose the question: "What must we do as Architects, Landscape Architects, Interior Designers, Planners, Engineers and Environmentalists to make this world a better and safer place to live?" Are we willing to accept the challenge!

(Contd. on Page 2)

During my two terms on the Colorado Wildlife commission from 1975-1983, my high priority was conservation education for the young: it still is. Our young people in the Snowmass/Aspen area will be involved in our October 1992 AIA Centennial conference. The kids at the elementary school level will show us their art work and poetry in a display at the conference center. They will show us their contribution to our theme—Architecture/Environment... "Man in Harmony with Nature."

Our speakers are simply the best! Speakers of international fame will be addressing the theme. One rarely has the opportunity to listen to Amory Lovins and Nat Reed at the same conference. They are only two of our many great presenters. Our speakers will consist of architects, interior planners, city planners, regional planners, engineers, contractors and physicists.

This conference will be one of mobility. The Conferees will not be anchored in one building for an entire weekend. At noon on Friday, the Conferees will be transported to Aspen where they will ride the gondola to the top of Aspen Mountain for a noon presentation. The opportunity to view Aspen and the surrounding Rocky Mountains from the gondola will truly be a magnificent experience. The gondola ride is being sponsored by Bob Maynard, President of the Aspen Skiing Company. Descending to Aspen, we will walk to the Wheeler Opera House, the Given Institute, or the Aspen Center for Environmental Studies for special sessions. Walking in Aspen will offer the opportunity to view interesting examples of local architecture as well as breathe deeply of that exhilarating October mountain air.

At the Wheeler Opera House, Ralph Trapani will offer a presentation highlighting the design/construction process of the Interstate 70/Glenwood Canyon Highway Project. Trapani is Project Manager of this engineering/environmental prototype! A session with Amory & Hunter Lovins will be held at this same time at the Rocky Mountain Institute -- their office and home at Old Snowmass. Amory and Hunter are the universal-ly recognized authorities on energy conservation.

Upon completion of the above sessions, the Conferees will return to Snowmass. On the rooftop deck of the Conference Center we will reconvene to hear Nat Reed offer impressions on the past, present and future planning in the Roaring Fork Valley from Glenwood Springs to Aspen. Nat Reed was assistant secretary of the U. S. Department of the Interior for Fish, Wildlife and Parks under the Nixon and Ford administrations.

A real plus is our contingent from Washington D.C. and Philadelphia. The 1992 President of the American Institute of Architects, Dean W. Cecil Steward, FAIA, is one of our honored speakers. Cecil is Dean of the College of Architecture at the University of Nebraska in Lincoln. Susan Maxman, FAIA, the 1993 President of the American Institute of Architects, from Philadelphia will welcome all conferees and Jim Cramer, Honorary AIA, and CEO of the American Institute of Architects from Washington D.C. will also offer a welcome.

My friends, it just doesn't get any better!

Plan your schedules to be in Snowmass and Aspen this year on October 9th and 10th, and believe me, the price is right. October is a great time to be in the Colorado Rocky Mountains!

We are expecting all of you: architects (students, associates and practitioners), landscape architects, interior designers, artists, planners, engineers, archaeologists, environmentalists...I say come one, come all!

October 1992 will be the culmination of many months of concentrated efforts by our Director, Linda Smith, CAA, her able assistant, Susan Carroll, the Centennial Committee Members and our AIA Colorado President, Katheryn "Kaki" Zeeb. ♦

UPCOMING EVENTS

- June 3** AIA Denver Interior Design Committee's Design Lecture Series continues with Textile Tactile: the design process of textiles with May Lyons, Design Tex Textiles. Call Steve Newman, RNL Design at 295-1717 or Tom Hoover, Gensler & Associates at 595-8585 for more information.
- June 12** Design Materials "International Gala" open house at 400 Quivas. Call 446-0780 for more information.
- June 18-19** "Design Theory: Designing Personal Rings and Patient Spaces" sponsored by the University of Colorado Health Adm. Alumni Assoc. pursues ideas on the leading edge of systems theory thinking. Participants will explore exciting new dimensions of general systems theory as they relate to development of personal rings and designing patient spaces. Contact Chuck Moses at (303) 794-4095 for more information.
- June 14-19** IDCA (International Design Conference in Aspen) offers DU credit hours. Two sessions of interest to Architects are as follows. Morning Session: "Philosophy of Architecture and Interior Design." Afternoon Session: "Historic Preservation." For registration information contact: University of Denver, Summer Session, 2199 S. Univ. Blvd., Denver, CO 80208, (303) 871-2360.

CALL FOR FELLOWS

The *Fellows Task Force* is actively working with the Colorado chapters to develop candidates for fellowship in 1993. Each chapter will submit their candidates' resumes in a mini-format for review and suggestions by the Task Force. A seminar for nominees and sponsors is being planned for July 15 at the Carriage House to aid the nominees in effectively completing the fellowship application. Task Force members include John Anderson, FAIA, Denver; DeVon Carlson, FAIA, Boulder; Sam Caudill, FAIA, Aspen; Dan Havekost, FAIA, Denver; Jerry Seracuse, FAIA, Denver; Norm Wirkler, FAIA, Colorado Springs; and John Rogers, FAIA, Denver (Chairman). Contact John Rogers (295-1717) if you have questions regarding Task Force activities. We are looking forward to the successful selection of a number of new fellows in Colorado.

Sink Combs Dethlefs is designing a \$2 million support facility at McNichols Sports Arena for Denver's Department of Theaters and Arenas. The facility, located on the north side of McNichols, will provide additional office and storage space required as a result of a 1986 renovation, also designed by Sink Combs Dethlefs. A new loading dock will be a "low profile" element of the facility, built into the east hillside. It will lessen the congestion at McNichols' south-end, backstage loading area. A tunnel will link the support facility with the arena.

Design Materials, Inc. proudly announces the opening of its spacious new showroom and warehouse located closer to downtown, at 400 Quivas. An "International Gala" invites the architectural community to an open house, June 12, 1992, 11:00 a.m. to 8:00 p.m. In addition to viewing the state-of-the-art showroom, attendees will be introduced to such notable visitors as Mr. Mino Baldini, the Executive V.P. for Graniti-Fiandre, from Castellano, Italy. The new phone number for Design Materials is 446-0780.

LOOK FOR:

"Edges" - 1992 Western Mountain Region AIA Convention will be held October 21-25, 1992 in Reno, Nevada. This year's focus is on speakers who are on the leading edge of their fields. Look for the video tape that will arrive at your local chapter within the next few months that will show Bally's, WMR convention hotel, and RENO "Come to Play."

CLASSIFIEDS

Wanted:

We buy old prints or linen originals of historic structures: prefer aerial tramways, mine mills, smelters, breweries, railway, streetcar or industrial buildings. Send particulars to Jeffrey L. Pecka, Systems Planning Group, 5973 E. Irwin Place, Englewood, CO, 80112. Phone (303) 770-0747. Leave message.

To place your ad here: \$20 per issue.

CHAPTER NEWS

DENVER CHAPTER

The Denver Chapter offered a firm tour of RNL on May 13, and the ARE seminars are continuing. The last breakfast seminar for the 1991-1992 season featured Michael Jacoby from the State Board of Examiners. We submitted an editorial to the Rocky Mountain News and the Denver Post on the urban qualities of 17th Street. We also assisted in sponsoring a national conference on the work of Frederick Law Olmstead on May 14-15. Membership was approved for 11 new members. Four firms were targeted for membership recruitment meetings: Hoover Berg Desmond, C. W. Fentress/J. H. Bradburn, Pouw, and Barker Rinker Seacat. Construction was held at Union Station, and was co-sponsored with SAA. Our Board Meeting was held on May 7 and was attended by Phil Gerou of WMR and Kaki Zeeb, President of AIA Colorado. The Nominating Committee met and developed a list of 14 names for WMR Award of Distinction. It was agreed that we would offer the rental of ADA tapes to firms and individuals. The Children in Architecture committee co-sponsored Box City at United Bank Center. Next month we will finalize the nomination process for Fellowship and WMR awards. The Interiors Committee mini-lecture series started on May 20 with Lighting Design and continues on June 3 with Interior Divergence. We are planning a summer house tour to focus on Lower Downtown. A luncheon to honor the past chapter presidents will be held on June 10, and a luncheon to honor Fellows in the chapter will be held on June 17.

COLORADO SOUTH CHAPTER

Officers have been elected by the new Pikes Peak Architecture Club, AIAS. They are Debbie Mauch, President, and Richard Norco, Vice President. Craig Luebbert has been appointed Associate/Intern Director of the South Chapter by the Board of Directors. On May 11, AIA representatives met with Lou Wynn to discuss a proposal by her to develop a curriculum program for junior high and high school students-- centered around a 1 week introduction to architecture. The education committee will work with her to obtain a grant or grants of approximately \$5000 which would be used to further develop the concept for grant applications which would fund the program. Lou has suggested that the program could become a state-wide project. Possible grant sources for the initial funding include the AIA Western Mountain Region and AIA Colorado. Funding for the full project could come from the NEA, AIA National, or Colorado gaming money for historic preservation. The Chapter will also be applying for a \$200 grant from the Western Mountain Region to fund their annual School District 11 Drafting program. Charlie Campbell and John Quest are serving on committees investigating the possibility of a convention center and/or sports arena in Colorado Springs. Proposed revisions to the by-laws will be presented to the Board of Directors at their next meeting June 11. Membership meetings include: a May 22 tour of the Federal Correctional Center, partially sponsored by Hensel Phelps and a June 25 home tour and luncheon. The Chapter is awaiting further input on the Resident Fellow program for late September in conjunction with the Member Art Show on September 24 and the Architecture Week events to follow.

WEST CHAPTER

Our April meeting was held in Grand Junction with a tour of the new Mesa County Justice Center (approx. 1 month from completion). The tour lasted 3 hours with a Chapter meeting at a nearby restaurant. Invitations were sent to all the local architects (AIA & non-AIA) with 16 people in attendance. We have started our review of the Model Bylaws and have appointed our incoming President Robert Ralston and our Secretary Glenn Carlsrud to review them and report back to us. Heidi Hoffmann was appointed to head up the committee on nominations for Fellowship from West Chapter. Our next Chapter meeting is scheduled for May 29 in Steamboat Springs. This will coincide with the local meeting of Steamboat Architects.

COLORADO NORTH CHAPTER

A CNC board meeting was held Wednesday, May 20th in Ft. Collins. The May Program Meeting was the "Annual 10 x 10 Program, held May 20th to coincide with the end of the membership drive. Presenters for this year's "10 x 10" included Ft. Collins architects Jim Cox, Bob Sutter and Frank Vaught and CSU interior design professor Larry Baumford, Estes Park architect Thomas Beck, Boulder architects David Barrett, Zed Johnson, David Paulson and John Williams, and French architect Dominique Gettliffe. Upcoming events include: A Summer Planning Meeting on June 17 in Longmont; AIA Film Night on July 15 at CU/Boulder; and the Summer Golf Party on August 7 in Ft. Collins.

GAC, AGAIN, SAVES THE ARCHITECTS

by Donald A. Bertram, Esq., AIA

A renowned jurist in Colorado has been quoted many times for a statement that "no man, woman, or child is safe in the state of Colorado while the legislature is in session." The Colorado legislature concluded the 1992 session and it is safe to say the architects remained relatively unscathed, in fact, their lot has been improved.

The above statement by the famous jurist is only partially true. The legislative session is 120 days, but during the remaining part of the year interim committee meetings are held. The representatives meet with constituents and develop legislation to be introduced the next year.

This was the case with House Bill 1080, sponsored by Representative Stan Johnson of Boulder prior to the start of the 1992 Legislative Session. Through the stealth-like tactics of our stalwart lobbyist, Jerry Johnson, the Government Affairs Committee was alerted to the fact that Rep. Johnson was planning to introduce legislation which would dilute and partially repeal the Tort Reform legislation that the AIA strongly participated in during the 1986 term. HB 1080 would have introduced partially joint and severe liability which would adversely affect architects and their insurance rates. Members of the Government Affairs Committee met with Rep. Johnson on several occasions to prophylactically discourage introduction of the bill as proposed. The meetings proved to be unsuccessful and the lobbying efforts of the Colorado Trial Lawyers Association was successful in getting Rep. Johnson to introduce HB 1080. The architects, engineers and many other factors of the community were properly prepared and were present at the first committee hearing on the bill. Excellent testimony was presented by the architects and engineers and the bill was defeated, despite the eloquent presentation of the American Trial Lawyers Association.

House Bill 1160 provided a mechanism for engineers and contractors to receive full payment for work provided on government projects, even though the entity may have overspent its authorized budget and funding. The Government Affairs Committee recommended the bill be amended to include architects. The bill was passed due to the efforts of the ACG.

The Government Affairs Committee continually works to enhance capital development funding, and provides assistance to many other pieces of legislation. It monitors and studies all the bills introduced to the Legislature. The bills are followed through the various committees and are discussed at the weekly Legislative Sub-Committee meetings. Discussions are lively and opinions are varied.

Ten years ago, AIA Colorado, then known as the Colorado Society of Architects, did not have a Government Affairs Committee. Since that time the architects of this state have made astonishing inroads into the legislative process. Before 1982, most representatives had heard the word "architect", but had never really seen one. They had never heard from an architect and did not understand what architects stood for. With diligent effort by the Government Affairs Committee members, not only have we been influential in enacting proper legislation, but we have been a driving force in defeating other legislation. We are highly regarded by the legislatures and asked to help them understand certain pieces of legislation and guide them in making their decisions.

This is a very important factor when you take into consideration the fact that, unlike U.S. Congressional members, the representatives and senators in Colorado have no staff. They have no one to do their research, no one to gather facts; so they must rely on the information provided by citizens, such as the architects. The architects have been commended over and over for their unbiased and succinct information. This is a real feather in every Colorado architect's bonnet!

Legislature awards were given to Rep Michelle Lawrence of Arvada for carrying the QBS bill, Rep. Shirlene Tucker of Lakewood and Rep. Peggy Reeves of Larimer County for their support on the capital construction budget.

(Contd. on Page 8)

CHECK SET Consultants

Quality Control for the Construction Industry

Richard C. Wallace, AIA

Avoid Surprises!!

CHECK SET Review is an Inter-disciplinary Plan Review intended to find inconsistencies between the various portions of the construction documents (Architectural, Civil, Structural, Mechanical, Plumbing, Electrical, and Specifications) enabling the responsible designer to make the changes on paper rather than in the field at an additional cost to the project.

- Fewer Change Orders
- Commitment to a Quality Project
- Third party review by professional with 20 years experience
- Closer Bids
- Fewer problems during construction
- Helps to keep projects on schedule and within budget

BOOKS, DOCUMENTS, ETC.

Turn Over a New Leaf Order The Environmental Resource Guide Subscription

ERG-o-nomics for the New Year.

It's year! The AIA's Environmental Resource Guide (ERG) Subscriptions. Your subscription will provide you with the resources you and your business need to become better informed and better prepared to contribute to the built environment.

See the forest through the trees.

Issued quarterly in a three ring binder format, the ERG Subscription will help you make a difference--environmentally and financially.

ERG Subscription Service Includes:

EPA-funded material analyses that facilitates your understanding of the environment costs of the materials you specify and alternative materials available to you.

Case Studies of innovative environmental-ly conscious architecture. For example, a Renovation of the Audobon Society's national headquarters, a demonstration by The Croxton Collaborative of ways to apply the principles of the ERG throughout the design process, is featured in the Winter 1992 issue.

Pertinent information that can be used immediately, such as The Green Office, a practical environmental checklist for your office, including ways to eliminate paper and energy waste, conserve water, identify toxins from printing machines and other sources, and much more.

Critical environmental issues of the '90's and information about the AIA's national task groups and their environmental focus. Including reports by many of the leading architects in environmental design and summaries of important conferences.

Bibliographical references covering special interest areas.

Contact organizations to guide you to key environmental groups for information and collaboration.

Rates: \$125/yr. for AIA members; \$200/yr for non-members; \$150/yr for non-profit organizations; \$350/yr for corporate subscriptions (3 copies of each issue). Students must provide proof of full-time university enrollment to receive a discounted price of \$80/yr.

Call AIA Colorado at 831-6183 or (800) 628-5598 for enrollment information.

New AIA Document G715: What and Why

In February, the Institute published AIA Document G715, Instruction Sheet and Supplemental Attachment for ACORD Certificate of Insurance 25-S. This document replaces AIA Document G705, Certificate of Insurance, which was withdrawn in 1990.

G705 was withdrawn because of the resistance it met from the insurance industry. Insurers refused to permit their agents to use G705, insisting instead that the ACORD form 25S--which is the insurance industry standard--be used. The problem with the ACORD certificate form, from the standpoint of the owner of a construction project, is that it is a "one size fits all" document--your auto insurance carrier, for example, would use the ACORD form to certify to the holder of your car note that the vehicle is insured. Because it is a general purpose document, the form does not request a number of items of information that are of vital importance on construction projects.

For this reason, the AIA had developed G715 to be completed with, and attached to, ACORD Form 25-S. The Supplemental Attachment portion of G715 requests additional information regarding the insurance coverages required in AIA Document A201, including general liability, worker's compensation, and continuation of completed operations coverage after final payment. Two requests are of particular importance. Language provided in Clause 11.1.2.1 of AIA Document A511, Guide for Supplementary Conditions, requires that the general aggregate of the general liability coverage apply "to this project only," and item A.1 of the Supplemental Attachment asks whether this requirement has been complied with. An affirmative answer to item 2.f assures that the indemnification required of the contractor under paragraph 3.18 of A201 is covered by the contractual liability insurance called for under Clause 11.1.1.7. of that document. The Supplemental Attachment is to be completed and signed, along with ACORD Form 25-S, by the contractor's insurance agent, who is asked in item D.1 to indicate whether the policy has been endorsed to provide the policyholder with 30 days' notice of cancellation and/or expiration. This modifies the requirement in the ACORD form (which indicates only that the insurer will "endeavor" to provide such notice) and reflects the notice requirement contained in Subparagraph 11.1.3 of A201.

(Contd. on Page 7)

NEED TO UPDATE YOUR HANDICAPPED ACCESSIBILITY RESOURCES?

ANSI's Providing Accessibility and Usability for Physically Handicapped People is now available from AIA Colorado. ANSI Standard 117.1 is an essential reference guide when working with any aspect of accessibility. Price: \$20 Non-Members, \$19 Members

AIA COLORADO CENTENNIAL CELEBRATION

BY PETER EINSLE, AIA

AIA Colorado is 100 years old! On April 4, 1892, AIA Colorado was granted its charter. Now, 100 years later, Colorado architects are celebrating the centennial in several significant ways.

Governor Romer kicked off the Centennial celebration by declaring 1992 the "Year of the Architect." To recognize this special year and AIA Colorado's Centennial, several activities are underway. In early April, the Colorado and Denver AIA chapters jointly sponsored an Art-By-Architects exhibit at Alpha-Gallery.

To spread the celebration and statewide awareness of architecture, an interactive multimedia architectural tour of Colorado is being put together by the students at the University of Colorado under the direction of Mark Gelemter. All firms are invited to contribute to this computer program featuring projects of Colorado architects throughout the years. If you have not already sent in material on your firm, please contact Mark for more information.

WHILE THEY LAST, BE SURE TO ORDER YOUR SOUVENIR CENTENNIAL CELEBRATION MUGS, NOTE CARDS AND COASTERS

The Colorado Historical Museum is joining the celebration by having an exhibit on 100 years of Colorado architecture. This impressive compilation of information will include: displays on Robert S. Roeschlaub, Colorado's first licensed architect; architectural "tools of the trade" comparing technology from 1892 to 1992; a century of Colorado AIA Fellows featuring biographies, photos and a summation of their work; and an exhibit of women in architecture. The exhibit will start in September and continue for six months. In addition, the Historical Society is providing an insert on the exhibit for the Colorado Heritage Magazine.

During this year's design conference, there will be a chart showing the chronological history of AIA Colorado over the past hundred years. If members have information they would like to include on the chart, please forward it to Linda Smith at AIA Colorado.

1992: THE YEAR OF THE COLORADO ARCHITECT

A traveling exhibit of Frank Edbrooke's work is available for all Colorado AIA chapters. The exhibit was originally planned for the Oxford Centennial, and may be helpful for the Chapters in promoting the Centennial and Edbrooke's accomplishments.

Special thanks go the AIA Centennial Committee, who have worked hard for the past two years and continue to work hard to make the Centennial celebration a success.

Centennial committee members are Kaki Zeeb, Curt Dale, Linda Smith, Mark Lusky, Stan Oliner, Mark Gelemter, Ken Fuller, Sally Disciullo, Dan O'Brien, Elaine Carr, Jim Cox, Jim Morter, and Jane Blackstone. ♦

GOVERNOR'S MANSION ANNOUNCES SUMMERTIME TOURS

Once again this summer the Volunteers of the Colorado Historical Society will conduct tours of the Governor's Mansion, 400 East 8th Avenue in Denver, every Tuesday during the months of May, June, July and August from 1:00 to 3:00 p.m. As in years past, a special evening tour will be offered once in June and again in July. The tours are FREE and open to the public.

The 1992 schedule is as follows:

June 2, 9, 16, 23, 30	1:00-3:00 p.m.
June 30 (evening)	5:00-7:00 p.m.
July 7, 14, 21, 28	1:00-3:00 p.m.
July 28 (evening)	5:00-7:00 p.m.
August 4, 11, 18, 25	1:00-3:00 p.m.

The FREE guided tours provide a special opportunity to view the interior of this magnificent red brick Colonial Revival mansion. The property is handicapped accessible. For more information call (303) 866-3682.

Alright, you say, where can I get the ACORD form? The answer, at present, is that you can't get it. Fortunately, you don't need it--remember that, as an architect, you're not supposed to be giving insurance advice. For now, ACORD Form 25-S is available only to insurance brokers and agents. G715, however, is available in quantity from AIA Colorado. The architect should include a copy in the project manual and, after the contractor has been selected, forward the G715 to the contractor with the instruction that the contractor's insurance agent provide the information requested on the G715 and ACORD forms. All insurance agents this side of Ulan Bator have supplies of the ACORD form.

Even though the architect is not competent to give insurance advice, he or she has reason to be concerned if the contractor's operations are not adequately insured. For this reason, architects should become familiar with the relevant forms so they can holler if something appears to be wrong. In the future, as a service to its members, the AIA hopes to make ACORD Form 25-S available through its distributors.

The ACORD forms, like the AIA documents, are revised periodically. It is anticipated that the 1991 edition of G715 will work with subsequent editions of ACORD Form 25-S, but watch the MEMO for updates. For information, call (202) 626-7359. ♦

QBS EFFORT BEGINS

Technical Advisors from the Consulting Engineers Council of Colorado, the American Institute of Architects/Colorado, and the Professional Engineers of Colorado met at the CH2M Hill offices on May 8, 1992, for Qualifications-Based Selection training. Greg Hansen, facilitator of the Oregon QBS committee, taught the volunteer facilitators from Colorado the best methods to use in communicating with public sector officials—and pitfalls to avoid.

The Qualifications-Based Selection program in Colorado is supported by a national grant and contributions from the three societies. Although previous efforts have been made by each group to promote the benefits of qualifications based selection to public sector officials, this QBS Facilitator Program is the first joint program of this type in Colorado. Thirteen states are in various stages of implementation of QBS.

The QBS Working Group, composed of two representatives from each of the sponsoring societies, selected Ila Bishop to be the QBS Coordinator. Ila has worked with public sector organizations, has taught Journalism, and is actively working with A & E firms throughout the U.S. in resource and time management areas. She has an MBA in Administration and Management and is involved in helping A & E firms implement Total Quality Management (TQM) techniques. Because she is neither an engineer nor an architect, she can be completely neutral when working with public sector officials in coordinating the QBS effort.

Points to consider regarding the "why" of QBS are: to save construction dollars by reducing project time periods, thus saving taxpayer dollars; promotes project teamwork; improves the quality of final projects and public safety issues.

The QBS Working Group, Coordinator, and Technical Advisors appreciate your support and look forward to receiving suggestions from all of you as they proceed to implement this QBS effort. You can contact Ila at 6994 E. Eastman Avenue, Denver, CO 80224, (303) 757-3838. ♦

The following AIA members have volunteered to act as Technical Advisors:

North Chapter:
Bill Brenner
J. Midyette
Erik Hartronft

West Chapter:
Alan Berge
Robert Ralston
Dean Koll
Frank Wagner

South Chapter:
John Quest

Denver Chapter:
Stan Andrews
Dave Nichols
Dennis Humphries

More technical advisors are needed. If you are interested, please call Karl Berg at 837-8811.

These awards were presented at the 1991 Design Conference. Last fall Boulder architects met with Rep. Stan Johnson and Rep. David Leeds to discuss concerns. These meetings will continue throughout the year with Representatives, Senators and architects in other parts of the state.

Your continued support of the activities of the Government Affairs Committee is important. I urge each one of you to become politically involved in your home district. Meet with the candidates, volunteer to work for the candidate of your choice, get involved. This will not only prove to be beneficial to you and the architects of this state, but also an excellent way of expanding your networking scope.

In 1993, the legislative session could prove to be a special session for the architects of the State of Colorado. The State is looking at a big budget deficit and is in need of increasing its tax base. This is what our neighbors in Wyoming have been facing. In their 1992 session a number of bills were introduced that would have put a sales tax on services, more specifically, the services of architects and engineers. Wyoming architects managed to defeat these bills. However, the subject matter is far from dead since legislation is anticipated to be introduced in the upcoming session. I am confident the legislatures of Colorado have met, talked, or heard of the activities in Wyoming and other states that are attempting to increase their tax bases. Perhaps it will only be a matter of time for legislation to be introduced here.

Taxes on architectural services would not only put the architects in Colorado at a disadvantage in doing work in Colorado, but would also create a bookkeeping nightmare and cost the architectural community substantial time, energy and money. It is suggested that out of state architects may not have to pay the tax, and therefore their clients would not have to pay the tax.

Although the architect's licensing law is not up for renewal in this upcoming legislative session, this session will prove to be challenging. Your individual efforts and assistance will be much needed.

On behalf of all the architects in the State of Colorado, THANK YOU for your support.

DESIGNERS' TRAINING SERIES
UNIFORM BUILDING CODE
July 8, 9, 10 and 11, 1992
Cherry Creek Inn

AIA Colorado and the Associated General Contractors of Colorado are proud to jointly offer a unique educational opportunity where you can expand your understanding of the varied and complex provisions of the Uniform Building Code.

Previous seminars were praised as being valuable to all architectural and contracting representatives attending. Gregory Keith, President of Professional Heuristic Development, will conduct the sessions. Mr. Keith has more than a decade of experience in code interpretation, application, development and education. Detailed instruction on Occupancy, Types of Construction and Existing code provisions will be explained through the use of photographs, graphics, handouts and practical exercises. The sessions are a must for designers, project architects, construction specifiers, estimators, project engineers, etc.

The sessions will be held July 8 and 9 from 7:30 AM to 11:30 AM and July 10 and 11 from 8:00 AM to 5:00 PM at the Cherry Creek Inn, Cherry Creek Drive at Colorado Boulevard in Glendale. The cost is \$149 which includes over 100 pages of handout materials, lunch on Friday and on Saturday, and refreshments at the breaks.

1991 Uniform Building Code books will be available for purchase on the first morning of class for \$49. Books need to be pre-ordered. Please bring a non-solar powered calculator and have the 1991 edition of the UBC.
