IN THIS ISSUE:

- President's Message
- Chapter & Member News
- QBS Progress
- Legislative Update
- A Few Words on CADD

BOARD OF DIRECTORS:

President:	Katheryn L. Zeeb, AIA
President Elect:	Curtis W. Fentress, AIA
Secretary:	Peter Orleans, AIA
Treasurer:	Charles Brenner, AIA
Treasurer Elect:	Chick Lee, AIA
Past President:	Marvin Sparr, AIA
Director:	Dennis Humphries, AIA
Director:	Frank Wagner, AIA
Director:	Wendy Thoresen, AIA
Director:	Dean Ibsen, AIA
Assoc. Director:	Randy Swanson
Ex-Officio:	Professor Mark Gelernter Professor Peter Schneider Linda T. Smith, CAA

The Field Report is published monthly by AIA Colorado and provided free to its members. Articles for publication should be submitted to Linda Smith, CAA, Executive Director by mail or FAX 831-8833. We encourage and appreciate your contribution of articles of interest to AIA members. Deadline for newsletter material is the 15th of each month.

Editor: Linda T. Smith
Associate Editor: Susan Carroll
Student Assistant: Dennis Dryden

PRESIDENT'S MESSAGE

by Katheryn L. Zeeb, AIA

SEP 30 1992

The second weekend in October, AIA Colorado is hosting our annual Design Conference in Snowmass Village. This conference always offers you, our members, a wonderful opportunity to expand your professional vision and education, and to share ideas with your colleagues from all over the State.

This year, the conference is very special. It is the culmination of our Centennial celebration. It has been "on the boards" since January of 1991, under the able, enthusiastic and dedicated direction of Jim Cox, AIA and Sam Caudill, FAIA.

The theme is "Architecture/Environment: Man In Harmony With Nature." Sam (as Program Chair) has given us a conference which will not only educate you, but inspire you to make the commitment to do everything you can to improve our corner of the world (and beyond) with your expertise. We as architects can have a tremendous impact, not only on the built environment, but the wider arenas of energy consumption/conservation, rainforest protection, old-growth forest destruction, the atmosphere, water quality, visual pollution and wildlife habitats, to name but a few. All of these areas are intertwined and always have been. The time has come for all of us to become pioneers once again, and lead the way for our global community in educating others to the effects our decisions and actions have on all the world around us.

We must make changes and make them now in everything we do. No longer can it be business as usual. Be a leader: start within your own product specifications and by conscientious purchasing and recycling in your own life.

I am going to Kauai tomorrow (9-21) to deal with the damage to my parents' home there. One theory I am hearing for the intensity of both Hurricane Iniki and Hurricane Andrew is that global warming has caused the ocean temperatures to increase one or two degrees. This seemingly minute increase is causing more frequent and more intense storms. If this is true, the damage to lives and property could have been reduced, maybe avoided altogether, had we (as a global population) been more sensitive to our impact on the world and been smart enough to minimize that impact. How much more damage are we willing to do before we change our ways? I say "NO MORE!" The changes must start now and be broad in their sweep.

Come to Snowmass and learn about our past successes and how we can be more successful! Come share the vision and take a piece of it home with you! See you in Snowmass Oct., 8, 9 & 10.

Member News:

Jack Cook, III, AIA has advanced to the position of Associate at TRA Architecture Engineering Planning Interiors. Cook currently serves as Project Architect on TRA's work at the new Denver International Airport. TRA is in joint partnership with ASLP of Denver on the design of the new airport's three satellite concourses.

Thomas S. Pearson, AIA is now Managing Principal of the Hanson Lind Meyer's Denver office, having moved here from HLM's regional Iowa City office. Pearson is currently the Project Director of the University of Colorado Hospital Authority Master Plan, Rose Medical Center projects, and the Presbyterian Hospital Master Plan in Albuquerque, New Mexico.

Donald K. Brandeberry, AIA, former principal of Davis and Brandeberry Architects, is now Staff Architect for Security Service Federal Credit Union. Mr. Brandeberry's immediate project is the relocation of one of the financial institutions three Colorado Spring's branches. The new branch will incorporate an emphasis on retail banking that has been used in the design of five of the credit union's other locations.

John B Rogers, FAIA, RNL Principal has been asked to serve as a Volunteer Executive for the International Executive Service Corps (IESC) in Cairo, Egypt this Fall. His project is to help the client, owners of The Baron Hotel, with their plans to establish a 3 million square foot, 5-star tourist village in Hurghada on the Red Sea Coast. John will also assist the client with designing an addition to their existing hotel in Cairo.

Communications Arts Incorporated, an environmental and graphic design firm based in Boulder received three medals from the Society of Environmental Graphic Design. The firm was honored for excellence in environmental design receiving: a gold medal for its work on Gurnee Mills in Gurnee, IL; a silver medal for its work on Santa Monica Place in Santa Monica, CA; and a bronze medal for its work on the Palmer Center in Colorado Springs.

ARE YOU INTERESTED IN NAT'L AIA COMMITTEES?

The AIA Colorado office receives press releases and information for all national committee meetings on a wide variety of subjects. We find it hard to keep you informed of this high volume of material, but a lot of information from Washington is here in our office and we would like to share it with you. Please let us know if you have a particular interest in a committee and we will forward you information as soon as we receive it. The committees are: Corporate Architects, Committee on the Environment, Public Architecture, Architects in Education, Intern Development Program, Careers Task Force, American Architectural Foundation, Interiors Committee, just to name a few.

Upcoming Events:

Oct. 5 "Lotus 123 Power Tips for Intermediate Users." Call 212-692-6600.

Oct. 7 "Managing Multiple Priorities." Contact 212-692-6600 for information.

Oct. 9-11 AIA Colorado 1992 Centennial Design Conference in Snowmass Village. Call AIA Colorado at 303-831-6183.

Oct. 13 Stanley Tigerman, FAIA in the afternoon at the Fine Arts Center in Colorado Springs. Call Dean Ibsen, AIA at 719-633-3003 for more information.

Oct. 13 Stanley Tigerman, FAIA at 6:00 pm to speak at the Denver Art Museum. Call AIA Denver for tickets and information at 303-892-1188.

Oct. 20 & 27 "Writing Successful Grants & Proposals" - sessions with Metro on the Mall, 1554 California, #200. Call 303-623-2626 to register.

Oct. 22 Entry Deadline for AIA North Chapter members in the Colorado North Chapter 1992 Awards Program. See North Chapter News in this issue for details or call Dave Carson of OZ Architecture at 449-8900 for more information.

Oct. 22-24 Western Mountain Region 1992 Convention-Reno, Nevada. Call John Barada at 702-329-7624 for info.

Oct. 27 Janet Abrams, Director of the Chicago Institute for Architecture and Urbanism, to speak at the Denver Art Museum. Call AIA Denver for tickets and information at 303-892-1188.

Nov. 9 "How to be a Better Technical Writer" sponsored by the American Mgmt. Association. To register, call 800-821-3919.

Nov. 9-12 Nat'l Earthquake Training Conf. and Seismic Exhibit in Jackson, Tenn. Call 615-244-3090 for information.

Nov. 19 "Supervisory Solutions - How to Motivate, Empower, Coach, Delegate, Plan, Organize and More." Call Dunn & Bradstreet at 212-692-6600.

SOUTH CHAPTER NEWS and SOME HISTORY

by Dean M. Ibsen, AIA

The Board of Directors, at their September 10th meeting, approved the final draft of the revised bylaws for presentation to AIA National for their review. The bylaws will be presented to the membership for their approval at the annual membership meeting in December. The bylaws have been rewritten to conform to AIA National's model bylaws for components. Upon approval, the name of the chapter will become "AIA Colorado South," and new membership categories will be created to include Student Affiliate, Honorary Affiliate, and Friend of AIA Colorado South.

Work on the bylaws provided a history lesson to the bylaws committee and members of the Board. The Colorado South Chapter was created in 1968 from what was then the Southeastern Section of the Colorado Chapter AIA. The application for Chapter Charter was signed on July 28, 1968 by nineteen members, including Section President John B. TenEyck, AIA, and Section Secretary Walter E. Burgess, AIA. On August 22, 1968, members of the Colorado Chapter voted to relinquish the counties of the Southeastern Section, and on November 19, 1968, Aubrey Brelsford, AIA (then president of the Colorado Chapter) was notified by the Institute that a charter had been granted to the Colorado South Chapter. The Chapter was incorporated in the State of Colorado on November 26, 1968. Today, the chapter includes 110 members, associates, interns and professional affiliates in the counties of Alamosa, Baca, Bent, Cheyenne, Costilla, Crowley, Custer, El Paso, Fremont, Huerfano, Kiowa, Kit Carson, Las Animas, Lincoln, Otero, Prowers, Pueblo and Teller.

At the September Board meeting, the Board also voted to endorse the November ballot initiative for the El Paso County Scientific and Cultural Facilities District. This ballot initiative will put into place a one-tenth of one percent sales tax in El Paso County to provide funding for not-for-profit scientific and cultural organizations within the county.

Members of the Chapter are being encouraged to offer their support to promote passage of the District.

Resident Fellow Jim Franklin, FAIA, presented a workshop on "Success Strategies for Rapidly Changing Times" on September 17th during Architecture Awareness Month. Also, the Second Annual Membership Art Exhibit, Reception and Sale -- Designs by Designers -- took place on September 24th at the Fountain Valley School. Members of the American Institute of Architects, the American Society of Landscape Architects, the American Society of Interior Designers, and the Consulting Engineers Council of Colorado participated. A Chapter Award for Lifetime Achievement was presented to Edward L. Bunts, AIA Emeritus. Mark Gelernter, a CU-Boulder professor and member of AIA Colorado's Board of Directors, was also on hand to display his "Electronic Tour of Architecture" which has been put together in celebration of AIA Colorado's centennial year.

CHAPTER NEWS

DENVER CHAPTER

Registration for the 1992/1992 Breakfast Education Seminar Series is underway. The purpose of the program is to provide architects with information and resources on management, technology and design at minimal cost. The series this year will focus on the integration of the computer and CADD in the design practice. The program begins on October 6 when David Weisberg, the publisher of Engineering Automation Report will discuss "Acquiring a Computer." On October 20, Eric Darst of Computers for Design and Ann Dunn, AIA will lead a discussion on "Computers and Training." The November 3 program will focus on "Computers and Practice Management." All seminars are held at the Denver Design Center at I-25 and Broadway from 7:30 a.m. to 9:30 a.m. The cost is \$10 for AIA members and \$20 for non-members. The series continues throughout the year and tickets for the complete series are available at a discount. Call the AIA Denver office at 892-1188 for additional information.

The Fall lecture series continues in October featuring Chicago architect Stanley Tigerman, FAIA on October 13 at 6:00 p.m. at the Denver Art Museum. Janet Abrams, Director of the Chicago Institute for Architecture and Urbanism, will be the featured speaker on October 27, same time and location. Call the AIA Denver office for information about tickets.

A "small firm roundtable" has been established by AIA Denver to offer a forum in which sole practitioners and members of "small" firms can gather and discuss topics of common interest. The roundtable meets the second Thursday of each month at the AIA Denver office at 7:30 a.m. Call John Yonushewski, AIA for information at 303/295-3361. All members of AIA Colorado are encouraged to attend.

NORTH CHAPTER

Colorado North Chapter's First Annual Architecture Awareness Week is now history! Over two hundred and fifty people attended the Antoine Predock Reception and Lecture, while the house tour hosted more than seven hundred. A lecture on Historic Preservation in Fort Collins offered an in-depth look at that city's historic districts, while two Jim Franklin workshops in Boulder offered attendees the chance to examine success strategies and marketing techniques.

For October, the North Chapter is focusing on the upcoming North Chapter Design Awards. This year you will find many changes in the awards format including written responses from the jurors for each submission and the submission requirement of slides in lieu of photographs. The slide requirement will equalize the quality of the photographic input while also allowing CNC the opportunity to display all entries at the Annual Awards Banquet in November. The CNC Design Awards are open to any CNC member and are due on Thursday, October 22nd at the offices of OZ Architecture at 1215 Spruce Street in Boulder. For more information call 303/449-8900.

WEST CHAPTER

Colorado West Chapter AIA held its Board Meeting on September 10th, and we continued to work on our involvement in the Design Conference and the By-Laws adoption. We have finished the newsletter, Mountain Architects, and it was distributed at the meeting and mailed to our members. We also discussed the Jim Franklin seminar in Beaver Creek on the 18th of September. It was to be attended by approximately 25 of our members. There will be three participants from Durango. This is the first time we have been able to entice architects from the Durango area to participate in one of our AIA activities. If we can interest additional people from the southwest area of Colorado we will attempt to have more activities in the southwest section of the state. Our board also discussed the brick laying contest between chapters at the Design Conference and determined that we are, undoubtedly, the best of the Architect brick layers in AIA Colorado, since Robert Ralston has a bucket full of tools that he can bring to the Conference. We received a report from the nominating committee. We will be mailing a ballot to our general membership. The attempt from the nominating committee was to involve members from various locations in the total west area, such as Steamboat, Vail, Aspen and Grand Junction.

A CALL TO PARTICIPATE

by Jerry Johnson, Lobbyist for AIA Colorado

The upcoming six weeks before the November elections present Architects in Colorado with an opportunity to help AIA.

One United States Senator, six members of the U.S. House of Representatives, 18 State Senators and 65 members of the Colorado House of Representatives will be elected to office on November 3. Fully 25% of the State Legislature will be brand, spanking new and most members will not know the difference between an Architect and a homebuilder or the difference between UEC or a UFO. We will have a lot of educating to do before the Legislature votes on the first issue affecting architects during the next session.

We can get an early jump on the education process and build a bridge between legislators and AIA if you can commit 2-3 hours between now and November 3. Here's how you can help: make a commitment to work on one political campaign -- ideally that campaign would be for your own State Senator or Representative. If you don't find a compatible soul among the choices in your district, find a legislator or candidate that you do like. Then, pick up the telephone and volunteer to help with their campaign. Lots of tasks need to be completed in every campaign and help with any of them is appreciated. You can address or stuff envelopes, make calls from the phone book, walk door to door with the candidate, help organize a neighborhood coffee or fund-raiser, or put up signs in yards.

What you do is not nearly as important as doing something. That something will elevate you in the eyes of the candidate from "constituent" to "friend." You will become your legislator's expert on issues facing AIA. And, since you will now know your legislator, you will feel more comfortable asking for his or her vote on OUR issues.

If you need my help in contacting a candidate, don't hesitate to call me at 832-1061. You may discover that you like this "political Stuff." If you really get hooked on it, you can volunteer to serve on the AIA Government Affairs Committee. Or, if you are really ambitious, join AIA Colorado's legislative subcommittee that screens bills and meets every Friday morning during the legislative session from January through May. This has to be AIA's hardest working group of volunteers and they are always looking for new members. Contact D. A. Bertram at 871-9300 for more information.

CLASSIFIEDS

Space for rent on Old South Gaylord. Total footage is 1100+ sq. ft. and it rents for \$10 per square foot. To see this space call 733-2070.

For lease: 1,368 sq. ft. ofc. space, 2nd floor in LoDo location. Private entrance, perfect for creative design-oriented business. Great light, private conference room. Furnishings negotiable. Non-smoker. \$1,200/mo., utils. pd. Call Martha or Debbie at 534-4444 fm. 9-5.

To place your ad here: \$20 per issue.

QUALIFICATION BASED SELECTION IS HERE TO STAY!

By Marvin Sparr, AIA

Chalk one up for our side of the design and construction industry! After more than three years of meetings, letters, phone calls and conferences, the issue of "bidding" design services by state agencies appears to be a closed one. In an official opinion issued by the State Attorney General, the practice of requiring price to be a consideration in selecting professionals to do state work is in violation of state and federal law.

When the issue of "bidding" first came to the attention of the AIA Colorado's Government Affairs Committee, it dealt only with engineering services for highway department projects. Information available indicated that the Governor favored this "bidding" approach to save money. The real concern for Architects was that the "bidding" process would be adopted by other state agencies. In fact, the highway department introduced a bill in the 1991 Session of the Colorado Legislature that would have changed the selection process to bidding. However, AIA Colorado Government Affairs quickly joined forces with CECC, PEC and others to form a successful coalition which "killed" the Highway Department's bill. In fact, it became the first bill defeated in this year's legislative session.

The Highway Department, however, continued to require bidding for professional service despite the defeat of its bill, relying on an "unofficial" opinion of a staff member in the Attorney General's office. Because of the stalwart efforts of Representative Michelle Lawrence (R Arvada), a bill was introduced and carried by Rep. Lawrence in the session which would have closed the loophole relied on by the Highway Department. Although this bill was unsuccessful, Representative Lawrence requested the Attorney General to render an official opinion on the state's procurement procedures for Architects and Engineers.

The opinion is now in and it appears that Rep. Michelle Lawrence and the coalition have ultimately prevailed. On September 10, 1992, Attorney General Gale Norton issued her official opinion. The bidding, as required by the Highway Commission, was unlawful and illegal. The opinion specifically states that selection shall be on qualifications, not on price. The document goes on to further describe how the law came into being, its intent and its validity.

The Architects and Engineers of Colorado owe a great deal of gratitude to Karl Berg, AIA, Donald A. Bertram, AIA, Esq., Lawrence Depenbusch, AIA, Jerry Johnson (our lobbyist), and Jim Zavist, AIA for the untold hours dedicated to this successful three year effort.

AIA COLORADO & QBS COLORADO REPORT

The QBS Colorado organization supported by AIA, CECC and PEC, has been actively promoting qualifications based selection procedures for the procurement of engineers and architects. This year the QBS Colorado group has:

Succeeded in eliminating price as a criteria in a recent City of Aurora engineering request for proposal.

Successfully opposed an attempt by the City of Arvada to use price as a criteria in the selection of architects on a recent project.

Provided speakers to recent annual meetings of the American Public Works Association in Breckenridge and the Colorado Municipal League in Ft. Collins.

Received an invitation to speak before the International Facilities Management Association.

Has provided QBS information, selection forms and procurement recommendations at the request of several local governments.

Is now preparing an introduction to the QBS Colorado organization in preparation for a speech before the Purchasing Managers Association.

Additionally, QBS Colorado has distributed a written survey to over 200 local agencies and governments asking for information about their procurement procedures and their weighting of various factors, including costs in their final decision. To date, approx. 50 responses have been received with one or two more trickling in every week. The QBS Colorado coordinator, Ila Bishop, has tabulated this survey. The summary of the results is available to interested AIA members. Please call Karl Berg at 303/837-8811 to receive your copy.

Volunteer advisors from the three sponsoring organizations will be contacting local agencies and governments to offer procurement procedure assistance and to promote qualifications based selection practices. A training session for these volunteer advisors was held in August. It is still not too late for you to sign up. To volunteer as an advisor or to learn more about the QBS effort, call Linda Smith (303-831-6183), Carol Coover-Clark (303-969-8664) or Karl Berg (303-837-8811).

LEGISLATIVE UPDATE

by D.A. Bertram, Esq., AIA

In its continuing effort to represent the Architects of Colorado before the State Legislature, the Government Affairs Committee reviews all legislation as it is introduced and then takes the appropriate action on selected issues. Below are brief synopsis of bills which were enacted that affect Architects, the practice of Architecture and/or the Architect as a business.

HEALTH LAW (SB 114): Concerning Health Care Coverage: Creates the Small Employer Health Insurance Availability Program and the Colorado Cost Containment Commission; describes the program and the membership of such commission; other changes. Generally effective 6/2/92; see bill for details.

ENVIRONMENTAL LAW (SB 173): Concerning Measures to Further Reduce Wood Smoke Emissions: (25-7-407): On and after January 1, 1992, requires any new or remodeled fireplace installed in any dwelling in a wood-burning limitation area to be either a gas appliance, an electric device, or a fireplace insert that meets stringent wood stove emission standards; sunsets Jan. 1, 1993; provides for recognition of local municipal ordinances and building codes. Effective May 27, 1992.

LABOR & EMPLOYMENT LAW (HB 1022): Concerning Disclosure of Information About an Employee's Job Performance: (8-2-114); Provides that any employer which, upon request by a prospective employer or a current or former employee, provides fair and unbiased information about the employee's job performance shall be presumed to be acting in good faith and shall be immune from civil liability for such disclosure and the consequences of such disclosure; provides for rebuttal of the presumption; requires that the employer providing written information send a copy to the last known address of the employee; and other changes. Effective April 29, 1992.

REAL ESTATE (HB 1168): Concerning Judicial Referral of Civil Disputes to Ancillary Forms of ADR: (38-35-110): Allows any party to a title action to record a notice of lis pendens; provides that any notice of lis pendens which does not cease to be in effect or is not re-recorded shall expire and cease to be notice six years after the date of its recording or two years after the effective date of the bill, whichever is later. Effective March 20, 1992.

ALTERNATIVE DISPUTE RESOLUTION ("ADR") (HB 1291): Concerning Judicial Referral of Civil Disputes to Ancillary Forms of ADR: (13-22-302): Allows a court, in its discretion, to refer any case for mediation or ADR, subject to availability; allows the court to exempt from referral any case in which a party files a motion objecting to mediation and demonstrating compelling reasons why mediation should not be ordered; lists compelling reasons; provides that such referral shall not apply in any civil action where injunctive or similar equitable relief is the only remedy sought; other changes. Effective June 2, 1992.

LOCAL GOVERNMENT (HB 1263): Colorado S-Corporation Income Tax Act: (32-22-320): Provides that each resident shareholder of an S corporation shall include such shareholder's pro rate of the S corporation's income in filing a personal shareholder's pro rata share of the S corporation's income in filing a personal income tax return; provides that nonresident shareholders shall either sign an agreement to file a return and pay their pro rata share of income tax due or the S corporation shall file a return and pay the income taxes due from nonresident shareholders; other changes. Effective April 16, 1992 for taxable years beginning on or after January 1, 1992.

Copies of these Bills which have been enacted into law or any others are available from the State of Colorado's Bill room. For more information, please call 303/866-2340.

A Few Words on CAD (or is it CADD?)

By Frederick R. Pax, AIA

Have you noticed how more and more people are dropping one of the D's in the CADD (Computer Aided Design and Drafting) acronym? The question is, which "D" have they dropped? My bet is on Design. In discussions with professionals in the industry, it seems that architects are choosing to use computers for drafting about 10 times as often as they choose to use it for design.

Why is it that architects are choosing not to use CADD for design? It seems that most architects feel that CADD is too cumbersome and requires too precise of input to be an effective design tool. This may be true in attempting to originate a concept. Even I, a 10 year CADD veteran and long time proponent of the use of CADD as a design tool, when set upon the task of designing my own residence, drew a blank when confronted with a blinking cursor on a blank 19" monitor.

With Mont Blanc in hand I retreated to my hidden stash of cocktail napkins and yellow trace. Once armed with a concept and a fist full of yellow trace sketches I again took up my mouse and etched a phosphorous line across the blank monitor, all the while nervously glancing over my shoulder, hoping no associate would notice the yellow trace.

I quickly massed the design in 3d, rotated it, and rendered it in perspective from 15 different vantage points. It was soon apparent that the massing proportions and relationships were not what I had seen in my minds eye. Using CAD, I stretched, moved and rotated objects until my vision of what this design wanted to be was regained.

I worked in a CADD file that composited floor plans with model, complete with interiors. This brought about an early and complete understanding of the relationship of plan, section and elevation. Bad ideas were quickly obvious. Previously unconsidered design opportunities became readily apparent. I occasionally sketched too quickly explore alternatives and then tested them on CADD.

Is there a compelling reason to turn to CADD as a design tool? I think so. Exclusively? Probably not. CADD can assist the designer in resolving three dimensional issues more easily, expeditiously and accurately than using either hand drawn sketches or study models as well as providing the designer with a greater understanding of the project. Concepts still seem to develop more easily using pen and paper. Both are tools each with its strengths, each with its limitations. Do yourself and your clients a service, experiment with CADD for design; lets see if it's CADD or just CAD for you!

CADD Notes: Intergraph has announced that for \$500 you can upgrade to its popular MicroStation PC 4.x CADD package from release 9, 10, 11 or 12 of AutoCAD.

Frederick R. Pax, AIA is with PAX-Tekton, a firm that provides CADD consulting services including training, customized CADD solutions, CADD translations and production. PAX-Tekton is located in Denver, Colorado, tel. (303) 744-8740.

AIA and Telebuild to Build Landmark Computer Network

"When you're looking for a needle in a haystack, our new compute network will make the job seem simple," said W. Cecil Steward, FAIA president of AIA when he announced the agreement reached between AIA and Telebuild, L.C. of Houston.

This agreement will enable the AIA to implement nationwide *AIAOnline*, a revolutionary information and communications network that, says Steward, "will enhance the efficiency of architects around the world and will bring a new dimension to the exchange of information in the design and construction industry." *AIAOnline* will include access to large databases appropriate to the construction industry, electronic communications, and will allow on-line ordering of publications, products and services.

AIAOnline goes into a testing phase in September and will be generally available in December 1992. It is designed to run on modem equipped computers commonly found in today's offices. Call Steve Etkin in Washington at (202) 626-7476.

BUILDING RELATIONSHIPS - A guide for institutions on how to work with an architect.

The AIA has prepared another useful guide for Architects to utilize as a marketing and educational tool for potential clients. This guide complements the already available "You and Your Architect" and the "Beginner's Guide to Architectural Services." Building Relationships is a guide for institutions is divided into two parts: the first part represents an overview of the design and construction process; and the second part consists of work sheets and other materials that take you through the process step by step. Use it as you would a road map to your building goals. Each guide is available from the AIA Colorado Bookstore at \$5 each, plus tax.

OCTOBER RESUME BOARD*

NAME: David Thompson

 CAD, MacDraft

*Information regarding resumes is ONLY available in this Field Report or by contacting the individuals listed herein. AIA Colorado does not keep these or any other resumes on file. AIA Colorado prints only those resumes: submitted in the Job Board format (see the "Resume Service Form" on the back of each Job Board); received by the 15th of the month prior to this issue; and for which \$10 has been prepaid. We hope that this service is of benefit to our members and to those seeking employment.
