THE AMERICAN INSTITUTE OF ARCHITECTS' CODE OF ETHICS AND PROFESSIONAL CONDUCT

Members of The American Institute of Architects are dedicated to the highest standards of professionalism, integrity and competence. The following principles are guidelines for the conduct of members in fulfilling those obligations.

CANON I General Obligations

Members should maintain and advance their knowledge of the art and science of architecture, respect the body of architectural accomplishments, and contribute to its growth, thoughtfully consider the social and environmental impact of their professional activities, and exercise learned and uncompromised professional judgment.

CANON II Obligations to the Public

Members should embrace the spirit and letter of the law governing their professional affairs and should promote and serve the public interest in their personal and professional activities.

CANON III Obligations to the Client

Members should serve their clients competently and in a professional manner, and should exercise unprejudiced and unbiased judgment when performing all professional services.

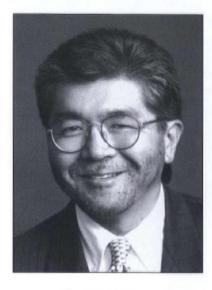

CANON IV Obligations to the Profession

Members should uphold the integrity and dignity of the profession.

CANON V Obligations to Colleagues

Members should respect the rights and acknowledge the professional aspirations and contributions of their colleagues.

PRESIDENT'S LETTER

Welcome to the AIA Colorado 1998 Firm Profile and Membership Directory. Included in these pages are the individual members and member firms of The American Institute of Architects in all of Colorado. Firms listed here may be individual practitioners or they may have hundreds of employees offering many different disciplines and services. Firms may have a generalized practice or specialized experience designing interiors, hospitals, corporate headquarters, retail spaces, and so on. The firm profiles will give you a quick glimpse of each firm and their experience and focus. All firms in this directory, as members of the AIA, are committed to quality service and subscribe to the AIA Code of Ethics and Professional Conduct. All AIA members are now required to have continuing education as a requirement of membership. This ensures the public that AIA architects are kept well-informed on current developments in the profession and the building industry.

Please feel free to call on any AIA member to answer any question that you may have regarding professional architectural services. Also, we invite you to visit our offices at 1526 15th Street in LoDo for further information regarding architectural design services. Our friendly and capable staff is eager to assist you in whatever way they can.

Thank you.

Ronald K. Abo, AIA 1998 President, AIA Colorado

Hardwood Floor Sanding + Finishing + Maintenance

THE "ENVIRONMENTAL CHOICE" FOR WOOD FLOOR FINISHES

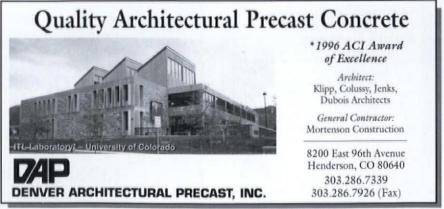

BonaTech MEGA[®] waterborne finish represents state-of-the-art technology, providing the most durable, environmentally responsible finish available. MEGA is a one-component, VOC compliant finish. Safe and easy to use, MEGA cleans up with water and dries in 2-3 hours, minimizing the time for each job, while providing a high-build, luxurious finish.

THE INVESTMENT OF AN ARCHITECT A User's Guide to Architectural Services

No matter what type of structure you are planning to build, you are embarking on a journey that will take you through a maze of design options, building codes, zoning laws and contractors.

You may be building a private residence, office complex, religious center or laboratory. Your construction plans may include an industrial plant or public facility such as a school or hospital. Or you may be interested in a restoration project.

To achieve the best possible building design for your budget and time frame, it is advisable to hire an architect.

The Architect Designs for Quality

The architect is naturally a generalist. In an age of specialization, the architect must consistently see the "big picture" while at the same time have a grasp on the smallest detail. An architect considers all building requirements – technological, artistic, functional and humanistic. Through the "process of design," the architect generates a total environment, which makes dynamic use of space and satisfies functional needs.

Through formal training and experience, architects are equipped to solve problems. With their broad knowledge of design and construction, architects can show you alternatives and options you might never think of on your own.

What an Architect Contributes to the Design

Think of an architect's services as a wise investment, not an added cost to your building project. The following examples of architectural services explain why.

- A well-conceived project can be built more efficiently and economically. Architects plan the project with you.
 Working as a team, you and your architect can create a plan that will work best for your personal situation and requirements. As your ideas evolve, changes can be made to the plan much less expensively than later on when the building construction is underway. Detailed plans also help contractors accurately price and build your project.
- Energy-efficient buildings can save you money on fuel bills. An architect can design a building that maximizes heating from the sun and lets in natural light, thus reducing heating, cooling and fuel bills.
- Architects can work with your budget and help you select materials and contractors at fair prices. Using the drawings
 and specifications an architect provides, you can accurately receive construction bids, which are based solely on your
 requirements. Furthermore, an architect can assemble and supervise the contracting team for you.
- Architects can help you choose cost effective materials and finishes. By selecting materials that are both durable and
 attractive, you will save money you could have spent on frequent maintenance and replacement costs. For example,
 architects keep abreast of advances in the roofing, masonry, flooring and painting industries, and they are familiar with
 the wide range of materials available.
- A building with a good design pays off. A well-designed house has a much higher resale value. A well-designed store attracts more customers, and a well-designed workplace appeals to good employees and increases productivity.
- The architect can help you reduce the stress you may face during the building process. Building is a long procedure
 that can be disorderly and disruptive. Architects work to reduce the disruption and look for ways to make the process
 run more smoothly.
- If your project requires the services of an engineer or other design services, such as a landscape architect, the architect
 can coordinate this team of experts for you. Architects can sort through complex building codes and find qualified
 allied design professionals for you, based on your project requirements. As part of your contractual agreement,
 architects can visit the construction site to verify the project is being built according to specifications.

PUBLIC INFORMATION • THE INVESTMENT OF AN ARCHITECT

The Selection Process

Architectural firms come in a variety of sizes and types. Architectural firms, typically, are small businesses. Some larger firms may include in-house engineering, landscape architecture, planning, urban design and interior design services. As a result, each architectural firm brings a different combination of skills, expertise, interests and values to a project.

When selecting an architect you will inevitably face many new situations that will provoke numerous questions. The following are some of the more common inquiries.

- When should I bring an architect into the picture? The earlier the better. Architects can help you to define your project. They can do site analyses and secure planning and zoning approvals.
- How do I find potentially suitable firms to contact? It is helpful to contact other owners who have built similar facilities to what you are planning to build. Ask them whom they interviewed and hired. Look at buildings you admire and appreciate, then find out who the designers were.
- Should I look at more than one firm? The option is yours. It makes sense to stay with an architect you have worked with in the past, and it is helpful to look at architects that have been recommended to you. If you don't already have a relationship with an architect you know and trust, it is best to interview between three to five firms. This will help you recognize the range of possibilities without being confused by a bombardment of options.
- What information should I request from firms I may potentially hire? Ask prospective firms to show you examples of their work that have similar features to your project. Look for similarities in size and type, and review projects that have addressed similar issues such as function. Ask them to indicate how they will approach your project and who will work on it. Get a list of references you can contact.
- What should be covered in the interview? In the interview, state what you want and need. The firm will present its services and experience. If the firm hasn't had the opportunity to discuss the project with you, don't expect a detailed suggestion right then. During the interview, be frank. Tell the architect what you know and expect; however, be sure to ask for an explanation of anything you don't understand.
- On what should I base my decision? Rely on your instincts; personal confidence in the architect is first priority. Look
 for a balance between technical competence, professional service and design ability. After you determine which firm
 is most qualified, negotiate a fair and equitable fee. If an agreement can't be reached, negotiate a fee with the next
 most qualified firm.
- What do I do when I have selected an architect? Put in writing your terms of agreement regarding the scope of work, services, schedule, construction budget and architect's compensation. AIA Colorado sells a variety of standard contract forms which are used industry-wide. For a list of the contract documents available, call 303.446.2266 or 800.628.5598.

As construction activity continues to increase, the architect naturally maintains a unique set of skills that enables him or her to solve problems and assist clients in realizing their objectives. Architects can transform undefined concepts into a design, through plans and specifications, and offer many intangibles including technical knowledge and aesthetic judgment.

An architect can guide your way through your construction journey and direct you toward solutions you may have never considered. Through your partnership with your architect, you will receive a building project that meets your needs, expresses your individuality and provides enjoyment for everyone who uses it.

20 QUESTIONS TO ASK YOUR ARCHITECT

- What does the architect see as important issues or considerations in your project? What are the challenges of the project?
- 2. How will the architect approach your project?
- 3. How will the architect gather information about your needs, goals, etc.?
- 4. How will the architect establish priorities and make decisions?
- 5. Who from the architecture firm will you be dealing with directly? Is that the same person who will be designing the project? If not, who will be designing the project?
- 6. How interested is the architect in this project?
- 7. How busy is the architect?
- 8. What sets the architect apart from the rest?
- 9. How does the architect establish fees?
- 10. What should the architect expect the fee to be for this project?
- 11. What are the steps in the design process?
- 12. How does the architect organize the process?
- 13. What does the architect expect you to provide?
- 14. What is the architect's design philosophy?
- 15. What is the architect's experience and track record with cost estimating?
- 16. What will the architect show you along the way to explain the project? Will you see models, drawings, or sketches?
- 17. If the scope of the project changes later in the project, will there be additional fees? How will these fees be justified?
- 18. What services does the architect provide during construction?
- 19. How disruptive will construction be? How long does the architect expect it to take to complete your project?
- 20. Do you have a list of past clients that your firm has worked with?

IMAGINATION IN FULL MEASURE

A thousand reflections shimmer

across the landscape of your mind's eye. Creativity, after all, has no limits. So why restrict your options?

Glass and wood. Space and light. Our windows and patio doors combine the elements of nature with the principles of advanced design.

And since our products come in a nearly-infinite variety of shapes and sizes, so do the possibilities.

THE COLORADO CHAPTER OF THE AMERICAN INSTITUTE OF ARCHITECTS

AIA Colorado represents architects and others statewide and unifies the four local Chapters of The American Institute of Architects within Colorado. AIA Colorado seeks to:

- unite the architects of the State of Colorado in fellowship;
- promote the aesthetic, scientific, and business practice of architecture;
- · advance architectural standards of continuing education, training and practice; as well as
- build relationships between clients, the construction industry and architects.

AIA Colorado believes that an important purpose of architecture is to create a vision which improves the built environment. This vision is vital to the advancement of the living standards of our communities and provides a service of ever-increasing value to society.

AIA Colorado provides architect referrals, lobbies the Colorado legislature, offers architectural employment information and sells AIA contracts and publications. We hold an annual conference, usually between October and December, AIA Colorado provides staff support for the four local chapters. We are a professional organization for the design profession and are classified as "not-for-profit."

HISTORY OF AIA COLORADO

The Colorado Association of Architects was organized in 1890 and the elected officers were: Robert S. Roeschlaub, President; Harold W. Baerresen, Vice President; Eugene R. Rice, Secretary; and Frank E. Edbrooke, Treasurer. The same men were re-elected to office at the Second Annual Meeting held December 21, 1891. The main topic of discussion at that event was submitting an application for a charter as a chapter of The American Institute of Architects. The charter was received April 4, 1892 and included the states of Colorado, Wyoming and the territory of New Mexico. It wasn't until 1947 that each state had its own chapter.

Programs and Services

The following outlines a portion of the committees and services available to members of AIA Colorado. The AIA Colorado Board of Directors invites and encourages your active participation in AIA at the local, state and national levels. Your involvement means fellowship with your peers, furtherance of your career and a continuation of your education. Volunteer your expertise – join a committee, sponsor an intern, submit an article to the newsletter, run for the Board, suggest a new service and attend the Annual Design Conference. Your participation and input are necessary for the continued success of this membership body.

AIA Colorado Board of Directors

President: Ron Abo, AIA

The Board of Directors is the governing body of AIA Colorado and develops all immediate and long term positions and policies for the state. If there is a subject of concern for you or if you have a proposal for the Board, please call AIA Colorado by the 10th of the month. A time will be scheduled for you during the Board meeting to offer your input. AIA Colorado board meetings are held on the 3rd Friday of each month at 2:00 p.m., generally at the AIA office. All members are welcome to attend.

AIA COLORADO COMMITTEES Design Awards Program

Chair: Dennis Reseutek, AIA

The Awards Program seeks to honor works of distinction by our members and to bring to public attention the outstanding architectural services provided by the members of AIA Colorado. Design Award winners are announced during the Design Conference.

Design Conference

Co-Chairs: Michael Brendle, FAIA and Fred Hynek, AIA

This committee is responsible for the planning and execution of AIA Colorado's Annual Design Conference. The conference chair is appointed by the President-Elect of the year prior to the year of the conference to be chaired. Committee members develop the theme for each conference, invite speakers and coordinate the two-and-a-half day schedule. Member participation and input is encouraged.

Educational Fund of AIA Colorado

Permanent Trustee: Kenneth R. Fuller, FAIA emeritus

The Educational Fund awards scholarships and grants to architectural students, faculty members, architects and AIA components each spring. Application deadline for these scholarships is, historically, around March 1st of each year. Approximately \$35,000 is distributed annually by the Fund.

Environment

Co-Chairs: Kelly Karmel, AIA and Scott Rodwin, Assoc. AIA

This year an effort has been made to coordinate programs across the state and keep the members apprised of important environmental issues. A slide presentation is being prepared to take to community groups in Colorado that shows what architects are doing for the built environment.

Finance Committee

Chair: Dean Ibsen, AIA (1998 Treasurer)

This committee is responsible for the financial well-being of AIA Colorado. The committee develops long-range financial goals and makes recommendations to the Board regarding budgets and other areas of financial planning. Membership dues, the Design Conference, support from exhibitors and sponsors and document sales generate the majority of the revenue necessary for the operating budget of AIA Colorado.

Gallery Committee

Chair: vacant

In an effort to increase the public's awareness of the AIA and the architecture profession, significant "storefront" space at our offices on Lower Downtown Denver is allocated to the *Piazza*!AIA Gallery. Monthly exhibits and receptions are coordinated to coincide with the "First Fridays Gallery Walk" in Lower Downtown. AIA Colorado and the *Piazza*!AIA Gallery are also members of the Lower Downtown Arts District.

Government Affairs

Chair: John Williams, AIA

This committee meets on the second Friday of each month at 2:00 p.m. at the AIA office to discuss matters relating to, among other things, the State Board of Examiners of Architects and legislation at the federal and state levels. During the 120-day Colorado legislative session, the Legislative Affairs Sub-Committee meets at 7:30 a.m. each Friday morning to screen and discuss potential legislation which could impact the profession of architecture. Our contract lobbyist Jerry Johnson assists AIA Colorado in this monitoring process, as well as providing on-site lobbying at the Capitol. AIA Colorado is sponsoring legislation this year, and our second annual Mini-Grassroots was held January 23, 1998. Our primary goal with this program is to increase the legislator's awareness of architects, architecture and the AIA.

Newsletter Editorial Board ("Colorado Architect")

Chair: Ron Abo, AlA

Editor: Kim Jackson, PA

The *Colorado Architect* is a monthly newsletter published by AIA Colorado to give members an update on actions taken by their Boards, notice of upcoming events, call for entries announcements, reports from committees, and local chapter news. The *Colorado Architect* encompasses the newsletters of the state and the four local components. Articles and letters are welcome. Submission deadline is the 1st of each month prior to the month of publication. The Editorial Board is comprised of a representative of each local chapter, a public member, a member of the media, and the Executive Vice President, Director of Local Chapters, and Communications Coordinator of AIA Colorado.

Nominating Committee

Chair: Ned White, AIA (1998 President-Elect)

This committee is composed of at least five (5) AIA Colorado architects, selected on the basis of one representative from each AIA Colorado chapter (appointed each year at the August meeting of the Board of Directors) and chaired by the current President-Elect. The Nominating Committee recommends at least two (2) nominees to run for each officer's position on the AIA Colorado Board of Directors.

AIA COLORADO TASK FORCES Education Task Force

Chairman: Michael Barber, AIA

The primary charge of this task force was to determine a way for the 4-year School of Environmental Design in Boulder and the Graduate School of Architecture and Planning in Denver to either communicate better or perhaps rejoin the two schools. The schools rejoined as the New College of Architecture and Planning. The Task Force is now monitoring the progress of the newly joined schools.

Fellows Task Force

Chairman: John B. Rogers, FAIA

The Fellows Task Force was formed in 1992 and continues to assist the local chapters in nominating their outstanding members to be considered for election to the College of Fellows. The Task Force assists those architects nominated in developing their submissions to the Jury of Fellows.

AIA COLORADO COORDINATORS Intern Development Program (IDP)

Coordinator: Steve Frey, Assoc. AIA

The Intern Development Program continues to gain momentum in Colorado. The IDP Coordinator and AIA Colorado staff sent out more than 200 packets during 1997. The Coordinator also provides programs at CU Boulder and CU Denver, as well as firms interested in the merits of the IDP program. The Coordinator also nominates firms for the AIA/NCARB IDP Firm of the Year award.

Membership

Coordinator: Roger K. Crosby, AIA

Successful and continuous membership expansion efforts are essential to ensure that the AIA truly represents the profession. Recruit a friend – invite them to a meeting or chapter activity and get them involved in AIA.

Public Relations

Coordinator: Elizabeth Wright Ingraham, FAIA

AIA Colorado's relationship with the media and other organizations, as well as public recognition of the contributions of architects are of paramount importance to the visibility of architects in 1998.

Qualifications-Based Selection (QBS)

Coordinator: Patrick J. Ziuchkovski, AIA

Qualifications-based selection is a negotiated procurement process for selection of design professionals based on qualifications and competence in relation to the work to be performed. AIA Colorado along with the American Consulting Engineers Council of Colorado ("ACEC of Colorado") and Professional Engineers Council ("PEC") are part of a coalition to achieve quality and cost effectiveness in public projects.

AIA COLORADO SERVICES AIA Document and Publication Sales

AIA Colorado is a full-service distributor of AIA contract documents and forms. Each member receives a 30 percent discount on all AIA copyright-protected contract documents and a member price on many books published by AIA. Our document inventory is kept well-stocked to fill orders. However, advance notice is appreciated for large orders so that we can replace our inventory and have documents available at all times. We stock a limited number of books, such as CADD Layering Guidelines. Order forms faxed or mailed to AIA Colorado, accompanied by a check or VISA/MC number, are usually processed on the day of receipt. Or, you may pick up your document orders at the AIA office.

Client Referral File

Each AIA member is encouraged to fill out the Client Referral Form that will be mailed to you once your dues are paid in full. This form is used for the Architect Referral Service offered to the general public. AIA Colorado has listed "Architect Referral" as a free service in its ad in many phone directories throughout Colorado. Potential clients call us for assistance in selecting an architect, finding a speaker or hiring an expert witness, and your Client Referral Form is used exclusively for these purposes. Be sure to completely fill out and return your Client Referral Form to AIA Colorado each year.

Job Referral Service ("Job Board")

The Job Board is a service provided to members, the architectural community and architectural job-seekers everywhere. Job openings are advertised for \$70 per week per listing (\$35 for members) on the Job Board which is updated every Tuesday at 12:00 P.M. Available from the AIA office, the Job Board is free to job seekers. Job seekers can also subscribe to the Job Board by sending self-addressed stamped #10 envelopes to AIA Colorado. **New for 1998:** Beginning on April 15th, the Job Board will be offered on the internet via AIA Colorado's website, www.aiacolorado.org.

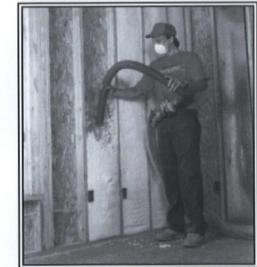

Resume Book

AIA Colorado maintains a book of resumes for potential employers. There is a \$20 charge to job seekers to post your resume in the Resume Book for four months. Hiring firms may visit our offices to review the Book, or call and request a "Resume Package," which will include five to ten resumes that closely meet your requirements. To participate in the Resume Book service, call AIA Colorado.

Statewide Firm Profile

The Statewide Firm Profile and Membership Directory is a state-wide listing of all AIA members for the current calendar year. The Profile also includes many resources for the general public and procurers of architectural services. More than 4,000 copies of the 1998 directory will be distributed.

Blow–In–Blanket System (BIBS)

IMPROVED R VALUES

BIBS higher density delivers R15 in 2x4 construction, and R23 in 2x6 construction.

LESS AIR INFILTRATION

Tests by the NAHB Research Center showed that BIBS reduced air infiltration 68% over conventional insulation without a house wrap.

GREATER SOUND CONTROL

A .001% void can reduce STC by 50%. BIBS completely fills around all objects eliminating gaps, voids and seams.

AIA COLORADO DESIGN AWARDS

AIA Colorado strives to increase public awareness of the services provided by architects through its annual Design Awards, as well as emphasizing the architect's role in shaping the built environment through design excellence. The entries submitted were of any built work of architecture completed since January 1, 1992, by a Colorado architect. Projects located anywhere in the world were eligible. The distinguished panel of jurors were selected from architectural and design professionals who practice within the Western Mountain Region. The jury was chaired by Jack DeBartolo, FAIA of Phoenix, Arizona and included John Carney, AIA of Jackson Hole, Wyoming, Jennifer Moulton, AIA of Denver, Colorado, and Russ Butler, PA of Denver, Colorado. Winners were honored on Friday, October 17, 1997 in Hangar 6 at Stapleton in Denver.

LOCAL CHAPTER BOARDS OF DIRECTORS

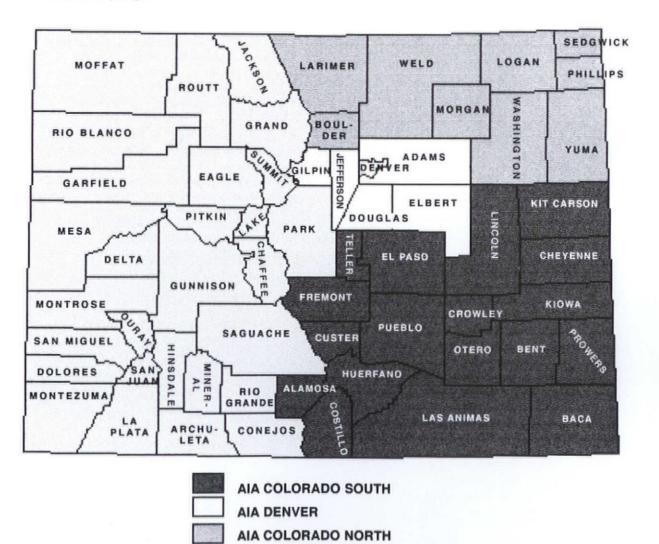

The following pages list the 1998 Board of Directors, programs and activities for each of the four local chapters located within the state of Colorado. AIA Colorado hopes that you will use this information to contact a local Board member or to assist a new member who is considering joining The American Institute of Architects. The local chapters cover the state as follows:

AIA Colorado South Chapter covers 18 counties of South and Southeastern Colorado and includes Colorado Springs, Pueblo and Montrose.

AIA Denver is the largest populated chapter in Colorado and includes the Denver metropolitan area, excluding Boulder.

AIA Colorado North Chapter covers nine counties in Northeastern Colorado and includes Boulder, Greeley, Fort Collins, Loveland and Longmont.

AIA Colorado West Chapter is the largest geographical area, covering 22 counties in Western Colorado, and includes the communities of Aspen, Breckenridge, Vail, Grand Junction and Steamboat Springs.

The AIA Colorado North Chapter was chartered the fifth of May, 1976. The chapter's geographical area encompasses the counties of Larimer, Weld, Morgan, Logan, Sedgwick, Phillips, Yuma, Washington and Boulder. The goal of the chapter was to provide a more direct link and services to the members in the area. Founding members were: Dennis Rinker, AIA; Steve Gunn, AIA; Larry Steel, AIA; Howard Johnson, AIA; Robert Burnham, AIA; Roger Thorp, AIA; Carl Glaser, AIA; William Robb, AIA; Bill Brenner, AIA; Charles Ingalls, AIA; James Welsh, AIA; Peter Boer, AIA; David Bonde, AIA; Keith Ames, AIA; Neal Carpenter, AIA; Bob Shreve, AIA; Bill Williams, AIA; Darrel Smith, AIA; Edward Zdenek, AIA; and Burton Roeth, AIA.

THE 1997 AIA COLORADO NORTH CHAPTER DESIGN AWARDS

The award winners in the AIA Colorado North Chapter's Annual Design Awards Program were announced at the Chapter's November 7th Annual Meeting and Banquet. Selected from a strong field of submittal, four projects were given awards - two Honor Awards and two Merit Awards. The jurors for this year's Design Awards were Mr. Stephan Pappas, Mr. Glen Garrett, Mr. Ken Tobin, and Mr. Rande Pouppirt, all from AIA Wyoming in Cheyenne. We certainly appreciate their efforts and enthusiasm which were major contributors to the success of this year's design awards program.

THE HONOR AWARD WINNERS ARE:

Submitting Firm: Thorp Associates, P.C. Project name: Kiihu Owanmurqlep- A private residence Location: Estes Park, Colorado

Project name: Location:

Most Contractors Avoid Water. We Help You Build In It.

submerged in up to 17 feet of water.

Not all contractors fear the water. Especially when they work with AAA Waterproofing. We provide state-of-the-art waterproofing solutions for everyday jobs. And we're the experts at handling challenging projects like The Lodge Casino at Black Hawk, Colorado.

Contractors, Architects, and Engineers trust AAA Waterproofing's 25-year track record of success. We help projects stay on schedule and within budget from conception to completion.

So whether you're building directly in the water or wanting to avoid water's occasional effects, give us a call.

THE 1997 AIA COLORADO WEST CHAPTER DESIGN AWARDS

The AIA Colorado West Chapter held its annual awards banquet in March 1997 at the Hotel Colorado in Glenwood Springs. Eighty people represented the Chapter at the dinner, which included installation of the officers and area coordinators for 1997 and the presentation of the design awards.

The Chair of the 1997 design awards jury was Les Wallach, FAIA. Les is a principal of Line & Space in Tucson, Arizona. Winner of the 1996 Silver Medal from the AIA Western Mountain Region, Les has received more than 30 design awards since 1978. The jury included distinguished individuals from the Tucson area. Out of the 55 entries, five projects were singled out for design awards.

AIA COLLEGE OF FELLOWS

The American Institute of Architects bestows the recognition of Fellowship for achievement in architecture on members who have contributed notably to the advancement of the profession of architecture. With the exception of the Gold Medal, fellowship is the highest honor the AIA can bestow on a member. It is conferred on members with at least 10 years of membership who have made significant contributions to the aesthetic, scientific and practical efficiency of the profession; to the standards of architectural education, training and practice; to the building industry through leadership of the AIA and other related professional organizations; to the advancement of the living standards of people through their improved environment and to society through significant public service.

Those advanced to fellowship can use "FAIA" after their names in recognition of their contributions in design, education, research or public service.

The following men came into the area from other chapters in the early days and were automatic Fellows when assigned to the Colorado Chapter. (Area - Colorado, Wyoming and the territory of New Mexico, April 4, 1892).

1886 Frank J. Grodavent, FAIA1888 E. T. Carr, FAIA1889 Francis W. Cooper, FAIA1896 Franklin E. Kidder, FAIA

The College of Fellows of The American Institute of Architects honored the following Colorado architects with Fellowships:

1900	Robert S. Roeschlaub, FAIA
1934	William E. Fisher, FAIA
1934	George H. Williamson, FAIA
1940	Robert K. Fuller, FAIA
1949	Burnham Hoyt, FAIA
1956	William Gordon Jamieson, FAIA
1957	James H. Hunter, FAIA
1961	Roland L. Linder, FAIA
1963	William Wilde, FAIA
1966	F. Lamar Kelsey, FAIA
1968	Victor Hornbein, FAIA
1968	William C. Muchow, FAIA
1971	Hobart D. Wagener, FAIA
1972	DeVon M. Carlson, FAIA
1977	Ronald A. Straka, FAIA
1978	Charles S. Sink, FAIA
1979	John B Rogers, FAIA
1979	James S. Sudler, FAIA
1980	John D. Anderson, FAIA
1981	G. Cabell Childress, FAIA
1981	James H. Johnson, FAIA
1982	Samuel J. Caudill, FAIA
1982	Richard L. Crowther, FAIA
1982	Marcus R. Tucker, FAIA
1983	Temple H. Buell, FAIA
1984	Kenneth R. Fuller, FAIA
1984	George S. Hoover, FAIA

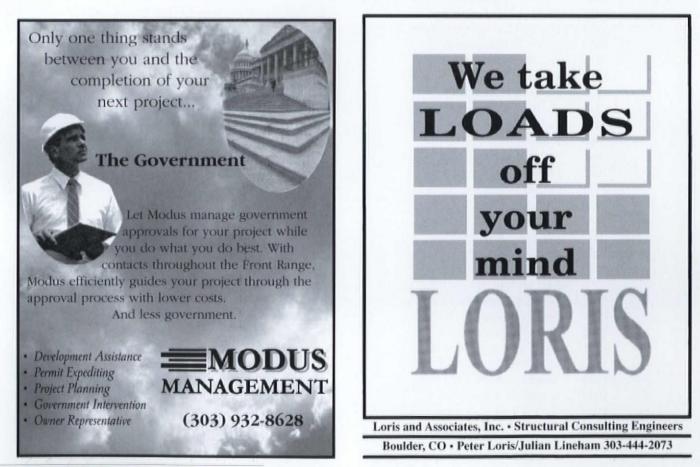

1984	Jerome M. Seracuse, FAIA
1984	Robert A. Van Deusen, FAIA
1985	Fredric A. Benedict, FAIA
1985	Dean Blake Chambliss, FAIA
1985	Daniel J. Havekost, FAIA
1986	Theodore L. Mularz, FAIA
1986	Norm E. Wirkler, FAIA
1987	Marvin Hatami, FAIA
1993	Karl Berg, FAIA
1993	Robert Kronewitter, FAIA
1993	Phillip Gerou, FAIA
1993	Richard von Luhrte, FAIA
1993	Dayl Larson, FAIA
1993	Jim Morter, FAIA
1994	Robert W. Root, FAIA
1994	John Loren Yaw, FAIA
1994	Gregory E. Franta, FAIA
1994	Peter Dominick, FAIA
1995	Elizabeth Wright-Ingraham, FAIA
1995	Gary Desmond, FAIA
1995	Ronald L. Mason, FAIA
1996	Curtis W. Fentress, FAIA
1996	Marvin J. Sparn, FAIA
1998	Michael Brendle, FAIA
1998	Alan G. Gass, FAIA
1998	Clifford Nakata, FAIA
1998	H. Alan Zeigel, FAIA

THE HISTORY OF THE EDUCATIONAL FUND, COLORADO SOCIETY OF ARCHITECTS, AIA

by Kenneth R. Fuller, FAIA emeritus

Since the first \$600 scholarship was presented in 1961, the Educational Fund has awarded more than \$600,000 in scholarships, grants and other prizes to more than 200 students, architects and teachers. Each recipient is a better professional today because of this Fund. The 1997 awards program totaled \$33,000 from income received through investments, donations, memorials, etc. This figure is more than 10 times the amount set up in the original Trust Fund in 1934.

During the past decade, substantial contributions have been made to the Fund by individual architects as memorials. Some have endowed to immortality certain named scholarships. Significant donations have also been made in the past by individuals and organizations allied with the construction industry, to endow annually other scholarships. Frequently, donors send a check to the Fund in lieu of flowers to memorialize a deceased friend.

The consensus from the Fund's Trustees over the last several years has been that we must broaden our scope of activities to do more to financially assist AIA Colorado and its four chapters so that AIA can conduct progressive Professional Education Programs. Requests for such Grants should be submitted to: The AIA Colorado Educational Fund, 1615 California Street, #508, Denver, CO, 80202. It is also the consensus of opinion that we need to strengthen our efforts to seek new funds in the way of endowments, donations, budgeted items, memorials, etc., from the Chapters and the membership at large.

The Educational Fund was born 64 years ago out of the devotion of five men to the practice of architecture. On January 23, 1934, Robert K. Fuller, FAIA, announced on behalf of himself and four other men, the creation of a special Trust Fund "to advance the interest of the profession of Architecture in the State of Colorado."

This wasn't its true beginning; however, it was the realization of a 10-year dream of Robert Fuller, FAIA, William E. Fisher, FAIA, George H. Williamson, FAIA, William Bowman, AIA and Fred Montjoy, AIA. Their dream had long been "to provide an instrument whereby, someday, sufficient income would be realized to be able to award scholarships, grants, prizes, etc. to the betterment of the profession." (All "quotes" are from the original article.) The first aim of the Trust Fund was quite modest: the assets were to be "held intact and allowed to grow" until the principal would be large enough to ensure a "good annual return therefrom." The founders hoped that the amount in the Fund would serve as a "nucleus" that would increase in value and, now that it was formally established, also attract additional donations. By 1944, however, no new contributions had been received and of the five founding fathers of the fund, only the Fund's Chairman, Robert K. Fuller, survived.

On December 18, 1944, the Trust Fund was transferred to the Colorado Chapter, AIA (predecessor of the Colorado State Society of the AIA and now AIA Colorado) as a Chapter Investment Fund. Robert K. Fuller was designated its Permanent Trustee. By early 1961, the Fund had achieved its first aim "...a good annual return." It was then deemed necessary to incorporate as a separate tax free entity to be known as the Educational Fund, Colorado Chapter, AIA. On February 16, 1961, the Fund was incorporated as a separate tax free, non-profit corporation, under that name. Its broad purpose, as reported in the December 1961 issue of the Colorado Chapter, AIA newsletter, "The Addenda," was (and remains today) "to advance education in Architecture by granting of scholarships, prizes and financial aid to deserving students in Architecture and to teachers or architects interested in research projects directly related and of value to the Architectural profession."

At its November 1961 meeting at the old Boulder Country Club, the Colorado Chapter, AIA awarded James E. Koentop, a fifth-year Architectural engineering student at the University of Colorado, the \$600 William E. Fisher Memorial Scholarship. This was the first scholarship awarded by the Educational Fund, Colorado Chapter, AIA. It had taken only 27 years for the five founders' original dream (to be able to make such awards for the betterment of the profession) to come true.

Robert K. Fuller, FAIA, died in 1966, and the AIA Colorado Chapter asked his son Kenneth R. Fuller, to assume the responsibility of the position of Permanent Member of the Board of Trustees, which he accepted. Further changes occurred in 1969 when following the restructure of the AIA in Colorado into a State Society with two chapters (now four) the Fund's name was legally changed to the Educational Fund, Colorado Society of Architects, AIA...to ensure the Fund's continuity and maintain its statewide orientation. The Board of Trustees of the Educational Fund, Colorado Society of Architects, AIA, by the Articles of Incorporation, consists of the following officers: Educational Fund President – President of Colorado Society of Architects, AIA; Educational Fund Vice President – President Elect of Colorado Society of Architects, AIA; Educational Fund Secretary/Treasurer – Permanent Member, Kenneth R. Fuller, FAIA Emeritus.

AIA COLORADO SPECIAL AWARDS Architect of the Year

The Architect of the Year Award is given to an architect who:

- · has provided outstanding service to the profession in Colorado,
- · has provided outstanding service in the field of architectural education,
- has provided outstanding achievement in the field of design and allied arts to the benefit of the profession of architecture,
- · has provided outstanding public service to the people of Colorado, and/or
- · has provided outstanding service to the building industry of Colorado.

The recipient must be a licensed architect in Colorado and a member of AIA Colorado for a minimum of five years "whose contribution to architecture in Colorado has been outstanding." Previous recipients include:

1982 James Sudler, FAIA 1983 William Muchow, FAIA 1984 Hobart Wagner, FAIA Charles Sink, FAIA 1985 1986 Jerome Seracuse, FAIA 1987 John Anderson, FAIA 1988 Temple Buell, FAIA 1989 Kenneth Fuller, FAIA 1990 Rodney Davis, FAIA 1991 John B Rogers, FAIA 1992 Samuel Caudill, FAIA 1993 Richard Crowther, FAIA 1994 George Hoover, FAIA 1995 Fredric A. Benedict, FAIA (Posthumous) 1996 lames Morter, FAIA 1997 William Deno, AIA

Firm of the Year

The firm of the year award is given each year to recognize a firm that has contributed to the profession and that has set an example both in design and leadership in the state. This firm best represents the practice of architecture. Any firm that has provided architectural services in Colorado for over 10 years is eligible. Firm of the Year awards have been given to:

- 1991 Hoover Berg Desmond
- 1992 Klipp Colussy Jenks DuBois
- 1993 Harry Teague Architects

1994 C. W. Fentress J. H. Bradburn & Associates, P.C.

- 1995 Cottle Graybeal Yaw Architects
- 1996 Chamberlin Architects
- 1997 OZ Architecture

Contribution to the Built Environment

This award was established to recognize outstanding accomplishments by a non-architect in Colorado for demonstrating exemplary achievements in contributing to the quality of the built environment. AIA Colorado intends to bring recognition to individuals from diverse backgrounds for their professional contributions to maintaining, preserving, developing, or promoting Colorado's built environment. Previous awardees:

- 1991 University of Colorado at Boulder
- 1992 Town of Limon
- 1993 Aspen Community Plan
- 1994 Don Logan of Stresscon Corporation and Paul Foster of Paul J. Foster Associates
- 1995 Lou Wynne, Hon. AIA Colorado South Chapter, Colorado Springs
- 1996 US Transportation Secretary Federico Peña
- 1997 The Aspen Institute/The Music Association of Aspen/ The Aspen Center for Physics/The International Design Conference at Aspen

25 Year Award

This was initiated in 1994 to recognize a project completed 25 to 35 years ago, that has withstood the "test of time" and still functions in its original capacity. Awardees have included:

- 1994 Engineering Center at the University of Colorado, Boulder
- 1995 Zeckendorf Plaza, Denver
- 1996 Boettcher Memorial at Denver's Botanic Gardens, Denver
- 1997 National Center for Atmospheric Research, Mesa Laboratory (NCAR)

THE TWENTY-FIVE YEAR AWARD FOR 1997 GOES TO NCAR

The I. M. Pei designed National Center for Atmospheric Research, Mesa Laboratory (NCAR) was recognized as a project completed twenty-five to thirty-five years ago that has withstood the "test of time," and still functions in its original capacity. Tinted by native red sandstone to blend in with its mountain backdrop, this Boulder landmark rises above the rest of the city from its mesa-top perch. The design of NCAR was inspired by the Anasazi cliff dwellings in Mesa Verde, Colorado. The award was presented October 18th at the AIA Colorado annual design conference in Denver.

FOR ALL THE RIGHT ANGLES. . .SPECIFY SHERWIN-WILLIAMS

D

A Architects and specifiers have always looked to Sherwin-Williams for quality products and technical services. C That's because they know our team of professional problem-solvers is unmatched in the diversity of their skills and years of experience. Call one of our dedicated architectural consultants. They're ready to help you with any technical questions or coatings specifications.

ASPEN CONSORTIUM AWARDED AIA COLORADO 1997 CONTRIBUTION TO THE BUILT ENVIRONMENT AWARD

AlA Colorado awarded the consortium of the Aspen Institute, Music Associates of Aspen, Aspen Center for Physics and the International Design Conference in Aspen, with the 1997 Award for The Contribution to the Built Environment. The award is given annually to an individual or group, outside of the profession of architecture, for their contribution to the field of architecture. Through the efforts of these four diverse organizations, at one physical location, the campus, "the Aspen Idea" became known and thrived. The Aspen Institute has continued to provide a venue for the high level of international discussion. The Music Associates of Aspen brings world class musicians to the community on a year-round basis. The Aspen Center for Physics provides a place for physicists to explore and argue new theories in a natural setting. The International Design Conference in Aspen presents a variety of topics relating to design issues. As a group, these four organizations have built, improved and maintained a built environment that clearly describes their goals.

AIA CONTINUING EDUCATION REQUIREMENTS FOR MEMBERSHIP

What is AIA/CES?

CES is a Continuing Education System developed by the AIA to record professional learning as a mandatory requirement for architect membership. Associate and emeritus members are exempt, but are encouraged to participate for their own benefit and that of the profession.

How does it work?

As members you can earn credit (Learning Units, or "LU's") in two ways:

- A. Participating in programs offered by chapters, firms, and other registered providers; in this case there's no paperwork at all for you to deal with. This generally does not include committee meetings.
- B. Self-directed personal learning activities which are studies of matters relying principally on the architect's initiative as a method of gaining knowledge to improve professional skills. These can include seminars, college courses, conference presentations, video and audio tapes and computer-based education software. A self report form is filled out and used to record your learning units on a transcript.

How are Learning Units (LU's) calculated?

Member earn LU's based on the length of the program of activity and on its educational quality level. The three levels defined by the CES are as follows:

Level 1 (passive) learning is any appropriate activity that has a professional purpose and professional resources, including but certainly not limited to reading, products analysis, and lecture attendance.

Level 2 (interactive) learning includes Level 1 and provides significant opportunities for participants to interact with each other and the learning resources.

Level 3 includes Level 2 and incorporates measurements of feedback concerning the learning progress of participants (generally in the form of testing).

How many Learning Units do I need?

Learning Units are earned on an annual basis. December 31, 1997 is the end of the first cycle of LU's. Thereafter, beginning in 1998, you will be asked to earn 36 LU's each calendar year. One-third of the LU's are to be earned in the area of health, safety and welfare, which is defined as those issues addressed by the Architectural Registration Examination (ARE). You may carry over surplus units for up to one year. You must make up deficient units the year following the deficiency.

Where are the CES records kept?

Transcript service and record keeping is provided by the College of Continuing Education at the University of Oklahoma. Self report forms need to be sent by the member directly to: University of Oklahoma, AIA/CES, Room B4, 1700 Asp Avenue, Norman, OK 73072. A transcript will be mailed each October, free of charge, to all members with CES activities during the calendar year. Additional transcripts are \$10 each. Transcripts can be accessed on AIA Online by using your member number. You should keep a record of your LU's for two years.

Is there a list of CES events available for AIA Colorado members?

AIA Colorado and each local chapter have events and programs throughout the year that qualify for Learning Units. AIA Colorado's monthly newsletter, the *Colorado Architect*, includes announcements of CES events throughout the state.

If you would like more information about AIA/CES please contact AIA Colorado, 303.446.2266 or 800.628.5598.

Phone numbers to remember

Wewish colon cancer was

For good reason. Because if it was more top of mind, more people would know it's one of this country's top killers.

And more importantly, more people would know it's 90% curable if treated in its earliest stages.

If you're over 40, you're at risk. See your doctor and request a colorectal cancer checkup. Do it now.

We know it's not the first thing on your mind.

We just don't want it to be the last. Learn more. Call the American Cancer Society at 1-800-ACS-2345.

NCARB - NATIONAL COUNCIL OF ARCHITECTURAL REGISTRATION BOARDS

The National Council of Architectural Registration Boards was established in 1920 to assist member boards in carrying out their duties, foster the enactment of uniform architectural laws, develop examinations and establish standards for certification requirements in education and training, to perfect its procedures for verifying the qualifications of applicants and determining their eligibility for certification and establish and maintain reciprocal registration between states having registration laws.

The NCARB is a non-profit corporation with all legally constituted boards of architecture in the United States as members, including the Colorado Board of Examiners of Architects.

To be eligible for NCARB certification, architects must submit satisfactory evidence that they comply with the standard for education, training, examination and character and have been registered by a member board.

The NCARB will, upon request of an individual architect, secure, authenticate and record factual data of the applicant's education, training, practice and character. This record will be forwarded to any state board upon request of the applicant.

Certification shall be given to an applicant holding a council record verifying that the applicant has complied with the council's standards of education, training, practice and character; and that the applicant has passed an examination conforming to the council's standards of content, extent and length of time.

Certification by the NCARB is recommendation to all registration authorities that registration be granted to the holder without further examination. Most board members accept NCARB certification as conclusive evidence of an architect's eligibility of registration. It is, however, not a national registration.

Complete information on compiling a council record and obtaining council certification can be obtained from:

National Council of Architectural Registration Boards

IF THE WORLD WERE INDEED A PERFECT PLACE...

Clients would enthusiastically Approve every proposal,

The Copy Machine Would Never Break Down,

The check would, in fact, be "in the mail,"

Profits would consistently exceed even the most optimistic projections,

and employees would never Need to request time off to Serve with the national guard And reserve.

But, then again, if the world were indeed a perfect place... we wouldn't need the national guard and reserve.

For the time being, however, we do. The national guard and reserve makes up more than 40% of our nation's defense. That's important. To all of us. be a hero. Give your employees the freedom to protect ours.

EXAMPLES OF WORK:

Custom Residential

DESCRIPTION:

My practice is dedicated to the design and creation of unique homes that meet the creative needs and expectations of my clients. It is my design philosophy that 'A house becomes a home when it reflects the spirit within'. The need and desire that each of us has to express our creativity is the essence of who we are. This fundamental desire to create is the fuel for the design process. As the Architect I am the interpreter of my Clients vision and facilitator of this particular creative endeavor.

DROP DEAD GORGEOUS.

One look at the new Casemaster window from Marvin is all it takes to see this is the most beautiful casement window ever made. And its beauty is only the beginning. New concealed locks are as secure and convenient as they are beautiful. And the all-new Marvin exclusive crank handle and cover design add an unobtrusive design element to the highest quality windows available, Marvin Windows.
