We thank advertisers and professional listors whose participation in the Profile make possible this publication. Although AIA Denver does not endorse any product or service, we urge consideration of those offered here.

AIA Denver welcomes questions and comments from Profile users. Your response assists in improving the effectiveness of this publication in meeting the needs of architects and the community. Thank you.

Paul Jeselnick AIA	Director
Steve Schonberger AIA	Director
Rich Wolfe AIA	Director
John Yonushewski AIA	Director
Gail Pelsue Associate AIA	Associate Director
Angela Ricker	Interim Executive Director

The 1996 *Profile of Denver Architectural Firms* is a current listing of American Institute of Architects Firms in the metro area.

Since 1982, AIA Denver has produced the *Profile* as an information resource to identify firms' experience and qualifications for:

- potential clients
- engineers and consultants
- contractors
- manufacturers and suppliers
- fellow architects

For those looking for architectural services, the *Profile* can be used to identify several firms with appropriate resources and expertise. You may then contact them and ask each firm for additional information relating to your specific project type. Additionally, there are many other resources available at the AIA offices at 1526 15th Street in Denver. Please visit with the staff for assistance.

There are also additional resources at the end of the *Profile* including contractors, engineers and suppliers who provide services and products to the construction industry.

Thank you for your interest and support, and remember AIA Denver is always available to assist the design and construction industry.

Ned K. White AIA, President
AIA Denver, 1996

WHAT IS THE AIA?

The American Institute of Architects was founded in 1857 by a small group of architects to explore ways of improving their profession.

Today, the American Institute of Architects is the preeminent professional society serving architects in the United States.

The Objects (from the Bylaws of the American Institute of Architects) shall be to organize and unite in fellowship the members of the architectural profession of the United States of America; to promote the aesthetic, scientific and practical efficiency of the profession; to advance the science and art of planning and building by advancing the standards of architectural education, training and practice; to coordinate the building industry and the profession of architecture to insure the advancement of the living standards of people through their improved environment; and to make the pro-

fession of ever-increasing service to society.

WHAT IS THE AIA DENVER CHAPTER FIRM PROFILE?

The Profile is a roster of AIA member architectural firms. All firms listed employ professional architects registered and licensed to practice

after meeting stringent educational and practical requirements, who subscribe to professional standards advanced by the American Institute of Architects. Additional

professional listings describe services available from a variety of individuals and firms in disciplines related to architecture. Profile data regarding architectural firms was provided by the firms via a survey soliciting information most frequently requested by these users:

- Potential clients seeking information about area firms
- Architectural, contracting, engineering, and other firms in the building industry pursuing consul-

ant services

Manufacturers and suppliers to the
building industry assessing prospects

or marketing and service

Newcomers to the area, and others

with local employment goals

Profile users are invited to contact

architects and other professionals

listed in the Profile for clarification

or additional information.

Responsibility for the con-

ents of the listing rests

solely with the listed firm.

HOW TO USE THE

PROFILE

Basic information about the firm,

types of work offered, and person-

nel by number and type is listed in

the Profile. Firms are also asked to

provide examples of their work.

SELECTING AN ARCHITECT

The preparers of the Profile urge

those contemplating a project which

may involve hiring an architect to

seek architectural consultation early

in the process. A simple, brief

phone call to an architect will tell
you whether you can take advantage
of complimentary consultation.

Many architects are willing to meet
with you initially without obliga-
tion.

Selecting an architect is a personal
decision requiring the client's
thoughtfulness and care. The pre-
parers of the Profile believe that the

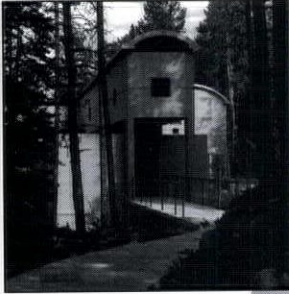

information provided here
can be of assistance in
that decision by providing
a perspective on the vari-
ety of architectural ser-
vices available.

Perhaps most useful for

your choice is consultation with a
professional architect, or with two
or three architects, to give you a
sample of what you might expect
from working with one of them,
and to find a satisfactory match of
your needs with what the architect
can supply. You and your architect,
working together, can turn your
ideas and requirements into a built
reality.

Few projects sail to completion without some problem along the way. Unless a contract clearly spells out duties and responsibilities, you risk sinking into a dispute that can cost time and money. Using an original AIA contract document helps keep your project afloat.

AIA Colorado offers nearly 100 documents to cover most every situation. Call us today and keep your next project on course.

Call us at 303/446-2266
for a document list, or

What's In A Name?

Col-o-rad'-o

- (kōl'•ō•ră'dō) *n.* 1. a State in the central USA; the east forms the Great Plains, while the west includes part of the Rocky Mtns.
2. of medium color or strength [t, Sp.: colored, red].

Hard'-scapes

- (hărd'•skāps) *n.* 1. solid pieces of landscape, difficult to cut, crack, or crush 2. the hard surfaces in a landscape scene.

By definition, **Colorado Hardscapes** best describes what we have to offer our clients...

...all of the hard surfaces required to complete a landscape package, including Bomanite, special concrete finishes, and simulated rock features, from a company that has serviced the Colorado construction industry for 50 years.

Light Spot

For over ten years, **Light Spot** has been supplying and servicing the A & D community in Utah with the most innovative design and exceptional quality in contemporary lighting fixtures, furniture and accessories. With the opening of our second location at 1516 Wazee in Lower Downtown Denver, **Light Spot** expands its service and products to the Architects and Designers of Colorado.

Specializing in Modern and Contemporary classic Design, Light Spot displays products without the clutter of traditional lighting and furniture studios. You and your client will clearly visualize a lighting fixture or piece of furniture. You are also afforded the opportunity to page through the catalogs of manufacturers represented by **Light Spot**, which illustrate their complete product offering.

Light Spot will assist with lay-outs and drawings as well as pricing of our lighting systems and furniture products. Our personnel are trained to assist with the selection of appropriate pieces for particular applications as well as with the customization of products.

We welcome the Architects and Designers of Colorado to come and enjoy the beautiful designs of **Light Spot**.

IF YOU'RE PLANNING EVEN A SMALL RENOVATION...

... PLAN ON SAVING MONEY WITH AN ARCHITECT.

Whether you're adding a bedroom or building a new home, it pays to call an architect.

It all starts with your first meeting.

By listening carefully to your specific wants and needs, an architect can help you make the most of your space, speed up your renovation, and smooth out the hassles from start to finish.

Architects know how to keep a watchful eye on your budget. And they can help you avoid costly, last-minute changes.

So if you're considering either renovating or building a new home, give us a call.

We can put you in touch with an AIA architect who'll interpret your needs.

And keep a ceiling on your budget.

IT PAYS TO CALL AN ARCHITECT.

December 1995

Dear Profile User:

Enclosed you will find your copy of the 1996 *Profile of Denver Architecture Firms*. For AIA Denver members, this is one of the most important benefits you receive for belonging to the local chapter. This year, for the first time, AIA Denver is pleased to be able to mail each and every AIA, Associate AIA, and Corporate Friend of Architecture member their copy of the *Profile* at no cost. In the past, we required that you either pick up your copy at the AIA office or send the cost of postage to us in advance. As important as the *Profile* is, I believe it serves a better purpose in your hands rather than on our shelves.

Thank you to all the Friend of Architecture and Professional Affiliate members who purchased the directory in advance and are now receiving your copy as well. I hope this

Richard Wolfe, AIA
John Yonushewski, AIA

Associate Director
