Once upon a time, this was considered a luxury.

So was this.

If you're a busy executive, cellular phone service from Hawaiian Tel is no longer a luxury. It's a necessity.

Cellular is the most important business communications breakthrough since the advent of the telephone itself. It lets you make and receive calls from almost anywhere. So while others are on the road, you can be on the phone.

Besides the obvious business advantages, cellular service from Hawaiian Tel is backed by 104 years of local knowledge, and the nationwide cellular expertise of GTE Mobilnet.

So if effective communication is important to your company, dial 732-9500 and ask about cellular phone service from Hawaiian Tel. It's everything your business could call for.

Some businesses still choose a bank the old-fashioned way.

Hit or miss.

When it's left to blind luck, you take your chances if your banker doesn't have the kind of clout and experience to expedite your business deals.

That's why an increasing number of companies pick First Interstate right from the start. They know they're getting the clout of one of the nation's largest banking systems with over \$52 billion in assets; over 1100 offices in 20 states and the District of Columbia, and a string of

international banking offices in 22 foreign countries.

They're also getting one of Hawaii's most extensive offerings of services geared toward local businesses. From innovative financing techniques to advanced cash management products to specialized industry expertise.

See what a strong banking network can do for your profit picture. Call First Interstate at 525-6820 today.
