High Touch Produces High Tech for Amfac

Craftsmanship and diplomacy remain the watchwords of general contracting excellence.

At Amfac Information Services' new center, designed by TRB Hawaii to meet the need for state-of-the-art data processing, project execution demanded a top crew. Variables were many, including coordination with a Texas based technical consultant.

"Allied Builders dealt with the multiple tasks superbly, finishing the job on time with the professional skill we have come to count on from their people," observed TRB principal Cliff Terry.

Observed Amfac's David Enersen: "Our completion date was engraved in granite. It was a complicated project . . . we were impressed with Allied's totally professional performance."

**Teamwork. Our motto.
Our method.**

Don't Compromise... Galvanize!

When the Friends of Iolani Palace brought in Alex Klahm & Sons to restore the gates at Iolani Palace, their goal was to preserve the entrance for generations to come. They chose galvanizing for the protection they knew would provide them with years of maintenance free service.

Like the Friends of Iolani Palace, we at Jorgensen Steel pride ourselves on paying strict attention to detail. From the critical cleaning and preparation stage to the actual hot zinc bath, we monitor every step for your protection.

Corrosion costs you money.
