# THE LAST THING.

When the last thing you want is problems, the first place to call is Bonded. After all, why start off on the wrong foot? Because cutting corners and pushing inadequate products to do jobs they weren't designed to do just leaves you holding the bag. And that bag is full of make-goods, unscheduled crew overtime and just plain old headaches. And life's too short for that.

So take it easy on yourself. Select products that do the job at an affordable price. We've been servicing the Pacific's construction industry since 1955 with quality products backed by a customer and service support organization that take pride in a job well done.

Just like you do. From protective coatings to admixtures, epoxies, sealants, grouts, coloring systems, patching materials, room integrity systems and much more, we're your source. Because the last thing you want is problems.

**ACO DRAIN**—Precast concrete trench drains for architectural and industrial applications.

**ALLTHANE**—Polyurethane and water-based elastomers, sealers, epoxies and corrosion control products.

**FLAME STOP**—Clear liquid fire retardant coatings and pre-mixed firestop putty and caulk designed to prevent the spread of fire, smoke, water and toxic gases.

**C-CURE**—Made in Hawaii. Dry-set mortars, adhesives, grouting compounds, mortars, and floor leveling compounds.

**DOW CORNING**—Silicone construction sealants and firestop systems.

**EL REY STUCCO**—Made in Hawaii. Stucco and modified stucco finishes including Super Deck Non-Slip Surfacing for swimming pools, sidewalks, lanais and driveways.

**BONDED**—Made in Hawaii. Bonding adhesives, admixtures, patching materials, grouts and epoxies.

**HYDROZO**—The ultimate in clear water repellent coatings for concrete and masonry.

**L.M. SCOFIELD**—Concrete coloring systems and architectural form liners.

**TNEMEC**—Protective coatings for metal, concrete and masonry.

**QUIKRETE**—Made in Hawaii. Packaged concrete mixes, patching materials, plaster and stucco products for concrete and masonry.

**SIKA**—Concrete admixtures, epoxies, sealants, grouts, coatings and patching materials for concrete and masonry.

**THORO**—Waterproofing, decorative, restoration and protective products for concrete and masonry.

**BONDED MATERIALS COMPANY** *A Standard of Excellence*

## President's Message

### 7 Quality Education is Needed to Meet Future Challenges

The lack of consistent, quality education is one of three major concerns of young architects.

by Ann Matsunami, AIA, and David Hart, AIA, Guest Columnists

## Restaurants

### 9 The Willows: Shades of Past and Present

Named for the trees surrounding it, this Honolulu restaurant has stood the test of time, maintaining a relaxed yet elegant ambience.

by Sid Snyder, AIA

### 14 Spicing Up the Dining Experience — Thai Style

Roller skates and boats are necessities for food servers at some Thai eateries.

by Robert M. Fox, AIA

### 16 Kona Village Resort: Serving the Aloha Spirit

While dining areas at this Hawaiian-style resort hotel have undergone renovations, they have not lost their local charm.

by Henry E. Reese, AIA

### 22 Signs of the Times

When it comes to the visual communication needs of restaurants, each has its own unique set of requirements and challenges.

by Eileen A. Mortenson

## Fire Safety

### 26 Fire Codes and Architecture: What's Hot and What's Not

Architects and fire officials do not usually look at design plans from the same perspective.

by Andrew Charles Yanoviak, AIA

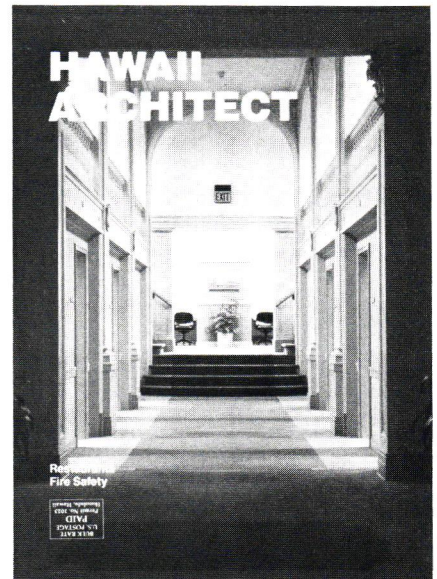

### 30 Technology 'Rains' in Automatic Sprinkler Protection

Automatic sprinkler systems are experiencing rapid technological development.

by Samuel S. Dannaway

### 20 Hawaii Society/AIA Design Awards

### 34 News
