At GE, we build appliances to complement the quality of your construction. Like your custom homes or upscale condominiums, GE appliances are designed with the appearance and features that appeal to your customer.

And, like you, we understand the importance of the things the customer doesn't see.

Quality. Durability. Performance. And a reputation that says we stand behind our product.

We bring good things to life.

Cover: The porte cochere of the Catamaran Beach Hotel in San Diego features open-scissors trusses which facilitate the double-pitched Dickey roof and, together with the skylight, create strong overhead interest. The Hawaiian theme of this Wimberly Allison Tong & Goo project is manifest in generous use of lava rock here and in other public areas. Photo by Ron Moore
