When your critical path is truly critical...

Allied Builders' crews are the top field solution. Case in point: North Beach Leather, the splashy high-end clothiers, part of an avant international chain, now open at Ala Moana.

For architect Duane L. Cobeen, AIA, the project called for fast-track execution, precision installation of unique fashion-flavored materials (arriving from faraway ports) and sensitivity to mall management and patrons passing by.

For the California-based owner's representative, interiors specialist Steven R. Frank, the contractor demonstrated big picture intelligence, situational control, artisan pride and lightning speed—as rain threatened to break through the renovated mall's half-completed skyline.

"Allied went the extra yard to organize and accommodate—and help us open in a timely fashion," noted Frank. "They were in control, even under duress, at all times."

True to its trademark, Allied hit the deck running with plans in hand one day, computerized scheduling the next, and men on site right after that.

Cobeen's conclusion: "It was our first job together. I hope there will be many more."

Allied Builders project manager Bret Phillips,
