When hard hats converge on the human heart...

...the ideal contractor is critically caring.

A case in point involved Architects Hawaii's plan for extensive multi-level renovations at Kapiolani Medical Center, which struck a delicate balance between scientific excellence and comfort in the home.

Not just any remodeler could perform quality work among newborn infants, maternity patients and round-the-clock nursing care – and still beat the time by more than two months.

Observes Kapiolani CEO Walter L. Behn, FACHE: "It was a tough comprehensive assignment. Allied Builders had a great attitude and worked well within our critical operating givens. Their finishing work was outstanding, they were on target with the budget and truly amazed us on the time. We certainly would have them back again."

Adds veteran architect Frank Haines, FAIA: "We recommended Allied and were pleased we did so. They were quality controlled, caring and completely cooperative."
