

HAWAII ARCHITECT

June 1993

- 
- A woman with short brown hair and glasses, wearing a green patterned dress, is sitting on a white balcony railing. The balcony has white columns and a white railing. In the background, there are white rocking chairs and a white door with arched windows. The scene is set on a porch with a wooden floor.

When Contractors are Communicators...

...the project prospers. That's why good communication is the bedrock of Allied Builders' working philosophy.

Case in point is the beautiful new Waikiki Trade Center based offices of Jetour Hawaii Inc. where Allied Builders was tasked with razing former tenant space, recreating corridors and rooms, modifying ceilings, air conditioning and lighting – so that 12,000 sf of visitor friendly interiors were ready in just 60 days for the holidays.

Observes Jetour's Pat Yoshimoto: "They bent over backwards to get the job done and were always communicative. They truly syncopated with the architect and building manager and gave us a quality product."

Adds architect Roy Yamamoto, a frequent Trade Center contributor: "Once again Allied Builders came through. We always knew where the job was at – without asking. They make our work a more enjoyable experience."

ALLIED BUILDERS SYSTEM
Teamwork. Our motto. Our method.
