CONCRETE HOUSING!

Hawaii's Solution for Home Building.

"Suncrest" Townhouses by Gentry Homes, Ewa

Single Family Home, West Oahu

Concrete Housing Advantages:

- Affordable
- Strong & Durable
- Environmentally Friendly
- Does not Burn, Rot or Rust
- Soundproof
- Cost Competitive
- Low Cost Maintenance
- Termite & Hurricane Resistant

Suite 1110, 2828 Paa St./Honolulu, Hawaii 96819

To get the solid facts about Concrete Housing, call the CCPI Research Library at...**833-1882**

Cement & Concrete Products Industry of Hawaii

Sika FerroGard-901 is an active corrosion inhibitor designed to extend the life of exposed reinforced concrete structures. It is added to the fresh concrete and adsorbs on the reinforcement in a very short time. It reduces corrosion of the steel without affecting the properties of the fresh and hardened concrete.

Sika FerroGard-903 is an aqueous impregnation which is applied to the concrete surface. It quickly penetrates the concrete by liquid and vapor diffusion. Sika FerroGard-903 has a high affinity to steel and forms a protective film on the steel surface. This delays the onset of corrosion and the corrosion rate is considerably reduced without affecting the concrete properties.

Sika FerroGard®

Active Corrosion Protection for both New and Existing Reinforced Concrete Structures. With Dual Action Effects.

IN THIS ISSUE ...

Oahu's urban areas are expanding... and occasionally experiencing the inevitable growing pains that result. Architects and planners have been heavily involved in these expansion efforts, including the burgeoning "Second City" of Kapolei, improvement to Honolulu's Kakaako district and visionary ideas to revitalize Waikiki.

COVER: Visitors often think of Hawaii as being a laid-back, lazy place, but residents know that life in the Islands, especially on Oahu, can be as fast-paced as nearly anywhere on the mainland. This photograph of evening rush hour aptly illustrates this point. Photo by Warren Bolster, courtesy of the Hawaii Visitors and Convention Bureau.

A New Generation of Leaders

Heading a team of over 40 technicians are left to right:
Alvin Nishikawa, Ken Matusumura, John Kobayashi,
Al Gardner, Steve Kramer, and Jim Hiramatsu

Meet Alvin Nishikawa.

Alvin is Vice President of The American Coating Company. He is in charge of all field and estimating operations. Previously, Alvin was employed with an engineering firm in Chicago and Honolulu where he focused primarily on restoration and water infiltration problems. Alvin holds a M.S. and B.S. in Engineering from Purdue University.
