WHEN IS AN ARCHITECT AN INSURANCE MAN?

When he can help clients save up to 700% on insurance rates . . . as these architects did for the St. Landry Parish School Board. They specified all-concrete construction for this new elementary school—being built with materials from Louisiana Concrete Products, Inc. And in doing so, they provided for lasting safety and beauty with minimum maintenance—PLUS an insurance rate seven times lower than other structural systems . . . an important cost-saving factor to be considered in all present and future planning.

Louisiana Concrete Products, Inc., is proud of its part in contributing to the improvement and progress of this Louisiana community.

Elementary School, Eunice, La. **OWNER:** St. Landry Parish School Board. **ARCHITECTS:** Tolson & Hamilton. **CONTRACTOR:** E. E. Rabalais & Son, Inc.
