DETROIT AIA NEEDS SPEAKERS

The Detroit AIA office has frequent requests from Educational Institutions to provide someone to speak to student groups on the profession of architecture, the type of work it offers, and how to go about entering the field. The office also receives some requests from various civic and professional groups for speakers on Architecture or related subjects.

We feel that the profession can benefit by answering as many of these requests as possible and are trying to develop a list of persons willing to speak to student or civic and professional groups. In general, two types of speakers are needed: a group interested in talking to students who are considering entering the architectural field; and a group who is interested in speaking on specific subjects relating to architecture.

We hope that you will take the time to fill in the following form so that we may determine the number of members who will be willing to serve our profession in this way, and return it to Beaubien House as soon as possible.

U-D OFFERS MASTERS DEGREES

The School of Architecture, University of Detroit, now offers a double degree program at the masters level. This program results in a Master of Architecture degree and a Master of Business Administration degree. They may be pursued simultaneously and are both accredited by the appropriate accreditation agencies.

To our knowledge, U-D is only one of two, the other being the University of Illinois at Champaign-Urbana, offering this combined course.

MSA EXCOMM ACTION

The MSA Executive Committee met on April 14th at the Beaubien House to conduct the business of the Society in preparation for the meeting of the MSA Board of Directors in Lansing on May 11th.

Items on the ExComm agenda included improvements to the Beaubien House (we have 54 months to go on the mortgage) under the direction of Tony Marino, a report from the chairman of the Gold Medal Committee, Tom Wickle, budget review and a report from Treasurer Keith Weiland.

President Eve Asken was enthusiastic about her day on campus at the University of Michigan School of Architecture talking to students about "professionalism" and how to make it in the real world.

Eve was instrumental in the Government Day conducted by the MCPSTA and the MSA received a lion's share of the publicity, thanks to Eve's participation.

At noon the MSA ExComm was host to members of the CEC Board of Directors for lunch at the Beaubien House. An afternoon of discussion regarding mutual interests and problems was most productive and is part of a continuing dialogue the MSA maintains with other professional organizations.

MCPSTA NEWS

Items under discussion at the April 15th meeting of the Michigan Council of Professional, Scientific and Technical Associations (MCPSTA) was a request for state action to provide sites for disposal of low level nuclear waste. Sites are to be within a five-state area and will accept waste materials from nuclear medicine and some industrial applications. This proposal has been referred to the Executive Committee of the Council for distribution and further discussion.

Government Day 1980 was considered to be a success, with excellent press and TV coverage of the Council White Paper on "Expanding High Growth Technology Based Industry in Michigan." Copies of the White Paper may be obtained from MSA Headquarters. Planning for 1982 is underway.

1982 MSA CONVENTION

The Flint Chapter has issued invitations to the Mid-Michigan Chapter, the Saginaw Valley Chapter and the Huron Valley Chapter to tour the Hyatt Regency Hotel under construction in Flint. The Hyatt will be the site of the 1982 MSA Convention.

He awarded \$1,000 first place scholarship to Danny Ivanovic from Cousino High School in Warren, Michigan. Danny came to the United States recently from Yugoslavia. His solution to this year's problem, a "Prime Time Hangout," was chosen by the jury of three MSA architects out of 60 finalists. Danny will be entering an architectural school in September.

The program was witnessed by Paul Gapp, critic for the Chicago Tribune, and LIT's President Marberger. Detroit Chapter President, Sam Popkin, FAIA, awarded an additional scholarship to Danny and scholarships to Thomas Rudofski and Tim Foerster, along with six honorable men-
