## PRESIDENT'S MESSAGE

By Robert Greager, AIA

Summer is drawing to a close and the next big event on your calendar should be the MSA Convention in Flint October 16-18. Gene Terrill and the Flint Chapter have worked hard to make this convention topical and informative. If you haven't been to Flint lately this is a good chance to see the buildings that will revitalize another "rust belt" city.

While they are not calling it a debate, the three hour session with avant garde architect Stanley Tigerman, our own Ken Neumann and former Detroit News architectural critic, Bob Benson could turn into a lively discussion of the future direction for architecture design. I don't intend to miss it.

Another not to be missed session is the one on professional liability. It is on everyone's mind with good reason. Some premiums have gone up 400%. A representative from a major carrier of liability insurance for architects will be there to tell us what he sees in the future.

Marketing continues to occupy more time and money in our practices, therefore Stuart Rose, Ph.D., AIA, will spend a full day conveying nuts & bolts marketing specifics that you can use in your firm.

The social side of life hasn't been ignored either. The Michigan Opera will perform selections from major Broadway plays. MSA 1985 Design Awards will be presented at a banquet. There will be music, food and afterglow. Call the staff at the Beaubien House if you need help with your registration.

You will notice that a lot of this Bulletin is taken up with the Beaubien House Honor Roll. Noel Fagerlund and his committee have taken their show "on the road" and the results have been coming in. Two hundred people have contributed over \$70,000 so far.

## IDP UPDATE

by Art Nelson, AIA

Across the nation more and more State Boards of Registration are mandating the NCARB-AIA Intern Development Program guidelines as a requirement for licensing. Here is the scorecard to date: Alabama (1985), Arkansas (1982), Florida (1982), Georgia (1986), Louisiana (1983), Maine (1985), Mississippi (1978), Nevada (1986), Oregon (1984), Tennessee (1984), Texas (1983), Massachusetts (1988), North Carolina (1987), Rhode Island (1987), Vermont (1986). In addition, 28 states have endorsed IDP training as appropriate for the internship years.

Since 1978, the Michigan State Board of Registration for Architects and the Michigan Society of Architects have endorsed IDP as an exemplary voluntary program and have supported a working IDP committee to administer it.

Now, having witnessed the dismal results of the current licensing exam, the State Board under Evie Asken, FAIA, Chair and Bob Greager, AIA, Vice Chair, is seriously considering joining those states which have adopted the NCARB-AIA guidelines for Architectural Internship as a necessary preparation for licensing.

For the State Board this will mean more detailed records or the NCARB can keep the records of each intern for them and certify candidates for licensing. For the profession it will be an opportunity to pass on good advice in all areas of practice. Future architects will thus be assured that their practice experience will be equal to the fine academic experience they have come to expect from our colleges and universities.

We now have the opportunity and the program to improve the internship years for our young architects. All that is needed is your commitment. There are professional architects in all chapter areas

of our state who have worked on IDP. They will be happy to help you set up your internship program. Your commitment today will ensure a better built world tomorrow.

The IDP Coordinating Committee for MSA offers the following motion for the general meeting at the 1985 Convention: "The Michigan Society of Architects reaffirms its dedication to providing the best advice the profession can give to aspiring architects as they prepare themselves during the internship years to one day assume the reigns of our time-honored profession with competence and confidence. Further, the MSA urges the Licensing Board of Architects of the State of Michigan to adopt a more complete set of guidelines and requirements similar to the current NCARB-AIA Intern Development Program, clearly stating needed areas of practice expertise to the end that the intern years will be well rounded and complete in scope and that no appropriate experience will be lacking during this mandated preparation for practice."

## AUTHOR PARTY

Harold Linton, LIT professor and author of "Color Model Environments—Color & Light in Three-dimensional Design" and the illustrator of the book RICHARD ROCHON will be honored guest at a reception at the Beaubien House on November 14th from 5 to 7 p.m.

The book is a must for anyone who wants to learn to build effective, attractive models. The book's workshop style presentation includes step-by-step construction procedures for basic forms and over 100 illustrated projects that focus on the color materials used most frequently by artists, architects and designers.

Richard Rochon is a principal of Rochon Associates, an architect-

tural illustration firm and he lectures at LIT.

The cost of the book is \$40 and should be in the reference library of every firm that uses models in their presentations.

## ASSOCIATE NEWS

Robert Tremonti  
1985 MSA Associate Director

Election of the 1986 MSA Associate Director will occur on October 16th at the Business Meeting during the Convention in Flint. Nominations will only be taken from the floor and the election will be only by the Associates in attendance. All candidates must be present. To be eligible for this position, you must be an Associate Member of the Society at the time of the election.

The position not only requires commitment by the Associate Director in time and money, but also from his or her employer. The Board meets approximately six times per year during regular office hours at various locations throughout the state. As Associate Director, you are to inform and represent all Associate Members from the nine local chapters in Michigan.

This article is to give notice and opportunity to all Associate Members to serve their professional association in a challenging and rewarding position.

## MASONRY DAY

The Masonry Institute of Michigan is planning a full day of useful and specialized masonry technical seminars, exhibits, and activities on Masonry Day, November 5, 1985 at the Southfield Hilton Hotel in Southfield. The latest information on the proper designing, detailing and scheduling of masonry to avoid delays in construction will be available.

## DOW Alumni Breakfast

The Fifth Annual Dow Alumni Breakfast will be at the Dow designed home of J. Parkhill Smith at 2470 Nolan Drive, Flint. This is one of two Dow houses built in Flint between 1935 and 1947. Breakfast will be served at 7:30 a.m. at the Smith home. A Dow Alumni business meeting will conclude at 9 a.m. and then Arnold Kolb, who was a photomicroscopist for Dow Chemical for 30 years, will present "The Beauty of Interspace." Maps will be provided for this drive-yourself event.

# FUTURE TRENDS

## "Future"

How can  
But we can  
leaders  
And that  
blend in  
have so  
But let's  
with Mia  
views wi  
This three

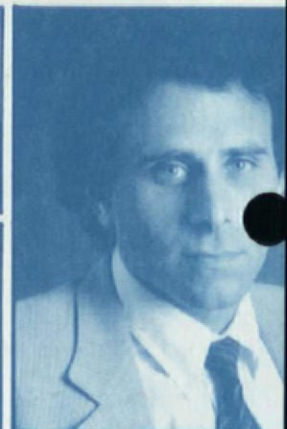

### Eye Opener Breakfast

James Gallagher is professor of science education at Michigan State University. His current research is designed to increase our understanding of the nature of secondary science teaching and the forces which shape it.

Dr. Gallagher will talk about changes that occur in society as they relate to current technologies and how these affect education. The impact of computers on modern lifestyles has affected marketing, manufacturing and the job markets. What does this mean to the architectural and business communities? Gallagher is deeply committed to designing science programs which prepare youth for their future in a high technology world.

He is also engaged in international projects in science education in Europe, Asia, Latin America, and Australia. Dr. Gallagher holds degrees from Colgate University, Antioch College and Harvard University.

Friday 7:30-9 a.m. Minneapolis/Palm Beach

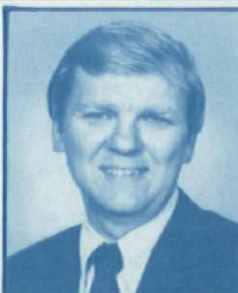

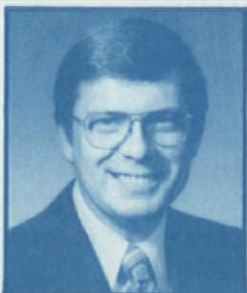

### "Energy Trends"

The battle to conserve energy will continue for generations, with each generation discovering new methods to prolong the life of our natural fuels. While certainly not a panacea for the world's energy ills, cogeneration has finally come of age as an economically sound alternative that must be reviewed by all building owners and the design professionals that help make energy decisions. Cogeneration is the simultaneous production of electricity and thermal energy from a single energy source.

Join Dr. Joseph Orlando, President of GKCO in Virginia, one of this country's leading experts in Cogeneration. In a discussion on the trends in future energy use and one of the tools you may be using in the near future to conserve energy for the next generation of Americans.

Friday 11 a.m.-12 Noon Miami

### Construction Trends

What does the future look like for the construction market change? Will these changes in very large construction firms and a consulting collectively examine these questions in one three Philip Nicholas, AIA, of R.E. Dailey & Company, a construction project and tell us how the information Tom Brady, PE, and Senior Vice President with B tion's largest construction firms is positioning itself Ralph Stephenson, P.E., Consulting Engineer, will Construction Industry." The traditional owner/arch tell us how.

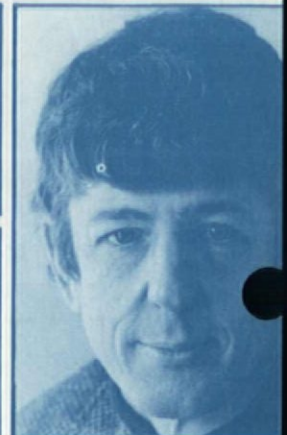

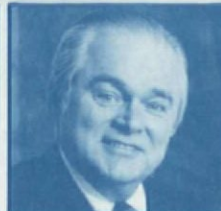

Friday 9 a.m.-12 Noon Fort Worth

### Liability Insurance Trends

Can liability insurance costs continue to escalate at the pace experienced over the past decade? What are the ramifications of practicing without liability protection? Will there even be professional liability insurance available to the architect of the future? It's a volatile issue today and only one thing is sure: "something has to change."

Tom Sheehan, Managing General Agent for Imperial Casualty and Indemnity Company, a large architectural insurer, will examine both present and future trends in architectural liability insurance.

Friday 2-3 p.m. Miami

### Development

Speaker to be announced

Friday 3-4 p.m. Fort Worth/Baltimore

## A Noted Futurist Previews the Future

Futurists talk about the future but only Harold Pluimer has been able to make his audience experience the future. Using logic and provocative examples, the future explodes in unforgettable terms during his dynamic presentations.

Pluimer's pool of knowledge and sense of awareness comes from a host of life experiences and unique credentials. He was a Commander in two wars, a teacher, school administrator and consultant for 12 years. He has worked with the U.S. Atomic Energy Commissions, National Science Foundation, NASA, U.S. Department of State, U.S. Air Force, and NBC Television. Author of the book, *The Frontiers of Our Time*, Pluimer puts the past, present and future into perspective.

Join us at this special kick-off session on "Future Trends" which sets the stage for the rest of the convention.

**Wednesday, 1-3 p.m. Minneapolis/Palm Beach**

## s in Design"

Subjective of all architectural disciplines be analyzed and dissected in search of a formula that will forecast future design trends? It's impossible! Leading design professionals to reflect on past design experiences, analyze the design trends that have established their firms as design.

ask them to project their imaginations into the architectural future of design.

we've done! Take Stanley Tigerman of Tigerman, Fugman & McCurray in Chicago with his avant garde approach to design and national/contemporary art forms of Michigan's own Ken Neumann of Kenneth Neumann/Robert Greager & Associates and we're going to

erested insights into design trends of the future.

are. Why not add a little spice to the recipe with an architectural critic's view on design trends. Enter one professor Bob Benson

ty, contributing editor of Inland Architect and formerly architectural critic for the Detroit News. Bob will respond to the architect's

ll his own.

ion stacks up to be powerful in content and dynamic in presentation.

**Thursday 9 a.m.-12 Noon Fort Worth/Baltimore**

## "Future Trends in Practice and Marketing

Trying to predict future marketing trends and office practice techniques is nothing new to Michigan architects. Accurate insights essential for survival. And now you have an opportunity to let the experts help predict your next marketing and practice strategies.

Hugh Hockburg, an architect and partner in the nationally known Coxe Group, has been exploring firm organizational models as they are affected by markets, clients, and service, design professionals sell. Hockburg will provide an interactive format for exploring the future trends of practice, marketing and selling professional services.

The discussion will begin with an overview and analysis of the current and predicted trends in the architectural profession.

The program will conclude by focusing upon concepts that will develop marketing and selling strategies for the architectural firm of the future.

**Thursday 2-5 p.m. Fort Worth/Baltimore**

What trends will affect the construction trades? How will the convey architects practice their craft? Representatives from two works with both architects and contractors will individually and on that should make some sparks fly.

all honed preceptions to reveal the future economics of will change financing, budgeting and estimating.

will share some secrets about how one of the na-

## Associate/Student Design Competition Awards & Reception

Village Visions, a design competition sponsored by the Associates Committee the Detroit Chapter-AIA, and the Michigan Architectural Foundation will be on display during the reception. The jury's comments will conclude with the announcement of the winners.

**Friday 4-6 p.m. Curtice/Chrysler/Nash**

## Spouse Activities

**THURSDAY — October 17th...**The historic Whaley House will provide an elegant Victorian setting for lunch and a style show of vintage fashions dating from 1837-1960. Lunch begins at noon and the fashion show will be over at 3 p.m. Your carriage will depart from the hotel lobby fifteen minutes before the event.

**FRIDAY — October 18th...**One of Michigan's outstanding attractions, Bavarian influenced Frankenmuth, will be the destination. The first stop will be Bronners, known for it's Christmas decorations imported from around the world. Lunch will be at the famous Zenders Restaurant. There will be plenty of time left to visit the many specialty shops in Frankenmuth. Busses leave from the hotel lobby at 9:30 a.m. The cost for for this exciting day is \$10.

The above comes to you thanks to the efforts of Jean Terrill and the Flint Spouses.

## "Marketing Success from Future Trends"

The MSA Convention, "Future Trends," provides the backdrop for this timely continuing education program by Stuart W. Rose, Ph.D. AIA.

This day-long presentation will help architects research markets, locate new business, promote their firms, conduct winning presentations, and establish successful relationships with new clients.

Dr. Rose is an architect, a developer of professional development programs, a trainer and consultant in marketing techniques, and a Michigander. Over the past few years, he has built one of the strongest national reputations providing practical methods that lead to real marketing success.

Because this day long program is a hands-on working session, dress for comfort, be prepared to work and expect to walk away with 'nuts-and-bolts' specifics that you can immediately put to use in your firm. Continuing Education credits are a bonus.

**Saturday 8:30 a.m.-5:45 p.m. MOTT**

# MSA CONVENTION/DETROIT REGISTRATION FORM

## October 16-19, 1985

**REGISTRATION FEE** — Members of the following organizations are included in the membership category:  
AIA, MSA, ASID, IBD, PSMA, ASLA, MSPE, CEC, CSI, MSRLS, MSPO, AGC, SMPS

FEES	MEMBER	NON-MEMBER	TOTAL
AIA MEMBERS, REGISTERED DESIGN PROFESSIONALS AND NON-REGISTERED PROFESSIONALS .....	\$70.00	\$90.00	\$ _____

**Michigan Society of Architects (313) 965-4100**

ternationally prominent consultant on historic restoration, will be on hand to discuss the building fabric inspection process, typical masonry restoration specifications and mortar analysis.

Chambers has served on a number of restoration projects in Michigan including the Livingston County Court House, the old Statler Hotel, the Traverse City Opera House and Court House to name a few.

Grunwell-Cashero will discuss the recent restoration of the Firestone House at Greenfield Village and the Most Holy Trinity Church in Detroit. Elwin Pell, P.E., demonstrates how to design fire ratings and building code compliance into a building.

The registration fee is \$25. Call the institute for more information.

## HEAD AT LIT

The following architects will make presentations in the Lawrence Institute of Technology School of Architecture's ArchILECTURE series. All presentations are held in LIT's architecture auditorium, located in Southfield, at 7:30 p.m. They are open to the public at no charge.

### October 10, 1985

James Polshek, New York architect, designer of Stroh's

planned River Place Project in Detroit.

### October 31, 1985

Raoul Proche and Manfred Hofrichter, architects from Vienna, Austria, designers of the University of Economics in Vienna.

### November 7, 1985

Diane Legg-Lohan, Chicago architect, the first woman partner of Skidmore, Owings, and Merrill, designer of Chicago's new McCormick Place, an addition to the existing waterfront exhibit hall complex.

### December 5, 1985

Thomas Beeby, Chicago architect, recently named dean of architecture at Yale University.

### January 9, 1986

Michael Hough, architect from Newington, Connecticut, will present "Why architects get no respect." An expert on architectural management, Hough will discuss how architects must adapt to a changing market.

For further information call Gary Kecskes at 356-0200 ext. 2800.

## FIRM NEWS

HOYEM-BASSO ASSOCIATES announced the promotion of Michael Barath, AIA, CSI to the position of Associate in the Department of Architecture and the promotion of David DiCiuccio, PE, to the position of Associate in the Department of Mechanical Engineering. Barath comes from LIT and DiCiuccio is from U of M Dearborn.

\*\*\*

BLOUNT ENGINEERS, INC. has recently named three new staff members. Paul Sui, PE, has been named vice president, structural engineering for the firm. He has civil engineering degrees from China and Michigan. Donald Vroom, AIA, has been named as director of architecture. He received his degree from U of M. The

third new staffer is Stephen Sobkowski, a veteran with more than 18 years of experience.

\*\*\*

Despite weather that only a duck could love, 255 golfers and guests had a grand time at the 45th annual employee golf outing of ALBERT KAHN ASSOCIATES, INC. All attendees received a solar calculator engraved with AKA's logo to commemorate their 90th anniversary year.

KENNETH NEUMANN/ROBERT GREAGER ASSOCIATES announce the appointment of a new associate. He is Patrick Macoska, AIA.

\*\*\*

LUCKENBACH/ZIEGLEMANN & PARTNERS, INC. have a new name to better express their ownership and a new address. They are now located at 115 West Brown Street, Birmingham, MI, phone 313-644-0600.

## GRAPEVINE

AIA joined a professional coalition to challenge President Reagan's tax proposals. Existing cash method vs. proposed accrual method is the main issue . . . NANCY BAERWALDT, Michigan Insurance Commissioner, has resigned . . . The Health Facilities Conference has had a number of successes but this is the first wedding (that we know of) to come out of it. On August 24th in Atlanta, GA, former Detroit Chapter member LOIS GRANT, AIA, and former Huron Valley member KEITH WEILAND, AIA, were wed. Their daughters

were witnesses. Lois is working in an architectural office and Keith is with the Metro Rapid Transit Authority in Atlanta. Their new address is: 39 Arpege Way, Crosscreek Condos, Atlanta, GA 30327 . . . Eighteen members of the FLINT CHAPTER and their spouses met in BOB GAZALL'S Office and drank a gallon of wine and two cases of beer. Incidentally, they also addressed 1,450 postcards announcing the Flint Convention set for October 16-18, 1985. Thank you Dennis & Pat Haugen, Gene & Jean Terrill, Gary & Nancy Harburn, Jeff Bennett, Pete Danner, Bob & John Gazall, George Annick, Phil Lewis, Dale Suomela, Dick Canfield, Rob West, Bill Barillas, Jim Tomblinson and Rae Dumke . . . JIM KINVILLE former Detroit Chapter President who moved to Thousand Oaks, CA is now principal architect and director of the Ventura County office of Barasch Architects & Associates . . . What would we do without RAY WILLIAMS? Thanks to him we can avoid computer blindness. He spent a 95 degree Saturday at the Beaubien House installing new lights . . . JAMES KOSTRAVA is the new vice president for marketing at the Construction Association of Michigan . . . October 31st is the deadline for Architectural registration fees for the State Board of Registration.
