CURRENT GOVERNMENT AFFAIRS

Legislative Affairs Task Force
SCHOOL CONSTRUCTION CODE
BILL VETOED! The AELC
(Architects/Engineers Joint
Legislative Committee) met on
September 9th at the offices of our
lobbyists, Dennis Cawthorne and
Jim Cavanagh, to review legislative
issues. We were informed that
HB4143 dealing with the school
construction code had passed both
the House and the Senate and was
on the Governor's desk for
signature.

According to Cawthorne and
Cavanagh, the school board
attorneys did not want the 1937
language adjusted to meet 1993
current practices. Dan Redstone,
AIA, a member of the AELC
Committee, had submitted revised
wording earlier in the summer that
was not acceptable to the
submitter of the Bill. Dan Ryan of
Plunkett & Cooney, Kevin Gleeson
of Sullivan Ward Bone Tyler Fiott &
Asher, PC, and Tom Porterfield of
V.O. Schinnerer were contacted to
help us veto the Bill at the last
minute. Gleeson researched this
issue and submitted a summary for
us to use in the newsletter. Ryan
submitted his findings directly to
the Governor, which are too
lengthy to be reproduced here.

We were fortunate to have the Bill
vetoed! A summary of Gleeson's

article is below. A copy of the
informative, detailed report from
Ryan may be obtained by
contacting AIA Michigan.

THE SPECTER OF LIABILITY (THE NEW SCHOOL CONSTRUCTION BILL) By Kevin Gleeson

*For the better part of a decade,
many design professionals, and
fortunately the plaintiff's practice
of the American Bar Association,
were unaware of the presence of a
statute which required architects
and engineers involved with the
design or construction of a school
building to remain responsible for
not only code compliance, but to
assure the owner would receive a
building which was built in a
"workmanlike manner" and
guaranteed to "resist fire." Through
the efforts of many
individuals within the design
professional community and their
legislative counsel, this offending
verbiage was deleted. However,
we are now faced with a new
school construction Bill, which as
been placed on the Governor's
desk for signature into law. The
revised proposed statute contains
similar language to that which has
been deleted from the previous
body of law (MCLA 338.852) but
goes on to further define the
obligations of the architect or
engineer in connection with the
work.*

In its present form, the statute

appears as follows:

*"The plans and specifications for a
school building or remodeling
project with construction costs that
exceed \$15,000 shall be prepared
and the construction supervised by
a State licensed architect or
professional engineer employed by,
or under contract with, the school
board.*

*The architect or professional
engineer...who prepares the plans
and specifications or who
supervises the construction of any
school building shall be responsible
for determining the building is
resistant to fire and constructed in
a workmanlike manner according to
the plans and specifications."*

*The statute, in its present proposed
form, poses a significant threat to
those design professionals who
enter into contracts with school
officials. Additionally, the ill
advised and apparently uninformed
decision on the part of the
government to reinstitute this
obligation will have a direct impact
on the number and quality of
design professionals willing to enter
into agreements with school
districts and will certainly have an
impact upon their cost of doing
business. Obviously, any prudent
architect or engineer is not going to
enter into a contract with their
exposure now exponentially
increased without seeking
additional compensation to cover
the costs of this particular risk.*

This would include the added costs of premiums for insurance coverage normally not carried by design professionals, but which will be required if the architect or engineer wishes to avoid personal risk.

Since the architect or engineer "shall be responsible for determining the building is resistant to fire and constructed in a workmanlike manner," the design professional is all but compelled to provide "supervision" on the project, since they are held to the same standard for the completed product whether present on site or simply involved with the preparation of contract documents. Although the words "guarantee and warranty" do not appear within the test of this proposed law, it certainly smacks of that level of assurance. This flies in the face of well-reasoned and ancient law within the borders of the State of Michigan which has always looked upon the architect's and engineer's design effort as being without guarantees or warranties, unless otherwise stated expressly in the contract.

In "supervising" or overseeing construction activity to determine whether it is built "in a workmanlike manner," the architect and engineer are required to provide extraordinary services, which most design firms are not qualified to achieve, or simply to not possess the manpower.

In terms of insurance coverage, the obligatory language of this statute requiring extraordinary services during not only the design, but the construction phase, imposes upon the design professional services which are not covered under the normal professional liability policy. If the design professional is to be responsible for construction, then the completed operations, other forms of the general liability and products liability coverages all may

be required to bridge the void in coverage.

This article is not intended as an exhaustive study critiquing all of the problems which might arise if this law is enacted, but certainly a red flag must be raised at this critical moment. There are a number of individuals both in the design community and legal practice attempting to head off the Bill before it is signed into law. It is strongly recommended that all engineers and architects contact their Representatives and suggest the proposed Bill be modified to delete the proposed language.

In conclusion, the proposed legislation amending the State Construction Code to include school construction and to increase the Michigan Dept. of Labor's involvement would significantly increase the cost of construction for Michigan's school districts.

Communications Task Force --
"ARCHITECTURAL UPDATE!" If you haven't heard that title yet, you will soon. **AIA Michigan's first video** may not be up for an Oscar next year, but we had the next best thing...and Academy Award winning production company to produce it for us! The thirteen-minute video was part of the Communications Task Force's plan approved by the Government Affairs Committee. The plan is designed to develop public support for using licensed architects, thereby bringing this vital issue to the attention of the legislature, state government, and the public.

Produced jointly by AIA Michigan and the Michigan Architectural Foundation, the video seeks to inform the public of the vital role architects perform in shaping our structural world and environment. The central message and position is that *the use of an architect protects the health, safety and*

welfare of the public in today's built environment.

AIA members from across the state are featured in the video. Steve Vogel, AIA, President of AIA Michigan, and Bob Beckley, AIA, Dean at The University of Michigan School of Architecture and Urban Planning, discuss the educational requirements for a licensed architect. Award-winning columnist and Honorary AIA Michigan Member John Gallagher, from the Detroit Free Press, offers his views on the state of the built environment in Michigan. Many other issues are explored, including a client's perspective of working with a licensed architect.

The spotlight is on *your* work. Dramatic visual images of projects, ranging from private residences to major universities to municipal facilities from Detroit to Marquette, are featured. Most firms who had been published in PLACE Magazine were invited to submit still photography for possible inclusion in the video.

The video was jointly funded by the the Government Affairs Assessment monies and the Michigan Architectural Foundation for public awareness. Each AIA Michigan Chapter has received a complimentary video to promote local public awareness compliments of the MAF.

"Architectural Update" was previewed at the Annual AIA Mid-Summer Conference on Mackinac Island in August. Recipients of copies of the video include Joe Young, Jr., Chairman, State Affairs Committee, and select legislators working to further our Government Affairs program. Rep. Young's committee is currently sponsoring legislation on our behalf for licensing and enforcement. Distribution of "Architectural Update" also includes AIA

components, such as ours in Detroit, across the country, and the Government Affairs staff at AIA headquarters in Washington, DC.

The Government Affairs Committee is currently working on ways to further distribute this video. We need to acquaint, inform and educate the public, media and governmental bodies in Michigan in order to develop support for hiring licensed architects. *You can help!* Consider showing the video at your next community or organization meeting. We have copies available for you to borrow, or you may purchase one through AIA Michigan headquarters. Call Karen at 313/965-4100. The cost is only \$9.95 plus handling and shipping, for a total of \$15.00. Please make your checks payable to AIA Michigan.

We urge you to join us now! Help us promote a better understanding of these significant issues which are so crucial to *your* profession.

LATE BREAKING NEWS!

Professional Licensing Task Force -- House Bills 4787 and 4788 (dealing with licensing and enforcement) were voted out of the House State Affairs Committee on September 29th! This means that they now move on to go before the full House of Representatives. This will most likely take place in mid-October. At that point, the Minuteman Program once again moves into high gear, and we'll need your help. If when we contact you by mail, fax or phone, please phone or fax one of the legislators IMMEDIATELY urging their "yes" vote. We'll keep you posted.

CONTINUING EDUCATION

Mike Marshburn, AIA, Chairperson of the Continuing Education Committee, reports that the AIA Michigan membership returned 260

continuing education surveys to the AIA. A total of 1,600 were distributed to AIA Michigan members, so that's about a 16% return rate. We appreciate those that took the time to complete the surveys and express their feelings as well. Some interesting facts were revealed...you averaged 64 hours of continuing education...attendance was highest at seminars and classes...private study was next, followed by programs sponsored by your Chapter. In reviewing the surveys, the committee felt that members underestimated the amount of time spent on continuing education--you're actually doing more than you think you are! Mike is sending a copy of the survey summary to AIA headquarters in Washington, DC to let them know just what types of programs you are interested in.

IDEAS IN ARCHITECTURE IV

By David Lee Bareman, AIA

The pristine environment of Torch Lake was again the setting for this year's design retreat. This beautiful combination of wind, lake, sky and forest provided the backdrop for stimulating presentations and dialogue focusing on the process of DESIGN.

Participants from around the state arrived on Friday night and gathered at 9 p.m. to greet old friends and receive the customary informal conference welcome. During the day on Saturday, 15 projects were presented and discussed among groups of approximately 10 persons. Projects ranged across the spectrum of type, size and budget, with each bringing a uniquely different set of problems to be solved by the architect/practitioner. These fireside chats offered the opportunity for an exchange of ideas and professional hob-knobbing to some 60 participants.

By late Saturday afternoon, 3 projects were selected by the participants for further discussion. On the deck of the old dining hall overlooking Torch Lake, opinions were cultivated during supper. The Saturday evening "wrap-up" included an exciting interchange on some insightful and controversial issues.

A yearly retreat focusing on the process of design, Camp Hayo-Went-Ha has been the setting for four consecutive years now. We invite you to join with fellow professionals in a non-competitive environment to share your approach to design and learn more about theirs. Develop a comradery with architects state-wide, and at the same time get to know other designers from your own Chapter and office in a non-work environment. Hope to see you next year!

ARE YOUR DUES OVERDUE? OR DUE?

Just a reminder... for those of you who have yet to pay your \$100 assessment, due on June 30th. *Now, more than ever, we need your support* so that we may continue in our Government Affairs efforts. Please call the Beaubien House to make arrangements for payment. To those of you who have paid, we sincerely appreciate your financial contribution. And a special thanks to all of you who were not obligated but volunteered to support the cause. Also, now's the time to budget for your 1994 annual dues. Invoices should be mailed out late October, with payment due by January 15, 1994. At the Mid-Summer Conference, the AIA Michigan Board of Directors approved an increase in State dues by (current CPI). At the Chapter level, AIA Detroit members will see an increase of 5% which was approved at the Board of Directors meeting last month.

GRAPEVINE

Congratulations — to the **SVM Group**, combining the talents of **Schervish Vogel Merz** and **SVM Development Corporation**, on the recent grand opening of Harmonie Centre, circa 1906, the grand entryway to the redevelopment of Harmonie Park in downtown Detroit. Designed to provide a collaborative environment for architectural, engineering and construction firms, the Beaux-Arts style, eight-story building has undergone a complete historical restoration. This latest addition to the renaissance of downtown is home to **Turner Construction Company**, **NTH Consultants, Ltd.**, and **Schervish Vogel Merz, PC**. Representing both the dreams and challenges in the revitalization of an older industrial city, the pictorial gallery in the main lobby highlights exhibits of important Detroit projects in which the tenants have played major roles...Congrats to the softball team at **Giffels Associates, Inc.** for winning the **Building Arts Softball League (BASL)** championship. Contenders in the final series included **BEI**, **Jon Greenberg Associates, Inc.**, and **Smith + Schurman Associates, Inc.** The league was comprised of 13 teams from 16 firms in the Detroit area. BASL commissioners are planning the '94 season now. Contact Daryl Thomson at Smith + Schurman @ 313/332-3140 ASAP...More congratulations and wishes for good luck go out to **Harold Varner, FAIA**, who ran for the City Charter Commission in Detroit's primary election. Candidates numbered 57 in a list that was reduced to 18 for the November 2nd ballot. Varner placed 12th. Only 9 candidates will win seats for the 3-year term. All City of Detroit residents are encouraged to get out and vote!

Awards and Honors — **Greiner Engineering, Inc.** has received

worldwide attention for their 1992 annual report. Seven national and international honors included Gold and Grand Awards from the ARC (the "academy awards" of annual report shows) and Second Place from the Society for Marketing Professional Services (SMPS)...**William Kessler and Associates** received commendation from the City of Owosso for their efforts in the production of a master plan for restoring Owosso's historic Lebowsky Center. The Michigan Qualifications-Based Selection Coalition presented the award to the City of Owosso, praising them for using the QBS selection process to choose Kessler for their project. The city gained swift approval of Federal compliance audits from the master plan's block grant funding source for the Lebowsky Center, the centerpiece for downtown redevelopment...**Gunnar Birkerts, FAIA**, was honored on October 4th as the Michigan Artist of the Year by the Board of Directors of Michigan Artrain. The Michigan Artrain, in its 23rd year, presents touring exhibitions and arts educational programming to audiences not usually reached by traditional museums. This special event honoring Birkerts, "An Evening on the Orient Express," will be held at The Whitney...**Louis D. Redstone, FAIA**, will be honored with the Civic Leader Award at the 9th Annual Governors' Arts Awards reception and ceremony to be held at the DIA on October 28th. Artists Marshall Fredericks and Naomi Long Madgett will also be honored at the black tie reception sponsored by Concerned Citizens for the Arts in Michigan. Those interested in attending should phone 313/961-1776...**David W. Osler Associates, Inc.** was recognized by the AIA/American Library Association with an award in recognition of distinguished accomplishment in library architecture for the Howell Carnegie District Library...**Dick Fry**,

AIA, Bill Kessler, FAIA, Don Koster, AIA, and Jim Luckey, AIA, served as jurors for the Pennsylvania Society of Architects 1993 Design Awards Program. Chairperson Fry and his team reviewed 90 submittals at the Beaubien House in August...Professional Affiliate member **Jim Peterson**, President of Cii Food Service Design in Lapeer, has been named this year's "Young Lion" by the national trade publication "Foodservice Equipment and Supplies Specialist." Peterson was honored at the National Restaurant Association show in Chicago as "the finest in management talent the industry's younger generation has to offer." Cii provides kitchen design consulting services locally, nationally and internationally.

Bits 'n Pieces — Architectural photographer **Balthazar Korab** has been busy working on an assignment for McGraw-Hill most of this year. As Photo Editor for the Encyclopedia of American Architecture, he has been collecting material to update the 15-year old edition with full color photography. The book should be available in 1994 for worldwide distribution...**Arnie Mikon, AIA**, is Chairman of the 1993 United Way Pacesetter Campaign. Pacesetter companies help out the Torch Drive by running early fundraising campaigns, and Arnie announced that there are 56 firms striving for the \$2.7 million goal this year...**Gino Rossetti, FAIA**, served on the International Association for Sports and Leisure Facilities (IAKS) design awards competition in Cologne, Germany this summer. In 1991, Rossetti Associates received an IAKS award for their design of The Palace of Auburn Hills. Gino has since spoken at a 1992 IAKS conference in Monte Carlo and will speak at this year's convention in Cologne in October...The late **William J. Scott, Jr.**, Professor of Architecture at U of M, was the

inspiration for a Summer Internship Program initiated by the Corporate Design Group. The firm is pleased to announce the recipient of this memorial for 1993--**Margarita Perez**, a U of M fourth year architectural student from Grayling. Perez spent the summer at Corporate Design Group, along with **Tamara Shroll**, another U of M student from Grand Rapids...**Frank Zychowski**, AIA, and **Kevin Akey** of AZD Associates in Birmingham were spotlighted in a recent "Movers & Shakers" feature of "Corporate Detroit." Both LTU grads, Zychowski and Akey list Isiah & Lynn Thomas and Fred & Kathy Yaffe among the satisfied clients of their high-end residential practice.

OPPORTUNITIES

Competitions -- The Qualifications-Based Selection Coalition announces the 1994 QBS Awards Program. Acknowledging projects completed using the QBS procedure, the program is well underway to establishing a legacy of successful projects. Award recipients like the cities of Adrian and Owosso, Delta and Emmett Townships, and Oakland County, are powerful examples where public officials used QBS. Beginning with the 1994 awards, public agencies and consultants who use the QBS process to choose their subconsultants for projects will be acknowledged. There is no entry fee. Deadline is October 29, 1993. Contact the QBS office at 517/332-2066, or fax a message for the "QBS Award nomination form" to: 517/332-4333...**Photovoltaics in the Built Environment--Architectural Ideas Competition** is an international design competition focusing on the production of electricity from sunlight using solar cells, integrated into building surfaces. The initiative for this ideas competition lies with the EA Solar Heating and

Cooling Research Programme. In the USA, contact: Mr. Deane Evans, AIA, I Director, AIA/ACSA Research Council, 1735 New York Avenue, Washington, DC; phone 202/785-5912; fax 202/625-7421...The **National Institute for Architectural Education** in New York announces several competitions and awards programs. They include: 81st Paris Prize Architectural Design Competition; topic: American Center for Architecture in Paris...1993 Design America Accessible Student Design Competition; topic: Hawking Hall...1994 William Van Alen Architect Memorial Fellowship and 23rd Annual International Student Design Competition; topic: A Companion to the Chrysler Building...John Dinkeloo Bequests/American Academy in Rome--1994 Traveling Fellowship in Architectural Design and Technology. Eligibility, schedules, entry requirements, submission procedures and prizes vary greatly. For detailed information on any or all of these prestigious programs, contact: National Institute for Architectural Education, 30 West 22 Street, New York, NY 10010; phone 212/924-7000; fax 212/366-5836.

Conferences/Seminars/Workshops - The **Michigan Masonry Association (MMA)** announces its formation as a non-profit professional entity dedicated to the advancement of masonry and masonry building materials. One of their primary objectives is to assist Michigan architects in properly and creatively using the materials its members produce. **David S. McGrath, AIA**, MMA Consulting Architect, is pleased to announce the first in a series of three educational programs geared to the design professional. "Designing Masonry Wall Systems" focuses upon basic issues and code requirements. This program is free of charge to Michigan firms, and the MMA is

currently accepting requests for presentation of the program. The program is 50-60 minutes in length, ideal for in-house presentations. For mid-day programs, MMA will provide lunch. Contact McGrath at 1/800/242-8988 to make your reservation...**Lawrence Technological University** announces its 20th anniversary of the **ArchiLECTURE** program. Presented as a cultural endeavor of LTU's Div. of Continuing Education and Professional Development, the **ArchiLECTURE** series is produced in association with the College of Architecture and Design. The autumn presentations, scheduled from October through December, are partially underwritten by and produced in association with AIA Detroit. The programs are open to the public without cost and meet on the LTU campus in the College of Architecture and Design Auditorium at 7:30 p.m. See the Calendar section of this Bulletin for a '93-94 season preview...A continuing education course for Designers and Architects will be presented by the **Michigan Chapter of the Institute of Business Designers**. "The Pursuit of Excellence: How to Grow and Sustain Your Design Practice Through Total Quality Management" will be held at Steelcase Corporate Headquarters in Grand Rapids on December 9th from 9:30 a.m. to 4:30 p.m. Speaker Dean Thompson, Architect and Design Market Manager for Milliken & Company, has played a leading role in the development and execution of TQM programs for leading architectural firms, including Gensler & Associates/Architects and Perkins & Will. Contact Heidi Compher, IBD at Kingscott Associates @ 616/381-4880...The national **Women in Architecture Committee**, the **Minority Resources Committee** and the **Expert Panel on Diversity** are organizing a major national conference called "Breaking the

ICE: Building New Leadership." The ICE theme centers around *Inviting Diverse Talents into Design, Cultivating Diverse Leadership, and Empowering the Diversity Agenda*. The conference will be held in Washington, DC from August 26-28, 1994. The committees are issuing a Call for Presentations. Do you have a seminar, workshop or exhibit to share? They need to hear from you by October 15, 1993. For more information, contact: Jean Barber, WIA/MRC/Diversity/The American Institute of Architects, 1735 New York avenue, NW, Washington, DC 20036; phone 202/626-7453; fax 202/626-7518...**Pratt Institute** in Brooklyn, New York has launched its new Design Firm Management program. The long term success of a design firm depends in large part on the management skills of its principals, administrators and professional staff. To address the industry-wide need for these skills and the shortage of effective training sources, Pratt and the **Society of Architectural Administrators** have established this program. For more information, call D. Higgins, Dean, School of Professional Studies, at 718/636-3453.

Other Opportunities -- Design Professional Insurance Company (DPIC) has made available *The Contract Guide*, their risk management handbook for architects and engineers. The 380-page manual is designed to help you negotiate tough clauses in client agreements and minimize liabilities in the event of a dispute. User friendly, the guide will enable you to sit down with clients or legal counsel and converse intelligently about how to minimize risks and prevent losses associated with a project. DPIC has made the guide available for sale to the public for \$49.95. Contact Peter B. Hawes DPIC Companies, Inc., 2959 Monterey-Salinas Hwy.,

Monterey, CA 93940; phone 408/649-5522; fax 408/649-5129...**Western Wood Products Association** has published its 1993-94 *Western Lumber Buyer's Manual*. The manual provides buyers of lumber products a complete guide to the products and services of member mills. The manual is free to anyone who writes the Western Wood Products Association, Dept. A-26, Yeon Building, 522 SW Fifth Avenue, Portland, OR 97204-2122.

CLASSIFIED

Architect -- Michigan registration required. Project management and historic preservation experience. Submit resumes to: U.P. Engineers & Architects, Inc., 100 Portage Street, Houghton, MI 49931.

Designer -- Retail store design/conceptual design position available with national retail chain in Midwest. Requires degree in architecture (registration not required) and CAD experience. Contact: Marilyn Jacob @ 913/451-0464 or fax 913/451-0569.

Projects Coordinator -- Experienced architect, engineer or professional to mediate between needs of all projects in office and resources of firm personnel, manage work schedule. **Project Manager** -- Experience in document production, practical understanding of construction, good people skills, project management experience critical. Documents prepared using AutoCAD. Contact: Michael A. Alost at Slack Alost Miremont and Associates, 308 Market Street, Suite 100, P.O. Box 1450, Shreveport, LA 71164-1450; phone 318/425-3030.

Entry Level Position -- New Jersey Institute of Technology architecture graduate seeks employment opportunities in Michigan. Resume

on file at AIA Michigan offices, or contact Joseph Marchese @ 201/383-9264.

Get a Second Opinion! -- Pre-bid check of contract documents. Call or write: Gene DiLaura, FAIA, 27921 Ruehle Ave., St. Clair Shores, MI 48081-3530; phone: 313/771-9445.

FOR SALE - KROY 61 Lettering System -- Includes 11 typediscs. Phone: 313/425-0436.

OBITUARIES

Thomas H. Klausmeyer, AIA, 71, a member of AIA Detroit, passed away on May 18, 1993. Mr. Klausmeyer joined Smith, Hinchman & Grylls Associates in 1969. He held degrees in Architecture and Architectural Engineering from the University of Illinois and in Mechanical Engineering from Purdue University. Most recently Mr. Klausmeyer was instructing at Lawrence Technological University.

George D. Lytle, 79, a past member of AIA Detroit, died on June 17, 1993 in his Royal Oak home. He had a private practice in architecture for 33 years before retiring in 1988. Memorial tributes may be sent to the American Lung Association, 18860 W. Ten Mile Road, Southfield, MI 48075.

Robert A. Paulsen, 54, died on August 15, 1993 at his home in West Bloomfield. Mr. Paulsen was Manager of Marketing for Albert Kahn Associates, Inc. He earned a Bachelor's Degree in Architecture from The University of Michigan, and for several of the earlier years in his career was an instructor at the University. Mr. Paulsen was a member of the Society for Marketing Professional Services (SMPS). Donations can be made to the SMPS Foundation, 801 N. Fairfax Street, Alexandria, Virginia.

Stuart D. Rodgers, 74, a past member of AIA Detroit, passed away at his residence in Franklin, Michigan on May 14, 1993. Mr. Rodgers was employed by Minoru Yamasaki Associates, Inc. during the 1960s and 1970s where he worked on many prestigious projects. He retired from the General Services Administration in April as federal architect for the State of Michigan.

AIAOnline AT AIA MICHIGAN

AIA Michigan recently hooked up with *AIAOnline*, the information and communications network for the building industry. We received a grant to accommodate the new electronic service. *AIAOnline* provides a user-friendly computer network to architects and other professionals in the building industry. It provides quick access to upcoming architectural projects through resources such as Commerce Business Daily, Comtex Business News, and World News. It provides access to the AIA Library and Archives catalogue, covering 30,000 books, 450 periodicals and 100,000 images. A host of information that can help in day-to-day practice includes the AIA Code of Ethics, antitrust information, insurance services, etc. The technology also allows architects to receive product specification information directly from the manufacturer and place it into project bid manuals. In addition, the network can transfer files from one CAD system to another.

Call Cathy Mosley at AIA Michigan to set up an appointment for a demo at the Beaubien House. She'll be happy to help you.

OCTOBER

- 13 BOCA Earthquake Design Requirements Seminar - LTU (phone 313/356-0200 Ext. 4020)
- 14 ArchiLECTURE--Mark Mack, Architect, 7:30 pm - LTU
- 14 "M-Day 1993," Masonry Institute of Michigan, 7:30 am to 4:15 pm - Sheraton Oaks, Novi (phone 458-8544)
- 14-15 Michigan Public Service Commission Workshop, "Funding Available for Schools & Hospitals for Energy Efficiency Programs," free of charge - Grand Valley State Univ., 8:30 am to noon on the 14th, Gaylord 1:00 pm to 4:30 pm on the 15th (contact Maureen Miller Brosnan @ 313/948-0042 for more info.)
- 16 Architectural Records: Identification, Preservation and Access; one-day workshop sponsored by The Saarinen (Michigan) Chapter of the Society of Architectural Historians; Tawny Ryan Nelb, former head of Yale Univ. Architectural Archives Project - Freer House/Wayne State University (phone 313/331-4930)
- 18-19 AIA Educational Facilities Conference - Shanty Creek (phone AIA Michigan)
- 19 AIA Grand Valley, Legislative Meeting, Dennis Cawthorne, AIA Michigan lobbyist
- 20 Intermediate AutoCAD, Hands-On Workshop, Wednesday mornings 10/20, 10/27, 11/3 & 11/10 - LTU (phone 313/356-0200 Ext. 4020)
- 21 AIA Detroit "Oktoberfest," 5:00 pm - SH&G offices
- 21-24 AIA Corporate Architects

and AIA Indiana, "Building Better Building Industry: Evaluating and Implementing Total Quality Management," tours of new Eiteljorg Museum and Columbus, Indiana - Indianapolis (contact Marc Gravalles @ 202/626-7539)

- 22 CAUP Lecture Series, Jack Diamond, A.J. Diamond, Donald Schmitt and Co., Toronto, 5:30 pm - U of M Chrysler Auditorium
- 27 "Sharpen Your Contract Review Skills" - MSU Kellogg Center, 8:00 am - 12:00 noon (phone Jeane Thomson, Professional Concepts Ins. @ 313/662-4041 for details and registration info.)
- 28-29 Michigan Public Service Commission Workshop, "Funding Available for Schools & Hospitals for Energy Efficiency Programs," free of charge - Oakland University, 8:30 am to 12 noon on the 28th, U of M Medical Center, 8:30 am - noon on the 29th (contact Maureen Miller Brosnan @ 313/948-0042 for more info.)
- 28 Michigan Construction Users Council Annual Meeting, "Construction Heading Toward 2001," 8:00 am - 3:30 pm - MSU Kellogg Center (phone MCUC at 517/485-8230 for more info.)

NOVEMBER

- 1 1994 AIA Honor Awards for Urban Design (submission binders due)
- 1 1994 AIA Thomas Jefferson Awards for Public Architecture (submission binders due)
- 4 ArchiLECTURE--Deborah Sussman, Environmental

5-6 Designer, 7:30 pm - LTU
U of M Business School--
Real Estate Forum, 2-day
seminar (Al Taubman as
speaker) and tour kicks off
at Beaubien House at 8:00
am (phone Mary Ann Drew
at U of M School of
Architecture @ 313/764-
1315 for more info)

6 Interior Architecture
Delineation Workshop,
Saturdays 11/6, 13 & 20 -
LTU (phone 313/356-0200
Ext. 4020)

7 1994 AIA Thomas
Jefferson Awards for Public
Architecture (submission
binders due)

8 1994 Honorary Fellowship
(submission binders due)

9 AIA Detroit Annual
Meeting, 5:30 pm -
Fishbone's Rhythm Kitchen
Café in Greektown

13 AIA Detroit ARE Seminar -
Building Mock Exam 8:30
am to 6:30 pm - Brightmoor
Tabernacle (call 313/965-
4100 for info.)

16 AIA Grand Valley Annual
Meeting

19 1994 AIA Henry Bacon
Medal (nominations due)

19 1994 AIA Institute Honors
(nominations due)
