

Introducing: A roofing system that's new, yet proven for hundreds of years.

It's a metal roof from ECI. And it's designed to last a lifetime.

ECI's metal roofing panels are patterned after those that were created in Renaissance architecture. Panels that still protect the castles and cathedrals of Europe.

But today's version incorporates modern installation techniques that make it incredibly simple to install a metal roof in hours. There

are no through-the-roof fasteners.

The cost of a metal roof is a true value. It's the value that comes with quality and increased longevity that convinces many homebuilders to decide on a metal roof for their finer homes and remodeling projects.

For information on the variety of styles, colors and metals available, write ECI.

**Engineered
Components
Incorporated**

A subsidiary of CECO Corporation.

Please send me more information on your metal roofing system.
