

## Brick Awards • New York, Boston, Chicago, Portland

---

2012-07-09

A top BIA award went to the LEED Platinum-certified [Bud Clark Commons](#) in Portland, Oregon, designed by Portland-based [Holst Architecture](#), recently [covered](#) in ArchitectureWeek No. 555. Photo: Courtesy BIA  
Some really nice projects done with stacked pieces of baked clay can be seen in the Brick Industry Association's 2012 Brick in Architecture Awards.

Projects were awarded in one of seven categories and were selected by an awards jury for their innovative use of brick, with eight projects getting the program's highest award level, and over 50 projects getting awards in three other award tiers.
