

## Ralph Rapson - with Eero in Chantilly

---

2013-02-13

[Eero Saarinen](#) and his [Dulles Airport](#) building in Chantilly, Virginia, 1958 to 1962.

Color sketch by [Ralph Rapson](#), from *Ralph Rapson Sketches and Drawings from Around the World*, courtesy of the *Afton Press*.

*"[Eero Saarinen](#) followed in [his father's](#) tradition to become a leading architect of the modern era. Like his father; who designed the Helsinki railway station, Eero made his most memorable remarks in transportation, with the [Dulles International Airport](#) building, in Chantilly, Virginia, and the [TWA Terminal](#) at New York's Idlewild (now John F. Kennedy) Airport.*

*"The son was considerably more casual than his father, however, and while Eliel devised only a few studies for a project, Eero churned out dozens before he was satisfied with a design.*

*"Eero and I worked together on a number of projects, one being the competition for a festival theater and fine arts center for William and Mary College in 1928. Our entry received First Award!" — Ralph Rapson*
