W. JONES' TREATISE: HEATING BY HOT WATER.

Second Edition, 220 pages and 96 engravings, cloth, 2s. 6d.; per post, 2s. 10d.

OPINIONS OF THE PRESS.

The Architect.—"Is well worth the perusal of all who are interested in heating matters according to the best methods."

The Clarion.—"The work ought to be consulted by all public bodies or private individuals contemplating the adoption of artificial heating."

County Express.—"Supplies very fully and explicitly, just the information which people require."

The Engineer.—"A useful and handy book of reference."

The Hardwareman.—"We strongly advise everyone who makes any pretence to being a Hot Water Fitter to have it on his desk."

Hardware Trade Journal.—"A thoroughly practical treatise, with singular detail and exactness."

Land Agents' Record.—"A thoroughly exhaustive and emphatically practical guide. Every synoptical treatise, and the continuity of chapters a perfectly delightful series of really scientific lectures."

Plumber and Decorator.—"Written by a practical man for practical men."

Timber Trades Journal.—"A most useful book, dealing with every phase of the subject."

Moseley Journal.—"The book is replete with accurately worked out calculations, valuable information and advice, together with a profusion of illustrations."

JONES & ATTWOOD.

STOURBRIDGE.**

BOYLE'S PATENT *Latest Improved Self-acting Air Pump Ventilator.*

👉 FIFTY PER CENT. REDUCTION IN PRICE. 👈

THE MOST
POWERFUL EXHAUST^{ION}
AND
CHEAPEST
VENTILATOR
IN THE MARKET.

Impervious to wet and
down draught.

Strongly made
of the Best Steel,
Galvanized, and
Finest Work-
manship.

No. 1.
Registered Design.

No. 4.

CAUTION
TO ARCHITECTS.
Fraudulent Substitution.

Having received complaints alleging the failure in certain cases of the Air-Pump Ventilator, upon examination being made it was found in every instance that the contractor had substituted, to secure a greater profit to himself, a cheap and inferior Ventilator resembling, in outward appearance, the Air-Pump Ventilator which had been specified to be used.

It is respectfully requested that, in specifying the Ventilator, the words "BOYLE'S LATEST IMPROVED PATENT AIR PUMP VENTILATOR" be used.

No. 2

BOYLE'S *Latest Improved Air Inlet Brackets and Wall Panels,* From 10s. each.

BRACKET. No. 1A. BRACKET. No. 2A. PANEL. No. 2B.

Perfection in Improved Patented Specialities of the Building Trades.

53 Highest Awards at
Competitive Exhibitions.

Wrought Iron and other Metal Casements and Frames, "Impervious" Patent Warranted Weatherproof.

"Empress Victor"
Patent Pneumatic
Door Spring and
Check.—Strong
at the closed position,
best and most reli-
able, durable and very

neat; can be fixed on
either side of door or
on right or left hand
side; small space only
required. Various sizes
made.

Panic or Exit
Appliances for In-
stant Egress. The
"Exodus" and other
Varieties, with or
without Outside
Handle and Key.

"Impregnable" Bolts
and Fastenings (Arthur W.
Adams' Patent), with Double
or Treble Shoots, Automatic
Locking Action, combines
every essential feature re-
quisite in a perfect Fastener.
Compact Neat Case for
Fixing on Edgeways for
Narrow Stiles or Flat Ways,
or mortised in like a Sash
Lock, with or without Out-
side Handle and Key.

The "Crown" Pattern Floor Hinge for
Swing Doors. Made with the Silent Check
or without; also to suit single actions doors
closing one way. These celebrated springs
belong to the "Victor" Class patents, in
which are embodied all recent improvements
not to be found in any other kind.

Patent Ventilating Gear for Skylights, Lantern Lights, and other continuous Ranges of Sashes.—
Length no object; efficient and reliable in all cases whatever the weight. Modifications to suit all work.
ROBERT ADAMS' PATENT "UNIVERSAL" FANLIGHT OPENER, with Rod and Handle.

The "Universal" Pattern is an
extremely simple, neat, effective, and
cheap Fanlight Opener, having a Screw and
Link action, connected by a universal joint to the Vertical Rod, which
has a tube at the lower end concealing a jointed handle.

The Fanlight is operated by turning the handle (C), first slipping up the cover
tube (B). The action is communicated by the rod (A) to the nut (F), causing it to
traverse the screw (E), thereby acting on the sash by the link. The "Universal
Joint" (D) admits of the rod (A) being angled to any convenient extent for working it (see dotted lines), but
when released from the hand the tube drops over and conceals the handle, and the rod hangs vertically.

ROBERT ADAMS,

Telegrams—"Robert Adams, London."

Building Trades' Emporium,
67 Newington Causeway,
London, S.E.

No. 330.

Another favourite pattern is my Link
Motion, No. 114, with Screw at bottom of
Rod, passing through the patent enclosed
gear regulator. This regulator can also be
supplied to revolve the Rod of No. 330.

Special Casement Bolts, triple action for casements
opening in or out, guaranteed reliable and efficient, new
actions.

Write for Lists and Terms for Patent Door Springs,
Fanlight and Lantern Light and Skylight Openers,
Ventilators (Inlets and Outlets) of every descrip-

tion, Gate Hinges and Fittings, Iron
Doors, and Gates, Artistic and other
Metal Work, Patent "Impervious" Metal
Casements and Frames, &c., &c.

Hydraulic Passenger Lift—The Otis Elevator Company, Ltd., 4, Queen Victoria Street, E.C.

OTIS ELEVATOR COMPANY, LIMITED.

Late AMERICAN ELEVATOR COMPANY.

Sole Manufacturers of "Otis" Elevators (or Lifts) for Great Britain, the Continent, and the East.
HYDRAULIC, ELECTRIC, STEAM, &c.

Mansion House Buildings, 4 Queen Victoria Street, London, E.C.

TELEPHONE No. 1710.

Directors.—EDWARD WOODS, M.Inst.C.E., *Chairman*.
HENRY SHERLEY-PRICE, M.Inst.M.E.

WM. AUGUSTUS GIBSON, *Managing Director*. NORMAN SCOTT RUSSELL, M.Inst.C.E.
ROBERT H. THORPE, Assoc.M.Inst.C.E.

Secretary.—ARTHUR L. GIBSON.

Telegraphic Address—"LYNDENTREE, LONDON."

GLASGOW, LIVERPOOL, MANCHESTER, BIRMINGHAM, BERLIN, ROME, AMSTERDAM, STOCKHOLM, PARIS, BRUSSELS.

All Communications to be addressed to the Company.

THE OTIS STANDARD
HYDRAULIC ELEVATOR is
in use in the leading
Hotels and Office Buildings
of the World. List of
users will be sent on
application.

OTIS ELEVATORS are
made to work from all
sources of power.

THE OTIS ELECTRIC
ELEVATOR represents the
best and most modern
development of this
branch of Engineering.

**More than 1,500
Electric Elevators
now in use.**

It is as SAFE and SIM-
PLE as the Otis Hydraulic
Elevator, of which more
than 15,000 are in daily
use, and in every Country.

We recommend its adop-
tion whenever an electrical
current can be employed
with more advantage than
water power.

Unlike all other Elevators
this electrical engine con-
sumes power only in pro-
portion to the load lifted.

The engine is so con-
structed that it starts and
stops with the winding
machinery.

All work made on our own Premises. We invite Architects' inspection during progress. Architects' Designs carefully worked out. Estimates and Designs for all classes of work in any Metal.

THE BOSTWICK GATE AND SHUTTER CO., Limited,
BALDWIN'S GARDENS, GRAY'S INN ROAD LONDON, E.C.

ANNUAL ARCHITECTURAL REVIEW, 1894.

Sketch, PAUL PFANN, Architect, Tech. Hochschule, Munich.

By Her Majesty's

Royal Letters Patent.

ESTABLISHED 1886.

DE RIDDER'S PATENT "SMALL PIPE SAFETY."

NEATNESS.

Patronized by

HER MAJESTY'S WAR OFFICE,
THE LONDON SCHOOL BOARD
THE HANLEY SCHOOL BOARD,
THE MERSEY DOCKS & HARBOUR
BOARD,
THE LEADING LONDON AND PRO-
VINCIAL ARCHITECTS, &c.
APPROVED BY THE PRINCIPAL
INSURANCE COMPANIES.

DURABILITY.

HOT WATER HEATING APPARATUS FOR WARMING & VENTILATING

Churches, Chapels, Schools, Mansions, Residences, Conservatories, Public Buildings of all kinds; also Turkish and other Baths; Laundries, Drying Rooms, Manufactories and Buildings of every Description.

THIS APPARATUS consists of a continuous tube of only one inch and-a-quarter in diameter, a portion of which forms a Coil, and is placed in a furnace which heats the water in the Coil, causing the Circulation, **A Special Expansion Tube with self-acting Valve, &c., which does not seal or bottle up the Apparatus,** but provides amply for both the Expansion of Water and Escape of Air, without Loss of Water, a result hitherto thought impossible: thus my Apparatus cannot justly be called High Pressure or Dangerous.

CAUTION.—Attempted Infringement necessitates notifying that "The combination of an Expansion Tube with a Safety Valve" is covered by my Patent, and can only be supplied by me.

SAFETY.—It is perfectly Safe, there being neither Boilers, Steam, Metal Plates, Cisterns to boil over or cause undue strain, nor Hermetical Sealing of the Apparatus. It can also (when desired) be charged with Non-Freezing Liquid, and can be fired any weather, regardless of Frost.

NO TWO QUALITIES OF PIPING USED. ONLY COMPETENT & STEADY MEN EMPLOYED. NO PIECEWORK ALLOWED.
EVERY APPARATUS IS GRATUITOUSLY GUARANTEED.

ADVANTAGES.—NO HERMETICAL SEALING—NO CISTERN to boil over or get out of order—NO BOILER—NO STEAM—NO CAST IRON PIPES—NO BURNT AIR OR SULPHUR FUMES—"THE ONLY" SYSTEM PROVIDING FOR SILENT AND SELF-ACTING EXPANSION (without loss) OF WATER AND RELIEF OF AIR.

Plans and Estimates Furnished Free of Charge on Application.

TERRA-COTTA

IN RED, PINK AND BUFF.

WILDERNESS WORKS, WREXHAM.

THE Wilderness Terra-Cotta is an honest and beautiful material for building, in substance indestructible, with a hard surface, impervious to moisture, and unaffected by acids or atmospheric impurities. All the Wilderness Terra-Cottas are burnt their natural colours. No colouring matter is used in manufacture, nor are the goods "dipped" or "washed." The surface is that left by the tool, and the colour that made by the direct action of the fire on the oxides of iron contained in the clay. The Works are fitted up with the newest and best machinery for expeditious and large production, and are connected with the Great Western Railway Main Line.

Architects are invited to visit the Works, which are situated one mile and a half from Wrexham Station.

Samples will be sent on application.

Among other buildings now in course of erection, constructed wholly or in part of the Wilderness Terra-Cotta are the following:—

MEYER'S STONE-CEMENT

SERVES TO

Imitate and Repair Marble, Granite, Porphyry,

Sandstone, Limestone, Lithographic Stones, &c.,

Also for Mending Broken Edges of Flagstones and Steps,

Repairing the Façades of Churches, Monuments, Statues, &c.

Its principal advantages are—(1) Every kind of Stone (Marble, Granite, Freestone, Sandstone, &c.) can be repaired by it. (2) No head is required in making the mend. (3) It can be coloured in any way required, and the stone may be imitated perfectly. (4) The joins are unaffected by any kind of weather and remain permanently as hard and as durable as the rest of the stone. (5) The cost becomes trifling in comparison with advantages, when it is remembered that one must always use from two to four parts of stone-dust or hard sand to one part of the Cement. (6) The mend is hard and solid in two days, and may be worked, carved, sawn, or polished afterwards in the same way as an ordinary block of stone.

Hundreds of Testimonials from all Parts of the World.

E. FRED. MEYER, STONE MERCHANT, FREIBURG (BADEN).

WILSON'S

DIOPTRIC LENSES.
