REVIEW OF ARCHITECTURE

"Americans, in hundreds of communities throughout the land, are becoming aware that they are living amid unsavory, unpleasant, and largely unnecessary ugliness. They are beginning to see again. In some places, they are beginning to act. It is not a question of decision as to whether or not we will continue to build. We are building a whole new America, because we will have to duplicate every single structure in the nation by the end of this century in order to house our expanding population and replace outworn buildings and neighborhoods.

The question, then, is not whether we will build, but how well. The answer to the question has to come, for the first time in man's history, from the ordinary citizen of the community. There are no kings, pharaohs, high priests, nobles, and very few wealthy tycoons to decree what shall be built and how. This was the practice in past eras. As of now, the common man is on his own.

"No Time for Ugliness"

Right on schedule! He planned with flexicore.[®]

Flexicore saves time! This modern precast concrete floor and roof system speeds erection of building and eliminates need for plaster. Dry, fast construction saves on forming, shoring, stripping and cleaning. Flexicore is ready to paint as soon as it's installed. Cuts building height per story, resulting in savings in material, labor and time. Flexicore has utility ducts and is adaptable to Radiant Heating. Flexicore is durable — termite proof and firesafe. For additional information on Flexicore, send for our catalog. Free Estimates. We Deliver/Erect.
