

You can build anything with Richtex Brick.

A house. A wall. The Statue of Liberty. And she'd be just as strong, better-insulated, easier to maintain, and maybe even better-looking than the real thing. Consider that the next time you're ready to build anything from a mansion to a mailbox. And remember that Richtex Brick offers dependable service to customers of all sizes. We'll begin by sending you our Exterior Decorator's Guide, free of charge. And when you're ready for the 8 zillion bricks you'll need for the lady in the picture—or anything else—we can handle that, too.

Please send me a free copy of the Richtex Exterior Decorator's Guide.
