Kodak Quality.

Some watches sell for \$2.50. But the purchaser of a \$50.00 time-piece gets more for his money than the man with the cheap watch. It's the same with cameras.

The Kodak lenses are alone worth more than some cameras which the manufacturers claim to be "as good as a Kodak." Kodaks are standard in hand camera values—because they make good pictures—because they are durable, reliable.

We make cheaper cameras too. Simpler in construction than the Kodaks but splendidly made, and fitted with high grade lenses. A 100 page, handsomely illustrated Kodak-alogue fully describes our

33 styles and sizes of hand cameras. Postal gets it.
