HORIZON places great emphasis on fine pictorial reproduction. As André Malraux has so aptly put it, thanks to photography and modern reproduction techniques any man can—for the first time in history—bring all the world's art before his eyes in a "museum without walls." Part of HORIZON's purpose is to serve this function, to provide an imaginary museum of art and artifacts, both old and new. To that end, the guide below lists both artist and title of the many works of art which have appeared in the September 1960 through July 1961 issues.
